## **JOHNSTON, Mark**

Being the third generation to have lived in Bassendean I am passionate about preserving and protecting, NOT selling off, the areas unique indigenous and colonial histories, these are the foundations that have made Bassendean the caring and sharing community we have today

As your representative on Council I will,

Advocate for more financial responsibility enabling Council to restore and consolidate the finances and bring back into the Town many of the significant cultural, social, historical and heritage events that have disappeared from our community landscape

Support more sustainable development while still preserving and maintaining our public open spaces for everyone to access and enjoy

Give you a voice in Council

To do this, I need your help and together we can bring Bassendean back
