Greetings Bassendean!

A computer science & engineering graduate, I came to Australia in 2011. 3 years now in Basso, with my family; we've loved every moment here.

Having 18 years' experience across industries (private and public sector), here and abroad, I bring new energy and ideas, a novel perspective and a fresh pair of eyes to the table.

I will be accountable for my actions and decisions, which I promise, will be in good faith. I will help ensure wider sections are well heard and will focus on maximizing social return on investments made by the Town.

I support sustainable development, building safer communities, enhancing the general perception of our lovely suburb and active community participation in crafting our future.

It would be an honour to represent you and I ask for your vote.
