

Briefing Session

Tuesday 17 May 2022

A Briefing Session of the Council of the Town of Bassendean will be held on Tuesday 17 May 2022, commencing at 6.00pm.

In accordance with regulation 12(2) and 14D of the Local Government (Administration) Regulations 1996, public notice is hereby given that due to the public health emergency arising from the COVID-19 Pandemic, the Mayor has considered it appropriate for the Briefing Session to be held by electronic means.

This meeting will be live streamed and can be viewed at: Town of Bassendean Council - YouTube.

Members of the public may participate in public question time by providing their written ~questions to the Town by 12 noon on the day of the meeting for inclusion at the meeting.

Questions and statements are to be submitted in advance via the online forms: Online Form - Public Question Time » Town of Bassendean

Online Form - Public Statement Time » Town of Bassendean. Alternatively, if electors are interested in participating at the meeting, a link can be forwarded to join the meeting by electronic means.

Deputations can be made at the meeting via the online form: Online Form - Request for Deputation » Town of Bassendean. If a request is successful, the presenter will be provided with a link to join the meeting by electronic means. The Mayor will preside at the Briefing Session. In the absence of the Mayor, the session will be presided over by the Deputy Mayor. The Briefing Session is designed as a Question and Answer session only. No decisions by Council are made at this forum.

Meeting Information

About the Briefing Session

The Mayor will preside at the Briefing Session. In the absence of the Mayor, the session will be presided over by the Deputy Mayor. The Briefing Session is designed as a Question and Answer session only. No decisions by Council are made at this forum.

The meeting is open to all members of the public, except during the consideration of matters deemed confidential in line with the Local Government Act 1995.

Recording and Live-streaming

All participation in the meeting, except for confidential business, will be audio recorded and live-streamed on the Town's website. The live stream will be archived and made available on the Town's website after the meeting.

Conduct at meetings

The Town is committed to ensuring our Council Meetings are a safe work environment, free of risks to the health and wellbeing of Elected Members, Officers and our community. Any person attending is required to be respectful, courteous and have due regard for individual rights and differences. Individuals may be asked to leave should their conduct adversely affect the health and safety of others.

By attending this meeting, you agree to abide by these conditions.

For any questions regarding the Briefing Session or any item presented in the agenda, please contact the Town of Bassendean at mail@bassendean.wa.gov.au.

Tune in to live streaming from the comfort of your own home by going to:
Town of Bassendean Council - YouTube

or if you miss it live, go to:
<https://www.youtube.com/channel/UC46mMs3D7vmHuO0ePibihhg>

Council Role

Each Report presented will identify what Council's Role is in the item

Advocacy	When the Council advocates on its own behalf or on behalf of its community to another level of government/body/agency.
Executive	The substantial direction setting and oversight role of the Council. e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.
Legislative	Includes adopting local laws, town planning schemes and policies.
Review	When the Council operates as a review authority on decisions made by Officers for appeal purposes.
Quasi-Judicial	When the Council determines an application/matter that directly affects a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice. Examples of Quasi-Judicial authority include town planning applications, building licences, applications for other permits/licences (eg under Health Act, Dog Act or Local Laws) and other decisions that may be appealable to the State Administrative Tribunal.
Information	For the Council/Committee to note.

Acknowledgement of Traditional Owners

The Town of Bassendean acknowledges the past and present traditional owners of the land on which we gather to conduct this meeting, and pays its respects to their Elders, both past and present.

2 Attendances and Apologies

3 Declarations of Interest

4 Announcements

5 Petitions

6 Public Question Time/Statements

15 minutes will be allocated for questions by members of the public unless the Council, by resolution, decides otherwise on matters contained in the agenda.

Each member of the public with a question is entitled to ask up to two questions before other members of the public will be invited to ask their questions.

Questions can be submitted prior to the Council meeting to:
www.bassendean.wa.gov.au/forms/public-question-time/36

If a person asking a question is not present at the meeting, then the Mayor can choose to deal with it at the meeting or arrange a response by email.

7 Deputations

Deputation requests can be submitted prior to the Briefing Session via the online form: [Online Form - Request for Deputation » Town of Bassendean](#)

Further information can be found here:

Attachments	1. Statement of Objects and Reasons for 2022-23 Differential Rates [8.1.1 - 4 pages]

Purpose

The purpose of this report is to consider the level at which to set and advertise differential rates in the dollar as part of the 2022/2023 Budget Process.

Rates are levied on all rateable properties within the boundaries of the Town in accordance with the *Local Government Act 1995* (the **Act**). The overall objective of the proposed rates and charges in the 2022/2023 budget is to provide for the net funding requirements of Council's activities and capital works programs.

Background

Rates are calculated by applying a rate in the dollar to the Gross Rental Valuation (**GRV**) of a property.

The rate in the dollar is set by the Local Government to make up the budget deficiency, in accordance with section 6.32 of the Local Government Act. GRV's (Gross Rental Value) are provided to all local governments by Landgate and are assessed every three years by Landgate valuers. The triennial valuation ensures consistency and fairness in the allocation of rates.

Landgate provided values to the Town for the 2020/2021 rates generation with valuations as at 1 August 2018, effective from 1 July 2020. Consequently, there is no change to GRV's for the 2022/2023 rates generation, other than interim rates processed during the year.

Council introduced Differential Rates as part of the 2021/2022 Budget Process, with the creation of a "Vacant Land" Category, to impose a higher rate in the dollar on vacant land to encourage development.

For 2022/2023, it is proposed to continue with the Vacant Land category and introduce a third differential rating category for Commercial and Industrial property, based on land zoned for these purposes. This is to raise additional revenue to meet the higher level of service costs associated with commercial and industrial properties and the localities within which they are situated.

These three differential rating categories will assist in raising additional rates revenue for the Town while spreading the rate burden more fairly, minimising the impact of rate increases for residential property owners.

Proposal

For Council to approve the 2022/2023 rate in the dollar and the minimum payment to be advertised by public notice as shown in Table One below.

Table 1: Proposed Differential Rates and Minimum Payment

Rating Category	Rate in Dollar in Cents	Minimum Payment (\$)
Improved – Residential	8.7771	1,106
Improved – Commercial and Industrial (GRV)	9.0404	1,106
Vacant Land – Residential, Commercial and Industrial (GRV)	13.1656	1,106

Council is also required to endorse the Objects and Reasons for the proposed Differential Rates Categories for the 2022/2023 Financial Year.

Communication and Engagement

Planning for the future and the various elements of the proposed budget for 2022/2023 commenced with Councillors and Staff in February 2022 with several budget workshops undertaken to detail the Town's revenue and expenditure estimates for the 2022/2023 financial year.

Subject to the approval of the recommendations in this report, the Town will publicly advertise the Statement of Objects and Reasons detailing the figures shown in Table One and providing a period of 21 days for submissions. The results will be presented to Council via a workshop and a summary included in the final budget adoption paper.

Strategic Implications

Priority Area 6: Providing Visionary Leadership and Making Great Decisions
6.4 Reinforce a culture of collaboration, trust and demarcation between Council, administration and the community

Comment

The 2022/2023 Budget deliberations to date have taken into consideration current and future needs of the Town with a focus on responsible financial management.

Rateable Property Categories and Revenue

Chart 1 shows a comparison of rateable properties within the Town, using the Town's current rates database.

Chart 1: Rateable Properties by Category

It can be seen that residential properties make up 92.2% of rateable properties within the Town, commercial and industrial properties account for a combined 4.7% and vacant land totals 3.1% of rateable properties.

Chart 2 shows the total revenue derived from each rateable property category, using the Town's current rates database.

Chart 2: Rates Revenue by Category

It can be seen that the Town derives 68.2% of rates revenue from residential properties, 22.5% from industrial properties, 6.3% from commercial properties and 3% from vacant land.

Importantly, while residential properties account for 92.2% of all rateable properties within the Town, they produce 68.2% of the rates revenue derived by the Town. Commercial and industrial properties account for only 4.7% of all rateable properties within the Town but produce 28.8% of the rates revenue derived by the Town. This is because commercial and industrial properties generally have a higher GRV than residential properties.

Local Government Comparison

Whilst it is good practice to benchmark the Town's rate in the dollar to other surrounding Council's, it is difficult to compare "like for like" as there are many variables that make up each Local Authority's rateable property database. Variables include different reliance on rates as an income source dependent on other revenue sources such as parking income, grants, and commercial leases, for example; and composition of rates database mix such as proportion of commercial and industrial property.

Chart 3 shows a comparison of the rate in the dollar set by surrounding Councils.

Chart 3: Benchmark residential rates in the dollar

It can be seen that the Town's rate in the dollar for the last two years is comparable to our neighbouring local governments.

Liaison with a sample of other Local Governments indicates most Councils are considering proposed rates increases for 2022/2023 ranging between the 3% and 5%. The Town will continue to liaise with other Local Governments in the coming weeks.

The Town's Proposal

The proposed increase in the rate in the dollar for all improved Residential properties in the Town is 4%, with a premium of 3% for Commercial and Industrial properties and a premium of 50% of all Vacant Land. The minimum payment is proposed to remain the same as it has been for the last two years, at \$1,106, for all three differential rating categories.

Economic Factors

The Consumer Price Index (CPI) for Perth has shown a 7.6% increase in the last 12 months and the Town has seen considerable increases in the cost of goods and services during the current financial year.

Table 2: Capital City CPI Comparison

All groups CPI, All groups index numbers and percentage changes

	Index number(a)	Percentage change	
		Dec Qtr 2021 to Mar Qtr 2022	Mar Qtr 2021 to Mar Qtr 2022
Sydney	123.7	1.7	4.4
Melbourne	124.2	2.3	4.5
Brisbane	125.3	2.2	6.0
Adelaide	122.7	1.9	4.7
Perth	123.3	3.3	7.6
Hobart	125.4	2.0	5.8
Darwin	120.7	2.1	5.5
Canberra	123.6	2.2	5.4
Weighted average of eight capital cities	123.9	2.1	5.1

a. Index reference period: 2011-12 = 100.0.

Source: ABS Released 27/04/2022

The Local Government Cost Index (LGCI) is perhaps a better measure for Local Government due to the basket of goods making up the measure being more aligned with local government consumption. The LGCI annual change compared with the Perth CPI (excluding volatile items) is shown in Table Four.

Table 4: LGCI v Perth CPI annual Change

It can be seen that the average increase in the annual LGCI is around 2%, with significant increasing trend since late 2021.

The Town's annual increases in the rate in the dollar has not kept pace with increases in costs, as shown by both the Perth CPI and LGCI figures in Table Three.

Table 3: Rate in the Dollar increases compared with CPI/LGCI

Financial Year	Rate in the dollar Increase %	Perth CPI % (All Categories)	LGCI %
2017/2018	2.5	1.1	1.3
2018/2019	0.9	1.6	1.5
2019/2020	1.0	0.1	0.3
2020/2021	0.0	4.2	4.0
2021/2022	1.4	7.6 (Mar 2022)	4.5 (Dec 2021)
Average	1.16	2.92	2.32
<i>2022/2023 Proposed (Residential)</i>	<i>4.0</i>		

The Town has increased its rate in the dollar by an average of 1.16% per year over the last five years, whereas the Perth CPI and LGCI measures have increased at twice the rate, at 2.92% and 2.32% respectively. It is not sustainable for the Town's cost structure to continue to increase at twice the rate of increases in its rates revenue, being the main source of revenue for the Town.

It should be noted that in 2020/21, all Local Governments were strongly encouraged by the State Government to not increase rates and indeed Council resolved to implement a zero per cent rate revenue increase, due to the emerging COVID-19 pandemic. This has had a flow on effect to the Town in funding the cost of services it provides to the community.

The 2022/2023 Budget process and future planning deliberations commenced with Councillors in February 2022. Councillors considered a range of different rate setting scenarios which ranged from no increase to the rate in the dollar, returning to a general rate in the dollar for all property and various differential rating options. Councillors considered various factors including the Town's capital and operational project requirements, workforce costs, increasing maintenance obligations, various external and economic factors, and the need to ensure financial sustainability for the Town including maintaining existing assets and service levels. Council considered this was best achieved through the imposition of differential rates involving a 4% increase to the Residential category, a 3% premium for the new Commercial and Industrial category, and a 50% premium on vacant land using the Residential rate as the base for both premiums.

In conclusion, the Town has:

- Undertaken a thorough analysis of its budget, working proactively with Staff and Councillors to generate efficiencies and reduce operating costs where possible;
- The rates proposed within this paper are necessary to enable the Town to meet its current and future obligations, and to continue operating in a financially sustainable manner; and
- The rate increases are toward the lower end of increases planned by other surrounding metropolitan Councils.

This report is submitted for Council to provide direction on the Differential Rates to be advertised for public comment as part of the 2022/2023 Budget process.

Statutory Requirements

Section 6.33 of the Act sets out the basis on which differential general rates may be based and states (in part):

- (1) A local government may impose differential general rates according to any, or a combination, of the following characteristics —
 - (a) the purpose for which the land is zoned, whether or not under a local planning scheme or improvement scheme in force under the Planning and Development Act 2005; or
 - (b) a purpose for which the land is held or used as determined by the local government; or
 - (c) whether or not the land is vacant land; or

- (d) any other characteristic or combination of characteristics prescribed.
- (3) In imposing a differential general rate, a local government is not to, without the approval of the Minister, impose a differential general rate which is more than twice the lowest differential general rate imposed by it.

Section 6.35 of the Act sets out the basis on which minimum payments may be based and states:

- (1) Subject to this section, a local government may impose on any rateable land in its district a minimum payment which is greater than the general rate which would otherwise be payable on that land.
- (2) A minimum payment is to be a general minimum but, subject to subsection (3), a lesser minimum may be imposed in respect of any portion of the district.
- (3) In applying subsection (2) the local government is to ensure the general minimum is imposed on not less than —
 - (a) 50% of the total number of separately rated properties in the district; or
 - (b) 50% of the number of properties in each category referred to in subsection (6), on which a minimum payment is imposed.
- (4) A minimum payment is not to be imposed on more than the prescribed percentage of —
 - (a) the number of separately rated properties in the district; or
 - (b) the number of properties in each category referred to in subsection (6), unless the general minimum does not exceed the prescribed amount.
- (5) If a local government imposes a differential general rate on any land on the basis that the land is vacant land it may, with the approval of the Minister, impose a minimum payment in a manner that does not comply with subsections (2), (3) and (4) for that land.
- (6) For the purposes of this section a minimum payment is to be applied separately, in accordance with the principles set forth in subsections (2), (3) and (4) in respect of each of the following categories —
 - (a) to land rated on gross rental value;
 - (b) to land rated on unimproved value; and
 - (c) to each differential rating category where a differential general rate is imposed.

Section 6.36 of the Act sets out the notice requirements and states (in part):

- (1) Before imposing any differential general rates or a minimum payment applying to a differential rate category under section 6.35(6)(c) a local government is to give local public notice of its intention to do so.
- (2) A local government is required to ensure that a notice referred to in subsection (1) is published in sufficient time to allow compliance with the requirements specified in this section and section 6.2(1).

- (3) A notice referred to in subsection (1) —
 - (a) may be published within the period of 2 months preceding the commencement of the financial year to which the proposed rates are to apply on the basis of the local government's estimate of the budget deficiency; and
 - (b) is to contain —
 - (i) details of each rate or minimum payment the local government intends to impose; and
 - (ii) an invitation for submissions to be made by an elector or a ratepayer in respect of the proposed rate or minimum payment and any related matters within 21 days (or such longer period as is specified in the notice) of the notice; and
 - (iii) any further information in relation to the matters specified in subparagraphs (i) and (ii) which may be prescribed; and
 - (c) is to advise electors and ratepayers that the document referred to in subsection (3A) —
 - (i) may be inspected at a time and place specified in the notice; and
 - (ii) is published on the local government's official website.
- (3A) The local government is required to prepare a document describing the objects of, and reasons for, each proposed rate and minimum payment and to publish the document on the local government's official website.
- (4) The local government is required to consider any submissions received before imposing the proposed rate or minimum payment with or without modification.

Financial Considerations

The Town continues to monitor implications of the COVID-19 pandemic and the re-opening of the State to local and international travellers which may have associated financial, health and economic impacts on the Town's residents and businesses. In this regard, Council has adopted a Financial Hardship Policy and the Town continues to assist ratepayers experiencing genuine financial hardship through payment agreements and interest concessions.

The proposed rating structure is a crucial element in ensuring ongoing financial sustainability and supporting the Town's ability to deliver its capital works program and provide the services required by the community.

The final budget estimates are likely to change as interim rates continue to be processed and deliberations are continuing to determine the final capital and operating works program for 2022/2023.

Risk Management Implications

Financial Risk - Medium

The principal risks are delay in approving the proposed rates or adoption of a budget with lower rates in the dollar. The first mentioned risk will delay the Town issuing Rates Notices, resulting in negative cash flow impacts to the Town and delays in the implementation of the proposed Capital Works Program. The second mentioned risk will require revision of the proposed Capital Works Program and planned operational projects.

A comprehensive communication and information plan will be implemented to assist community understanding of the rating process and the importance of rates as a source of income for the Town necessary to maintain service levels.

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.1

That Council:

1. Approves the Town of Bassendean 2022/2023 rate in the dollar and the minimum payment to be advertised by public notice as per the following:

Rating Category	Rate in Dollar in Cents	Minimum Payment (\$)
Improved – Residential	8.7771	1,106
Improved – Commercial and Industrial (GRV)	9.0404	1,106
Vacant Land – Residential, Commercial and Industrial (GRV)	13.1656	1,106

2. Approves the Town of Bassendean's Objects and Reasons for the Proposed Differential Rate Categories for the 2022/2023 Financial Year, as per the attachment included in this report.

Voting requirements: Simple Majority

Proposed 2022/23 Differential Rates – Statement of Objects and Reasons

In accordance with the provisions of Section 6.33 and 6.36 of the *Local Government Act 1995* (the **Act**), the Town of Bassendean proposes to implement differential rates and minimum payments on various categories of properties within the Town for 2022/23, as resolved for advertising by Council on 24 May 2022.

This paper details the Objects and Reasons for the proposed Differential Rates.

Rates are a primary source of revenue for the Town and are levied each financial year on all ratepayers in a manner that is fair and equitable so as to meet the Town's annual budget commitments.

Rates are levied on all rateable properties within the boundaries of the Town Municipality in accordance with the Act. The overall objective of the rates for the 2022/23 Annual Budget is to provide for the net (i.e. after taking into account all other forms of revenue) funding requirements of the Town's services, activities, operational expenditure and current and future capital requirements, as outlined in the Town's Strategic Community Plan, Corporate Business Plan and Long Term Financial Plan.

The rates in the dollar will be applied on the general valuation as supplied by the Valuer General in respect of Gross Rental Values (**GRV**) effective from 1 July 2020, as amended by any interim valuations received subsequent to that date.

If land is undeveloped, a statutory valuation of three per cent of the unimproved value for residential properties and five per cent for commercial and industrial properties is applied by the Valuer General to determine the GRV.

Considering the Town's Strategic Community Plan, corporate business plans and operational and capital requirements, a general rate increase of 4 per cent was endorsed by Council, which would increase the residential rate in the dollar to 8.7771 cents.

For all commercial and industrial properties, a new differential rate of 9.0404 cents in the dollar was endorsed by Council, being a premium of 3 per cent over the residential rate in the dollar, in recognition of the higher infrastructure and maintenance costs that are incurred within these zones.

For all vacant land, the new differential rate of 13.1656 cents in the dollar was endorsed by Council, being a premium of 50 per cent over the residential rate in the dollar.

Council resolved to advertise the same minimum payment for 2022/23 as it has been for the last two years, at \$1,106. This minimum payment applies to all three differential rating categories.

Differential Rate Categories

Section 6.33 of the Act sets out the basis on which differential general rates may be based and states (in part):

- (1) A local government may impose differential general rates according to any, or a combination, of the following characteristics —
 - (a) the purpose for which the land is zoned, whether or not under a local planning scheme or improvement scheme in force under the *Planning and Development Act 2005*; or
 - (b) a purpose for which the land is held or used as determined by the local government; or
 - (c) whether or not the land is vacant land; or
 - (d) any other characteristic or combination of characteristics prescribed.

Town of Bassendean

- (3) In imposing a differential general rate, a local government is not to, without the approval of the Minister, impose a differential general rate which is more than twice the lowest differential general rate imposed by it.

Section 6.35 of the Act sets out the basis on which minimum payments may be based and states:

- (1) Subject to this section, a local government may impose on any rateable land in its district a minimum payment which is greater than the general rate which would otherwise be payable on that land.
- (2) A minimum payment is to be a general minimum but subject to subsection (3), a lesser minimum may be imposed in respect of any portion of the district.
- (3) In applying subsection (2) the local government is to ensure the general minimum is imposed on not less than —
- (a) 50% of the total number of separately rated properties in the district; or
 - (b) 50% of the number of properties in each category referred to in subsection (6), on which a minimum payment is imposed.
- (4) A minimum payment is not to be imposed on more than the prescribed percentage of —
- (a) the number of separately rated properties in the district; or
 - (b) the number of properties in each category referred to in subsection (6), unless the general minimum does not exceed the prescribed amount.
- (5) If a local government imposes a differential general rate on any land on the basis that the land is vacant land it may, with the approval of the Minister, impose a minimum payment in a manner that does not comply with subsections (2), (3) and (4) for that land.
- (6) For the purposes of this section a minimum payment is to be applied separately, in accordance with the principles set forth in subsections (2), (3) and (4) in respect of each of the following categories —
- (a) to land rated on gross rental value;
 - (b) to land rated on unimproved value; and
 - (c) to each differential rating category where a differential general rate is imposed.

The proposed rate in the dollar and minimum payment for each differential rating category is:

Rating Category	Rate in Dollar in Cents	Minimum Payment (\$)
Improved – Residential	8.7771	1,106
Improved – Commercial and Industrial (GRV)	9.0404	1,106
Vacant Land – Residential, Commercial and Industrial (GRV)	13.1656	1,106

Town of Bassendean

Following are the objects and reasons for each of the differential rates: -

Improved – Residential (GRV)

CHARACTERISTICS

The Improved – Residential differential general rate applies to land valued on a GRV basis, which is zoned or held under the Town Planning Scheme for the purpose of residential use and has an improvement erected on it.

OBJECTS AND REASONS

The object of this rate category is to apply a base differential general rate to land zoned and used for residential purposes and to act as the Town's benchmark differential rate by which other GRV rates properties are assessed. The reason is to ensure that all ratepayers make a reasonable contribution towards the ongoing maintenance and provision of works, services and facilities throughout the Town.

The proposed rate in the dollar for this category is 8.7771 cents, with a minimum payment of \$1,106. This will apply to 6,802 properties or 92.13 per cent of the Town's rateable properties.

Improved –Commercial and Industrial Category (GRV)

CHARACTERISTICS

The Improved – Commercial and Industrial differential general rate applies to land valued on a GRV basis, which is zoned or held under the Town Planning Scheme for the purpose of commercial or industrial use and has an improvement erected on it.

OBJECTS AND REASONS

The object of this rate category is to apply a higher differential general rate to land zoned and used for commercial and industrial purposes. The reason is to raise additional revenue to meet the higher level of service costs associated with commercial and industrial properties and the localities within which they are situated. Higher service costs typically include costs associated with increased maintenance and renewal of assets and infrastructure.

The proposed rate in the dollar for this category is 9.0404 cents, with a minimum payment of \$1,106. This will apply to 350 properties or 4.74 per cent of the Town's rateable properties.

Vacant Land – Residential, Commercial and Industrial (GRV)

CHARACTERISTICS

The Vacant Land – Residential, Commercial and Industrial differential general rate applies to land valued on a GRV basis, which is zoned or held under the Town Planning Scheme for the purpose of residential, commercial or industrial and is vacant land.

OBJECTS AND REASONS

The object of this rate category is to impose a higher differential general rate to vacant land within the Town. The reason is to encourage development, as the Town considers the development of all vacant rateable land

Town of Bassendean

to be in the best interests of the community, to stimulate growth and development and improve the vibrancy of the Town.

The proposed rate in the dollar for this category is 13.1656 cents, with a minimum payment of \$1,106. This will apply to 231 properties or 3.13 per cent of the Town's rateable properties.

Objects for minimum rating

Rates are calculated by multiplying a property's assessed GRV by the adopted rate in the dollar. However, Council can apply a minimum rate, which recognises that all ratepayers have an equal opportunity to enjoy the facilities and services provided by Council, regardless of the value of their property.

Purpose

The purpose of this report is for Council to consider the following:

- adopting the draft Local Heritage Survey (LHS)
- designating three areas as Heritage Areas; and
- adopting draft Local Planning Policy – Heritage and Character (LPP).

Background

On 24 August 2021, Council resolved to endorse the proposed creation of three separate Heritage Areas (the Old Perth Road, Devon Road and Kenny Street Heritage Areas) and an associated draft Local Planning Policy – Heritage and Character, for the purposes of advertising.

On 2 November 2021, Council resolved to endorse the draft LHS for the purposes of advertising.

Communication and Engagement

Following Council's resolution on the matter, the draft documents were advertised concurrently with submissions invited for a period of 91 days between 10 December 2021 and 11 March 2022 by way of the following:

- Each owner and occupier of places where the place record within the LHS is new or changed were notified in writing;
- Each owner and occupier of places within a proposed heritage area were notified in writing;
- Owners and occupiers of places within heritage areas or on the LHS were also advised in writing on the proposed local planning policy;
- The consultation was displayed on the Town's website and social media;
- A notice advising of consultation was circulated in the Eastern Reporter newspaper on 27 January 2022;
- Signs giving notice of the proposed heritage areas within prominent locations within each proposed heritage area; and
- Copies of the documents were made publicly available at the Town's Customer Services Centre and Library.

The above efforts exceeded the statutory advertising requirements for public notice. At the close of the submission period, a total of 12 community submissions were received; nine relating to the LHS, three relating to the draft LPP and none relating to the proposed Heritage Areas.

Matter	Support	Object	Comment
Local Heritage Survey	2	4	3
Local Planning Policy	1	1	1

A schedule of submissions is contained as Attachment 1.

Four service agency submissions were also received on the LHS, with two from the Department of Planning, Lands and Heritage, one from the Department of Fire and Emergency Services and one from the Department of Education, all of which had no objections to the proposal. A schedule of submissions is attached to this report.

Three (of the four) objections to the draft Local Heritage Survey were on the basis that the landowner did not wish for their properties to be included. In all three cases, the properties were included as they currently form part of the existing 2017 Municipal Heritage Inventory and their condition has not changed such that it would warrant exclusion from the current draft Survey. It is open to Council to agree to the three requests, if Council considers that the places are not, and are not likely to become, of cultural heritage significance.

Strategic Implications

Priority Area 1: Strengthening and Connecting our Community

1.1 Fostering a culture of collaboration and trust between the organisation and community

Priority Area 7: Building Community Identity by Celebrating Culture and Heritage

7.2 Create a community closely connected to its history and heritage

The Town's Corporate Business Plan 2020-2024 contains the following actions, both for completion in 2021/22:

“Review the Town's Local Heritage Survey”

“Create a Local Planning Policy relation to the protection of local heritage and character”

Comment

Local Heritage Survey

The following table details requests for modifications to the LHS received during the consultation period and proposed changes:

Matter	Advertised Version	Requested or Proposed Change	Comment
Thematic History			
May Holman details (page 20)	<i>“In 1930 she was an Australian delegate to the United Nations where she campaigned” etc.</i>	<i>“In 1930 she was an Australian delegate to the League of Nations where she campaigned” etc.</i>	The United Nations did not form until 1945. The LHS has been updated to reflect this change.
Place Records			
Lot 288 (No.29) Eileen Street, Bassendean (Place 56)	Management Category 3	Requested change: Removal from LHS	The place is considered to have heritage value for the reasons contained within the place record in the LHS.
Lot 17 (No. 1) Kathleen Street, Bassendean (Place 93)	Management Category 2	Requested change: Removal from LHS	The submitter has not provided justification as to why the place should be removed from the LHS entirely. The place is considered to have heritage value for the reasons contained within the place record in the LHS.
Lot 80 (No.9) Marion Street, Eden Hill (Place 139)	Management Category 3	Requested change: Removal from LHS	The submitter has not provided justification as to why the property should be removed from the LHS entirely. It is noted the submitter objected to the property being contained on the heritage list, which is separate to the LHS. Category 3 places are not included in the Heritage List.
Railway Museum – 136 Railway Parade, Bassendean	The ‘other names’ for the place were listed as Bogie coal hopper, Vice-Regal, train, locomotive,	The existing ‘other names’ be replaced with ‘Rail Transport Museum’.	The ‘other names’ in the draft LHS were taken from the existing MHI and are instead items in the Railway Museum collection. The LHS has been updated to reflect

(Place 198).	carriage, car, van.		this change.
House - Lot 61 (No.150) West Road, Bassendean (Place 250)	Management Category 3	Requested change: Management Category 2, so as to reduce the likelihood of future demolition.	The Town has inspected the property and considers its condition is such that the proposed upgrade can be supported. The LHS has been updated to reflect this change.
Lot 197, 198 and 239 North Road, Bassendean - Point Reserve (new place)	N/A	Management Category 3	New inclusion on the basis of social value, as outlined in the place record in the LHS. The Town recommends Management Category 3 on the basis that the site has and will likely be altered over time. It is noted that the site is reserved 'Parks and Recreation' under the Metropolitan Region Scheme and is therefore afforded statutory protection via that scheme.

