

Candidate Details

District	Town of Bassendean
Candidate Name	Craig LUCANUS
Ballot Paper Name	LUCANUS, Craig
Nominating for	Councillor
Election Type	Ordinary

LUCANUS, Craig

Since previously standing, unsuccessfully, for low cost, low intrusion local government (LG), I note community groundswell against relentless rate rises supporting LG growth and participation in our lives.

I do not subscribe to LG filling the widening gap left by reduced higher tier government grants for social and infrastructure programs. Rather, LG should also cut its cloth in these economic times, downsizing or ceasing programs, as many residents bear privately.

I support the auditing and review of all expenditure, sparing no sacred-cow, forensically costing aged and child-care, waste management and staffing levels, as examples. I oppose expenditure on activist causes and ineffective virtue-signalling while prioritizing roads, rates, rubbish, and small government.

I support development, business, and monetizing Town assets to afford better services and infrastructure. I will nurture arts, sport and recreation as essential to the health of our youth, particularly, so supporting community security and cohesion.
