LOT, ADDRESS, SUBURB**

I am writing to inform you that following on from the community survey conducted in November 2022 Council have authorised the CEO to enter into a Memorandum of Understanding with Western Power.

The Project is about to move into the detailed design phase which will be concluded by the end of 2023. You may see project personnel throughout the project area carrying out duties associated with the design phase.

The final cost to ratepayers is still to be determined and the Town is aiming to update ratepayers shortly.

Construction is still currently due to commence in May 2024 and will take approximately 12 months.

The Town will continue to update the community via the Town's website [Bassendean Underground Power Project » Town of Bassendean](#)