It is recommended that Council adopt the LHS (as amended as detailed above) as contained as Attachment 2.

Draft Local Planning Policy – Heritage and Character

Whilst one submitter raised matters relating to the application of the draft LPP and perceived impact on property rights and values, there were no objections to the design provisions within the draft policy.

In reviewing the draft (advertised) LPP it is noted that it included No. 57 and No. 60 Eileen Street in the proposed Kenny Street Heritage Area, however, these properties are outside the area identified on the map. As such, the references to these two properties should be removed.

It is recommended that the draft LPP be adopted (as amended as detailed above) as contained as Attachment 3.

Heritage List

Clause 8(1) of the *Planning and Development (Local Planning Schemes) Regulations 2015* require the local government to establish and maintain a heritage list to identify places within the Scheme area that are of cultural heritage significant and worthy of built heritage conservation.

Places on the heritage list require development approval for all demolition, alterations or other development affecting the cultural heritage significance of the place.

Heritage Lists are informed by any LHS, but do not necessarily include all places included in the LHS. Typically, Heritage Lists only include those places that are

Management Category 1 or 2, being those places with the highest level of heritage significance.

Given the Town supports Place 250 (House - Lot 61 (No.150) West Road) having its Management Category upgraded from Category 3 to Category 2, it is appropriate to update the Heritage List accordingly. Should Council modify the Management Category as part of the LHS, the Town will seek to update the Heritage List in accordance with the Regulations, including seeking input from the landowner and the Heritage Council of Western Australia.

Conclusion

Conserving heritage places will ensure the community can remain closely connected to its history and heritage.

The existing LHS has been reviewed to ensure heritage listings are consistent with the Guidelines and place records have been updated to accurately reflect changes to existing heritage places.

Designating Heritage Areas will provide statutory protection by ensuring development approval is required for works within these areas. The associated draft LPP will ensure there is design guidance for development within heritage areas, and other heritage listed places within the district.

As such, it is recommended that Council adopt the draft LHS and draft LPP and designate the proposed Heritage Areas.

Statutory Requirements

Local Heritage Survey

In accordance with Part 8 of the *Heritage Act 2018*, a local government must prepare a survey of places in its district that in its opinion are, or may become, of cultural heritage significance.

Local Planning Policy

The Regulations outline the procedure that the local government must follow after the consultation period for a local planning policy, which is to:

- “(a) *Review the proposed policy in light of any submissions made; and*
- (b) *resolve to:*
 - (i) *proceed with the policy without modification; or*
 - (ii) *proceed with the policy with modification; or*
 - (iii) *not proceed with the policy.”*

Heritage Area

In accordance with the Regulations, if the local government designates an area as a Heritage Area, the local government must adopt for the area a local planning policy that sets out the following:

- a map showing the boundaries of the heritage area;
- a statement about the heritage significance of the area; and
- a record of places of heritage significance in the heritage area.

As such, if Council is to proceed with designating Heritage Areas, it must also adopt a local planning policy that meets the above requirements.

Financial Considerations

The Town has allocated \$15,000 in the 2021/22 budget for the purposes of reviewing the LHS. Given no nominations/Management Category changes were required to be reviewed by an independent heritage consultant, the Town has been able to complete the review internally. It is proposed to use the existing budget allocation to have both the LHS and other associated documents graphic designed.

Risk Management Implications

Medium. Council is required to review its LHS in accordance with the *Heritage Act 2018*. In respect to the draft local planning policy, should Council not adopt the draft policy, there will be no additional guidance for the assessment of development applications of heritage places.

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.2

That Council:

1. Adopts the draft Local Heritage Survey, contained as Attachment 8.2.2
2. Pursuant to Schedule 2, Part 3, Clause 9(1) of the *Planning and Development (Local Planning Schemes) Regulations 2015*, designates the following areas as Heritage Areas:
 - Old Perth Road Heritage Area;
 - Devon Road Heritage Area; and

- Kenny Street Heritage Area.
3. Pursuant to Schedule 2, Part 2, Clause 4(3) of the *Planning and Development (Local Planning Schemes) Regulations 2015*, adopts draft Local Planning Policy – Heritage and Character, as contained in 8.2.3.

Voting requirements: Simple Majority

Schedule of Submissions
Draft Local Heritage Survey

1	Affected Property: Lot 61 (No.150) West Road Bassendean WA 6054	Postal Address: 150 West Road BASSENDEAN WA 6054
Summary of Submission		Comment
Support to the proposal.		
1.1	The property has a Category 3 listing and I would be happy for this to be voluntarily upgraded to Category 2 to limit the potential for future demolition and have increased protection under the Town Planning Scheme.	<p>Noted. The Town has inspected the property to determine if its condition was sufficient to warrant an increased in the Management Category.</p> <p>The property has been well maintained, and the structure had not been modified so as to undermine the rationale for the Management Category as determined by Hocking Heritage Studio in 2017 when last reviewed.</p> <p>The listing was determined to have moderate significance and the Town is supportive of the Management Category change.</p>
1.2	The Municipal Heritage Inventory Committee that oversaw the original survey recommended to Council that Category 3 listings be upgraded to Category 2 if the current owners made the request. This seems to have been lost as an option.	Noted.
1.3	I am highly supportive of the proposed Heritage Precincts and this was the clear preference of the majority of residents of Kenny St at a meeting held at the time over individual property listings. Their major concerns at the time were that vacant lots would have houses built that were inconsistent with the current dwelling styles and would degrade the existing streetscape. Many had restored their homes commensurate with the areas heritage.	Noted.

2	Affected Property: Lots 2 and 3 (No.40) North Road Bassendean WA 6054	Postal Address: 40 North Road Bassendean WA 6054
Summary of Submission		Comment
Support to the proposal.		
2.1	<p>A little over two years ago, I received a letter dated 13 September 2019 (ref OLET-8304319 LUAP/POLICY/2A632BR), with regard to my property at 40 North Road Bassendean, being on the Heritage List, listed as considerable category 2. The letter was signed by Mr Brian Reed Manager of Development Services.</p> <p>As previously mentioned by me in earlier letters, the house was built in 1936 and the garden was established soon afterwards and has developed some old world charm over the years.</p> <p>Hopefully Council will continue to have the property listed. Further to this, there is a tree preservation order on 7 trees on the property (our ref A3826). This letter is dated 4 September 2020 signed by Mr Cameron Hartley – Planning Officer. Please accept this written submission with regard to this matter.</p>	<p>Noted. 40 North Road is proposed to be retained as Management Category 2 in the draft Local Heritage Survey.</p>

3	Affected Property: Lot 17 and 18 (No. 1) Kathleen Street Bassendean WA 6054	Postal Address: 1 Kathleen Street Bassendean WA 6054
Summary of Submission		Comment
Object to the proposal.		
3.1	<p>I am sick to death of this constant harassment to list my property so high up the heritage list. I am flattered that you like what I have done to this house since I bought it in 1985, when it was a complete wreck, but punishing me is wrong, and that is what you are doing. For starters you do not know what you are even talking about. I am an expert on antiques and architectural buildings. I tried to save May Holman's house (demolished) and the Bassendean Railway Station (ruined). My house is c1904. I told Brian Reed this and where to look for confirmation but he and his staff did nothing. You say my house was built in 1914. WRONG. I know from the building materials used that this is wrong. You say the house at 20 Kenny street is 1913 which would make it older than mine. RUBBISH. There is a photo in Jenny Carter's book "A Social History of Bassendean" which shows my house in 1910. You will also see a much larger house at the corner of Kenny and Palmerston Streets in this photo which is almost identical to mine but 4 times bigger (2x2). Mr Alexander McDonald who lived all his life in Bassendean told me that the house at the corner owned my house as well. It was built for one of the owner's daughters. He said the girls use to ride their horses up the ROW. So you need to find out who owned the house at the corner of Kenny and Palmerston Streets to know who built my house. I know that the manager of Cummings Smith lived in the house from about 1915.</p>	<p>Noted. The Town is required to review the Local Heritage Survey every 5-8 years, or at the time of reviewing a local planning strategy, which is currently occurring.</p> <p>The place is included in the existing 2017 Municipal Heritage Inventory due to its federation bungalow style and association with the history and development of the Town. The Town has inspected the property to determine if its condition warranted removal from the draft Local Heritage Survey. It appears that the place has not been subject to modifications to its façade since the last review, and it is therefore proposed to retain the property with its current Management Category.</p>
3.2	<p>So what I think happened is that the land around these 2 houses was subdivided around 1914, but my house was already there. It was NOT built by Edward Clay. I have notified Brain Reed about this as I know one of his granddaughters and great-granddaughters. They told me that the Clays moved in in 1915. I was also told Edward Clay lived in an old railway carriage on Lord Street and that this may still be there. That would be a better heritage listing than my house.</p>	<p>Noted.</p>

	<p>Brian Reed was made aware of this too. How long did Edward Clay live here anyhow? I think I have lived here longer. After Edward died his son Michael Clay bought the house and practically destroyed it. All the posts were cut in half and a brick wall was erected around the perimeter of the verandah. All the turned posts, timber floorboards, even the bearers are all my doing, as well as all of the decorative features. The house was in such a poor state it had been on the market for 6 months before I bought it. I did not have to make it look nice again. I did not have to build a garage and studio to match the house. And for this you want to punish me. The latest letter I got from Brian Reed at the end of 2019 told me not to change the front appearance of my house. Say what? I built what you can see from the street.</p>	
3.3	<p>Around 2018 Tim Roberts from the council came to my house. He told me that if I allow the council to list my house on the heritage list, I would be offered incentives and these would be in writing and done properly. This is also mentioned in a letter he sent to me. It should be in your records. Go find it. What incentives are you offering?</p>	<p>Clause 8.6 of Council's Community Funding Policy provides that <i>"the Town will waive the application fees (or a portion thereof) for applications for development approval relating to prospective physical works that:</i> <i>(a) affect a place that is included on the State Register of Heritage Places, the Town's Heritage List and/or the Local Heritage Survey; and</i> <i>(b) contribute to the retention of the character and significance of the place as well as the appearance of the place when viewed from the street."</i></p>
3.4	<p>We now arrive at the financial loss I will incur if you want to list my property. My blocks are zoned R40 so they constitute a 6 units site with the ROW around the house. If you want me to save the house you need to tell me where I can build another 5 units. I cannot build in the front yard as you want to see the house from the street. If I cannot build these other units the council will need to compensate me to the tune of \$500,000 to \$1,000,000. And let us not forget that I was supposed to receive incentives, and all I am asking for here is for compensation.</p>	<p>Financial loss due to the listing of the property within the Local Heritage Survey is speculative and there are a multitude of factors that impact the value of a property.</p>
3.5	<p>In addition to stuffing me about with my house I also had council unlawfully lower the level of the ROW next to my house by 30-45 cms in some parts. Council should have built a retaining wall but refused to help me. Instead they got 2 goons to harass and threaten me, when I had to build a retaining wall myself. That retaining wall cost me \$12,000. In addition Council approved 2</p>	<p>The Town has previously provided a written response regarding the ROW. In any event, the comment does not relate to the agenda item.</p>

	large garages at the back of my property in the ROW at 20 and 24 Kenny Street even though the residents of those properties had no titled access rights. This further diminished the value of my property and my tranquility.	
3.6	I am prepared to discuss a resolution to this matter if you insist to list my property as category 2 but firstly you need to get your facts straight, make compensation for my potential losses and offer me additional incentives as promised. If you are not prepared to do this, do not list my property on your stupid list or we will end up in the courts and I will seek damages and costs from the Council as well. I already made a deposition in 2018 or 2017 about this matter. I raised the concerns I raised in this letter. I readdressed them with Mr Timothy Roberts and Mr Brian Reed. Dig up all their notes and my correspondence and tread lightly because I have had enough. I am dead serious now. I also sent Brian Reed some old photos of the house and ROW to substantiate what I have said above. It is time to leave me alone now.	Noted.

4	Affected Property: Lot 288 (No.29) Eileen Street Bassendean WA 6054	Postal Address: 29 Eileen Street Bassendean WA 6054
Summary of Submission		Comment
Object to the proposal.		
My house has been designated a category 3 in and I request that it be taken off this registry altogether. I bought my house in 2000 because of its character and have no intention of doing anything to detract from this. However, I do not wish to be dictated to. I bought my own house precisely to avoid this. I have no intention of selling my house, however, were I or my heirs to do so, being listed would impact the sale price negatively. I have read the relevant information on the website and am aware that there are fewer limitations on a category 3, however, I do not want to be on this list at all. Please take me off this list and advise me in writing that you have done so.		<p>The place is included in the existing 2017 Municipal Heritage Inventory due to its inter war Californian bungalow style.</p> <p>The Town has inspected the property to determine if its condition warranted removal from the draft Local Heritage Survey. It appears that the place has not been subject to modifications to its façade since the last review, and it is therefore proposed to retain the property with its current Management Category.</p>

5	Affected Property: Lot 80 (No.9) Marion Street Eden Hill WA 6054	Postal Address: 9 Marion Street EDEN HILL WA 6054
Summary of Submission		Comment
Object to the proposal.		
Having received your letter re Heritage Survey, as in an earlier notice I am very much against my home being placed on the Heritage List.		Noted. The subject place is a Management Category 3 on the existing and draft Local Heritage Survey and is therefore not proposed to be included on the Heritage List.

6	Affected Property: Lot 3 (No. 84) Broadway Bassendean WA 6054	Postal Address: 84 Broadway Bassendean WA 6054
Summary of Submission		Comment
Object to the proposal.		
6.1	My property of 84 Broadway was included as a category 3 in the previous LHS. We objected to its inclusion at the time and object to it now. I do not want my property included in any way and would like it removed from the list and from future consideration. I should not have to respond to this every few years. Had the property been under some heritage listing conditions at the time of our purchase this would have seriously impacted our purchasing decision, but we would have been able to make that decision with this knowledge. It is unfair that the council should now try to apply rules and conditions to a property we have owned for over 15 years.	Noted. The place is included in the existing 2017 Municipal Heritage Inventory due to its inter war Californian bungalow style. The Town has inspected the property to determine if its condition warranted removal from the draft Local Heritage Survey. It appears that the place has not been subject to modifications to its façade since the last review, and it is therefore proposed to retain the property with its current Management Category.
6.2	To my limited knowledge, the property has been altered in many ways since it was constructed, changes to the facade include: <ul style="list-style-type: none"> • Roof material changed from tin to tiles, • Roof colour changed, • Chimneys removed, • Veranda partially enclosed, • Driveway moved, • Garage added, • Front steps added then later redesigned. As such I see it no longer represents its original design and has no historical value.	Noted. The modifications to the property have not substantially altered the façade of the dwelling and therefore the current Management Category is proposed to be retained.

7	Affected Property: 136 Railway Parade Bassendean WA 6054 Railway Museum (place number 198)	Postal Address: PO Box 363 Bassendean 6054
Summary of Submission		Comment
Comment.		
7.1	<p>As part of the review of the register would you please change the listing re: Other names.</p> <p>Presently Other names has listed bogie coal hopper, Vice-Regal, locomotive, carriages etc - obviously they are not other names for the Railway Museum but are in fact items in our collection that were classified by the National Trust of Aust (WA), of which the Town of Bassendean was advised.</p> <p>Could you please replace this list with the phrase: Rail Transport Museum.</p>	Noted. The draft Local Heritage Survey has been amended to reflect this change.
7.2	<p>It would be relevant to note elsewhere that The Railway Museum contains in its collection a number of WA's historic rail vehicles that have been classified by the National Trust of Australia WA. In addition to the list you would have had previously, locomotive R174, as used in the Varischetti mine rescue, is located at the Railway Museum having been moved from Centrepoint Shopping Centre in Midland.</p>	Noted. The draft Local Heritage Survey has been amended to reflect this change.

8	Affected Property: Point Reserve	Postal Address: 40 Halliday Street BAYSWATER WA 6053
Summary of Submission		Comment
Comment.		
<p>Point Reserve was surveyed in 1831 by R. Clint (ref SRO map online) and has been gazetted as an early reserve in West Guildford c1904. There is a plan showing the Road Board Offices were intended to be there. The site has a significance for being the place where the Swan and Helena Rivers meet and became known for mixed bathing in 1912. Bassendean Amateur Swimming Club was located at Point Reserve, known in the past as Point Pool. Most famous (champion) members included Rolf Harris, Val Manning and Eric McCrum. The Bassendean Swimming Club was established after Harris won the Australian backstroke championship (110 yards) in 1946. The two wooden made by the community were officially opened in 1947 and were demolished by the Town of Bassendean in 2020. Local children learned to swim there for seventy years. The place has considerable social value.</p>		<p>The draft Local Heritage Survey has been amended to include Point Reserve.</p>

9	Affected Property: Lot 308 (No.168) West Road Bassendean WA 6054	Postal Address: 55 Broadway Bassendean WA 6054
Summary of Submission		Comment
Comment.		
9.1	<p>We have some old Weather board Homesteads in Bassendean need to be recorded, preserved and protected would be great if TOB could encourage people to be serious about looking after these wooden structure historic buildings within the town.</p> <p>There are 2 original homesteads that are still standing with in the Town of Bassendean that I am aware of, plus one that's had additions all have had a surrounding verandas to keep weather at bay and provide shade in the summer. some have added sleep out space on their original verandas.</p> <p>Please find images below, plus information on the two places that should be on the TOB Local Heritage Survey , I trust that they are all ready (sic) been listed some years ago, I trust the local studies unit recorded the oral histories with both the Hams and</p>	<p>Noted. The property at 147 and 168 West Road are already listed in the existing Municipal Heritage Inventory and are proposed to be retained in the Draft Local Heritage Survey.</p>

	Nicoletto families so we have a got a good account of what life was like for these two important local homes that also provided these two family a income from their produce, request that it would be great for these 2 properties to be on the Local Heritage Survey.	
9.2	The Hams Homestead and collection of garden sheds at West rd Bassendean that has been in continual use and owned by the Hams Family since 1900, originally a market garden that sold veggies, roses bushes and picked roses, the original homestead still stands today, some of the land has been sold off over there years, the block ran from West rd the Whitfield street with dive entrances from both streets that could access the sheds and the homestead . the large Jacaranda tree in the garden was planted by Mr Hams over 70 years ago, Mr Hams died aged 101 , he was still doing his fire breaks on the large block with a pic right up to when he was 99 years of ages, both his daughters Gwen and Joan lived at the family home until they both died recently, Joan the last remaining sister remained living at the family home until January 2022.	Noted.
9.3	The original Nicoletto Winery sheds that house the vats and wine making equipment, the original family home built by Laurie Nicoletto's father early 1950 that is standing on West rd Bassendean, back in 1970's the winery was known as Riverside Wines which I think stopped wine production in the early 1990's, the winery was the smallest in the Swan Valley and the last remaining vineyard in the Town of Bassendean. Laurie Nicoletto was a good red wine producer, won many top awards at the Royal Perth Show.	Noted.

Draft Local Planning Policy

10	Affected Property: Kenny/Parker Street	Postal Address: 15 Parker Street Bassendean WA 6054
Summary of Submission		Comment
Support to the proposal.		
10.1	We refer to paragraph 3 (b) of the Draft Policy and support the objective of retaining the character of the area. This is important in one of the oldest European settled areas of WA, with connections to many early settlers, whilst also being important to the original inhabitants.	Noted.
10.2	We have a couple of further points which we consider important to the amenity if the area:- The policy should contain provisions for Council to encourage existing landowners to comply with the requirements for new developments in areas such as: Visual Permeability above 1.2m. There are several properties where vegetation has been developed such that there is no visual permeability which contravenes the security requirements for new builds.	Noted. State Planning Policy 7.3 - Residential Design Codes already requires visually permeable front fencing above 1.2m. The draft Local Planning Policy is not proposing to modify this requirement.
10.3	Verge and Road Parking. The South end of Parker Street, in the evening, looks more like a car yard than a Heritage Precinct and 24/7 street parking continues to disrupt sight lines at driveway exits especially on the crest of the hill on the bus route. It is suggested that traffic calming measures, such as those adjacent to Beaufort Street in Mount Lawley, be introduced to discourage through and commercial traffic from the Heritage Precinct and provide a physical deliniation between the Heritage Precinct and the Town Centre.	The Town has undertaken an inspection of Parker Street and has determined the width of the road is sufficient to accommodate safe vehicle sight lines. Traffic and car parking is within the capacity of the existing road and nearby road network. In any event, the Town will monitor traffic and vehicle trends in the area to as to guide any future decisions on the matter.

11	Affected Property: Lot 49 (No. 47 Devon Road) Bassendean WA 6054	Postal Address: 47 Devon Road Bassendean WA 6054
Summary of Submission		Comment
Object to the proposal.		
11.1	<p>I am very disappointed that the Town of Bassendean Executive decided to proceed to advertise the draft Local Planning Policy - Heritage and Character, a decision made in the final days of the previous Council. The draft Policy is unjustified, unfair and incapable of achieving its stated objectives, due to its very limited and discriminatory application. It should be scrapped and the process restarted if there is demonstrated community support for such a policy. However, given that the draft Policy has reached the public comment stage I have no option but to provide the following comments.</p> <p>I strongly oppose the draft Local Planning Policy - Heritage and Character on the following grounds.</p>	<p>The draft Local Planning Policy will apply to all heritage properties within the Town, in addition to the proposed Heritage Areas.</p>
11.2	<p>The draft policy was developed without any community consultation.</p>	<p>The preparation of the draft Policy was informed by "Bassendream our Future"; a comprehensive community engagement exercise that confirmed that the community valued its history and wanted to protect the area's character and heritage. As is typically the case, the draft policy was prepared by Town staff and presented to Council, which adopted the draft Policy and it was advertised for public comment.</p>
11.3	<p>The draft policy targets specific streets and particular houses in those streets in a discriminatory fashion. Owners of properties on the Town's Heritage Inventory were assured when they agreed to have those homes placed on the Inventory that the Inventory was for information purposes only and would not be used to inform planning decisions. This policy makes that assurance a lie.</p>	<p>Noted. The draft Local Planning Policy will apply to all heritage properties within the Town, in addition to the proposed Heritage Areas.</p> <p>The proposed Heritage Areas were determined having regard to the Town's <u>Built Form and Character Study</u>, which catalogues the characteristics of buildings and places that are the most valued throughout the Town. This Study identified the proposed Heritage Areas as those with a significant number of places with heritage and character significance and therefore formed the basis of the proposed Heritage Areas.</p>
11.4	<p>The draft policy removes homeowners property rights without compensation. It places an unfair burden on the owners of targeted properties to maintain the character and heritage of the Town. If the community values the static heritage and character of the Town to the extent suggested in the Policy, then everyone</p>	<p>Noted. The draft Local Planning Policy does not restrict the ability to landowners to make an application for development approval. The draft Local Planning Policy does not require landowners to upgrade their properties and therefore does not result in any financial obligation.</p>

	should have to 'pay' in some way to maintain the Town's heritage, not just the owners of properties targeted by the policy.	
11.5	<p>The consultation process for the draft Policy has been very poor. I intend to contact the WAPC and the Minister for Planning to complain about the inadequate consultation at both the initial draft Policy development stage (none as far as I have been able to ascertain) and at this stage of seeking comments on the draft policy. I found out that you had put this Policy out for comment because a sign was erected almost outside our property. It could only be read by walking past it. I understand that letters were sent to affected households a couple of days before Christmas, during a COVID pandemic, in a spectacularly cynical or incompetent move, when the last thing people are going to want to think about is a fairly complicated planning policy.</p>	<p>The preparation of the draft Policy was informed by "<u><i>Bassendream our Future</i></u>"; a comprehensive community engagement exercise that confirmed that the community valued its history and wanted to protect the area's character and heritage. As is typically the case, the draft policy was prepared by Town staff and presented to Council, which adopted the draft Policy and it was advertised for public comment.</p> <p>The Town has liaised with the submitter who has confirmed that they received written notification of the proposals.</p>
11.6	<p>As I said when I wrote to Councillors and the Executive about this late last year, in my view, the policy development process and the resulting draft policy were so deficient that it should not be publicly released, until the deficiencies had been addressed. I strongly resent wasting my limited time and energy in providing comment on a policy which is so poorly conceived and executed.</p>	<p>The submitter's opinion is noted.</p>
11.7	<p>My strong position is that the existing draft policy should be scrapped and that you should restart the process, if there is demonstrated community support for the proposition that heritage requirements should be incorporated into the planning process for all development in the Town.</p>	<p>The preparation of the draft Policy was informed by "<u><i>Bassendream our Future</i></u>"; a comprehensive community engagement exercise that confirmed that the community valued its history and wanted to protect the area's character and heritage.</p>
11.8	<p>I just haven't had the heart or energy in this heat to go door knocking to get people interested enough to provide comments to you and the whole thing is so complicated and you have to look at and cross reference so many other documents and legislation etc, that it is really hard to know what you're trying to do. But I really don't trust the process and I don't think that the result of such a deficient process could possibly be acceptable to the community and particularly to affected property owners.</p>	<p>The submitter's opinion is noted.</p>

12	Affected Property: Lot 228 (No. 80) Kenny Street Bassendean WA 6054	Postal Address: 80 Kenny Street Bassendean WA 6054
Summary of Submission		Comment
Comment		
12.1	While the policy is heavy on the shall and shall nots, there has been no plan presented for the council to support any sensitive refurbish of the run-down stock. It is apparent that owners of the run down stock have made the economic decision not to restore but to enjoy the rise in land value for some future demolition while putting up with rundown houses.	The submitter's opinion is noted.
12.2	In the face of increase resistance of arbitrary heritage rules, and significant increases in costs (such as professional fees for heritage surveys [e.g., clause 7.11(a and b) for any development (even those out of sight that would not require development approval normally), the council will discourage sensitive renovations but at the same time have set rules that allow demolition of heritage listed buildings.	The Town seeks to encourage the retention of highly valued properties within the district. Development approval is not required for the demolition of any dwelling that does not form part of the Heritage List (typically those that are Category 3 and 4). Where approval is required for any demolition of a property on the Heritage List (typically those that are Category 1 and 2), the application will be assessed against the considerations outlined within the draft Local Planning Policy.
12.3	Further, the council has not considered whether these historic properties even meet modern safety rules, such as wiring safety, lead paints, asbestos materials, or structural integrity. The costs of those developments alone would make development uneconomic in many cases.	It is understood the many character and heritage properties would not meeting current standards and further, that redevelopment/refurbishment of such properties would involve expenses associated with rectification of such matters.
12.4	The draft policy does not clarify whether existing demolition approvals will be supported or opposed and torn up by council.	All existing approvals for development and/or demolition will remain valid until the expiration period provided on the approval.
12.5	A large holding of rundown properties detracts from the community benefit. The collective weight of the draft policies (and economic rationalism of the current owners) pushes towards letting the old buildings rot instead of bringing them up to modern standards and vibrancy that will increase their value to the community. In short, doing nothing allows owners to stay under the radar. Doing something attracts grief.	The submitter's opinion is noted. Council's desire for a Local Planning Policy dealing with character and heritage was based upon the outcomes of " Bassendream our Future "; a comprehensive community engagement exercise that confirmed that the community valued its history and wanted to protect the area's character and heritage.

