- a) *The use of Earlsferry House as a school, that is within 400m of the high density Success Hill transit orientated development railway station;*

- b) *The potential major traffic issues from substantially increased numbers made worse by peak morning and afternoon travel to and from a school and/or other purposes at Earlsferry House, as it may impact on the residents of Thompson Road, Lamb Street, Nurstead Avenue and Earlsferry Court, Bassendean;*
- c) *The need to start the planning and introduction of improved footpath lighting, traffic management, services and related matters, and not to delay such Council issues for a minimum five years, as agreed to by Council and outlined in the modified Local Planning Strategy of 2015;*
- d) *The need to complete the proposed bikepath between Success Hill Station and the Guildford Road Bridge using Railway Parade and the land in front of Earlsferry House, so removing the increased bike use of Thompson Road, Nurstead Avenue and Earlsferry Court that has created a poorly lit dangerous safety hazard between bike users, vehicles and pedestrians.*
