Bayswater Bassendean Early Years Group

**Directory of Services
for Children and Parents
in the Bayswater and Bassendean
Local Area**

Foreword

In 2007 the Bayswater Bassendean Early Years group collected information for a community assets audit of all services and programs for children 0-8 years, their families and caregivers.

Data collected has helped identify community strengths and gaps in services and supports for young children and their families living in the Bayswater/Bassendean area. The information has also been collated into a directory of services, which we would like to share with the community.

Please be aware that the information was current as of 2008. Our group will endeavour to update this information on an annual basis.

Thank you.