12.6	7.1 (b) and 8.1 (d) are in conflict. 7.1 (b) says new developments must not be historic, but 8.1 (d) directs towards some form of faux style. The contemporary infill buildings that have been occurring are small and cheap contemporary fads built to cheap standards, at odds with heritage forms and features. The draft policy sets the council up as style police on what or what does not "integrate". What protection to existing property owners have against builders manipulating this uncertain definition?	Clause 7.1(b) seeks to avoid faux heritage where new development is proposed, however, the provisions in Clause 8 onwards apply to proposed Heritage Areas only, whereby the Town seeks to ensure new development is compatible with the materials within these areas.
12.7	There is high reliance upon arbitrary future interpretations by council or some heritage architect operating in some academic mindset. The wording in many places reflects the "heritage-speak" that means something to a heritage architect operating in that mindset, but would be a point of future argument, contention and legal challenge. "integrate with" ?	The draft Local Planning Policy provides guidance for future discretionary decision making, and, as with many policy tools, requires the decision-maker to exercise an element of interpretation and discretion.
12.8	"Shall" and "shall not" and "are to be" would have the legal meaning of "must" and "must not" but how will "encouraged", "where possible" , "should not" be interpreted? These must be defined in the definitions to avoid conflicted understanding.	The use of 'encouraged' and 'where possible' provides for flexibility where requirements cannot be rigidly adhered to or are not relevant to a particular site.
12.9	It is not made clear how the "style guide" will be applied. The details are too poorly documented and insufficient to serve any purpose to define the range of styles within or defining a period. In other places the historic features are not good features that the community has moved on from (English gardens and water dependent "spiky" lawns).	The Visual Reference Guide was requested by Council to assist members of the public in interpreting the requirements of different heritage eras (i.e. Federation Style).
12.10	The document does not state what level of heritage would apply to each of the heritage areas. For example, most heritage houses in Kenny Street are level 3 but one building is level 1. Would Level 3 apply to unlisted houses, including new stock?	The Management Category of each place within the proposed Heritage Areas is listed in Appendix 2 of the draft Local Planning Policy.

<p>12.11 Our house is a C. 1915 weatherboard and iron cottage in Kenny Street of the same design, and probably by the same builder, as a level 3 listed house (Place 116, no. 62 Kenny Street). Our house has been sensitively renovated by us to restore lost heritage from past (50s, 70s) defacement and developments carried out by us, with past council approval, would not be in conflict with the draft policy (set back behind or beside the house, retaining original facia and roofline and materials, restoring and retaining original veranda, windows and doors, weatherboards, fence style etc). The house is not listed as even level 4 indicating it is not considered to have any heritage value. It is not clear what protection or restrictions the heritage policy would apply to our property or if it does not matter. i.e. the draft policy appears to say that any house in the heritage areas, no matter how old, will be subject to the rules. i.e. a 1990-2020's build that is currently in place would be subject to the same as a 1915 build that is not listed. These details should be clarified because the streets proposed for listing are a mosaic of house style and age.</p>	<p>The Town sought nominations for inclusion in the Local Heritage Survey between 16 April 2021 to 14 May 2021 and during the consultation period of the draft Local Heritage Survey (10 December 2021 to 11 March 2022). No nomination was received for the subject site. In any event, the provisions of the draft Local Planning Policy, if adopted by Council, will apply to all properties with the proposed Heritage Areas.</p>
<p>12.12 It is also not clear if there would be any benefit (versus significant negatives) in applying for heritage listing of our house, or no difference at all.</p>	<p>Noted. Places included on the Heritage List are afforded a level of statutory protection that would otherwise not apply.</p>
<p>12.13 Kenny Street is subject to heavy traffic flow that is not in keeping with heritage value. The council should consider measures to calm and redirect traffic flow as complimentary to the heritage values.</p>	<p>Noted. The Town has undertaken an inspection of Kenny Street and traffic and car parking is within the capacity of the existing road and nearby road network. In any event, the Town will monitor traffic and vehicle trends in the area to as to guide any future decisions on the matter.</p>

Service Agency Submissions

13	Affected Property: Point Reserve	Postal Address: Department of Planning, Lands and Heritage Locked Bag 2506 Perth WA 6001
Summary of Submission		Comment
Comment.		
I have looked into the area around Point Reserve and clarified that it is comprised of three adjoining reserves (Reserves 9099, 9100 and 45223) which are all set aside for the purpose of 'recreation' and managed by the Town of Bassendean. These are Crown reserves (not owned by the WAPC), however the WAPC do own the nearby freehold lots along the river (Lots 701, 700, 81, 76, 80, 77 and 78). This is shown on the attached aerial and tenure maps for your reference. The Department of Planning, Lands and Heritage has no objection to the inclusion of Point Reserve into the Town's Local Heritage Survey.		Noted. The draft Local Heritage Survey has been amended to include Point Reserve.

Thank you for your email dated 10 December 2021 providing the Department of Education (Department) with the opportunity to comment on the draft Local Heritage Survey (Survey). The Department has reviewed the information submitted in support of the proposal and wishes to offer no in principle objections to the content of the draft Survey.		Noted.

15	Affected Property: N/A	Postal Address: Department of Planning, Lands and Heritage Locked Bag 2506 Perth WA 6001
Summary of Submission		Comment
Comment.		
<p>The Department of Planning, Lands and Heritage recently undertook a review of government owned land included in your Local Heritage Survey. As a result, the following place was considered by the Heritage Council, or by the Executive Director Heritage Services under direction from the Heritage Council, to determine if it warranted assessment for possible inclusion in the State Register under the Heritage Act 2018. After careful consideration it was determined that, while the following place may have some cultural heritage significance, it is unlikely to have the cultural heritage significance required to meet the condition for entry in the State Register under section 38 of the Heritage Act 2018, and therefore does not warrant a full assessment:</p> <ul style="list-style-type: none"> • P3560 Pyrton Training Centre, Eden Hill <p>Places of local heritage significance should however continue to be recognised by inclusion in your Local Heritage Survey and/or protected by inclusion on your Heritage List. Where additional information was identified during this process, it has been added to the record for each place in the InHerit database.</p>		Noted.

16	Affected Property: N/A	Postal Address: Department of Fire and Emergency Services 20 Stockton Bend Cockburn Central WA 6164

1.0 Introduction

Heritage is important in understanding the story of both Western Australia and the local community - their history, identity and diversity. Heritage is wide ranging and consists of places such as culturally significant places, buildings, structures, gardens, landscapes and archaeological sites.

The *Heritage Act 2018* defines cultural heritage significance as:

“aesthetic, historic, scientific, social or spiritual value for individuals or groups within Western Australia. Cultural heritage significance may be embodied in a place itself and in any of its fabric, setting, use, associations, meanings, records, related places and related objects. A place may have diverse values for different individuals or groups.”

These values have been deemed by the Heritage Council of Western Australia and, in the preparation of a Local Heritage Survey, are used as assessment criteria to evaluate the importance of a place for the local government area.

The history and heritage of an area helps define its unique identity and create a meaningful sense of place. The Town of Bassendean recognises its rich history and is home to several significant places, 11 of which are on the State Register of Heritage Places.

1.1 Study Area

The Town of Bassendean (the Town) is located approximately 8km north-east of the Perth CBD. Covering an area of 10.3 square kilometres, the Town comprises three suburbs: Bassendean, Ashfield and Eden Hill.

The Town is bounded by the Swan River, the City of Swan to the north and the City of Bayswater to the west. It has a river frontage of 7 kilometres.

1.2 Acknowledgements

(to be determined).

2.0 Heritage Framework

2.1 Heritage Act 2018

The *Heritage Act 2018* requires each local government to identify places of cultural heritage significance in a LHS.

Section (104) of Heritage Act 2018 states that:

“The purposes of a local heritage survey by a local government include –

- (a) identifying and recording places that are, or may become, of cultural heritage significance in its district; and*
- (b) assisting the local government in making and implementing decisions that are in harmony with cultural heritage values; and*
- (c) providing a cultural and historical record of its district; and*
- (d) providing an accessible public record of places of cultural heritage significance to its district; and*
- (e) assisting the local government in preparing a heritage list or list of heritage areas under a local planning scheme.”*

2.2 Aboriginal Heritage

Aboriginal heritage sites are not included in LHS as these are administered under the *Aboriginal Heritage Act 1972* and require both specialist archaeological and anthropological skills and cultural sensitivity which may preclude the disclosure of information to the public.

The Department of Aboriginal Affairs and the application of the *Aboriginal Heritage Act 1972* will ensure that significant aspects of Aboriginal history and culture, relating to the period before European settlement, are recorded and preserved.

2.2 Guidelines for Local Heritage Surveys

This LHS was prepared having regard to the Guidelines for Local Heritage Surveys, which was released by the Department of Planning, Lands and Heritage (DPLH) in July 2019 to assist local governments in the preparation of a LHS.

2.3 Local Heritage Surveys

LHS (formerly Local Heritage Inventories or Municipal Heritage Inventories) identify and record places that are, or that might become, of cultural heritage significance.

The *Heritage Act 2018* requires each local government to identify places of cultural heritage significance in a LHS. The LHS is compiled to “tell the stories” of the district, rather than serve as an instrument for control of development, however, it is used to inform other planning instruments such as the Town’s Heritage List or local planning policies for heritage protection.

A LHS provides recognition of a place’s importance to the local community. Places entered in the LHS generally do not have legal protection unless they are also listed in the Town’s Heritage List under the Local Planning Scheme, and/or have been separately entered in the State Register of Heritage Places.

2.3 Heritage List

A Heritage List is a list of places compiled under the Town's Local Planning Scheme for which development approval will be required for all demolition, alterations or other development affecting the cultural heritage significance of the place. Heritage Lists must be compiled with regard to the LHS, but do not necessarily include all places in the LHS.

2.4 Management Categories

Some places are more important to the community than others, and some buildings and structures have been lost over time, with only the site remaining. Management Categories recognise the varying degrees of importance and intactness of heritage places and provide recommendations to the Town as to the kind of care that should be taken for each place if the cultural heritage values are to be retained.

The inclusion or exclusion of places in the LHS should be on the basis of cultural heritage significance as identified through a recognised assessment process, including factors relevant to cultural heritage significance as developed at the National Heritage Convention (HERCON) in Canberra, 1998; or the criteria defined under the Australia ICOMOS Charter for Places of Cultural Significance, 2013 (Burra Charter criteria), and be guided by the thematic history of the district.

Each place in the LHS is provided a Management Category as follows:

Management Category	Level of Significance	Description	Desired Outcome
1	Exceptional Significance	Essential to the heritage of the locality. Rare or outstanding example. Recommended for inclusion on the State Register of Heritage Places.	The place should be retained and conserved unless there is no feasible and prudent alternative to doing otherwise. Any alterations or extensions should reinforce the significance of the place, and be in accordance with a Conservation Plan (if one exists for the place)
2	Considerable Significance	Very important to the heritage of the locality. High degree of integrity/authenticity	Conservation of the place is highly desirable. Any alterations or extensions should reinforce the significance of the place.
3	Some/Moderate Significance	Contributes to the heritage of the locality. Has some altered or modified elements, not necessarily detracting from the overall significance of the item.	Conservation of the place is desirable. Any alterations or extensions should reinforce the significance of the place, and original fabric should be retained wherever feasible.
4	Little significance or Historic Site	Contributes to the understanding of the history of the Town of Bassendean.	Photographically record prior to major development or demolition. Recognise and interpret the site if possible.

2.5 Assessment Methodology

The assessment methodology for places included in the LHS include:

- (i) The previous assessment undertaken for places contained within the Town of Bassendean Municipal Heritage Inventory 2017, which was overseen by Stephen Carrick Architects (qualified heritage consultants);
- (ii) Factors relevant to cultural heritage significance as developed at the National Heritage Convention (HERCON) in Canberra, 1998;
- (iii) The criteria defined under the Australia ICOMOS Charter for Places of Cultural Significance, 2013 (Burra Charter criteria);
- (iv) The thematic history of the district.

2.6 Place Record Forms

Place Record Forms have been compiled for each place within the LHS, which contain certain information about each place demonstrating its heritage significance in accordance with the Guidelines for Local Heritage Surveys. The Place Record Forms are contained in Section 5.0.

3.0 Thematic History

Purpose

The thematic history of the Town has been prepared to provide context for the LHS and an understanding of the cultural heritage significance of places within the Town of Bassendean. It is largely adapted from *Bassendean: a brief history*, prepared for the Town of Bassendean by Jennie Carter in May 2020¹. The full version of that document (including imagery) is available on the Town's website and from the Town's Library.

Aboriginal land

Long before Captain James Stirling first sailed up river past what is now Bassendean, several Noongar families called this area home. For more than 45,000 years², Noongar people had developed and sustained a rich, complex culture and religion, and skilfully looked after their Boodja (country).

All this was to change profoundly when in March 1827 Lieutenant James Stirling carried out his first survey of the country on either side of the river which Noongar people knew as Derbal Yerrigan but named the 'Black Swan' River by Dutch explorer William de Vlamingh in 1697. Stirling labelled the Bassendean area as 'the rich and romantic country', but met with a very upset group of warriors on the left bank of the river near what is now Belmont, who made threatening gestures to Stirling's boats. This made it extremely unlikely that Stirling shortly afterwards pulled into the narrow strip of land at the foot of the Success Hill scarp to fill his water barrels at the spring³.

The occupation of the Swan River Colony in 1829 by British migrants deprived Noongar people of the rights to their land, an action that was, even at the time, acknowledged. Captain Charles Fremantle wrote:

*"We take possession of their Country, occupy the most fertile parts which they are in the habit of resorting to for nourishment, destroy their fishing & Kangaroo, & almost drive them to starvation."*⁴

Many early colonists understood Aboriginal land tenure and who owned and were responsible for which tracts of land. Also known were areas of common ground, such as that around Success Hill, which were considered particularly significant⁵. These meeting places were important neutral grounds where surrounding Noongar groups could come together, usually in late Spring when food and game were abundant. They gathered for important religious ceremonies as well as for practical purposes such as resolving disputes, arranging marriages, or deciding on hunting and gathering activities to sustain their families over the coming seasons.⁶

To Noongar people the Derbal Yerrigan was especially sacred with the twists and curves of the river being formed by the great spirit Waughal as it travelled from the hinterland to the sea. Bennett's Brook bend, below Success Hill, which became popularly known locally as 'Devil's Elbow', was out of bounds, or 'winarch' to Aboriginal people and there are several accounts of how Noongar youngsters refused to swim there out of respect and fear of the water spirit who lived beneath the surface.⁷

When Aboriginal people resisted the occupation of their land, they were severely punished. As James Henty wrote in a letter back to England soon after arriving here in October 1829.

*The natives have been during the last week in many places, and they have been getting quite familiar and in many places too much so. C L's [Colonel Latour] men have written down for arms and ammunition to defend themselves from them.*⁸

Relationships between the colonists and Noongars worsened, exacerbated by the rapid depletion of vital traditional food sources. Jane Dodds, who with her husband James, built and ran the Cleikum Inn in West Guildford in 1830, witnessed the effects of the settlers' depredation at first hand.

*The erringo root [a type of yam] was boiled as potatoes and the thistle cut up in vinegar as salad, and so eagerly were these ingredients sought for by every class of persons that our supply failed long before [our] vegetables were produced.*⁹

Given the rising tensions, it was not long before official reprisals were carried out against Noongar land owners. Jane Dodds' teenaged son, Tom, acquired a collection of weapons and a kangaroo skin cloak which Jane sent to friends in England, commenting ominously; 'the natives never part with them but with life'. She went on to recount how Aboriginal families were massacred after stealing sheep belonging to Peter Broun.

*[T]he sequel is dreadful to contemplate; they were followed and the soldiers and others fell in with them about midnight, it was supposed that their number exceeded two hundred men, women, and children, ... [They] fired into the midst of the thickest groups, killing some and wounding many.*¹⁰

Eventually, Noongar people were pushed to the fringes of settlements. In Bassendean, despite their displacement, several families continued to maintain links with their traditional lands, such as the areas in and around Success Hill.

The first colonists

After his 1827 voyage, Stirling returned to England to sing the praises of the Swan River area as a desirable British colony. He had named many of the places along the river bank after influential men in England as well as his companions on the voyage. The area now containing Bassendean he hailed as ideal for a British colony. Stirling persuaded Sir George Murray, Secretary of State for the Colonies, to sanction a settlement on the Swan River and to appoint Stirling himself as governor with rights to large land grants.

In an inauspicious beginning, the *Parmelia*, was damaged when it landed at Garden Island on 1 June 1829 where Lieutenant Governor Stirling and his party, which included his young wife, Ellen, and their two children, made their home for several weeks. Also on the *Parmelia* were Colonial Secretary, Peter Broun, (known at that time as Brown), his wife Caroline, and their son and daughter.¹¹

Land grants, many of them designated as 'ribbon grants' because they were surveyed to allow as many as possible to take advantage of the rich river land, were allocated from 1829. The township of Guildford was gazetted in December 1829 and its satellite hamlet of West Guildford across the river was laid out early in 1831.¹² Before then more than 3000 acres (approximately 1215 hectares) of rich alluvial land was set aside in November 1829 as a government farm under the control of James Drummond, Superintendent of Government Gardens who abandoned the reserve after a quarrel with Stirling. The reserve was then divided into two large blocks (Locations S and Q1) and five smaller ones and granted to settlers, including Francis Byrne and the Henty brothers.

James Henty with his younger brothers, John and Stephen, arrived on the *Caroline* on 12 October 1829 to take possession of the family's land grants on the Swan. James was granted Location S, a 1455 acre (around 590 hectare) parcel of land on the river which he named 'Stoke Farm'. William Dyer, a wheelwright and carpenter, who was a young bonded servant of the Henty brothers described building a large homestead and sowing wheat and maize, as well as tobacco which thrived in the swampy places. The Henty brothers left Western Australia to join the rest of the family in Launceston, Tasmania at the end of 1831. The move saddened Dyer and he wrote wistfully to his father, 'I do not like this town so well as I did Swan River'.¹³

Peter Broun acquired Stoke Farm and renamed it 'Bassendean' in 1832 after his family's estate in Berwickshire, England. The Brouns lived at Bassendean for only another two years before moving back to Perth and leasing the property to David and Marian Patterson. The Hon Peter Broun died in Perth at the age of 49 on 5 November 1846 and Caroline and the younger children sailed on the *Hindoo* back to England. Unfortunately, the ship caught fire and sank, and although no harm came to Caroline and her children, Peter Broun's papers and private journal were destroyed.

James and Jane Dodds and their young family arrived on the *Rockingham* in May 1830 and built the 'Cleikum Inn' on the bank of the Swan the following year. They also set up the horse-drawn public ferry which, before the first traffic bridge was built in 1885, served as the only method of crossing that section of the river into Guildford.¹⁴

From 1831 to the turn of the century, many of the West Guildford lots changed hands. By the late 1830s William Tanner had acquired a large proportion of the land which was to become the Town of Bassendean and in 1841 sold some of it to Edward Hamersley who named his properties 'Pyrton' and 'Lockeridge'.¹⁵

Convicts and Pensioner Guards

After successful lobbying of the British government by some wealthy landowners keen on a supply of plentiful cheap labour, the first convict ship, the *Scindian*, docked at Fremantle on 1 June 1850, 21 years after the Swan River Settlement's founding as a free colony. Over the next 18 years, 9,676 British male criminals arrived¹⁶ and their enforced labour did much to change the shape of their reluctantly adopted country.

The convict establishment was initially overseen by military and marine soldiers as well as members of the Enrolled Pensioner Force, who were retired good-conduct servicemen of the British Army, the Royal Marines, or the East India Company. These men were entitled to a small pension and acted not only as guards of convicts on board ships sailing to the Swan River Settlement, but when in the colony provided a militia which could be gathered at short notice if required. On signing up for duty the Pensioners were entitled to free passage for themselves and their families, and on top of what they earned for their pension, were free to seek paid work. Initially they were not to be granted land so as to encourage them to help supply the demand for labour, rather than aspire to be settlers, but within a month of the first convict ship the Scindian arriving, the policy was reversed. Governor Charles Fitzgerald was instructed to establish Pensioner 'villages' with blocks of land sufficient for the families to support themselves¹⁷. One of these was established on a few of the two acre (half hectare) town lots at West Guildford¹⁸. Pensioner Guards could apply for a block and after seven years working and maintaining their grants, they could claim ownership.

Lieutenant Edmund DuCane of the Royal Engineers was recruited from England in 1851 to assist the Comptroller-General of Convicts, Captain Edmund Henderson, and was given charge of the Guildford convict hiring depot¹⁹. DuCane, whose responsibilities included overseeing public works, assigned a party of convicts to work on building two-roomed dwellings in West Guildford for Pensioner Guards and their families²⁰. In 1855 DuCane reported that bricks were being made and shingles split for 12 cottages, but convict labour was in demand elsewhere and by the middle of 1856 only four houses were under construction. It was not until December that they were completed.

The little cottage at 1 Surrey Street is the only extant free standing two-roomed Pensioner Guard cottage remaining of the 80 or so built in the metropolitan area, and is the oldest building in Bassendean.²¹ The first occupants were John Law Davies²², a former private in the East India Company, and his wife Amelia, who he had married in July 1856, and on 28 November 1864 the title was transferred to Davis for an annual peppercorn rent. John and Amelia raised seven children and after John died in July 1870, Amelia married John Bates in 1873 and had a further two children. Amelia continued to live in the cottage until 1893 when it was sold to Edmund Brockman and the adjacent house built.²³

Several other Pensioner Guard families made West Guildford their home. Among them were Thomas and Elizabeth Young, James and Ann Clinton, and John and Eliza Hyland. Thomas, James, and John died at relatively young ages leaving their widows and children to carry on as best they could. Some of them worked in the big houses in Guildford or took in laundry and most struggled to make ends meet. Eliza Hyland's son, also named John, recounted an incident which happened when he was a little boy and was waiting with his mother to catch the ferry to Guildford. Young John fell into the river and the ferryman, whose name Hyland said was Williams, dived in to rescue him. Eliza had no time to take her son home as she very likely depended on her work to support them, so the ferryman dried John off and looked after him for the rest of that day. For his kindness the convict was reportedly granted a remission of his sentence.²⁴

John Law Davies' eldest daughter Amelia married William the son of Thomas and Elizabeth Young, thereby knitting together the strands of the little Pensioner Guard community in West Guildford.

The Convicts

Convicts built the cottages and operated the ferry. At the expiry of their sentences or after receiving their Tickets-of-Leave or Conditional Pardons, some of them continued to live in West Guildford. John Picken, convicted for forging a marriage licence, worked as a cobbler and amassed enough money to purchase the block owned by Pensioner Guard Henry Chartres, but lived there for less than a year before returning to England. The most prominent ex-convict resident of West Guildford was Malachai Meagher, a qualified engineer, who aged 22 was convicted of forgery and sent to Western Australia in 1859. Meagher received his ticket-of-leave not long after he arrived in the colony, became a successful landowner, a shrewd businessman, and licensee of the Stirling Arms in Guildford. In 1862 he married Caroline, the only daughter of George Stubberfield, owner of the Guildford Hotel. Meagher leased the Bassendean Estate, then owned by the Clune brothers, and made it his family home. An energetic member of the community, he was elected to the Guildford Municipal Council before becoming a foundation member and chairman of the Swan Road Board. He was possessed a good deal of personal magnetism and Gaelic charm which he employed in improving services to West Guildford, including collecting subscriptions for a bridge to be built between the townships which was ultimately successful in 1885. Malachai Meagher died at his son's property in Bridgetown in 1906 and was survived by eight children and several grandchildren.

West Guildford residents had reason to be unhappy with the lack of action by the Guildford Town Trust toward supplying needed services to the little hamlet over the river. In 1880 the Swan Road Board decided to discontinue the ferry service even though the rail bridge over the Swan River had not yet been built. This decision was compounded when residents learned that, despite assurances, the railway bridge built in 1881 did not provide for wheeled traffic and had no proper footpath. It was not until 1885 that a separate traffic bridge was built alongside it.

Rail transport opened the district up to visitors and when Herbert Parry had the Lockeridge Hotel in River Road built in 1896, it was to capitalise on the allure of the riverside spaces for day-trippers, boating parties, and weekend guests. Sunday trains from Perth made an informal stop at a point just below the hotel to allow patrons and picnickers to alight.

Despite initial difficulties, West Guildford continued to grow steadily, if slowly, until the 1890s when the discovery of gold spurred a rapid influx of people and the Western Australian population grew four-fold from less than 49,000 people in 1890 to almost 200,000 in under a decade. The effect was felt in all sectors of society and manifested itself in a critical demand for housing, public works, transport, health services, and education. Developers made fortunes in buying and subdividing suburban land. In West Guildford syndicates of influential men in business, politics, medicine, the civil service, and the law, had by 1899 purchased most of the large pieces of land north and south of the rail line as investment speculations. Subdivision advertisements made much of the advantages of the district.

*[It is] a most desirable place for a home where the business man, fagged and worried with cares can breathe pure and revivifying air, and recuperate his exhausted energies...*²⁵

Several West Guildford blocks were bought by high ranking civil servants and businessmen who built large houses in or close to North Road. These included the homes of George Tuthill Wood who was a magistrate, Charles Wicks a master builder, John Tregurtha Short the Commissioner of Railways, and Cyril Jackson who was recruited from England in 1897 with a comprehensive agenda to reform the State's education system.

These new residents quickly became impatient with the lack of action by the Guildford Town Trust and the Swan Road Board to provide much needed amenities in their little township. After a strong campaign spearheaded by Cyril Jackson, the West Guildford Road Board was gazetted and the first meeting held on 12 July 1901 in the billiard room of Jackson's imposing river-side house. Although boasting only 180 residents in 34 houses, West Guildford was well and truly on the map. By the following year the infant Board had persuaded the State Government to shift the alignment of the main road from Perth to Guildford from a position roughly parallel to the railway line, to deviate through the township giving it an awkward dog-leg configuration, but encouraging housing development.²⁶ Trees were planted on verges along North Road and Surrey Street, including a stand of English oak trees, of which only two remain.

To cater for the increased population in Perth metropolitan and suburban areas, rail transport became a vital service. The railway workshops at Fremantle could no longer cope with the work piling up, but could not easily extend operations where they were. The decision was made to shift to a large site in Midland Junction where a running shed was built in 1897. By 1904 the Midland Railway Workshops were in full operation and workers who continued to live in and near Fremantle made the daily journey to and from their homes on a special train, the 'rattler'. Some employees decided to move closer to Midland and developers, particularly of land north of the rail line, increasingly pitched their sales at the 'railway men' in the hopes they would choose housing lots in West Guildford.

The new residents, many of them ardent unionists, soon took a proprietary interest in their suburb and pushed for practical improvements, most urgently, a railway station and a primary school. John Hyland, son of the Pensioner Guard, was elected to the Road Board in 1902. He was a railway linesmen and one of the leaders of the working class men who came to dominate the Road Board by 1910, ending the influence of senior civil servants, men of business, and self-described gentlemen.

In the decade between 1904 and 1914 the population of West Guildford multiplied five-fold from 485 residents to well over 2,000, most of them young. Improved community facilities were sorely needed and in 1912 a new Roads Board building incorporating a town hall was constructed.

Schools

The earliest school building in the district was the private Guildford Girls High School which had been established in the former Lockeridge Hotel in 1904 to accommodate the daughters of farmers, pastoralists, and wealthy families of Guildford. The first purpose built state school for the district's children was the two-roomed West Road primary school (now Bassendean Primary School) which was sited on swampy land donated by two of the largest landholders in the district, Stephen Parker and Dr Daniel Kenny. Originally intended to cater for 85 pupils, enrolments ballooned to 197 less than six months after the school opened in October 1906. Despite many hastily erected additions over its first decade, the school remained chronically overcrowded.

The Roman Catholic school operated out of St Joseph's church under the tutelage of five Sisters of Mercy and classes were held in the enclosed verandahs which ran down each side of the church. This arrangement lasted almost 40 years from the time the church was built in 1914 until St Michaels primary school was constructed in 1953.

The school in Ivanhoe Street Eden Hill, originally designated 'North Guildford', opened to students from grades one to five at the beginning of 1915. By October that year the Education Department acquiesced to the Board's request for a name change to 'Eden Hill Primary School'. The school soon became overcrowded and in 1919 the Education Department was petitioned by residents to increase classes.

After the initial flurry of building there were no more primary schools constructed in the district until the new Roman Catholic school, to be renamed St Michael's, was built in 1953. Ashfield primary school followed in 1955 and Anzac Terrace primary school in 1969. Cyril Jackson High School, built in Ashfield in 1962, was converted to a special senior campus for students in 1990. The private, parent-run Casa Mia Montessori School opened in 1999.

The coming of industries

The river and its environs played an important part in the growth of local industry. In 1898 Jeremiah Asquith had a thriving boat building yard at the end of Anstey Street where he made river craft, rowing boats and punts, to complement his other business at Fremantle for the construction of pearling luggers and large sea-going vessels.

Brick-making was another early pursuit and the heavy clay deposits near the river helped in the construction of many early houses including Stoke Farm (the old Bassendean homestead) and the convict-built Pensioner Guard cottages. By 1901 there were several brickyards, including those north of the railway line near Success Hill and the swampy areas just south of what is now Walter Road, with one of the largest on the Bassendean Estate run by Mrs Millard and her daughter.

The river flats supported primary industries such as dairy farming, poultry yards, market gardening, and seasonal cropping of wheat, oats, hay, and corn. As early as 1829 William Dyer grew tobacco and maize on the wetlands around Stoke Farm while also practising his trade as a wheelwright.

By 1900, apart from home gardens and poultry runs, surpluses from which were often a profitable sideline for the women of the house, there were several commercial market gardens and orchards. Some of the largest ones were run by Chinese families - the Ah brothers in Elder Parade, the Hoons in Hamilton Street, the Ing syndicate at Bennett's Brook on land leased from Hugh Hamersley, and Wong Noon Sack's garden at the corner of Railway and First Avenues. Other prominent market gardens were those belonging to Thomas Barnes on land between Palmerston Street and Guildford Road and the largest orchard, owned by Frank and Georgina Piaggio, in North Road.

The Santa Rosa vineyard was planted near the river north of the railway line in 1894 and the large brick Santa Rosa winery and distillery was built in 1897.²⁷ The estate was purchased by R B Young in 1940 who used the winery to store grain and manufacture poultry food.²⁸ The distinctive building with its large square tower remained a landmark in the district until it was demolished in the 1970s.

Retail businesses were also popular undertakings with the largest being William Padbury's graceful two-storey emporium built in 1918. The Lord Street dairy and gardens owned by Thomas and Kate Grogan provided produce for Kate's shop in First Avenue. By 1924 there were several grocers, greengrocers and household suppliers, including Everingham's Co-operative stores. Different types of commercial enterprises also operated in the years between the two world wars including restaurants, cafes, butcher shops, fishmongers, bakeries, tobacconists, clothing and hat shops, chemists, hardware supplies, motor garages, cycle and repair businesses, hairdressing salons, barber shops, a printery, and newsagencies. Boarding houses and guest houses catered for workers and visitors to the district, and in 1930 a hotel was built to vociferous opposition.

The first metals factory was the blacksmith forge and coach-building works established in First Avenue in 1911 by Arthur Ebenezer Yelland, who later branched out as co-owner of the Bassendean Motor Garage.

John Smallman and E. E Ireland were cabinet makers who both became chairmen of the Bassendean Road Board and it was Ireland who crafted the large jarrah table which is still a feature in the Town's council chamber.

Small to medium-sized manufactories were also encouraged into the district after the establishment of the Cuming Smith's fertiliser factory. The company, which pioneered the production of superphosphate in Australia, had made approaches to Bayswater in 1901 to set up a factory, but had been refused because sulphuric acid, which was a central part of the process, made it a noxious industry. West Guildford Road Board members had no such qualms and when contacted by Cuming Smith in August 1909 were enthusiastic about the proposal. The extensive brick and iron works with its own rail branch line was constructed just north of the rail line and opened in September 1910. Senior staff at the plant built large homes in West Guildford and in 1913 the manager, Alfred Youlden Garnsworthy served a term as chairman of the Road Board. Other large enterprises included Richard Purser and Co which set up on land fronting Railway Parade in 1912 and specialised in agricultural machinery, and Hadfields Pty Ltd which built a large modern foundry in 1920 on a large block bought from Purser.

These and other firms were further encouraged into the district after the Road Board purchased electric power from the State Government in 1915, with the help of a loan provided by the Amalgamated Society of Railway Workers. A sub-station to supply single-phase power was built which powered homes and street lamps throughout the suburb as well as bridge lights.

Railway stations

The unofficial stop just below the Lockeridge Hotel operated until the railway station fronting Guildford Road was built. The long-running campaign for a passenger station was bolstered by the support of Cuming Smith senior management and the station was opened with much fanfare on 30 April 1910. It was to be decades before another station was built. Ashfield station was opened in 1954 after the State Housing Commission resumed large tracts of land between Guildford Road and the Ashfield Flats to build around 400 homes to house many of the post-war influx of migrants to the district. The Success Hill station near the site of the earlier unofficial stop was constructed in 1960.

Social and political life

Social life for Bassendean families in the first quarter of the 20th century revolved around home, sport, and church activities. So much so that residents took pride in the fact that their suburb was known locally as 'the holy city' because of the presence of many churches but no hotel.

The first specially built house of worship was the Methodist church in Hamilton Street. Volunteers erected the building in 1905 and it was the district's first permanent public meeting hall. The Presbyterian congregation opened their church in Lord Street on 27 July 1907 with a small gymnasium attached. Before St Mark's Anglican Church's weatherboard building was erected in Lord Street in 1909, services were held at the old Lockeridge hotel which became the Girl's High School. Physical activity was decreed vital for boys and a larger exercise facility and youth club was a popular feature of the Church of Christ, famously built by volunteer labour over the course of a single day on 14 January 1913.

From 1912 the suburb's Roman Catholic parishioners used the basement of the Road Board hall for Sunday mass until the brick and iron St Joseph's church was erected in 1913. The following year the Sisters of Mercy religious order established a convent, initially to house the small congregation of nuns who taught at St Joseph's Church as well as undertaking pastoral care work in the district. A brick convent building was constructed in 1925 and some school lessons were held in the downstairs rooms.

Both Protestant and Catholic churches concentrated on youth outreach, supporting a variety of sporting clubs and other recreational activities for children and young adults, such as the Christian Endeavour Group and the Dorcas Society for girls.

Church halls, the Road Board rooms, and the later Trades Hall built in Broadway in 1932 with funding from the Railway Employees Union, were venues for frequent social functions and tea dances where single men and women could meet and families would mingle and cement friendships. Silent movies were first shown in 1913 in the Road Board hall. These proved so popular, that a permanent bio box and theatre seating were installed in the lesser hall in 1917. The lure of the movies was considered pernicious by some and in 1916 the West Guildford Mothers' Union sought to have cinema sessions restricted and called for greater State supervision of the films that were shown to young people, to little effect. An outdoor theatre, the 'Wonderview' opened next door to the hall in 1925 and was heavily patronised on summer evenings despite the nuisance of the suburb's mosquitoes.

Music was an important part of the life of the district and not only did the primary schools support brass bands, but amateur musicals proved popular. In 1914 both the West Guildford Orchestral Society, which had been formed the previous year, and the Choral Society held their first public concerts and the West Guildford Orchestral Society went on to win prizes across the state over the years. The WG Orchestra refused to change its name to Bassendean after 1922 retaining the original name right up until the 1960s when the orchestra was disbanded.

Special interests were encouraged by the establishment of the Daffodil Society, the Mothers' Union, the Rifle Club which began in 1915 in response to the outbreak of war, and the Returned Servicemen's League founded after the war in 1919. The West Guildford Masonic Lodge held its first meeting in 1920.

One of the most significant and long-lasting organisations was the Volunteer Fire Brigade which was held its first meeting at the Road Board offices on 31 January 1911. Among the foundation members were Charles Wicks, Vern Howe, Ben Bailey, John Bull and Richard Ellis who became the first captain of the Brigade. To begin with the men were called out to fires by a band of call-boys, youths interested in the Brigade but not yet old enough to be members who ran or cycled around to knock on doors. Later on a bell was installed to summon the volunteers. In 1913 the members built a clay running track and ladder stand on the recreation reserve, which is now site of the Swan District's Football oval. In 1914 the Brigade won its first trophy at a meet at Kalgoorlie and this marked the beginning of a long career of successes including Australian Champions in 1922 and Champion Brigade of Australia in 1951.

The Fire Station was built on the highest point of land in Parker Street in 1934 and the Art Deco building is now on the State Register of Heritage Places. After more than one hundred years of service, the Brigade was disbanded in October 2013.

War and peace

When war was declared in August 1914, many of the district's young men were swift to enlist. One of the first to die in battle was Ben Bailey, a founder of the Volunteer Fire Brigade, who was killed during the landing at Gallipoli on 25 April 1915. Other notable West Guildford identities who fought overseas were Edward Clay, George Wyndham, then secretary of the Road Board, William Wilson, who was killed in the final days of the war, and Richard Alexander McDonald. McDonald was a railway worker, who had not long moved into the district, fought in France, and was wounded in 1918.

The sons of leading citizens also served. John, the son of John Tregurthen Short, Commissioner of Railways and second chairman of the Road Board, was killed at Bullecourt, France, on 11 April 1917. John Hyland's son William fought in France, as did Aubrey and Frances Brown's son, also Aubrey. Brothers Francis and Frederick Young, who were the grandsons of two Pensioner Guards, John Law Davis and Thomas Young, were both killed in action. Alfred Garnsworthy's son Stanley, wounded more than once, was promoted to lieutenant. Ernest and William, the sons of Charles Wicks, were both wounded in action with Ernest being promoted to lieutenant as well as being awarded the Military Medal and the Military Cross for bravery.

Of the total of 203 men who enlisted from the tiny town of West Guildford to fight in the First World War, 33 died on active service, a figure of one in six fatalities, or 16%²⁹. The loss of so many of their fine boys had a profound effect on West Guildford.

Several organisations were formed to aid the war effort. In West Guildford, the Red Cross Society and the Ugly Men's Association³⁰ were particularly active in fundraising and providing volunteers to help war widows and children. The Ugly Men's Association, which unlike the local men's lodges, had both men and women members and became a key part of the social life of the district. A Guildford branch, which included West Guildford residents, was formed in 1918 and proved so popular that a separate West Guildford Branch was established in May 1921. The Returned Servicemen's League (RSL) sub-branch had its inaugural meeting on 30 July 1920.

After the cessation of hostilities, the Soldiers' Memorial Committee, headed by Road Board chairman, Charles Wicks, organised busy bees to erect a memorial in the town, with some materials being donated by Cuming Smith, Padbury's Stores, and the Road Board.³¹ The granite obelisk on a concrete base was designed by two returned soldiers, Wales and Gillies,³² who also helped supervise the volunteer labour crew which was sustained by lashings of tea, scones, and sandwiches, prepared by 'the ladies'. The war memorial on the corner of Wilson Street and Perth Road was officially opened by Governor Sir Francis Newdegate on Sunday 12 December 1920.

Change of name

In the years between the world wars, the suburb's population grew by leaps and bounds. Twenty one years after its founding as a local authority, the West Guildford Road Board resolved to change the name of the suburb to distinguish it from what was believed to be the 'smaller', 'less progressive', and 'has-been', township across the river. The assertion that the district needed its own identity was unanimously supported by the Board, but had a mixed reception from residents. The Board's suggestion of 'Stirling' was not popular, nor was 'Florida', or 'Mandoon', the Noongar name for a greater part of the district, so it was resolved that a competition open to primary school children would be run and F Taylor offered a one guinea (£1.1s) prize for the winner. Clare Drysdale and Sylvia Sharman shared the money for their suggestion of 'Bassendean', which was chosen by the Board at their meeting on 9 May 1922 for its association with the Broun family farm, and in the hope that the new name would satisfy the traditionalists among the ratepayers. On the anniversary of the founding of the road board, in July 1922, 'Bassendean' was gazetted as the new name for the district.

R A McDonald (1885-1967)

Richard (Dick) Alexander McDonald, the most enduring architect of Bassendean's growth and development, trained as a carpenter and was employed at the Midland railway workshops as a carriage builder. He and his wife Ethel moved to West Guildford and lived in the house he built in Kenny Street, and they almost immediately became part of the lively social life of the district. McDonald was elected to the Road Board in 1915, but resigned to enlist as a sapper in the v1 Field Company of Engineers and fought in France. He arrived home six days after the armistice in 1918 and immersed himself in local politics and the Labor Party. McDonald was re-elected to the now renamed Bassendean Road Board in 1922 and was to become its longest serving chairman and, except for a period between 1948 (following the death of his wife) and 1956, he retained office for 34 years. He was Chairman of the Board from 1929 to 1947 and after his return to local politics, was the first President of the Bassendean Shire Council from 1961 to 1962. His influence was such that he was often referred to (not always kindly) as the 'king of Bassendean'. Dick McDonald died on 20 March 1967 aged 82.

McDonald saw the establishment of the Swan Districts Football ground as one of his finest achievements and it was an uphill battle. His first step was to lobby the Western Australian Football League for acceptance of a district team with headquarters in Bassendean. With tentative agreement from WAFL, he pushed the Road Board for a £3,750 loan to upgrade the recreation reserve bounded by West Road, and Surrey, Brook, and Dodd Streets to convert the reserve into a football oval with all facilities required. To say that not all Bassendean residents were happy with the scheme would be an understatement, and a concerted effort by a group of ratepayers defeated the loan proposal by forcing a referendum on the issue. At the same time Midland was actively working to reform the Midland Junction Football Association, which had been disbanded during the war, and there was strong support for the team to be located in the more populous district.

McDonald was determined, however, and as chairman he managed to persuade the board to hold another loan referendum. With assurances that all revenues from games at the oval would go to pay off the loan, and with WAFL guarantee that no players signed up by Swan Districts would be allowed to join another team for at least two years, this time McDonald was successful. When, as inaugural President of Swan Districts Football League, Dick McDonald kicked the ball for the start of the first game in 1934, it was one of his proudest moments.

Another recreation reserve that McDonald became involved in creating is the BIC which fronts Guildford Road. When eccentric journalist, naturalist and historian Jose Guillermo Hay died in June 1923, members of the Road Board and local businessmen established the Bassendean Improvement Committee (BIC) to purchase the strange wooden castle, which had been Hay's home, and the wetland surrounding it from Hay's estate. Various schemes were undertaken to raise money for the purchase, but none of them were successful except for the popular fundraising activities run by the newly formed BIC Ladies Auxiliary under the banner of 'Bassendean Beautiful'. From 1923 to 1927 the women of the district amassed sufficient money to buy the 12 acre (almost five hectare) property with enough left over to begin an ambitious beautification project.

McDonald and members of the Road Board were tempted in 1928 by an offer from hotelier Paddy Connolly who offered a handsome donation to the BIC project if the board would give support to the building of a hotel in Bassendean. Although the board was, in general, in favour of the proposal, members of the powerful Temperance movement in the suburb were outraged and a 'no licence' campaign swung into action. The wishes of local business proprietors, the board, and workingmen's groups, however, held sway and the licence was granted. Construction of the two-storey Bassendean Hotel began in 1929 and it was open for business in August 1930.

The Bassendean Road Board enthusiastically celebrated the State's 100th anniversary of European settlement in June 1929 and staged a 're-enactment' of James Stirling's exploratory voyage up the Swan River in March 1827 where he was supposed to have stopped at Success Hill spring to 'fill his water barrels'. Appealing as the account is, there is no record of any of the exploratory boats, neither Stirling's nor the one in which botanist Charles Fraser travelled, stopping at the spring. The tale apparently first emerged in a 1922 report written by the West Guildford Road Board secretary, Reg Sargent, who misinterpreted Stirling's account of the voyage upriver.³³ It was perpetuated in Paul Hasluck's 4 July 1929 article 'Guildford memories' in the *Western Mail* where he claims the event was 'according to local tradition'. Similar re-enactments staged since 1929 have cemented the story into enduring local belief.

Work had commenced to drain Hay's swamp, when the world wide Depression which began in October 1929, brought it all to a halt. Ultimately, the Depression was to prove a godsend to Bassendean as the 'BIC Park', as well as several other major projects, including the building of the new road board hall, were completed by sustenance, or 'susso', labour at a minimal cost.³⁴ In March 1931 the board transferred the site to the Crown to be vested in the Bassendean Road Board as a reserve.

By 1934 the park had two soccer pitches, a football field for junior players, a cricket pitch, bowling greens, croquet and tennis courts, a playground, and a band pavilion. Construction had also begun on the Volunteer Fire Brigade's training track as well as the installation of floodlights for night games. Beautification efforts resulted in lawns, gardens and shaded areas for picnics. The official opening of both the park and the new hall was performed by Premier James Mitchell on 9 November 1935 with an estimated 5000 in attendance.³⁵ Early the following year a competition was held to name the new reserve and the board chose 'Temple Park', although several members wanted it to be called 'McDonald Park' in recognition of the chairman's role in its creation. Neither names took hold and to this day the reserve remains simply 'the BIC'.

Alice Mary (May) Holman (1893-1939)

May Holman was the eldest of nine surviving children of John (Jack) Barkell Holman and his wife, Catherine, who were both heavily involved in the Australian Labor Party. Jack was a state politician and Catherine prominent in Labor women's groups. In 1920 the Holmans bought a 20 acre property in Ida Street and extended the house into a large family home.³⁶ May was a talented musician and, with her sisters and brother Ted, formed a musical revue group, 'the Entertainers', which performed around the state with profits being channelled to the Labor Party and local charities. In 1924, under the leadership of May Holman, Bassendean raised the greatest sum for the Perth Hospital Appeal, roundly beating Claremont who were runners-up.

After Jack Holman died on 23 February 1925 from complications following surgery for appendicitis, May was encouraged to nominate for her father's south-west timber milling seat of Forrest at the resultant by-election, which she won on 3 April 1925. On taking her seat in the Legislative Assembly she became the first Labor woman parliamentarian in the British Commonwealth and the second woman elected in Australia.³⁷ While a member of parliament, May was instrumental in the passage of bills aimed to protect workers' rights, maternal and infant health, and was active in establishing the Central Executive of Labor Women, and the Young Labor League. Attractive, intelligent, and charming, she made good copy for the press, but the sexism of the times hampered her political rise. In 1930 she was an Australian delegate to the **League of Nations** where she campaigned against drug trafficking and child labour.

While touring her electorate for the 1939 elections, May and her sister Iris were involved in a car accident near Bunbury. May Holman died of her injuries three days later on 20 March 1939, just hours after receiving the news that she had been elected to State Parliament for the fifth time. Her funeral was one of the largest seen in Perth and tributes to her came from all over the country, but to her many friends from Bassendean, she remained 'our May'. Her brother Ted then ran for and was elected to the seat of Forrest, although he relinquished his place in Parliament to enlist in the Second World War.

War again

Barely 21 years after the cessation of hostilities known as the Great War, the Second World War began on 3 September 1939, and the district again sent its sons and daughters overseas to serve. More than 700 people, who lived in Bassendean enlisted, including 37 young women.³⁸ Among them were well-known residents, Dorothy Evans, Elsie and Jean Craig, Joan Faulkner, Jessie Townsend, Elsie Minchin, and Dorothy and Sylvia Taylor.

During the Second World War both the Midland Railway Workshops and Hadfields became munitions factories which employed skilled local people, many of them women as there was soon a critical shortage of metal workers. The Great Depression had now ended and new manufacturing jobs created. In 1941 Hadfields produced more than 6000 mortar shells and artillery gun carrier wheels, spare parts, and ships' castings. Male foundry employees were manpowered, despite the fact that in 1942 conscription was introduced.

Community activism which had helped Bassendean weather the rigours of the Depression were channelled into supporting the war effort. The women of the district organised scrap collections, fundraising, and first aid lectures as members of the Bassendean branch of the Red Cross and the women's auxiliary of the RSL. Dick McDonald, became head warden for the district and set aside the BIC for the RSL Defence Corps training, authorising the placement of obstacles on the ground to thwart the landing of enemy aircraft. He also ensured that the board had reserves of petrol and oil stockpiled in case of emergencies. A letter was sent to Bassendean's pigeon fanciers warning them not to set their birds loose because they might be used to communicate with enemy agents. After the 1942 bombing of Darwin, the road board constructed several air-raid shelters, the Army took over the football ground and matches were suspended until February 1943 when the soldiers moved out.

Bassendean residents also opened their homes to children who had been evacuated from Fremantle because of the fear of bombing, and Midland high school students were transferred to Bassendean Primary School for the duration of the war.

After Allawah Grove in South Guildford was taken over as an army camp, Aboriginal families living there were forced to relocate, and several had no option but to move in with relatives living in Eden Hill.

Post war migration

At the end of the Second World War, plans were made to materially encourage migration to Australia. Non-British migrants from Italy, such as the Ghisalberti family, and Malta, particularly the Calleja family, had settled in Bassendean beginning in the 1920s, but the numbers of new residents increased markedly after 1946, the year the State Housing Commission (SHC) was established.³⁹ Partly in a bid to encourage migration from England, the SHC acquired land in selected Perth suburbs for subdivision and low cost housing development. Bassendean, Eden Hill, and Ashfield were among the first places to be developed and resulted in a population boom in the district from the mid 1950s.

The need for orderly planning to house large numbers of new residents impelled the Bassendean Road Board to adopt in 1952 its first, and for its time, revolutionary Town Planning Scheme. This scheme established three separate areas for the district: 1) residential and commercial, 2) industrial and manufacturing, and 3) 'other purposes', which excluded housing but could encompass public open space and administration requirements. It was made very clear that no further 'noxious' industries, such as Cuming Smith or Cresco would be permitted to operate within Bassendean's boundaries, although light industrial and manufacturing was encouraged.

Bassendean residents were dismayed to learn that the Railways Department intended to build an extensive railway marshalling yard and chord line from near Scaddan Street through the Ashfield Flats to cross the river to the Ascot racecourse. The proposal would have had the rail line slicing Bassendean into three distinct parts. A public meeting in 1950 attended by more than 400 residents had little sway until the Chairman of Directors of Hadfields opposed the plan because it required resumption of part of the factory's land and Hadfields was 'essential to the national interest'.⁴⁰ The issue dragged on until the State election in 1953 resulted in a Labor government which shifted the focus of industrial development to Kwinana.

Between 1947 and 1961 Bassendean's population increased by almost 60 percent as young families moved into new housing in the SHC developments of Eden Hill and Ashfield. Aboriginal people, most of them women, owned several large lots of land at Eden Hill which were acquired by the SHC in the early 1950s and special 'native houses' were planned for some of the subdivided blocks, the first being built in 1954.⁴¹ When some Aboriginal families got into financial difficulties and were unable to keep up the lease payments on their new houses they were evicted and lost both land and home.

One of the controversial decisions made in the 1960s was to remove a large amount of sand from Success Hill. Its profound significance to Aboriginal people and their distress at such desecration was of no concern of Council when in 1962 a 'beautification' scheme which covered Sandy Beach, the Point Reserve, as well as Success Hill was adopted. Beginning in 1963, as part of a proposal to clear the bush for conversion to grassed sporting and playground areas, more than 61,000 cubic yards (around 47,000m³) of soil was removed from Success Hill with most of it sold as a commercial venture. Some of the sand was used on sites around Bassendean, including the old Hamersley Estate which had been taken over as a mental health training facility, and to build up the banks surrounding the Swan Districts Oval.

Post-war schooling and social life

Schools at Bassendean and Eden Hill were extended and a new primary school in Margaret Street Ashfield opened on 1 February 1955. Cyril Jackson Senior High School was built on land fronting Reid Street in Ashfield in 1962. The rise in numbers of school-age children was the impetus for local organisations to provide an outlet for youthful energies. To counter fears of delinquency, teenage gangs, and 'fast' behaviours churches, sporting clubs, and community groups provided structured activities for young people and the Bassendean Primary School established an after-school youth centre offering instruction in dressmaking, motor mechanics, as well as a very popular ballroom dancing class.

After its new hall, boasting a dance floor and pool table among other amenities, was built in 1960, the Returned Services League (RSL) became enthusiastically involved in providing activities for young males. Youth groups supported by the RSL included the Aboriginal-run Mudulla Club, organised by 20 year-old Ron Kickett. Other activities for both boys and girls took place in church halls and the Masonic hall. Friday and Saturday evening dances were popular after the youth centre shifted to Cyril Jackson Senior High School, especially when the 'jive' was permitted, despite being frowned upon by older members of the community.

The Bassendean Council also provided space in the undercroft of the new administration building for a youth drop-in centre in 1972. Alf Faulkner, who was first elected to council in 1952 and was Shire President 1962 to 1970 is remembered in the name of the hall erected at Mary Crescent Eden Hill in 1974.

To cater for the large numbers of children growing up in the district, from the early 1950s successive ratepayer associations formally requested Bassendean Council to provide a library service. All requests were resisted, not only because of the supposed cost, but also as councillors saw little community value in the scheme. By the late 1950s attitudes began to change, particularly after the Road Board became a Shire Council in 1961 when the population of the district neared 8,500 residents and a group of younger men were elected.

A dedicated senior citizens centre funded by the State Government and the Lotteries Commission, was constructed in 1966. Services for older and house-bound residents were largely volunteer-driven but in 1964 Shire President Alf Faulkner, with the support of Beatrice (Beattie) Chape, championed the establishment of the district's much-needed meals-on-wheels scheme.

It was immediately popular and among other social benefits helped to keep older residents living independently in their own homes. The 25-unit Hyde retirement housing complex, named for a family of early residents and business owners in the Town, opened in 1980.

The Pyrton centre for intellectually and physically disabled children was acquired by the State Government and opened in 1966 on the site of the Hamersley family's property bordering Success Hill. By the early 1970s, Pyrton had expanded its role with the establishment of a training centre to equip residents with skills which, depending on their level of ability, would allow them to become more involved in wider society.

By the late 1960s, the lovely art deco town hall and administration building which had been constructed in Old Perth Road in 1936, was deemed to be inadequate for the burgeoning suburb and, despite community opposition, plans for new council buildings incorporating a community centre and a library went ahead. The new complex was opened on 1 February 1970. Negotiations with the RSL allowed the war memorial to be relocated to a spot outside the administration block to make way for the Bassendean Memorial Library to be built on the site, which was subsequently opened in July 1972.

Community services were enhanced when Beattie Chape, who was instrumental in establishing Wind in the Willows child care centre as well as the meals-on-wheels service, was elected as the first female councillor in 1973.⁴² The indefatigable Gwen Fenech was appointed the Town's first welfare officer in 1979 and remained in that role until her retirement in 2004. Her community service throughout the years, including establishing the Broadway II band⁴³ and leading the Melody Club, was honoured with an Order of Australia Medal in 1992. Both women were made Freepeople of the Town - Beattie in 1996 and Gwen in 2009.

The Swan Districts Football Club has played an important role in the sporting life of the Town for decades. Stalwart of the club, Stan Moses, is remembered in the pavilion named for him at Jubilee Reserve in Eden Hill. Stan coached junior football for many years from 1952, became the club's general manager serving in that role for almost a decade, and in 2011 was awarded a Member of the Order of Australia Medal for services to Australian Rules Football.⁴⁴

Key players for Swan Districts were also Bill Walker and Haydn Bunton. Bill joined Swan Districts in 1961 and went on to play a record 302 games, winning four Sandover medals, being made a Member of the Order of Australia in 1978 and inducted into the Australian and Western Australian Football Halls of Fame. After retirement from the game Bill served for more than a decade as President of the club. The Bill Walker stand at the oval is named in his honour. Football legend, Hadyn Bunton junior joined Swan Districts in 1961 as Captain Coach and steered the club to a three grand premierships in a row from 1961 to 1963, before leaving in 1964.

Planning for the future

Bassendean strenuously resisted amalgamation with neighbouring local authorities during the Boundaries Commission Inquiry of 1974 and in July 1975, with the suburb reaching a population of nearly 12,000, its status was changed from a shire to a town.

Dr John Paterson, who had been elected Shire President in 1970, became the Town's first Mayor.

The North Western Town Planning Scheme No. 2 which had been launched in 1969 was expanded in 1974 to open up land north of the railway line for housing development, the establishment of Anzac Terrace primary school, and an industrial area. Tom Wardle was encouraged to open a 'Tom the Cheap' grocery and shopping centre on Morley Drive at Eden Hill which later grew to house a service station and a hotel. By 1978 most of the building lots had been sold and new houses were adding to the vibrancy of the Town.

In addition to the shopping centre at Eden Hill, land south of the railway line on Guildford Road and bordered by Whitfield Street, West Road and Old Perth Road was cleared of buildings, including the Bassendean Police Station, to make way for a shopping centre. The loss of police presence in the Town sparked some heated community opposition but eventually the Bassendean Village Shopping complex was opened to the public in 1977. Access to the centre from Guildford Road had been made easier when the Guildford Road bypass, which diverted traffic from Old Perth Road, was constructed by the middle of that year.

With involvement in the looming State's sesquicentenary, long-running community action to construct an Olympic sized swimming pool in Bassendean was channelled into creating a water playground on the Wilson Street side of the BIC. Funds raised for the pool were put to the water playground which was named after entertainer Rolf Harris and opened in 1979.⁴⁵ The 150th celebrations also included another staged 're-enactment' of the supposed landing at Success Hill.

Environmental concerns came more to the fore in the late 1970s and early 1980s. A major recurring problem was that of managing municipal waste, which had traditionally been collected and dumped or buried on council owned vacant land, with many of the sites being on the flood plain. Spurred by Mayor John Paterson, who was an agricultural scientist, in 1979 Bassendean joined with the neighbouring local government areas of Swan, Bayswater, Belmont, and Mundaring to set up the Eastern Refuse Disposal Zone Committee which was the forerunner to the Eastern Metropolitan Regional Council (EMRC). The group cooperated to share the costs of rubbish disposal and purchased land at Red Hill to create a landfill facility which opened on 23 October 1981.⁴⁶ The EMRC was formally established in November 1983 with Paterson as its inaugural chairman.

In 1980 the Town began work on an ambitious town planning scheme to retain and enhance riverside land at the Ashfield Flats and Bindaring Swamp. Community support for the preservation of public open spaces was threatened when a proposal to create a canal development for 108 houses encroaching into the Ashfield river flats was supported by Council in 1984. Land earmarked for the development was owned by the Town of Bassendean, the Metropolitan Region Planning Authority, as well as private owners who were notified that their properties could be resumed if they were not willing to participate in the scheme.

The Department of Conservation and Land Management warned that the construction of artificial canals could impact adversely on the fragile ecosystem of the low-lying river flats and the samphire heath which were key bird breeding grounds. Almost immediately, community protest meetings were organised which agitated for the establishment of a large regional reserve to preserve Bassendean's significant riverine habitat. The furious reaction of so many residents to the canal development seemed to have caught the Council off guard. John Cox, a champion of the canal scheme, had in May 1984 just been appointed Mayor after the surprise defeat of John Paterson who had first been elected to Council in 1969.⁴⁷

Activism sparked by the canal proposal resulted in the formation of the Bassendean Preservation Group (BPG) on 17 March 1985. Concerned residents also looked to the Town of Bassendean for support and in 1985 Paul Bridges, who was prominent in the BPG, was elected to the Bassendean Council as East Ward representative. By 1988 environmentally active residents had been voted onto Council in sufficient numbers to elect Bridges as Mayor. From that time onwards a rift became manifest with environmentally focussed councillors on one side and pro-development ones on the other. Although Bridges retired at the 1990 election and John Cox was re-established as Mayor, the protection of Bassendean's environment and heritage were now firmly established as key drivers of progress.

Greater interest in Bassendean's history also became a factor stemming from community involvement in the State's 150th anniversary celebrations in 1979 and Council members resolved to publish a history of the district.⁴⁸ The Town Clerk, Clarrie McCreed, and Mayor Patterson sought advice from Professor of History at University of WA, Tom Stannage, who had grown up in Bassendean where his father was the Anglican minister. Stannage had also played for Swan Districts Football Club from 1964 to 1967 and retained a distinct fondness for the home of his youth. In 1982 the Town advertised for a historian and Jennie Carter, who had moved to Bassendean the year previously, was the successful applicant. She immediately began a program to interview many of the old-time residents.⁴⁹ *Bassendean: a social history 1829 to 1979* was published in 1986 and records, documents, photographs and other information gathered and donated during Carter's research for the book was given to the Bassendean Memorial Library. These materials became the nucleus of the library's local history collection.

As part of the celebrations for the 1988 Australian Bicentenary history and heritage were celebrated with enthusiasm. Among the many events planned was the installation of 64 plaques commemorating some of the Town's early or notable residents which were embedded in the river-side footpath of North Road and Bassendean Parade.⁵⁰ Council also resolved to purchase 1 Surrey Street which contained the old Pensioner Guard cottage together with an adjoining house which had been constructed in 1893. Plans were made to preserve the cottage and convert the next door building into a community learning and sharing centre with a focus on the history of the district.

The arts and performance sector also grew in importance during these years, with the establishment of the Bassendean Arts Council (BAC) in 1989. That same year the Town revived the youth service and drop-in centre in an effort to engage the district's young people.

In 1991, with the support of the Town of Bassendean, the Bassendean Historical Society (BHS) was formed to be responsible for the Pensioner Guard cottage, supervise its opening to the public for regular visits, and to promote the creation of a museum and historical interpretive centre in the adjacent house. In 1994 the cottage was placed on the State Heritage Register followed later that year by the inclusion of Earlsferry House.⁵¹

The Town's first female CEO, Stephanie (Steve) Smith was appointed in 1992 and served for four years.

A prison for Bassendean?

The State Government under Premier Richard Court closed the Pyrtton Training Centre, which had been purchased in the 1950s as a hostel for severely disabled children, after the relocation of all remaining residents by 1997. The buildings were put into caretaker mode with limited community access while plans for their future use were developed. The State Government was interested in maximising a return from the large area of riverside land by selling it as prime residential lots, but the rezoning application was vigorously opposed by the Town and knocked back by the Planning Commission. Given the fact that the land was located on part of a registered site of Indigenous significance, Councillors and staff were keen to see a sensitive development of Pyrtton that would acknowledge its importance to Western Australia.

It came as a shock when it was subsequently announced that Pyrtton would become a women's prison. Community opposition was immediate and vocal. Council set up a community advisory panel to consult with residents and at a public meeting held at the Bassendean Oval on 27 July 1998, the proposal was soundly rejected.

Attorney General, Peter Foss, was adamant that the prison would go ahead and all that was needed was a rezoning of the land to be approved by the WA Planning Commission.

To highlight opposition, Mayor Bevan Carter and Bassendean MLA, Clive Brown, supported by a group of residents, walked the 12km from Bassendean to the office of the Minister for Planning in Perth to hand over a petition and numerous written objections. Aboriginal community members under the leadership of Robert Bropho of the Swan Valley Nyungah Community persuaded Federal Minister for Heritage, Robert Hill, to halt proceedings to investigate possible desecration of the site if the prison went ahead. For almost another three years, nothing was resolved, but the State Labor Party, then in opposition, publicly supported the claims of Aboriginal people and the Town. In February 2001 Labor was elected with Dr Geoff Gallop as Premier and the Pyrtton Prison scheme was quietly mothballed.⁵²

The changing Town

In the early 2000s plans were finalised to construct a new railway station at Bassendean. The scheme involved demolishing the steep ramp and long overhead bridge that spanned Guildford Road. The removal sparked a community debate but, steered by the Town's CEO, Gary Evershed, Bassendean forged a partnership with the State Government and the new station went ahead. It was opened by Minister for Planning and Infrastructure, Alannah MacTiernan, on 31 May 2004.

It had become clear by the end of the 20th century that the library constructed in 1972 was in need of a major overhaul and that ideally an entirely new building was needed. A proposal for resiting the library to the Swan Districts Oval was considered but rejected by the WA Planning Commission. The old library was demolished in December 2004 and the new building, which included a secure archives area, was opened by Mayor Tina Klein in October 2005.

The new railway station was seen as part of a comprehensive plan for the revitalisation of the town centre which found expression in the Council's 2005 Vision 2030 Community Plan publication. Optimistic estimates of a growth in Perth's population of more than 50 percent over 25 years would inevitably place pressure on suburbs close to the city to increase housing density, but also provide opportunities to improve employment, recreation, and transport options. In the time since that 2005 document and, for a variety of reasons, a rapid rise in population has not yet eventuated, but issues of housing density, transport and business hubs, and use of community spaces remain as relevant as ever.

In 2005, the Town approved the Mary Crescent Reserve Concept Plan, and obtained Federal grant funding to implement it. The reserve, which is located on a site of Indigenous significance, was redeveloped after consultation with Aboriginal residents with its major feature being a gathering site with an art work created by Peter Farmer in 2012 depicting the Noongar six seasons of the year. A nature playground was constructed on the reserve in February 2019.

Over the years residents in Ashfield had voiced concerns that their part of the suburb was overlooked. As a way to address the issue, in 2008 a review was launched which resulted in the Ashfield Precinct Plan. One of the improvements made during these times was the Town's decision to partner with the State Government and guarantee half the funds needed to provide Ashfield with underground power. The State Underground Power Program was first launched in 1996 and with the backing of the Town of Bassendean, Ashfield was chosen for round five of the rollout across selected suburbs in 2011. This was the year that Ashfield residents formed a community access network under the title Ashfield CAN and obtained funding for street beautification schemes and hosted regular local events. The underground power supply work was completed in 2013.

Town centre revitalisation continued with encouragement for street art and colourful murals. The Old Perth Road Markets which operated on Sundays during the summer months, and the outdoor film screenings by Telethon Community Cinemas were established with the enthusiastic backing of Mayor John Gangell in 2009.

It was also a time of controversy when a plan to shift the war memorial to the BIC on the corner of Wilson and Guildford roads and upgrade it met with concentrated public opposition. Despite consultation with and the approval of the RSL, a petition circulated in 2011 gained significant support. For a while it seemed that the relocation would be abandoned, but Council members voted overwhelmingly in favour of the move. On 11 April 2015, a fortnight before the Town's centenary commemoration of Gallipoli, a refurbished obelisk, a new wall of remembrance, and a reflection pond, were officially dedicated.

The amalgamation threat

The concern over the war memorial became overshadowed by the possibility that Bassendean would be swallowed up by neighbouring Bayswater with the intent of the Colin Barnett government to slash the number of metropolitan local authorities from 30 to 14 new 'super councils'.⁵³ Under the amalgamation process, first mooted by the Alan Carpenter government in 2005, but reinvigorated by an announcement made by Premier Barnett in July 2013 that mergers would be compulsory, with most new councils supporting around 100,000 residents.

There were to be definite winners and losers. Instead of abolishing all metropolitan local authorities, redrawing boundaries, and renaming the new districts to make the process seem equitable, under this scheme some councils would be totally subsumed by neighbouring ones, while others remained untouched. The small western suburb councils of Nedlands, Cottesloe, Peppermint Grove and Claremont, were to retain their separate status, while others, like Bassendean would cease to exist as a local authority. Despite an earlier assessment by the Department of Local Government that the Town was, 'a sustainable local authority with the capacity to provide for its community into the future',⁵⁴ Bassendean was to be largely taken over by Bayswater⁵⁵ with the confirmation that the suburb would not even constitute a separate ward and that the name would disappear. The Town cooperated by reviewing and coordinating administrative systems and staffing matters, while trying hard to negotiate some degree of autonomy for the district. The fight appeared lost when on Christmas Eve 2014 the Town of Bassendean was formally abolished by a brief notice in the Government Gazette.

Bassendean was not the only council to be profoundly affected. The drawn out amalgamation process proved to be highly unpopular with the public and influenced politicians across the spectrum. The Labor Party, the Greens, and the Nationals remained staunchly opposed, and even some Liberal Party colleagues were vocally critical. Nevertheless, it still came as a surprise when the Premier announced on 17 February 2015 that 'Governor's orders will be revoked for mergers that aren't supported by the councils'.⁵⁶ With that statement, the local government reform agenda was abruptly terminated and less than a month later the Town of Bassendean was quietly reinstated as a separate local authority.

Towards the future

Anne Brinkworth, who had been Bassendean's longest serving Councillor, announced that after 27 years she would be retiring before the local government elections in October that year. In recognition of her service and community involvement over the years, Anne was made a Freeperson of the Town in March 2016.

Renee McLennan was elected in 2017 as the Town's third female mayor, after Vicki Philipoff's one year term in 1995-6, and Tina Klein's six years from 2003 to 2009. In July 2018 Bassendean's population had grown to almost 16,000, with a total revenue of just under \$22.5million. The CEO, Bob Jarvis, resigned in 2018 and Bassendean's second female Chief Executive Officer, Peta Mabbs, was appointed in that October.

The ambitious 'BassenDream Our Future' project was launched in 2018 and by the middle of the following year 3,000 residents had been involved in providing their views. Mayor McLennan reported "[W]e now have a greater understanding of our community's vision and priorities for the future. ... We want to create an inclusive community with a vibrant, sustainable future while honouring the foundations of our past in partnership with the people of Bassendean."⁵⁷ It was clear that residents were most concerned about the environment of the Town and preserving its green spaces, natural parks, and river foreshore. History and heritage was also high on the list of its residents' views on what makes Bassendean such an appealing place in which to live. All plans for community events had to be cancelled in early March 2020 as Western Australia enforced strict social distancing to cope with the world-wide outbreak of the Covid-19 virus pandemic. Local businesses were hard hit with cafes and independent shops closing or providing only a take-away service. Community facilities such as sporting grounds, senior centres, youth facilities, and children's playgrounds were closed. All public events and bookings for venues and halls were cancelled and wherever possible staff were assisted to work from home. While the building was closed, the Bassendean Memorial Library maintained a reduced service providing online information, phone contact for residents, and a popular expansion of the Books on Wheels program for residents retitled Pick and Drop.⁵⁸

At a special council meeting held on 23 March 2020 emergency measures were passed to deal with the crisis in the community which included no rate increases and delaying financial impact of the proposed underground power north of the railway line until 2021. A series of initiatives to contact and assist vulnerable residents was announced in April.

Whatever the future brings, it is clear that the people of Bassendean will, as they have throughout its history, remain a close community.

Notes:

41. Menck, Clare *A Thematic history of Government housing in Western Australia. Prepared for the Department of Housing. Final report November 2014* p.361 "... 'a special type of house for Natives' had been developed, using the labour-only pre-cut method. It was designed to have 'all the features for good standard living' while keeping costs as low as possible. The Commission planned to sell these homes under Leasehold condition to 'Natives who are

deserving of better living conditions' in both the Metropolitan and regional areas. The first such home was erected in York in 1954. The first Metropolitan example, also built in 1954, was at Eden Hill. Both the York and Eden Hill houses were built on land owned by the Aboriginal families. It was reported at the time that the SHC had purchased the land from them to erect the houses. No other information has been located regarding this, and it is not known what the situation of land title was for families who later left the houses."

42. Beatrice Chape served until 1979. She died in 2017 aged 97.
43. Gwen is the daughter of Rita Smith (nee North) who formed the first Broadway musical group in 1926
44. Stan Moses was born in 1925 and died in 2014.
45. The water playground closed in 2004.
46. In 1993 became the EMRC with offices at Belmont and in 1995 member councils expanded to six with the entry of Kalamunda.
47. From 1960 to 1995 local government elections in Western Australia were held on the 3rd Saturday in May. Councillors were elected for three year terms with one third of the council facing election each year and presidents and mayors being elected yearly. In 1995 a new *Local Government Act* was passed. From 1997 elections are held every second year with four year terms for elected members with closest to half of councillors elected every two years and the mayor elected for a two year term. Polling day was moved to the 3rd Saturday in October. In 2011 The number of Bassendean councillors was reduced to six, with the mayor holding a casting vote, and the three ward system (North, West and East wards) which had been in place since West Guildford days was abolished. In 2015 the number of councillors was increased to seven to revert to uneven numbers.
48. A previous short history was *A history of Bassendean: compiled and published for the Bassendean Roads Board* by Alf Thomas in 1947. Morva Cogan had also written the text for *Bassendean and Guildford sketchbook* with drawings by Bruce Wroth, one of 'The Sketchbook' series of slim volumes published by Rigby in 1976, she also wrote a short manuscript which indicated intended work on a larger history of the town.
49. Several of these recorded interviews are stored in both the Bassendean Local History Collection and the Battye Library, State Library of Western Australia.
50. A brochure giving biographical sketches of people whose names are on the plaques has been produced by the Bassendean Memorial Library.
51. As at April 2020, the following have been entered onto the State Register of Heritage Places: Bassendean Oval Entrance Gate, Daylesford House, Earlsferry House, Guildford Road Bridge, Bassendean Oval, Bassendean Oval Grandstand, MacDonald Grandstand, Bassendean Fire Station (former), Success Hill Lodge (formerly the Lockridge Hotel), the Pensioner Guard Cottage, the Bassendean Masonic Lodge building, and the cast iron red post box on the corner of Surrey St and North Road.
52. A land use proposal, *Korndin Kulluch - A Place of Reconciliation; Bennett Brook Nyungar Cultural and Environmental Concept Plan*, which incorporated an Aboriginal culture centre was released in May 2012 for comment, but has not been progressed to date (March 2020).
53. Perth Now 31 July 2013 <https://www.perthnow.com.au/news/wa/premier-colin-barnett-local-government-minister-reveal-council-mergers-ng-83d7fb6e9e3e0f3fdbce3204d9850cb0>
54. Annual Report 2008-2009 p.11.
55. The City of Swan would take over a small section north of Eden Hill.
56. Media Statement from the Premier's Office 'Future of LG reform now rests with councils'. <https://www.mediastatements.wa.gov.au/Pages/Barnett/2015/02/Future-of-LG-reform-now-rests-with-councils--.aspx> Tuesday, 17 February 2015
57. 2018-2019 Annual Report.
58. Information provided by the Town of Bassendean.

4.0 Place Index

4.1 Modifications to Places - 2017 Municipal Heritage Inventory

Architectural style	Federation Bungalow
Historic theme(s)	Occupations: Domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a good intact example of a residence built in the early 20th century in the Federation style. The place has historic value for its association with the early development of the district. The place has social value as a demonstration of the type of accommodation built in the early 20th century for working families.
History	<p>The land on which this residence is located was subdivided for residential development by Harry Francis Anstey. He purchased 100 acres of land in Bassendean, or West Guildford as it was then known, in 1897 and the land was divided into 237 lots for sale in 1898.</p> <p>From the available information, this cottage was built c1902 for the first occupant John Augustus Gadd (c1878-1969) and his wife Bertha May Truslove (c1881-1959). John and Bertha were married in 1902 in Guildford and information from Post Office Directories indicates that the couple were living in Anstey Road in 1902. John Gadd was a carpenter and therefore he may have designed and built this cottage although there is no documentary confirmation of this conclusion.</p> <p>Later long term occupants (1920-1949) were George Fortescue Hoare (1870-1943) and his wife Ellen (1882-1957). George Hoare, a plumber, lived at the house until his death in 1943 and Ellen remained at the house until the early 1950s. A later occupant in the 1950s was Cyril John Lindop, a mechanic.</p>

Integrity / Authenticity	Moderate
Physical description	<p>A single storey timber framed and weatherboard house with high hipped roof with attic accommodation. The high hipped roof has been reclad in dark grey colorbond which although is not the original colour of material for the roof cladding, does not overly detract from the aesthetic of the house. The hipped roof incorporates two timbered gables positioned above the front windows and a further timber framed/weatherboard gabled dormer positioned in the centre of the roof.</p> <p>A break in pitch to the main roof creates the skillion verandah canopy which extends across the full width of the symmetrical façade of the house and is supported on timber posts. The verandah deck is paved.</p> <p>Timber framed casement windows flank the centrally placed front entrance door. The windows consist of three casements to each opening with toplights. The entrance door is a timber panelled and glazed door with side lights and fanlights. A separate gabled carport has been erected to the side elevation.</p>

Statement of significance	<p><i>Taken from the Statement of Significance prepared in 2006 in the documentation for the State Heritage Office.</i></p> <p>Holmehouse, Bassendean, a single storey tuck-pointed brick and corrugated iron house in the Federation Bungalow style, with a substantial set of reception rooms in a Federation Queen Anne style, located in extensive landscaped gardens, has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> • the place is a rare example of an intact Federation bungalow residence in its original extensive garden setting and illustrates the type of home built in the early 1900s for the more affluent members of the wider Perth community; • the place is a good example of the aesthetic characteristics of the Federation home specifically its elevated grassed open site, its banded tuck-pointed walls and graceful front verandah and internally the quality of detailed finishes; • the place contributes to an understanding of the development of West Guildford (Bassendean) and specifically how this part of the suburb was settled by members of the professions and more wealthy middle classes and is a surviving example of the original concept of the subdivision of a 'country estate'; • the place was built by Charles Rickwood Wicks, a builder who achieved prominence in his profession and was an active member of the West Guildford (Bassendean) community; and,

	<ul style="list-style-type: none"> the place is associated with the Clarkson family who were a prominent farming family in Toodyay. Barnard Drummond Clarkson named the place 'Holmehouse' after the family's Yorkshire property.
History	<p>Holmehouse was built in 1905 by builder Charles Rickwood Wicks as the residence for himself, his wife and two children.</p> <p>The land on which this residence is located was subdivided for residential development by Harry Francis Anstey. He purchased 100 acres of land in Bassendean, or West Guildford as it was then known, in 1897. The land was divided into 237 lots and Charles Ricks purchased four lots on which to build his family home in 1905/06.</p> <p>Charles Wicks was responsible for the design and construction of Holmehouse as well as many homes in the district. The layout of the home indicates that the family had live in servants as some of the rooms to the rear of the house are smaller and less ornamented.</p> <p>In April 1907, the property was transferred to Isabella Clarkson the wife of Barnard Drummond Clarkson (1836-1909), pastoralist and Member of Parliament. Clarkson was an explorer and successful farmer in the Toodyay region where he served as a member and chairman of the Road Board before representing the region in parliament between 1890 and 1897.</p> <p>The physical evidence indicates that the house was built in two stages although no documentary evidence has currently been found to support this view. It is likely that changes would have been made at the time when the Clarkson's moved to the residence which they named 'Holme house' after the Clarkson's property in Yorkshire. Following B.D. Clarkson's death in 1909, Isabella lived on in the house until her death in 1934. Subsequent owners and occupants of the residence were;</p> <ul style="list-style-type: none"> Geoffrey Lukin (1938-c1947) George Johnson, school teacher (c1947-1964) Dudley and Mollie Stotter (1964-1984) Ronald and Marsha Snelgar (1984-2015) <p>The gardens and the residence have not significantly altered throughout the 20th century although a pool and new plantings have altered the original landscaping of the residence. During the period in which the residence was owned and occupied by the Clarkson's the garden was full of fruit trees and traditional plants including a massive wisteria vine.</p>
Integrity / Authenticity	Moderate
Physical description	<p>Holmehouse, Bassendean is an impressive single storey tuck-pointed brick and corrugated-iron bungalow with the appearance of a homestead in a Federation Bungalow style. It stands prominently on a rise overlooking extensive lawns on its acre-and-a-half site, flanked by stands of trees. With the breadth of its front elevation, its deceptively simple massing, large reception rooms and graceful verandah on its elevated open site beside a reserve to the west, Holmehouse, Bassendean exhibits the aesthetic characteristics of a Federation home with the plan form redolent of a homestead.</p> <p>The front elevation is carefully contrived to provide an apparently simple roofline with tall chimneys behind the elevated linear verandah, its roof pierced by a square bay with a battlemented parapet, overlooking the extensive front lawns. The verandah roof is supported on 6" round timber columns with square capitals across the breadth of the building. The roof is clad with reflective corrugated galvanised steel. The front elevation is tuck pointed with two bands of render. The</p>

	<p>verandah which runs right across the frontage and wraps partway back at each side, through a tripartite entry door with flanking leadlight casements into a wide entry hallway. The door and windows are leadlight as a set, and retain all their original hardware.</p> <p>The rear elevation demonstrates a more complex construction, with a substantial internal box-gutter over the internal cross-passage, appearing to mark the junction of two constructional phases.</p> <p>Internally the house consists of two main sections. The front section of the house comprises two large reception rooms, a bedroom, kitchen and the entry hall in an L-shape, wrapping around the possibly earlier section, and all edged by the dominant verandah. The rear part of the house, two steps higher and separated by a cross passage under a box gutter, has its own roof and a typical 'Federation house' plan, with a central spine passage accessing rooms each side. This part consists of four bedrooms, drawing room, bathroom, storeroom (former servant's room) and the back verandah which is partially enclosed to create another store.</p> <p>A site visit in 2006 demonstrated that internally, the original internal mouldings joinery and fire-surrounds were intact, and demonstrated a high level of detail and craftsmanship.</p> <p>In 2020, a four lot subdivision was approved on this lot. The approved subdivision was for two 300m² lots, one 3,918m² lot which will contain the existing dwelling and one 1,554m² lot reserved for Parks and Recreation.</p>

Values	Aesthetic Historic
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and intact example of the inter war Californian Bungalow style. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • This place has historic value for its association with Roy Kelly who contributed to his community by maintaining the adjacent park through his volunteer labour.
History	<p>Anzac Terrace was named c1920 in honour of the landing at Gallipoli in 1915. The road was formerly named Railway Terrace and the selection of this road for renaming may have been influenced by local resident Brigadier General Bessell-Browne who lived at 10 Anzac Terrace until 1947.</p> <p>This portion of Bassendean was subdivided by investor, politician and briefly Premier, Frank Wilson as residential lots in 1895 under the name of 'The Eden Estate'.</p> <p>This residence was built in 1935 for Roy and Muriel Kelly. Roy Kelly (c1907-1954) and Muriel Marguerite Evans (c1902- 1987) married in 1931 and had lived nearby in Anzac Terrace before moving into their new home.</p> <p>Roy Kelly died in 1954 and Muriel stayed on in the house until the 1980s. Roy Kelly was listed as a clerk in the Australian Electoral Roles however he had a keen interest in gardening and he maintained the small park which was located to the south east of their house. This land has remained a public park and has been named 'Kelly Park' in recognition of Roy's contribution to the community.</p>
Integrity / Authenticity	High

Physical description	<p>A brick, render and tiled Inter War and post war Californian bungalow. Terracotta tiled, hipped roof with two gambrel elements, each with timbered half gables. The façade contains two wing elements separated by a recessed entrance porch. A central verandah extends between the two wings, with a skillion tiled canopy supported on four masonry Tuscan styled columns, with a concrete deck.</p> <p>The building façade is half render, half brick; the upper section being rendered and the lower section being brick. The buildings side elevations are plain brick. Façade windows are timber framed casements with leaded lights arranged in 3s and 4s. Those windows on façade which are not covered by the verandah canopy each have a tiled canopy supported by timber brackets.</p>

Values	Historic Aesthetic
Statement of significance	<ul style="list-style-type: none"> • This place has historic value for its association with the establishment and development of Bassendean in the Inter War period. • The place has historic value for its association with small scale retail stores in the metropolitan area which provided a valuable community service. • The place has historic value for its association with local identities, the Rowles family. • The place has aesthetic value as a demonstration of a small corner store and premises in a residential area in good condition.
History	<p>Anzac Terrace was named c1920 in honour of the landing at Gallipoli in 1915. The road was formerly named Railway Terrace and the selection of this road for renaming may have been influenced by local resident Brigadier General Bessell-Browne who lived at 10 Anzac Terrace until 1947. This portion of Bassendean was subdivided by investor, politician and briefly Premier, Frank Wilson as residential lots in 1895 under the name of 'The Eden Estate'. The take up of land was not rapid with most lots unsold until the turn of the century.</p> <p>This place originally consisted of the residence built c1921 and occupied by Harry Evans (c1865-1950) and his wife Mary Helena Evans. Harry Evans was recorded as a carpenter in the Electoral Rolls and it is quite probable that he built the residence.</p> <p>In c1928, a shop was operating from the premises, or it may have been a new structure constructed adjacent to the house. This was operated as a grocery store managed by Mary Evans. Mary operated the store until the mid-1930s when L.W. Cabbage has butchers in the premises.</p>

	<p>In 1936, Ralph Leonard Rowles (1893-1964) commenced operating a mixed business from the premises and it was known locally as the 'Success Hill Store' because of its location. Ralph and Grace Rowles, did not live at the premises but lived for many years at 'Farleigh' in Holmesdale Road in West Midland.</p> <p>Ralph commenced his business delivering dairy products by horse and cart throughout the district and with his success established two premises which were subsequently managed by his two sons; Eric in Guildford and Roy in Bassendean. (Roy and his wife Florence built one of the first homes in Eden Hill at 83 Ida Street.)</p> <p>The Rowles family purchased the house next door at 36 Anzac Terrace in 1955. With the changes to Seventh Avenue and the creation of Lord Street isolating this portion of Bassendean, the business was greatly affected and the property was sold by the Rowles family in 1972.</p> <p>The condition of the buildings declined throughout the later part of the 20th century. In 2008, the lot was subdivided and a new residence built on the land to the west of the original shop and residence. The existing building consisting of the former shop and residence underwent major renovations following the subdivision.</p>
Integrity / Authenticity	Moderate
Physical description	<p>A single storey timber framed dwelling with weatherboard cladding and hipped and gabled roof. The CGI roof has been re-clad and has one tall roughcast rendered, tapering chimney. Dwelling has a separate skillion verandah canopy across elevation which faces the side street. The main elevation facing Anzac Terrace incorporates the gable feature, with timber and roughcast render detail. The main elevation also contains three section timber framed windows with 3x I-over-I sash windows. A skillion verandah canopy extends across this section and to the west return elevation providing shelter to the entrance, which is set behind the projecting section. This section of the house is clad with rough cast render.</p> <p>At the corner of Anzac and Seventh Ave is a timber framed weatherboard and CGI building, the former corner shop with an entrance on the chamfered elevation. Elevation along Anzac Terrace contains large windows.</p>

	Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and intact example of the Federation Bungalow style. • The place has historic value for its association with the development of this area of Bassendean. • This place has social value as a demonstration of the form and scale of housing in the 1910s.
History	<p>Anzac Terrace was named c1920 in honour of the landing at Gallipoli in 1915. The road was formerly named Railway Terrace and the selection of this road for renaming may have been influenced by local resident Brigadier General Bessell-Browne who lived at 10 Anzac Terrace until 1947.</p> <p>This residence was built c1905 for Walter J Butler, a bolt maker and then occupied by Charles Henry Kay (c1876-1933) a wagon builder. Charles and his wife, Elizabeth (c1875-1934) raised their five children at the house which Charles named 'Eden Hill' in the electoral rolls.</p> <p>Charles died in 1933 and Elizabeth the following year and the property was occupied by their son William Kay, a storeman, who occupied the property until the late 1940s.</p> <p>Aerial photographs indicate that the basic form of the residence has not significantly altered although there have been extensions to the rear of the property in recent decades.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Asymmetric single storey timber framed and iron dwelling. The dwelling has a traditional plan form with a projecting gabled bay. There is a hipped roof over the main section of the house, with the roof continuing down at a broken pitch to form the front and eastern verandah canopy. The canopy is supported on turned timber columns with a timber frieze. The recessed section of the front elevation contains timber framed I-over-I sash windows and the entrance door with sidelights and fanlight.</p> <p>The main window on the projecting section of the front elevation consists of a large I-over-I sash window with two very narrow I-over-I side windows with iron canopy above. The projecting front section contains a timbered gable and painted brick and corbelled chimneys.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and intact example of the Federation style. • The place has historic value for its association with the development of Bassendean in the early 20th century. • This place has social value as the house demonstrates the form and scale of housing for working families in the early 20th century.
History	<p>Anzac Terrace was named c1920 in honour of the landing at Gallipoli in 1915. The road was formerly named Railway Terrace and the selection of this road for renaming may have been influenced by local resident Brigadier General Bessell-Browne who lived at 10 Anzac Terrace until 1947.</p> <p>From the available evidence, this residence was built in 1913 and the first occupants were Andrew Wallace (c1858-1926) and his wife Margaret (c1857-1932). The couple had seven children and it appears that Andrew's brother George Watt Wallace also lived at the property. During World War I, Andrew Wallace was serving as a soldier at Blackboy Hill where recruits were trained. He died in 1926 and Margaret remained at the house. On Margaret's death in 1932, the place was transferred to her daughter Jessie McCallum.</p> <p>Aerial photographs indicate that the residence has not been significantly changed since the mid-20th century. It is likely that the property originally included the lot to the west at 49 Anzac Terrace. An addition to the rear of the property is the most obvious alteration to the original form and extent of the building.</p>
Integrity / Authenticity	High/Moderate

Physical description	<p>Single storey brick house with a hipped and gablet roof. The house presents with a symmetrical façade, consisting of a centrally located timber framed front door with glazed and timber side panels. Two groups of timber framed sash windows are situated on either side of the front door. The windows consist of one large central sash pane with two smaller panes on either side of this.</p> <p>The roof is hipped with a gablet running along the central east-west ridge and is clad in corrugated metal. There are two rendered brick chimneys with decorative chimney crowns; one on east and the west hipped sides of the roof. Separate to the roof line is a bullnose verandah which extends across the entire façade and is supported by slim timber posts.</p>

Values	Historic
Statement of significance	This place has historic value as a demonstration of the type of housing constructed in the period following World War Two when construction supplies were in limited supply.
History	<p>This portion of Bassendean was subdivided by investor, politician and briefly Premier, Frank Wilson as residential lots in 1895 under the name of 'The Eden Estate'. Anzac Terrace was named c1920 in honour of the landing at Gallipoli in 1915. The road was formerly named Railway Terrace and the selection of this road for renaming may have been influenced by local resident Brigadier General Bessell-Browne who lived at 10 Anzac Terrace until 1947.</p> <p>This residence is constructed from the materials that were readily available in the post war period. With the restriction on building materials imposed by the state and federal governments to ensure that priority works were constructed there was often little available for residential construction.</p> <p>Bricks made from concrete blocks could be made by the home owner and often the home builders would camp on site to build their home. The original owner or occupier of this residence has not been determined from the readily available resources.</p>
Integrity / Authenticity	High
Physical description	<p>A single storey concrete block and tile Californian Bungalow located on an open corner lot. The house has a traditional asymmetric plan form to the façade incorporating a recessed entry, projecting wing and a verandah across the remaining section of the façade.</p> <p>The roof is hipped with separate smaller hips to the projecting bay and the verandah canopy. The canopy to the verandah is supported on substantial tapered masonry piers with tapering columns on top with a rendered brick balustrade extending between the columns.</p> <p>The windows to the two sections of façade are three-section openings incorporating multi-paned casements flanking a central fixed pane.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a late and predominantly intact example of the Federation Bungalow style. • The place has historic value for its association with the development of Bassendean in the early 20th century. • This place has social value as the house demonstrates the form and scale of housing in the early decades of the 20th century.
History	<p>This portion of Bassendean was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision. The lots were not developed rapidly and most not until the period following World War Two.</p> <p>From the available information this residence was built c1916 for William and Maria Hart. William Hart (c1871-1917) worked as a fitter, presumably at the Midland workshops, until his death in 1917. Maria Hart stayed on in the house until the 1930s with her son Percival. Throughout the 1930s and 1940s the place was occupied by R. C. Rees. Aerial photographs indicate the place underwent major additions in the early 2000s.</p>

Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey dwelling of timber framed construction with cladding of cement fibre sheet for the upper two-thirds and weatherboard for the lower third of the façade. The façade consists of an off centre timber framed front door which is constructed of glazed door panes and timber separating members and has a four paned side panel to the west of the front door. On either side of the front door is a pair of double outward opening, eight paned, timber framed French doors.</p> <p>The roof is hipped and clad in corrugated metal and contains a brick chimney with a metal chimney cap which is situated on the west plane of the hipped roof. The sweep of the roof continues beyond the façade, with a small break in pitch, to create the verandah which extends along the entire façade and is supported by slim rectangular posts with a simple timber frieze.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a rare example of a stone residence. Its good condition and intact original detailing contribute to value. • This place has historic value for its association with the post-World War Two period. • The place has social value as a demonstration of the scale of a typical family home of the 1950s.
History	<p>This portion of Bassendean was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision. The lots were not developed rapidly and most not until the period following World War Two.</p> <p>The land on which this residence is located was purchased in 1945 from the well-known local family, the Pickerings. Construction of the house began in 1948 but the shortage of materials meant that the residence was not completed until 1950 for William James Francis Young (c1912-1991) and his wife Millicent May Young (c1915-2004). William Young was a wood machinist and the couple lived at the house until at least the 1980s. It is not clear why the house was constructed in stone, a relatively unusual material for the district.</p>

	Information from aerial photography indicates the residence has changed little since construction.
Integrity / Authenticity	High
Physical description	<p>A single storey stone and tiled property of asymmetric plan form. The façade is of distinctive stone construction comprising contrasting iron stone and limestone arranged in a random pattern with beaded mortar joints.</p> <p>The verandah canopy extends over the recessed section of the façade supported on masonry doric styled columns with stone wall to match the house. The canopy is part of the main roof albeit at a slight broken pitch. The roof is hipped with a separate hip to the projecting bay.</p> <p>The windows are timber framed side hung casements, some with a fixed central pane. The panes incorporate leaded glazing.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a late example of the Federation style set in a mature garden. • The place has historic value for its association with the development of Bassendean in the early 20th century. • The place has research value as its evolution from 1898 demonstrates different building styles and techniques. • The place has historic value for its association with prominent local community member, John Pickering and his family. • This place has social value as the house demonstrates the form and scale of housing for professional men and their families in the early 20th century.
History	This portion of Bassendean was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied

	<p>to the roads in this subdivision. The lots were not developed rapidly and most not until the period following World War Two.</p> <p>Information from the current owners states the building has been constructed in several stages and been adapted and added to regularly. It is understood that the first structure on the property was a simple two roomed shack built in 1898. Between 1905 and 1911, three rooms and a hallway were added in a more conventional manner of construction when compared to the earlier rudimentary shack. During this phase of work or shortly after the ceilings were raised in the original portion of the house and a new roof constructed across the two structures. It is believed these additions were instigated by John Pickering who secured the large property and established an orchard. Works were again undertaken at the place for John Pickering in 1923 as documentary evidence has been found to confirm works at the property.</p> <p>John William Pickering (c1869-1957) and his wife Jane Anne, nee Waites (c1865-1955) were very active in the Bassendean community. John Pickering was elected Chairman of the West Guildford Road Board in 1913-14 and took that office again in 1921-22. With the adoption of the name 'Bassendean' in 1922, he became the first Chairman of the Bassendean Road Board and held office until 1929. His contribution to the Town of Bassendean was acknowledged in the naming of 'Pickering Park' in 1913 prior to his election to office as a tribute to the work he had done to establish the park.</p> <p>The couple lived in the house they named 'Floreath' until the 1950s on the occasion of their fiftieth wedding anniversary, John Pickering made the comment that Jane 'was a wonderful woman who 'did all the housework and washing for a house that measured 60ft by 60ft'.</p> <p>In the 1960s the house was converted to a triplex and the property boundaries were reduced. New structures were constructed adjoining the house and partitions were erected within the original rooms.</p> <p>In 1974, the property was transferred to new owners who undertook additions and renovations over the following decades. The current owners have continued to undertake sympathetic additions and repairs including reroofing the whole house in zincalume.</p> <p>During the additions particular attention has been made to retain the mature trees in the garden including an English Oak and an Umbrella tree.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey dwelling of timber framed construction clad in weatherboard. Most detail of the façade is obscured due to dense and mature vegetation. The façade has two projecting sections; one on the east and west corners with a central recessed section. The front entrance is centrally located on the east projecting section façade.</p> <p>The roof appears hipped and clad in corrugated metal. There is a gabled dormer window situated in the south plane of hipped roof within the recessed section of façade. A separate corrugated metal bullnose canopy extends across the east projecting and recessed sections of façade and is supported by timber posts with decorative timber brackets.</p>

Values	Historic Aesthetic Social
Statement of significance	<ul style="list-style-type: none"> • The place has historic value for its association with the development of Bassendean in the early decades of the 20th century and the provision of facilities to the growing community. • The place has aesthetic value as a well maintained informal landscape in the suburban environment. • The place has social value to the many members of the community who have visited the park for formal and informal occasions.
History	<p>This reserve was originally designated as several residential lots in the subdivision offered c1905 by developer, Wesley Maley. The subdivision was known as 'Riverside', and many of the road names reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Some lots were taken up but there was not the rapid sale of lots such that in 1914 the subdivision was again promoted in the local press. The advertising at this time notes that 'a large river frontage block has been donated to the Roads Board as a Public Recreation Ground'.</p> <p>The term donation is misleading as a report in the local press from December 1913 notes that the Bassendean Road Board had recently purchased the new riverside recreation reserve. On 13th December a 'Gala Day' for the children of the district was held at the reserve which was formally opened by Premier Scadden. Premier Scadden congratulated the Road Board on securing the reserve of over five acres for £150 even if the purchase was 'regarded merely as speculation'. After the opening the Premier, the Minister for Works and the Chairman of the Roads Board planted some ornamental trees. The afternoon included performances by the</p>

	<p>YMCA band, demonstration of West Guildford Fire Brigade, exhibition of life saving by the YMCA, afternoon teas and trips on a motor launch. The main focus of the day was the children's entertainment and competitions for which prizes were awarded.</p> <p>In 1922, the area was formally gazetted as a reserve and named in honour of John Pickering who was a member of the West Guildford Road Board and the subsequent Bassendean Road Board achieving the role of Chairman in 1913-1914 and 1921-1923. He was also involved in the purchase of the reserve and a key organisation of the Gala Day at the reserve in 1913.</p> <p>Since 1913, the reserve has been predominantly used as a passive recreation space with little formal intervention by the Town of Bassendean apart from maintaining the grassed landscape. Pathways have been added in the later decades of the 20th century. The Bassendean Sea Scouts boat house was located on the northern end of the river frontage in the 1960s and 1990s.</p> <p>The reserve continues to be vested in the Town of Bassendean and in 2013 the Town organised a celebration to mark the 100 years since the acquisition of the reserve by the Town.</p>
Integrity / Authenticity	High

Statement of significance	<ul style="list-style-type: none"> • This place has some aesthetic value for its demonstration of the basic form and elements of the Inter War Californian Bungalow style. • The place has historic value for its association with the development of this area of Bassendean. • This place has social value as a demonstration of the form and scale of housing in the inter war period.
History	<p>This portion of Bassendean was subdivided for residential development c1905 by developer Thomas Briggs who gave his name to this street.</p> <p>From the available information this residence was constructed in 1936 for the owner and occupier Charles Hyland. Hyland occupied the property until the late 1940s.</p> <p>Information from aerial photographs indicates that the roof was green corrugated iron in the 1980s which was changed to its current red in the 1990s. The original envelope of the building has been extended through extensions and additions while other structures have been built in the rear of the property.</p>
Integrity / Authenticity	High/Moderate
Physical description	A single storey brick and render house with a complex Colorbond clad, hipped and gabled roof. A projecting gable section form the west part of façade incorporates timber detailing at the apex of the gable end. The upper section of the projecting section is rendered bricks and the lower section is tuck pointed brick.

	The south elevation of the projecting section contains a three-section timber framed casement window with a colorbond skillion awning with timber supports over the window. The hipped roof over the main section of house breaks the roof pitch slightly and extends to form the verandah canopy over the recessed section of façade where the front entrance is located. The front entrance and remainder of house is obscured by garden and picket fence.

History	<p>This portion of Bassendean was subdivided for residential development in c1912 although there were only approximately 15 houses in the street by 1920. The name, Broadway assigned to this road, was a logical response to its breadth and length.</p> <p>This residence was constructed c1935 and the first occupant and probably owners were Edward Joseph Regan (c1907-1991) and his wife Cecilia Rose nee Gregg (c1905-1949). The couple had married in 1928 and lived in the area before settling at the house in 1936 where they raised their three daughters. Cecilia Regan died in 1949 and Edward, who worked as a moulder lived on in the house until the 1980s.</p> <p>The original lot was subdivided and a residence was constructed on the portion of the lot facing Ida Street.</p> <p>The owners in 2004 stated that at that time only the front four rooms retained the original finishes.</p>
Integrity / Authenticity	High/Moderate
Physical description	A single storey timber framed, weatherboard and fibre cement clad house. The house presents with an extensive façade comprising of

	<p>three sections; two projecting end sections and a recessed central section with a verandah. The place is of timber framed construction with weatherboard cladding to the lower section of the elevation and fibre cement sheeting from sill height to eaves. The west projecting end and recessed central section of the façade have timbered gables whilst the eastern projecting section has the hipped roof and open eaves.</p> <p>All windows are 3-pane arrangements each consisting of timber framed casements with integral highlights. The windows of the west gabled projecting section and the eastern hipped projecting section have skillion canopies supported by timber brackets. The central recessed section incorporates a further 3-pane window of the same design and the front entrance. A small verandah extends across this recessed section of the façade with the gabled canopy supported on square timber posts, with a simple timber balustrade and steps at the eastern end.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a rare, large intact and well executed example of the Inter War Californian Bungalow style executed in concrete blocks. • The place has historic value for its association with the development of Bassendean in the Inter War period. • The place has social value as a demonstration of the form and scale of residence for a professional family in the Inter War period.
History	<p>This portion of Bassendean was subdivided for residential development in c1912 although there were only approximately 15 houses in the street by 1920. The name, Broadway assigned to this road, was a logical response to its breadth and length.</p> <p>In 1928, Alex Martin (c1865-1953) applied to the Bassendean Road Board to build a cement block residence on this property. Approval was granted and construction presumably began the following year although the Post Office Directories only record Martin living at the place in 1933.</p> <p>The house was originally located on a larger lot which have been subdivided and built on from the 1970s. Aerial photographs indicate the building retains much of its original form and extent although a new carport and rear extension were constructed from the 1980s. The roof cladding appears to have been changed from red to the current grey in the late 1990s.</p>
Integrity / Authenticity	High/Moderate

Physical description	<p>Single storey inter-war dwelling set in an elevated position. The dwelling is constructed of textured concrete blocks, from the 1930s and has a symmetrical façade with central sweeping steps to the verandah in line with the front entrance. Most of the façade is not visible due to dense mature vegetation.</p> <p>The roof is hipped with a steep pitch and clad in tiles. The roof extends beyond the façade to create the verandah which runs across the entire façade. A timbered gable is situated above the centrally located front entrance and is supported on the east and west corners by two Ionic columns. At the lower west corner of property a modern garage has been added.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as the original portion of the residence built c1899 in the Federation Bungalow style demonstrates the style and is located within an expansive garden setting. The place has historic value for its association with the early development of the district for residential occupation. The place has historic value for its association with prominent early resident and builder Charles Rickwood Wicks and leading public servant John Morton Craig. The place has social value as the remaining portion of the original residence within its garden setting demonstrate the type of accommodation built for affluent members of the Bassendean community at the turn of the 19th century
History	<p>The land on which this residence is located was subdivided for residential development by Harry Anstey. He purchased 100 acres of land in Bassendean, or West Guildford as it was then known, in 1897 and the land was divided into 237 lots for sale in 1898 under the name 'Bindaring Park'.</p> <p>This residence was constructed by local builder Charles Rickwood Wicks who was responsible for the construction of several fine homes in Bassendean. A plan of the property ownership in Bassendean in 1899 shows that a building was located on this site and the ownership is noted as 'Wicks' however other sources indicate that the house was built in the early 1900s.</p>

	<p>The Wicks family did not appear to have lived at the residence for long, if at all, before the residence was occupied by John Morton Craig (1850-1924). Craig worked as a stockman and stock breeder before taking up a position as the Chief Inspector of Stock in the 1870s. He held that position for over 30 years and was well regarded for his knowledge in the profession. He married, Marjorie Johnson in 1915 when he was in his 60s and the couple lived at 'Hazeldean' as he called the property until his death in 1924. Later owners and occupiers for many years were the Gill family.</p> <p>The 2017 owners of the property provided the information that the house was extended to the north c1915 and many additions and alterations have been undertaken since that time. The portion of the residence from the first phase of construction is the front two rooms. The bull nose verandah is also understood to be modified from the original construction. The front door is a later addition although the fan light above is believed to be from the original construction.</p> <p>The property continues to occupy a large site which is consistent with its original context although extensive landscaping was undertaken in c1984. Portion of the lot to the west was removed to enable a new subdivision in 1983.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey brick and iron house of symmetrical plan form to the façade. The house has a slightly elevated position to take account of the changing land levels across the site.</p> <p>The façade contains a centrally placed front entrance with sidelights and fanlight, flanked by full height timber framed 1-over-1 sash windows.</p> <p>The brick façade is enlivened with two rendered bands, the lower one at ground level and incorporates the sills to the windows. The higher band is level with the top of the door.</p> <p>Towards the rear of the original section of the house, a shallow projecting wing with a gabled roof sits behind the main façade. This section incorporates a 3-section opening with casement windows and smaller top hung windows in an arched arrangement. A decorative rendered swag is positioned below the sill.</p> <p>A sweeping driveway extends across the front elevation with dual entry and exit points. Large gardens are situated around the property with many mature trees.</p> <p>Later buildings constructed with similar materials and design elements are located on the site.</p>

Statement of significance	<ul style="list-style-type: none"> The place has social value for its provision of facilities to the volunteer fire brigade in Bassendean since the 1970s. The place has historic value as a demonstration of the ongoing commitment to volunteer fire brigade services by the Town of Bassendean. The place has historic value for its association with valued members of the Bassendean Volunteer Fire Brigade, Thomas Gardiner and Manfred Hoefler.
History	<p>This track was built in the 1970s for the Bassendean Volunteer Fire Brigade to enable training of their members. Previously a track was located on the BIC reserve but with the realignment of Guildford Road the original track could not be accommodated on that site.</p> <p>The track was named in honour two of its members, Tom J Gardiner and Manfred Hoefler. Thomas Gardiner (c1914-1989) was a member of the West Australian Volunteer Fire Brigade for 48 years, serving 40 years in Bassendean. He achieved life membership of the Bassendean Volunteer Fire Brigade in 1956 and in 1978, he was awarded a British Empire Medal. His three sons all served with the Bassendean Brigade.</p> <p>Manfred Hoefler (c1951-2005) was Captain of the Bassendean Volunteer Fire Brigade for 10 years and also awarded life membership of the Brigade.</p> <p>The track was resurfaced c2003 and continues to be used for its original function.</p>
Integrity / Authenticity	High
Physical description	A long rectangular portion of the Ashfield Reserve paved with asphalt and marked by painted lines into a grid formation. The area is edged with concrete kerbing and a small shed is located on the

Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Historic Social
Statement of significance	<ul style="list-style-type: none"> • The place is indicative of the standard plan and type of housing in the mid-twentieth-century. • The place has historic value for its association with the development of this area of Bassendean in the period following World War II. • This place has social value as a demonstration of the form and scale of housing in the post war period for working families.
History	<p>This area of Bassendean was subdivided for sale as residential lots in 1910 but few of the lots were taken up at this time. This portion of Cyril Street was predominantly settled in the 1950s and 1960s when the Perth Road District experienced an unprecedented rate of suburban growth, due to the increased birth rate following World War II, and the influx of migrants from overseas and interstate. There were pockets of development by the State Government Housing department in this area and this residence may be an example of this program.</p> <p>The choice of the name Cyril Street is in recognition of the contribution of early resident Cyril Jackson, the first Chairman of the West Guildford Road Board and the first Director General of Education in Western Australia. His contribution was also recognised when Cyril Jackson high school was constructed in 1962. Information from aerial photographs indicates this residence was built between 1953 and 1965. The first owners or occupiers have not been determined in this research.</p> <p>The original lot was subdivided c2006 to enable the construction of a new residence on the rear portion of the lot. In c2012, the house</p>

	underwent extensions to the rear and the original blue tile roof was replaced with the current zincalume cladding.
Integrity / Authenticity	High
Physical description	<p>A single storey brick dwelling with replacement zincalume roof. The property has a symmetrical façade with two projecting bays and a recessed central section. Both bays have gabled roofs and three section timber framed windows incorporating side hung casements flanking a central fixed pane. The recessed central section incorporates a further 3-section window and the front door.</p> <p>The hipped and gabled roof is clad with zincalume. The house is positioned behind a sparsely planted garden and a low brick wall with 1.8m piers and fence panels. A driveway and carport adjoining the house are located on the eastern side of the lot.</p>

Statement of significance	<p>Daylesford, Bassendean, a two-storey red brick, weatherboard and Marseille tile residence in the Federation Arts and Crafts style in a prominent location overlooking the Swan River, has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> the place is an excellent and finely detailed example of the Federation Arts and Crafts style, both in its external and internal presentation, and is a rare example of a two-storey Federation Arts and Crafts residence; the place was built for Cyril Jackson, the first Inspector General of Schools in Western Australia. Jackson played a significant role in the history of education in Western Australia during his appointment (1896 to 1903), and was instrumental in the transformation and reorganisation of State's education system into a modern public education system; Jackson was influential in the formation of the West Guildford Road Board and became its first chairman holding the inaugural and subsequent meetings of the Board at this place until he left the state; the place has an in-built, unusual and innovative ventilation system that was especially designed for Cyril Jackson; and the place is representative of a small number of large and stately residences that were built by senior Western

	Australian public servants of the State in landmark locations, such as along the Swan River.
History	<p>Since the 1850s, the river side lots in the west end of the Guildford town site had been purchased by the more affluent and prominent citizens who constructed grand houses or mansions appropriate to their wealth and social status, this trend accelerated with the onset of the economic boom after the discovery of gold in the 1890s.</p> <p>In 1897, Swan Location Q, a large parcel of land in the West Guildford area on the banks of the Swan River and which comprised over 94 acres, was purchased by a Harry Anstey. Within a year, Anstey had subdivided this location up into a substantial number of lots, of which Lots 11, 12, 13 & 14 on North Road was purchased by Cyril Jackson in March 1898.</p> <p>Cyril Jackson had been brought out from England in late 1896 by the Western Australian Colonial Government to take up the inaugural appointment of Inspector General of Schools with the Department of Education. During his time in Western Australia, which lasted just six years, Jackson implemented policies based upon his philosophy of 'New Education' and was responsible for the transformation and reorganisation of State education into a modern public education system.</p> <p>Once Jackson purchased the land in West Guildford, he had a commodious and stately house - befitting his position in government - designed for him by Lewis Henry Duval, who lived in the house next door to Jackson.</p> <p>Lewis Henry Duval was the only son of Henry James Burgess Duval, the Deputy Superintendent of Fremantle Prison from 1853 until 1862, and his wife Mary Ann, who had arrived in Western Australia in 1853. In 1867 the family returned to England, where Lewis Henry trained as an architect before returning to Perth in the early 1880s.</p> <p>The residence, which Jackson named 'Daylesford', was built on what was originally Lot 13, with the outbuildings – including the kitchen and servants quarters, on Lot 14. The private jetty that Jackson also had built was on the south-eastern most corner of the property. The residence was accessed by a circular driveway lined with pine trees and an orchard and several timber outbuildings were located on the property.</p> <p>The building of brick on the ground floor and timber on the second storey a billiard room, an indoor conservatory, five bedrooms and an attic for Jackson's Indian manservant.</p> <p>A feature of the residence was a unique ventilation system for cooling the house.</p> <p>Jackson was a significant member of the Bassendean community as the first Chairman of the West Guildford Road Board and the first official meeting was held at Daylesford on 12 July 1901. Road Board Meetings were held at the house until 1903 when Jackson returned to England.</p> <p>The property was transferred to Rachel Lukin in 1903 and later owners and occupiers were the Burns family, John and Sara Thorpe. During the Thorpe's ownership in the 1960s the landholding was subdivided to accommodate 13 new houses and the creation of Daylesford Road.</p>
Integrity / Authenticity	

Physical description	<p>The majority of this dwelling is obscured by dense vegetation; very little is visible.</p> <p>Information on physical aspects of the building has been drawn from the State Heritage Office documentation prepared in 2012.</p> <p>Daylesford, is a two storey red brick, weatherboard and Marseille tile residence in the Federation Arts and Crafts style overlooking the Swan River set amongst established garden grounds.</p> <p>The front elevation has a single storey section to the south, attached to the main body of the house, which is two storeyed. There is a central, decorative porch. Ground floor walls are red brick over rendered foundations; the single storey section is in running bond while the remainder of the original brickwork is Flemish bond. The first floor walls are cream painted weatherboard. In the north-west corner of the front elevation the first floor weatherboards sweep down to form eaves over the ground floor windows. Ground floor windows have painted rendered sills, while first floor windows have timber sills with decorative timber scrolls below.</p> <p>At the front of the house the roofs of both the single and double storey sections are shallow hipped, while at the rear, the roofscape is a combination of hips and gables. At the rear, the east section of the first story is a projecting gable filled in with vertical panelling. The weatherboards on the east and north walls of this section also sweep down to form eaves over the ground floor, with the eaves supported on curved timber corbels.</p> <p>On the south wall of the east gable section, the base of the weatherboard cladding meets the hipped verandah roof of the ground floor. The concave hip of the verandah roof that adjoins the south wall is infilled with timber louvers. This verandah roof wraps around the building in the south to meet the single storey section of the building.</p> <p>The verandah posts are square with stop-chamfered corners set into brick pedestals. The floor is red painted concrete. A second verandah with a skillion roof clad with Wunderlich tiles has been added to the north elevation. It has circular hollow section posts and a brick paved floor</p> <p>The front porch is approached by two brick pathways: one from the garage and the other from the front of the block on an axis to the front steps. The porch is a decorative structure set out from the front of the house. Three central steps lead directly up to the front door, with very narrow raised concrete platforms either side.</p> <p>The width of the porch is filled with the front door and side lights. The four panel front door has glass panes above timber, a large central brass handle and brass knocker. The side lights consist of a row of timber panels at ground level, with three rows of four small fixed panes above. There are two matching fanlights above the front door. Running above the fanlights and side lights is another row of smaller square fixed panes.</p> <p>The house contains an unusual ventilation system - a series of primitive ducts channel cool air from ground level to outlets located 4' above floor level of each room.</p> <p>In 2018, a new driveway and garage at the front of the property was developed. The development is situated on the northern boundary and was implemented to reflect the style of the existing home with the use of brick. The garage roofing is colorbond in lieu of tile as used on the dwelling.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The streetscape has aesthetic value as a predominantly intact example of an early 20th century streetscape. The precinct has historic value for its association with the development of Bassendean from the 1890s. This precinct has social value as the house demonstrates the form and scale of housing for families of a range of incomes and types of occupations.
History	<p>In 1897, land speculator, parliamentarian and government assayer, Henry Anstey purchased a large parcel designated as Location Q which he subdivided and offered for sale under the name 'Bindaring Estate'. Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>Settlement in Devon Road progressed quickly as it was well located near the river, road and railway line. Housing in this street was for a range of incomes and occupations, from tradespeople to highly skilled professionals. The residences built in the street were often occupied by families for many decades and family groups occupied several houses in the street.</p> <p>The Town of Bassendean undertook special control in the development of the area in the 2000s. The result was a more sensitive response to the heritage buildings in the street which has had a positive impact on the streetscape.</p>
Integrity / Authenticity	High/Moderate to High
Physical description	The housing in Devon Road exhibits the style and detail of the early decades of the 20th century. Later additions and infill development

	<p>has been largely successful in creating a coherent streetscape. The individual gardens and street planting are generally of a high quality and well maintained which contributes to the amenity of the streetscape.</p> <p>Many buildings have been individually included in the Municipal Inventory.</p>

Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this residence was built in 1911 for George Hollis Gardiner (1872-1936) and his wife Amy Clara Gardiner (née Hitchcock) (1888-1980). George and Amy had married in 1910 and the couple moved into this home and raised their family of seven children. George Gardiner worked as a clerk before enlisting to serve in the AIF during World War One. In later years he worked as a grocer and following his death in 1936, Amy lived on in the house until her death in 1980. Devon Road was closely associated with members of the Gardiner family. George was one of three brothers who lived in the street in the early 20th century. His father Colonel Stephen Murray Gardiner was the first Inspector of Schools in Guildford.</p> <p>Aerial photographs indicate that the house underwent significant extensions c2009 including recladding of the roof in zincalume,</p>

	replacing the original corrugated iron. The owners of the property c2004 indicated that prior to 2004 many of the original structures in the back yard had been removed.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey brick and iron house of traditional asymmetric plan form to the façade. The roof is hipped with a gable to the projecting section of the façade. Both the roof and the verandah canopy have been reclad in zincalume. The house has been extended towards the rear creating a stepped western elevation.</p> <p>The house is of face brick construction with a rendered band extending around the north and western elevations at sill height. The windows to the front elevation are single 1-over-1 sash windows with painted concrete sills. The main entrance is located on the western side of the house.</p> <p>The roof is a complex hipped form with a series of three hips positioned behind each other. The shallow projecting bay to the front elevation incorporates a gable with fibrous plaster sheeting and timber batten detailing. Tall brick corbelled chimneys are located on east and west planes of the roof. The bullnose verandah is a separate element to the main roof and extends across the full width of the façade, supported on square timber columns. The verandah has a timber deck with no balustrading.</p> <p>A paved driveway extends along the eastern boundary leading to a detached garage in the rear. The front garden is mainly grass enclosed by a high timber picket fence.</p>

Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this residence was built c1907 for Charles Thomson Wickham (c1872-1962) and his wife Annie Millicent Wickham, née Parsons (c1885-1972). The couple had married in 1907 and raised their family of three children at the house. Charles Wickham originally worked as a draftsman and was later described in the electoral roles as an engineer. The Wickham's left the property in the early 1930s and a later occupant through the 1930s and 1940s was Robert Leibenow.</p> <p>Aerial photographs indicate that the original building form does not appear to have changed significantly although the current form of the verandah is likely to be a later addition. In early 2009, the roof was reclad with zincalume and the verandah was replaced with the current bull nose style verandah, separate to the main roof. It is likely that the previous roof cladding was asbestos.</p>

Integrity / Authenticity	High/Moderate
Physical description	<p>Single story brick and iron house of asymmetric plan form. The house is of face brick construction with tuck pointing and two rendered bands that correspond with the sill height of the main window and the transom between the main casement and the multi-paned highlight window. The main section of the façade is a gabled wing with timber and roughcast finish to the gable element and projecting brick frame around the window.</p> <p>A stepped verandah wraps around the eastern elevation incorporating a separate bullnose verandah supported on turned timber posts with a concrete deck. The main entry is located in the central section of the façade consisting of timber and glass panelled door, glass and panelled side panels and fanlights above. There are timber framed French doors in the east elevation.</p> <p>The roof is a complex hipped and gabled form reclad in zincalume with rendered corbelled chimney to the rear of the roof. The garden is lawned without any boundary treatment.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and predominantly intact example of the Federation style built for a professional family. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • This place has social value as a demonstration of the form and scale of housing in the early 1900s for a professional family.
History	<p>In 1897, land speculator, parliamentarian and government assayer, Henry Anstey purchased a large parcel designated as Location Q which he subdivided and offered for sale under the name 'Bindaring Estate'. Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this house was built in 1910 for the owner and occupier, Emil Henri Reiter and his wife, Marie Amalie Augusta Reiter. The couple had arrived in Sydney in 1883 from Europe. With their two small children they settled in Australia and were living in Perth in the early 1900s before moving to Bassendean. Emil Reiter worked as a hair dresser and the family lived at this house until Emil's death in 1940. Marie Reiter died the following year.</p> <p>Aerial photographs indicate that the original cottage was extended prior to 1965 with a flat roofed extension which was subsequently changed to a twin peaked roof structure sometime in the early 1980s. A further large addition was constructed c1990.</p>
Integrity / Authenticity	High/Moderate

Physical description	<p>Single storey tuck-pointed brick constructed dwelling, with a CGI clad hipped roof. Projecting from the west hip of roof is a single chimney with a decorative rendered crown and a curved metal chimney cap.</p> <p>A separate bullnose verandah extends across the entire south elevation. Due to the well-established front garden, no other details of the south elevation are visible.</p> <p>In late 2017, a patio was constructed on the western boundary to the rear of the dwelling. The roof overhang, gable and materials pay respect to the existing dwelling.</p>

Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this residence was built in 1912 for plumber, Frederick Henry Spencer (c1878-1958) and his wife Annie Burns Spencer, née Crawford (c1887-1961). The couple had married in 1911 and moved into their new home the following year. Children were born in 1912, 1914 and 1915 and the family lived at the house until c1931. B.J Richards lived at this property from 1920 as per an entry in the 1921 Post Office Directory.</p> <p>Aerial photographs indicate that the house underwent significant alterations and additions c1990 including major additions to the west and the rear of the original building which altered the roof line.</p>
Integrity / Authenticity	High/Moderate

Physical description	<p>Single storey brick and iron house of asymmetrical plan form incorporating a central projecting bay. The house is of face brick construction with a rendered and painted band extending across the façade at sill height. The roof is a complex hip form with a gable to the projecting element. The gable is roughcast render with decorative timber detail. A three section timber framed window is positioned beneath the gable comprising of three casements and three highlights. The operable casements are divided into three panes whilst the central casement is a single pane.</p> <p>The roof comprises a series of hips running north to south and east to west together with the central gable. The east-west hip was extended in the early 1990s when the garage was constructed. Both the roof and the separate verandah canopy are clad in galvanised iron sheeting. The bullnose verandah canopy is positioned below the eaves and extends across all aspects of the façade including the garage and is supported on turned timber posts with a simple timber frieze.</p>

Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this residence was constructed for the owner and occupier, Charles Groves Gillan (c1891-1960) a boilermaker, and his wife Jane Gillan, née Irvine. The couple married in 1913 and moved into the new house that year. The Gillan family were closely associated with the district as Charles' parents, James and Jessie Gillan, lived across the road at 30 Devon Road. Charles and Jane Gillan left the property c 1918 and a subsequent long term occupant was Thomas Wood.</p> <p>Aerial photographs indicate that the original form of the house has changed minimally since its construction apart from the flat roofed addition at the rear of the house which has been added to throughout the decades. The shed in the south west corner of the property has been present since the mid-20th century.</p> <p>Information from the 2017 owner states that the interior of the house has been modified from the original layout and some original detail</p>

	has been removed. Externally the original timber verandah has been replaced with a concrete deck and the front door has been relocated from the front of the house to its current position toward the rear of the property.
Integrity / Authenticity	High
Physical description	<p>Single storey brick and iron house with hipped iron roof. The house is of face brick construction with tuck point finish and a rendered band at sill height. The windows are timber framed casements with top light windows arranged in groups of three. The main entrance is located on the western elevation towards the rear of the property. The concrete deck of the verandah is a replacement of the original timber deck.</p> <p>A broad brick and render chimney extends from a central position in the north roof plane with further corbelled chimneys towards the rear of the roof. A separate skillion canopy extends around the front and west elevations, supported on turned timber columns with timber brackets.</p>

Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available evidence this residence was built c1905 for boilermaker James Arnold Gillan (c1853-1966) and his wife Jessie, (c1860-1941). James Gillan was a member of the West Guildford Road Board between 1907 and 1909. The Gillan family were closely associated with the district as their son Charles Gillan, lived across the road at 29 Devon Road.</p> <p>Aerial photographs indicate that during the late 1990s additions to the western side of the house created a new roof line and added extensively to the house. The orientation of the house was also altered by providing access from the Briggs Street elevation.</p>
Integrity / Authenticity	High/Moderate
Physical description	A much enlarged house on a corner lot with dual frontages to Devon Road and Briggs Street. The original section of the house was of brick and iron construction with the rear addition along Briggs Street

	<p>having been sympathetically designed and constructed utilising the same palette of materials. The original section of the house incorporates a rendered band at sill level and decorative swags beneath the window sills. The original section of the house has a symmetrical façade with a centrally placed entrance flanked by timber framed sash windows. The door consists of timber panelled and glass door with stained and leaded glazing with matching side panels either side of the door and fanlights above.</p> <p>The roof has been altered to accommodate the rear addition but the front section still presents with a hipped roof with gablet as per the original design with a separate verandah canopy. As the house has been extended the verandah now wraps around the front elevation and the west elevation but originally only extended across the front elevation. To the Devon Road frontage, the canopy is supported on fluted metal posts with non-original decorative filigree lace frieze and brackets. The verandah deck is concrete with brick retaining plinth.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed example of the Inter War Californian Bungalow style. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • The place has social value as a demonstration of the form and scale of housing in the early 1900s.
History	<p>In 1897, land speculator, parliamentarian and government assayer, Henry Anstey purchased a large parcel designated as Location Q which he subdivided and offered for sale under the name 'Bindaring Estate'. Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this residence was built in 1936 for James Henry Loughridge (c1885-1967) and his wife Julia Hanna Loughridge, née Till (c1887-1985). The couple married in 1911 and they lived in other areas of Bassendean until moving into this residence. James Loughridge worked as a pipe fitter all his career and the family lived at the house until James died in 1967.</p> <p>Aerial photographs indicate that the roof was originally clad in terracotta tiles and in late 2012 was replaced by red Colorbond. The garage added to the eastern boundary was built c2007 and the extension to the rear of the original house with the flat corrugated iron roof was built c1990.</p>
Integrity / Authenticity	High/Moderate
Physical description	Single storey Californian bungalow of brick construction with hipped and gabled roof. The house presents with the traditional asymmetric façade with projecting wing and recessed section with verandah.

	<p>The façade has a brick dado to just above sill height with render above whilst the side elevations are completely face brick. The windows are timber framed casements with stained and leaded glazing.</p> <p>The roof is predominately hipped with half-hipped gables to the front elevation. The roof has been reclad in red colorbond replacing the original terracotta tiles and has retained the distinctive chimney to the west plane of the roof. The wide western gable forms the verandah canopy presenting as a typical element of the Californian Bungalow style and supported on masonry columns on top of a the balustrade. Both gables have timber detailing. A flat window canopy is positioned above the window to the eastern section of the elevation.</p> <p>Clear view of the property from the street is obscured by the high brick boundary wall.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and predominantly intact example of the Federation style in timber. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • This place has social value as the remaining original front portion of the house demonstrates the form and scale of housing in the early 1900s for working families.
History	<p>In 1897, land speculator, parliamentarian and government assayer, Henry Anstey purchased a large parcel designated as Location Q which he subdivided and offered for sale under the name 'Bindaring Estate'. Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this residence was constructed c1903 for Thomas Dominik Mullooly as it was first noted in the Post Office Directories in 1904. Mullooly, a labourer, married Helene May Harman in 1910. Thomas Mullooly later recorded his occupation as repairer and the couple raised their two boys, Frank and Jack at the home. Following Thomas' death in 1925, May lived on in the house until her death in 1975. The family were close knit with Frank building the house next door (44 Devon Road) and Jack living at 46 Devon Road until his death in 1992. It is possible that Thomas Mullooly purchased the two adjacent lots in c1903 prior to building the home at 46 Devon Road.</p> <p>Aerial photographs indicate that the roof of the residence was probably red corrugated iron which was changed to zincalume when the building underwent a major addition c2003.</p>

Integrity / Authenticity	High/Moderate
Physical description	<p>A much enlarged and altered single storey brick and colorbond house of Federation Bungalow architectural design to the front elevation. Only the front section of the original house was retained when the house was altered in c.2003. Not only was the house substantially enlarged the roof cladding was also changed from tile to colorbond.</p> <p>The symmetrical front elevation incorporates a tuck pointed finish to the brickwork, 1-over-1 timber framed sash windows and the original door arrangement of timber and glass panelled door with sidelights and fanlights. The hipped roof is half hipped to the façade with a gable element to the apex. The brick chimney remains extant. A separate bullnose verandah extends across the façade supported on chamfered edge timber posts with timber brackets.</p> <p>The alterations included rear addition and carport/verandah addition to the east elevation. Whilst not original the design is sympathetic to the original house.</p>

History	<p>In 1897, land speculator, parliamentarian and government assayer, Henry Anstey purchased a large parcel designated as Location Q which he subdivided and offered for sale under the name 'Bindaring Estate'. Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this residence was built in 1928 for John Harold Glynn (1897-1986) and Christina Catherine Glynn, née McKinnon who had married in 1926. John Glynn was living with his family in River Street, Bassendean and working as a clerk prior to joining the AIF in 1918 to serve during World War One. After a brief session of training at Blackboy Hill he was discharged with flat feet. He again took up employment as a clerk and married Catherine McKinnon in 1926. In 1927, a Rugby car was registered to C. C. Glynn which indicates that a garage was probably located on the property from this time. The couple lived at the residence which they named 'The Gables' until the late 1940s by which time John Glynn was working as a Public Trustee.</p> <p>This residence was built across two lots with the most eastern portion possibly used as a tennis court. Between 1985 and 1995, a major</p>

	addition was constructed to the rear of the property which was connected to the original house.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey brick and terracotta tile residence of asymmetric plan form for the façade. The property presents with two finishes: smooth render to the lower half of the elevation and roughcast render to the upper section. The roof is gabled in form including a centrally placed gable facing the street; each incorporating a brick ventilation detail to the apex, each gable also has battened eaves. Small areas of verandah are located either side of the projecting wing: the western verandah incorporates the main entrance into the house whilst the eastern section is enclosed. The verandah canopies are small hipped forms supported on timber posts on top of masonry balustrades. The windows are timber framed multipaned casements.</p> <p>A large addition has been constructed to the rear of the property which has minimal impact on the aesthetics of the main house.</p>

Statement of significance	<ul style="list-style-type: none"> This place has aesthetic value as a well-executed and predominantly intact example of the Federation style in timber. The place has historic value for its association with the development of this area of Bassendean in the early 20th century. <p>This place has social value as the remaining original front portion of the house demonstrates the form and scale of housing in the early 1900s.</p>
History	<p>In 1897, land speculator, parliamentarian and government assayer, Henry Anstey purchased a large parcel designated as Location Q which he subdivided and offered for sale under the name 'Bindaring Estate'. Devon Road was part of this estate and the name owes its origin to the county in England.</p> <p>From the available information this residence was constructed for Enoch Fulford Kelly (c1854-1924) in 1903 as he was first recorded living in Devon Road in 1904. Enoch Kelly, interestingly was born in Devon, UK and travelled to Australia in 1879. In 1882, he married Ellen Wright in Victoria and the couple lived there for some years before moving to Western Australia in the early 1900s. It is probable that Enoch Kelly, a coach builder, moved to the state to commence work in the Midland Railway Workshops which were established during this period. He worked as a coach builder for the remainder of his career and on his death in 1924 the Western Australian Amalgamated Society of Railway Employees requested</p>

	<p>their members to follow the 'remains of their comrade to his resting place' on the day of the funeral.</p> <p>The Kelly's had six children and several of the boys worked in the Midland Railway workshops. The Kelly's named their home 'Bideford' after the town in Devon. Ellen Kelly lived at the house until her death in 1930 and the subsequent occupants were the Hassack family who lived there until the late 1970s.</p> <p>Aerial photographs indicate that the house has extended to the rear sometime between 1995 and 2000. In c2008, the house was again extended to the rear and a swimming pool constructed in the back yard.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey timber framed and weatherboard clad dwelling with a CGI clad gable roof with a central east west ridge. Projecting from the centre of the roof is a brick constructed chimney with two terracotta chimney pots.</p> <p>The projection gable section on the western corner of the south elevation has timber detailing at the apex of the gable as well as an air vent. The projecting section contains a centrally located timber framed 1over-1 sash window. Extending over the window is a CGI clad skillion awning with timber supports and timber lattice. Separate from the main roof line, a skillion verandah extends over and across the entire recessed section of the south elevation and is supported by square timber posts with a metal frieze. Within the recessed section of the south elevation is the front entrance which abuts the projecting section and consists of a timber and glazed front door with sidelights and decorative security door. Due to the well established front garden no other details of south elevation are visible.</p>

Values	Cultural
Statement of significance	<p><i>The following statement is taken from the Register Entry for the place compiled in 1994</i></p> <p>Earlsferry has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> the building is a prominent landmark in the Guildford/Bassendean area; the building is a fine example of the grand homes built close to the river in West Guildford during the gold boom years; the building is important for its close association with John Short, Sir Edward Wittenoom, and Karl Drake-Brockman, three important persons who contributed significantly to the development of the State of Western Australia; the building demonstrates the form and ambience of the lifestyle of wealthy Western Australians at the turn of the century; and, <p>the building is one of the few remaining grand turn-of-the-century properties situated along the Swan River on the outskirts of Perth.</p>
History	Earlsferry, formerly known as Briarsleigh, was built for John Tregerthen Short in 1902. John Tregerthen Short (1858-1933) purchased a plot of land south of the railway line on 13 November 1902. At the time he purchased the property, Short was Chief Traffic Manager of the Western Australian Government Railways (W.A.G.R.) and married with four children. His choice of location recognised the future relocation of the Eastern Railway

	<p>headquarters to Midland in 1904. The locality was also popular many leading citizens who built large houses with river frontages in Guildford.</p> <p>Short commissioned a two-storey red brick house, set back from the roads and railway, and facing the river. The architect and builder of the house are unknown, however Carter has suggested the house may have been built by Henry Duval who built Cyril Jackson's house (Daylesford) nearby.</p> <p>Short combined his W.A.G.R. career with active participation in civic affairs. He was elected Chairman of the West Guildford Road Board in 1903 (the meetings being held in his newly built house) and was a Justice of the Peace for Western Australia. By 1906/07, he had been appointed Commissioner of Railways, a position he held until his retirement in 1919.</p> <p>In July 1923, Briarsleigh was bought by Sir Edward Horne Wittenoom. Wittenoom was sixty-nine years of age, and nearing the end of a distinguished career, having been Acting Premier of Western Australia in 1897, and Western Australia's Agent General in London. He did not live in the house all the time and it seems likely that the house was let out for residential purposes from the late 1920s. Following Wittenoom's death in 1936, control of the estate passed to the West Australian Trustee Executor and Agency Company Ltd., which managed the property until 1941. Three years later, in November 1944, the property was sold to Mrs Mildred Foster, who lived there with her husband and her daughter until 1946. It was during this period that the property was renamed Earlsferry.</p> <p>On 4 April 1946, the property was purchased by Karl Edgar Drake-Brockman. In addition to his achievements as a Rhodes Scholar, Oxford law graduate, solicitor, and judge, Drake-Brockman was an accomplished gardener who cultivated the gardens at Earlsferry in part to sell the produce to a Perth Florist.</p> <p>In April 1950, an application by Drake-Brockman to the State Licensing Court to turn Earlsferry into a hotel was rejected and the property was sold to the Crown shortly thereafter. Under the ownership of the Crown, Earlsferry was converted to a home for mentally handicapped girls. At this time, Earlsferry underwent a number of changes that altered its original residential function. In September 1988, ownership of Earlsferry passed to the "Authority for Intellectually Handicapped Persons." In April 1989, the roof and upper floor of the building were gutted by fire. The damage was repaired but not restored to its original state.</p> <p>In 1990, Earlsferry was Classified by the National Trust of Australia (WA) and in the same year the place was sold to Lesley-Anne Thomas. In 1993, a conservation plan was prepared to manage the future development of the place and in 1994 Earlsferry was included on the State Register of Heritage Places.</p> <p>The landholding has subsequently been subdivided with a covenant to protect the heritage values of the place.</p> <p>In April 2009, the current [2016] owners purchased Earlsferry House. They started a restoration program which was guided by the conservation plan which including tuck pointing of external brickwork and the reinstating of wooden verandahs at ground floor level.</p>
Integrity / Authenticity	High
Physical description	Two storey brick, iron and timber house in the Federation Queen Anne style. The brickwork is laid in Flemish bond with a tuck pointed

	<p>finish. The house has decorative timber verandahs and a turreted corner facing the river frontage. The roof originally had roughcast gables with decorative iron finials which have since been replaced. The tall brick chimneys with terracotta flues remain extant. Wide verandahs surround three sides of the house with timber balustrading and friezes. Windows are a combination of 1-over-1 sashes and casement openings.</p> <p>In 1989 the house was badly damaged by fire: the roof and upper storey of the building was gutter, five bedrooms and an office were destroyed. The ground floor was damaged by smoke and water but the main reception rooms remained substantially intact. The damage was repaired by no restoration works were undertaken. The original roofing to the billiard room remained but the roofing in other areas was replaced in a form similar to the original but the original cast iron finials and half-timbered and roughcast gables were replaced with a simplified form.</p>

Construction materials	Timber: Weatherboard Metal: Corrugated Zincalume
Architectural style	Federation
Historic theme(s)	Demographic settlement and Mobility: land allocation and subdivision People: Local Heroes and battlers Social and civic activities: Government and politics
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a predominantly intact example of the Federation style. • The place has historic value for its association with the development of this area of Bassendean. • This place has social value as the remaining original front portion of the house demonstrates the form and scale of housing in the early 1900s. • The place has historic value for its association with the prominent local leader in the Labor Movement, William Counsel.
History	<p>This portion of Bassendean was subdivided by a group of investors in 1898. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr J. Hope and W. Paterson. Eileen Street was named after Eileen Kenny whose father Dr Daniel Kenny was an eminent physician in addition to being a significant land speculator.</p> <p>From the available evidence this cottage was the first residence in the street, built in 1910 for William Counsel (c1872-1916) his wife Elizabeth Emily Counsel, née Thompson and their five daughters and two sons.</p> <p>William Counsel worked as a railway employee and was a significant figure in the Labor movement in Western Australia. He was a Justice of the Peace and held the position of President of the WA Amalgamated Society of Railway Employees. On a trip to the goldfields in 1916 as the representative for the Midland Districts</p>

	<p>Council and Metropolitan Superphosphate Workers at the Labor Congress he fell sick and died five days later, aged 44. His funeral was well attended by parliamentarians and members of the wider Union movement. Elizabeth Counsel lived on at the house until her death in 1924.</p> <p>Aerial photographs indicate that the property is likely to have included the adjacent lot immediately to the north, 3 Eileen Street. This was subsequently developed c1970.</p> <p>The cottage was reroofed in zincalume in the late 1990s and appears to have been extended to the rear of the lot at this time.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>An elevated single storey timber and iron dwelling with a symmetrical façade. The hipped roof is clad with corrugated zincalume and has a tall painted brick corbelled chimney. The façade includes timber framed sash windows, 1-over-1 style flanking a centrally placed front door. The front door has side lights and a fan light above. The verandah extends across the full width of the front elevation incorporating a separate skillion canopy, positioned just below the eaves, wrapping around the side which has been infilled with a weatherboard addition. The canopy is supported on turned timber columns with non-original lace brackets. A timber balustrade is located between columns.</p> <p>Access to the verandah is via steps from the driveway and the elevated section of the verandah has been infilled with recycled bricks.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good example of the Inter War Californian Bungalow style executed in timber. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • This place has social value as a demonstration of the form and scale of housing in the Inter War period occupied by working families.
History	<p>This portion of Bassendean was subdivided by a group of investors in 1898. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Eileen Street was named after Eileen Kenny whose father Dr Daniel Kenny was an eminent physician in addition to being a significant land speculator.</p> <p>From the available information this cottage was built in 1927 for the Ticehurst family. Labourer. Frank Ernest Ticehurst (c1898-1997), his wife Mary Elizabeth Ticehurst, née Iverson (c1899-1977) and their three children. The Ticehursts had lived in Kenny Street prior to building this cottage. The Ticehurst family suffered a tragedy when their oldest child Robert died aged 14 as a result of an accident whilst swimming in the river at Bassendean. The family lived on in the house until the 1980s.</p> <p>Aerial photographs indicate that the building form and extent have changed little since its original construction. Although it is probable that the tile roof cladding is a later replacement.</p>

Integrity / Authenticity	High
Physical description	<p>A single storey timber framed and tiled house of asymmetric plan form incorporating traditional detailing. The projecting bay incorporates a timbered gable with overhanging eaves. A three section window dominates the bay incorporating timber framed casement windows with fanlights above.</p> <p>The recessed section of the façade incorporates a simple verandah with timber deck, single step up and no balustrade. The canopy is a continuation of the main roof at the same pitch, supported on square timber posts with carved brackets. The entry is in the recessed section of the façade with timber panelled and glazed door with panelled and glazed side panels. The adjacent window is a further 3-sectioned opening with timber framed side hung casements with high light windows above.</p> <p>The main roof is an expansive hipped form with gable roof to the bay. The tiles are dark grey concrete tiles which appear to have been painted a paler colour at an earlier time and is subsequently wearing off. There is a brick chimney on the north plane of the roof.</p>

Values	Cultural
Statement of significance	<p><i>The following statement has been drawn from the Register Entry for Place 14558 Guildford Road Bridge prepared in 2005.</i></p> <p>Guildford Road Bridge, a working timber and concrete structure, has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> the place is a landmark western entrance statement to the heritage precinct of Guildford that harmonises with the remnant vegetation of the Swan River precinct and the Federation style architecture of nearby buildings; the place was constructed in 1937, at a river crossing point used since 1831, to service increased transport loads to the Perth hinterland as population increased, and to maintain access between Guildford and West Guildford (now Bassendean); and, <p>the place was designed and supervised by E.W. Godfrey, Transport Engineer for the Main Roads Department from 1928 to 1957 and is a good example of his work.</p>
History	<p>Guildford Road Bridge (Main Roads WA 910) spans the Swan River, linking the towns of Guildford to the east and Bassendean to the west. Completed in 1937, this bridge was the third to be constructed in the vicinity after the first two fell into disrepair.</p> <p>In 1827 Captain James Stirling explored the Swan River and concluded that Guildford should be the site of the third Swan River Settlement after Fremantle and Perth. At that time, Guildford was located at the upper limit of navigation on the Swan River.</p>

	<p>In 1829, a town plan of Guildford was drawn up showing a street named Bridge Street, in anticipation of the construction of a bridge between Guildford and West Guildford. In 1831, a ferry service was established across the Swan at West Guildford. A horse ferry was built in 1834 and operated by James Dodd, owner of the adjacent Cleikum Inn.</p> <p>The development of land in the Avon Valley to the east – Toodyay, Northam and York – increased Guildford's importance as a transportation centre during the 1840s. Two bridges were built in the area – Barker's Bridge, between Guildford and Caversham to the north of Guildford, and the Helena Bridge over the Helena River to the South of Guildford – completed in 1854 and 1867 respectively. The ferry service between Guildford and West Guildford was abandoned in 1880.</p> <p>Residents of West Guildford had no immediate access across the Swan River, and they subsequently contributed subscriptions totalling £350 towards the cost of building a bridge linking West Guildford to the main township in 1874. A bridge on the site of Guildford Road Bridge was eventually completed in 1885/86 at a cost of £600.</p> <p>Following the demolition of the first bridge in 1904, a replacement was constructed in 1905 at a cost of £1770. Throughout the 1920s temporary repairs were undertaken on the bridge in order to alleviate increasing problems with subsidence.</p> <p>In May 1928, consideration of a replacement bridge was voiced by Executive Engineer Young to Assistant Engineer E.W.C. ('Ernie') Godfrey. E.W. Godfrey was appointed Bridge Engineer at the Main Roads Department in 1928, a position he held until 1957. Godfrey was responsible not only for the design of all road bridges in Western Australia but also for construction of major ones and their ongoing maintenance. Godfrey was an exceptional organiser, which enabled him to build various structures on difficult sites and often under budget.</p> <p>In 1930, the Main Roads Board declared that the existing bridge should be the joint responsibility of the Guildford Municipality and the Bassendean Roads Board, the Main Roads Board refusing to accept any further responsibility for it. During the next three years, lack of funds resulted in continued deterioration in the fabric of the bridge.</p> <p>Finally, in July 1933, a referral was made to the Minister for advice regarding a new bridge. Formal approval was given by the Main Roads Board for the construction of the new bridge in 1935.</p> <p>The new Guildford Road Bridge was of timber construction, consisting of a two-lane roadway 18 feet 8 inches in width, with a footpath of 5 feet in width. The bridge was completed in November 1937. The superseded second bridge was also destroyed in 1937.</p> <p>In January 1945, bituminous surfacing of the decking of the Guildford Road Bridge was completed. The decking was further gravelled and bituminised in 1951. The bridge was widened in 1959 and it was noted at the time that duplication of the bridge would be needed.</p> <p>In 1978, the gravel and bitumen surface of the Guildford Road Bridge had been removed and replaced with a reinforced concrete deck and 25mm bituminous concrete topping. By this time more than 27,000 vehicles per day were using the route across the bridge, causing congestion.</p>
--	---

	<p>It was resolved to construct a northern by-pass route linking Morley Drive with Morrison Road rather than duplicate the bridge which locals feared was a threat to the historic atmosphere of Guildford.</p> <p>Guildford Road Bridge was widened in 1994, in order to create dual use paths either side of the bridge. Concrete decking was replaced in 2000. Traffic levels continued to increase, and in 2001 an allocation of \$760,000 allowed maintenance work to be carried out to strengthen and streamline the bridge. As well as prolonging the life of the bridge, the work aimed to maintain the bridge's historical appearance through the use of recycled timber.</p>
Integrity / Authenticity	High/Moderate to High
Physical description	<p>Guildford Road Bridge is constructed of timber piles and decking with a concrete overlay. The bridge is 140.2 metres in length between earth abutments consisting of 21 bays 6.096 metres in length and a navigation span of 12.192 metres. The principle components of the original bridge still remain, namely the timber piles, stringers and timber decking and the steel beams supporting the decking over the navigation channel.</p> <p>The bridge carries a two lane roadway 7.77 metres wide consisting of asphalt surfacing over a reinforced concrete decking laid on the original timber decking. The original 12 x 9 inch half caps were replaced with 380 PFC steel channels when the upstream dual use path was added to the bridge in 1994.</p> <p>Under the reinforced concrete vertical walls between the supporting piles, the earth abutments consist of horizontal timbers held by timber piles driven into the ground. The wing walls of the abutment supporting the earthen embankment consist of horizontal timber planks supported by driven timber piles. The original timber abutments have been provided with further support with the installation of reinforced concrete panels attached to the piles.</p> <p>Each of the pier supports, with the exception of the navigation span, is constructed with five driven 18 inch rounded timber piles. The piles at either side of the navigation channel (Piers 8 and 9) are each constructed from eight driven piles. The piles generally terminate on stiff sand.</p> <p>The 4' x 6' wide pedestrian walkway on the southern side of the bridge is constructed with 5" x 2" timber decking spiked to 6" x 4" timber stringers bearing on 9" x 5" timbers at 6' 8" spacing bearing on the main bridge stringers. For the navigation span, the timber walkway decking is spiked to timber stringers supported by RSJs bolted between steel beam flanges.</p> <p>The original timber hand-railing has been replaced with steel vehicle safety barriers supported from the deck structure on the roadway side. Timber handrails remain on the outside of the dual use path. Bracing to support the half caps under the walkway was installed when the bridge was widened in 1959 (and the walkway was moved further downstream). The steel beam under the navigation channel was also installed at this time to support the walkway.</p> <p>The 2.5 metre dual use path on the upstream side also has timber decking, a steel vehicle safety barrier on the roadway side and timber hand railing on the outside.</p>

Architectural style	Federation; Contemporary
Historic theme(s)	Transport and communications: rail and light rail transport
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a well-integrated design of the 1910 structure and the 2003 additions, which retains several elements of the original design and character. The place has historic value for its association with the development of Bassendean (West Guildford) in c1909 in response to the establishment of the Cuming Smith and Company Superphosphate Factory in 1910. The place has social value as a facility which has been continually used by the community since 1910.
History	<p>The construction of a Railway Station at Bassendean was fundamentally a response to the establishment of the Cuming Smith and Company Superphosphate factory on the north of the railway line in 1910. Once the West Guildford Road Board had granted approval for the factory in 1909, the state government supported the request for a station in which until that time had been denied. The West Guildford Railway Station was opened on 30th April 1910 by the Minister for Railways and Mines, Henry Gregory. Although the buildings were not complete at that time the local press stated 'Sufficient progress has, however been made with the work to show that the station will when completed, be one will in keeping with the requirements of the district. It is constructed on the "island" principle, an overhead bridge giving access to the platform from both sides of the lines. The buildings in course of erection are of brick, and the whole work should reflect credit on those responsible for it.'</p> <p>The station was renamed Bassendean Railway Station in 1922.</p>

	<p>The station underwent a major upgrade in 2003. Pedestrian access to the station was improved and relocated to the western end of the platform from the eastern end. A lift was also installed. The existing buildings underwent significant refurbishment with the addition of a Transit Guard Booth and unisex/disabled toilet. The upgrade included ceramic tiles depicting elements of Bassendean history and decorative metal screening by artists Arif and Audrey Satar.</p> <p>Since the 2003 works the station has undergone minimal alterations and additions as required.</p>
Integrity / Authenticity	High/Low
Physical description	<p>The brick platform waiting room has original sash windows and original doors. The brickwork is laid in English garden bond. The waiting room has large non-original windows. The cable platform canopy has replacement cladding. The platform surface has been tiled with tactile strips. A new ticket structure has been connected to overpass.</p>

Values	Aesthetic Social Historic
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a predominantly intact example of the late Federation style in timber. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • This place has social value as the house demonstrates the form and scale of housing in the 1900s. • The place has social value for its association with small scale maternity hospitals which operated throughout the Perth metropolitan area in the early to mid-20th century.
History	<p>Guildford Road was originally called Perth Road, or Perth Street and its alignment was roughly established from the mid-19th century. As the primary land route between Guildford and Perth many settlers and services were established alongside the road.</p> <p>From the available evidence this residence was constructed c1914 and the first occupant was engine driver, William Thomas Smyth (c1875-1933). William Smyth married Eleanor Dickinson in 1896 in Queensland and the couple had seven children. The Smyth's lived in this residence until the late 1920s.</p> <p>During the late 1920s the Post Office directories record that the place was a Maternity Hospital with Mrs M Baker the nurse in charge in 1928 and Nurse E M Hocking in 1929. Several entries in the local newspapers refer to births at 'Nurse Baker's Private Hospital' in Perth Road Bassendean in 1927. Throughout the early to mid-20th century it was common practice for small, residential scale,</p>

	<p>maternity hospitals to be located in each suburb within walking distance to the homes of the women.</p> <p>Aerial photographs indicate that the form and extent of the building has changed little since the mid-20th century although the roof appears to have been reclad and the front verandah may be a later addition.</p>
Integrity / Authenticity	Moderate/High
Physical description	Single storey rendered brick house with CGI hipped roof. All elevations have opened eaves and the dwelling has a separate bullnose verandah canopy supported on turned timber posts, with painted concrete deck. Façade is obscured by shade cloth.

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a largely intact example of the Federation style. • The place has historic value for its association with the development of this area in the early 20th century. • This place has social value as the house demonstrates the form and scale of housing in the early 1900s
History	<p>Guildford Road was originally called Perth Road, or Perth Street and its alignment was roughly established from the mid-19th century. As the primary land route between Guildford and Perth many settlers and services were established alongside the road. The formal subdivision of lots for residential use occurred at different times from the late 19th century and this portion between Chapman Road and Fisher Street was subdivided in c1910.</p> <p>From the available evidence this residence was constructed c1914 for Axel Stefanus Wahlsten (1873-1945). Wahlsten was born in Finland which was then part of Russia. He migrated to Australia in 1891 and lived in Sydney for some years before moving to Western Australia in the late 1890s. He undertook a variety of work including as a hotel keeper in Mount Barker. He applied for naturalisation in 1917 and in those documents held in the National Archives he records that he is a contractor although entries in the Post Office Directories indicate that he was a produce merchant. As a contractor it is possible that Wahlsten was responsible for the construction of this building although further research is required to confirm this. Axel and Minnie Florence Wahlsten, nee Wilson</p>

	<p>(c1891-1940) married in 1916 and had six children. The family lived at the house until 1940 when Minnie died.</p> <p>The form and extent of the house have not changed significantly since the mid-20th century although the original roof cladding, which appears to have been red corrugated iron, was changed to corrugated iron in the mid-1980s. A strata plan for the house was lodged in 2009 and the new house at the rear of the property was built in the same year.</p>
Integrity / Authenticity	Moderate
Physical description	<p>A single storey brick and iron house with a verandah around all elevations. The deep hipped roof extends down at the same pitch to form the verandah canopy. The verandah canopy is supported by square timber posts with a simple timber balustrade and timber deck. Full height timber framed sash windows/doors are featured on the front elevation, flanking centrally placed French doors. The doors are timber framed with frosted leaded glazing and a fanlight. The face brick has been painted with a black rendered band across the façade. The two front chimneys are constructed of brick with rendered flues, whereas the back chimney is constructed with brick with corbelling. The property has hard paving to the front and side and a mature frangipani tree in the front garden.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good example of the Inter War Californian Bungalow style executed in brick. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • The place has social value as the house demonstrates the form and scale of housing in the inter war period.
History	<p>Guildford Road was originally called Perth Road, or Perth Street and its alignment was roughly established from the mid-19th century. As the primary land route between Guildford and Perth many settlers and services were established alongside the road. The formal subdivision of lots for residential use occurred at different times from the late 19th century and this portion between Palmerston and Geraldine Streets was subdivided in c1904.</p> <p>From the available information this residence was built in 1932 for George Robert Payne (1909-1972) and his wife Grace Payne. George Payne was a grocer and his father, also George Payne had a grocery shop in Broadway Bassendean. Prior to George and Grace Payne occupying the property, a carrier, John James Downing was living on the site. It is probable that the extant residence was constructed for the Paynes.</p> <p>The Payne family lived at the house until the mid-1940s and from aerial photographs of the property it seems apparent that originally the residence and grounds included the lot to the east. In the late 1970s a new residence was constructed on this adjacent lot. An addition was constructed toward the rear of the property in the late 1980s and this has later been more formally integrated into the</p>

	original residence. A carport was constructed in the front yard of the property in the 1990s.
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey brick and tile arts and crafts style Californian bungalow. The dwelling has an asymmetric plan form with a projecting entrance. The entry door is timber and glass panelled with leaded lights which is flanked by leaded margin panes. Stepped timber gable roofs to the front with the verandah canopy extending out from the gables. There are further gables to the side elevation.</p> <p>The verandah balustrade is of rendered brick construction with a dipped rendered coping. Windows to the projecting front section are multi-paned timber framed casements arranged in a bank of four openings.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and predominantly intact example of the late Federation style. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • The place has historic value for its association with prominent local citizen Alex Drysdale and his family. • This place has social value as the house demonstrates the form and scale of housing for a professional family in the Inter war period.
History	<p>Guildford Road was originally called Perth Road, or Perth Street and its alignment was roughly established from the mid-19th century. As the primary land route between Guildford and Perth many settlers and services were established alongside the road. The formal subdivision of lots for residential use occurred at different times from the late 19th century and this portion between Kenny and Kathleen Streets was subdivided in c1904.</p> <p>From the available information this residence was constructed in 1917 for Alexander Drysdale (c1866-1934) and his wife Jessie, nee McLean (c1878-1935). Alexander Drysdale was a builder and it is probable that this house, which they named 'Blair Athol', was built and designed by his firm. Given the name of the place is it likely the Drysdale family were Scottish in origin.</p> <p>Alex Drysdale also engaged in the sale of land and had a small business premises to the east of this residence where he operated a real estate business. Alex Drysdale was also an active member of the local community serving on the West Guildford from 1914-</p>

	<p>1915, 1916-1922 and the subsequent Bassendean Road Board from 1922-1924, 1925-1934. He was a member of the West Guildford Rifle Club where a trophy was given in their name. Alex died in 1934 aged 68 years old. The family is commemorated through the naming of Drysdale Street, Eden Hill.</p> <p>In 1943, the lot was subdivided to create an additional lot to the east. In 1945, the Sullivan family purchased the house only and retained ownership for many years.</p> <p>The tennis court and shop which were located adjacent to the house during the Drysdale ownership is now [2015] the location of a veterinary surgery.</p> <p>Aerial photographs indicate that the form of the original house has not changed significantly since the mid-20th century.</p>
Integrity / Authenticity	High
Physical description	<p>Single storey brick and iron house set in an elevated position close to the roadside. The house is of symmetrical plan form to the façade with a centrally placed entrance flanked by windows. The entrance is the traditional form of timber and glass panelled door with side lights and panels and fanlights above the entire arrangement. The glazing to the door and lights is leaded and stained. The flanking windows are timber framed casements arranged in groups of three. Each casement has a fanlight window above and painted concrete sills.</p> <p>The roof is hipped with a vented gablet facing the street and sweeps down at the same pitch to form the verandah canopy. At the point of the entrance, a gabled entry feature has been incorporated into the verandah creating a statement entrance to the house. A wide set of painted concrete steps lead up from the pavement to the verandah. The verandah canopy and the gable feature are supported on paired timber posts to the front and single timber posts to the side sections. The verandah wraps around three sides of the house and has been enclosed with fibrous cement sheeting on the south west elevation.</p>

GIS coordinates/latitude, longitude	-31°54'50" , 115°56'23"
Use (original/present)	Original: Residential – Single Storey Residence Present: Residential – Single Storey Residence
Construction materials	Timber: Weatherboard Tile: Cement
Architectural style	Post War
Historic theme(s)	Demographic settlement and mobility: government policy
Values	Historic
Statement of significance	<ul style="list-style-type: none"> The place is indicative of the standard plan and type of housing in the mid twentieth-century. The place has historic value for its association with the development of this area of Bassendean in the period following World War II.
History	<p>The name of Ashfield was derived from Ashfield Parade, the name given to a road constructed alongside the Swan River when the area was first subdivided in 1913. In the 1950s a public housing development in the area was name 'Ashfield Estate'. Haig Street was named after Lord Douglas Haig, commander of the British Expeditionary force from 1915-1918.</p> <p>This portion of Haig Road was subdivided for residential development in the early 1950s. An announcement in the local press in 1951 stated that the Public Works Department had committed to building 250 homes on the estate within the next two years. The estate of 40 brick homes and 210 timber framed homes included a school site, sports ground, three church sites and a shopping centre.</p> <p>The style of construction is consistent with the Austrian Prefabricated homes in Margaret Street, Ashfield.</p> <p>This residence dates from this phase of construction and was evident in aerial photographs in 1953. The original occupant of the house has not been determined in this research.</p>
Integrity / Authenticity	High
Physical description	Simple timber framed and weatherboard cottage set back behind an open lawned garden without a boundary fence. The house now presents with an asymmetric façade due to the addition of an enclosed porch and entrance. The porch has been clad with wider profile Hardiplank weatherboard style cladding and is accessed by steps parallel to the façade.

	<p>The remainder of the elevation incorporates two sets of windows: the windows to the south-west edge of the façade are timber framed sashes but those to the north-west section of the elevation are obscured by a pull-down window shade though it appears that this window is a three section opening and is timber framed. The later porch incorporates an aluminium sliding window.</p> <p>The gable roof is tiled with a red brick wide chimney extending up the north-east elevation pushing through the eaves and edge of the roof structure.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value for its demonstration of the standard plan and type of housing in the mid-twentieth century. The place has historic value for its association with the development of this area of Eden Hill in the period following World War II. The place has social value as a demonstration of the form and scale of housing for working families in the post war period.
History	<p>Eden Hill was approved as a suburb in 1954. The name 'Eden Estate' had been used in the area since the late 1890s when developer and future Premier of Western Australia, Frank Wilson, subdivided land for residential use. The name was believed to come from a farm that once existed in the area. Ida Street, together with Iolanthe and Ivanhoe Streets, are named in honour of the characters from Gilbert and Sullivan Operettas.</p> <p>This residence was one of the first homes constructed in the new subdivision according to Florence Rowles. Roy and Florence Rowles built their home in 1955 and raised their family at the home which Florence continues to occupy. Roy Rowles had a long association with the district as his father, Ralph Rowles, had established the 'Success Hill Store' in Anzac Terrace in 1936. Roy Rowles and his brother Eric managed two different premises of the business which included deliveries to residents in the district.</p> <p>Many of the homes in Eden Hill were built by the State Housing Commission following World War II.</p>

	Since 1955, the house has changed little in form. Later subdivisions have altered the extent of the surrounding gardens and the proximity of adjacent buildings.
Integrity / Authenticity	High
Physical description	<p>The dwelling is a single storey brick and tile house positioned on an open elevated site with an asymmetric plan to the façade with a central projecting bay.</p> <p>The dwelling is of 1950s restrained design with a brick dado, where the upper section of the front elevation is rendered. The lined eaves act as the verandah canopy to the recessed section of the elevation.</p> <p>Hipped tiled roof with separate hip to the projecting bay. Windows cannot be seen due to external window blinds. An integral flat roof brick garage has been constructed on the north side of house.</p> <p>A random stone retaining wall, with flush and scored pointing creates the open lawned front garden.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and intact example of the late Federation style. • The place has historic and rarity value for its association with the early 20th century development of Eden Hill. • This place has social value for its demonstration of the form and scale of housing in the early 1900s.
History	<p>Eden Hill was approved as a suburb in 1954. The name 'Eden Estate' had been used in the area since the late 1890s when developer and future Premier of Western Australia, Frank Wilson, subdivided land for residential use. The name originated with a farm that once existed in the area. Ida Street, together with Iolanthe and Ivanhoe Streets, are named in honour of characters from Gilbert and Sullivan Operettas.</p> <p>The available information indicates this residence was the first in this section of Ida Street north of Walter Road and was built c1916 for, salesman William Bourke and his wife Ethel Matford Bourke née Moorehead. The couple married in St Peters NSW were living in Ida Street, West Guildford in 1917.</p> <p>The Bourke's remained in the residence until c1920 and after that date several occupants are recorded for this address. Long term occupants were Arthur and Nellie French in the 1930s and 1940s.</p> <p>Aerial photographs indicate that the modest cottage has retained its original form with additions to the rear the only significant alterations. Later subdivisions have altered the extent of the surrounding gardens and the proximity of adjacent buildings.</p>

Integrity / Authenticity	High
Physical description	<p>Single storey brick and iron house of symmetrical plan form. The brick has been painted leaving only tuck pointed face brick quoining around the openings and at the edge of the elevations. The centrally placed front entrance consists of timber and glazed door, side panels and side lights, and fanlights across the entire. 1-over-1 style timber framed sash windows flank the entrance.</p> <p>The hipped roof has two brick corbelled chimneys projecting from the north and south planes of the structure. The roof continues down at a break of pitch to form the verandah canopy which is supported on turned timber posts with a very simple timber balustrade, the deck is timber.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as an intact example of the late Federation style in timber. • The place has historic value for its association with the development of this area in the early 20th century. • This place has social value as the house demonstrates the form and scale of housing in the 1900s.
History	<p>Portion of Bassendean was developed under the name 'Eden Estate' in the 1890s when developer and future Premier of Western Australia, Frank Wilson, subdivided land for residential use. The name was believed to come from a farm that once existed in the area. Iolanthe Street, together with Ida and Ivanhoe Streets, are named in honour of characters from Gilbert and Sullivan Operettas.</p> <p>From the available evidence this residence was constructed in 1915 for the Fiveash family. Robert Henry Fiveash (1846-1912) and his wife Annie Bertha Fiveash, née Catchlove (1849-1930) originally from South Australia were married there in 1873 and had seven children, five daughters and two sons. The family relocated to Western Australia in 1904 and settled in Claremont and Robert worked as a clerk until his death in 1912.</p> <p>Following his death the family relocated to West Guildford first living in Railway Terrace before building this house in 1915. Annie Bertha Fiveash lived at the house with five of her children. In 1916, two daughters worked as typistes, one a teacher and two were performing home duties. One son married and the other, Frank Rees Fiveash, lived at the house with his unmarried sisters until his death in 1953.</p>

	<p>Annie Bertha died in 1930 and at that time, Frank and his sisters, Lemilda and Norah remained at the house. Lemilda appears to have been the last member of the family living at the house when she died in 1958.</p> <p>The house was numbered 31 Iolanthe Street during the early 20th century.</p> <p>The Fiveash family appear to have secured seven lots for their family home, the property occupied all the land to Parmelia Way and approximately two housing lots to the south (37 Iolanthe St and 27 Parmelia St inclusive). It was still one entity in 1965 but was subdivided into the current smaller lots by the mid-1970s. The residence has remained consistent with its original form.</p>
Integrity / Authenticity	High
Physical description	<p>A single storey timber framed weatherboard and iron dwelling with dual aspect to the Iolanthe St and Anzac Terrace. The Iolanthe Street façade is asymmetrical in plan form with a verandah across the entire façade and returns along the north and south elevations. The east façade faces Iolanthe Street with two multi-paned sash windows positioned at the corners of the elevation with a central brick panel within the weatherboard cladding, marking the point of the fireplace. A tall brick corbelled chimney projects from the roof at this point. The entrance faces east, but is located on the south elevation in a small projecting section with a gabled roof. The main roof is hipped with a broken pitch which forms the verandah canopy. The verandah canopy is supported on square timber posts with a timber frieze and timber deck. The north elevation along Anzac Street is obscured by dense planting and there is driveway access from Anzac Street along the western boundary.</p>

Architectural style	Federation; Post War International
Historic theme(s)	Social and Civic Activities: Religion Demographic settlement and Mobility: land allocation and subdivision
Values	Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has historic value for its association with the establishment of the community in Bassendean in the early 20th century. • The place has social value for the provision of religious functions to the community since 1913.
History	<p>The Church of Christ sought to establish a church in the growing community in Bassendean in the early 20th century. Land on the northern side of the railway line near the station had been donated to the cause and cleared by volunteer labour. In January 1913, a group of 120 men supported by an auxiliary of women gathered to build a timber church hall and vestry on a site in Railway Terrace. The well organised project was completed in a day and was a well-remembered feat by all the community.</p> <p>Church run activities were one of the few sources of entertainment for the young people of the district and many clubs and activities were organised by the Church of Christ at this hall. Many sporting and social activities were organised by the various churches in the district leading to a diverse and wide ranging population using church facilities. The Church of Christ built a separate hall for a kindergarten and Sunday School.</p> <p>In 1925, owing to the expansion of the railway yards, the Church of Christ was shifted to the present site in Ivanhoe Street. The relocation was again undertaken by volunteer labour. Since 1925, the church has continued to offer services from the Ivanhoe Street site. The original building has been added to in various stages. Externally the originally hall is visible only through the distinctive roof line.</p>

	Evidence from the Church of Christ website indicates that the interior of the hall retains much of the original detail from the 1913 construction.
Integrity / Authenticity	High/Moderate
Physical description	<p>The original Church of Christ is a high roofed single storey timber frame construction with weatherboard cladding and a steep corrugated metal roof. Over the years the original building has seen a series of extensions resulting in a gabled roof at three different pitches which has a fanned appearance from the street frontage on the west. The middle section has a stained glass highlight window on display creating a symmetrical façade from the west along with the evenly spaced windows to the lower section. The middle roof line also extends as a verandah to the north with timber supports. These extensions to the west have been produced in the same materials and style as the original building.</p> <p>The main entrance points are to the north where there are two sets of steps and adjoining ramps leading to modest timber doors. The steps, ramps, planter boxes and plinth to the original building are now all brick, tying the building to the brick constructed extension to the east or rear of the original building. The brick extension does not pick on the lines or proportions of the original building.</p> <p>In 2018, four metal, gable roof outbuildings were developed on the eastern boundary. In 2020, a building extension was approved, including a new driveway and expansion of the parking lot. Public art was incorporated into the site.</p>

Architectural style	Federation Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and predominantly intact example of the Federation style in timber. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • This place has social value as the house demonstrates the form and scale of housing in the early 1900s.
History	<p>Portion of Bassendean was originally developed under the name 'Eden Estate' in the 1890s when developer and future Premier of Western Australia, Frank Wilson, subdivided land for residential use. The name was believed to come from a farm that once existed in the area. Ivanhoe Street, together with Iolanthe and Ida Streets, are named in honour of characters from Gilbert and Sullivan Operettas.</p> <p>From the available evidence this residence was constructed in 1915 for James Leonard Watkins (1870-1950) and his family consisting of his wife Mary Anne, née Powell (c1877-1958) and their six children. The Watkins family had arrived in Western Australia from the UK c1913 and settled in Bassendean where James worked as a contractor. Following James's death in 1950 Mary Anne Watkins lived on in the house until her death in 1958.</p> <p>Aerial photographs and information from the Town of Bassendean indicate that the form and extent of the residence has changed little since the mid-20th century although it is apparent that the roof was clad with a red corrugated iron roof. The roof cladding was changed to the current zincalume c1990 and the garage on the northern side of the property appears to have been built at approximately the same time.</p>

Integrity / Authenticity	High/Moderate
Physical description	<p>A timber framed and weatherboard cottage with a hipped roof. Roof has been re-clad in zincalume; has a raised gablet ridge and a roughcast rendered chimney with twin terracotta honeypot flues.</p> <p>The dwelling has a symmetrical façade with a verandah which spans the full extent of the front elevation. The verandah canopy is a separate bullnose element positioned below the eaves of the main roof. The canopy supported on turned timber posts with a timber frieze with no balustrade on a timber deck. The centrally placed front door contains lead stained glass and has side lights and fanlight. The windows flanking the front door are timber framed multi-paned casements with toplights. The weatherboard side elevations contain a mixture of sash windows and multi-paned casements.</p> <p>The garden contains matured trees and is enclosed by contemporary block wall with timber picket panel fence.</p>

Values	Historic Social
Statement of significance	<ul style="list-style-type: none"> The place is indicative of the standard plan and type of housing in the mid twentieth-century. The place has historic value for its association with the development of this area of Bassendean in the period following World War II. This place has social value as the house demonstrates the form and scale of housing in the post war period.
History	<p>Portion of Bassendean was originally developed under the name 'Eden Estate' in the 1890s when developer and future Premier of Western Australia, Frank Wilson, subdivided land for residential use. The name was believed to come from a farm that once existed in the area. Ivanhoe Street, together with Iolanthe and Ida Streets, are named in honour of characters from Gilbert and Sullivan Operettas.</p> <p>Information from the 2017 owner states this residence was constructed in 1948-50. It was built by the owner of the property a migrant from Malta and features many elements and design features that are influenced by his Maltese origin. Those elements include strong coloured and distinctive patterned tiling internally and externally, a sunken bath and scenes on the internal doors depicting camels.</p> <p>It is understood that there was a strong and closely knit Maltese community in Bassendean in the post war period.</p> <p>Aerial photographs indicate that an addition was constructed across the rear of the house in the 1970s and the new residence at the rear of the lot was constructed c2003.</p>

Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey rendered brick and tile Californian Bungalow with traditional asymmetric plan form to the façade. Complex hipped roof form incorporating three hips towards the front of the house. The projecting section of the façade has a separate hipped roof and a separate hipped tiled window awning. The projecting section also incorporates a boxed bay window, constructed from blockwork, with timber framed casements with leaded lights.</p> <p>A verandah extends across the recessed section of the façade with a separate hipped roof for the canopy which is supported by half height masonry pillars, with Doric style columns to the upper section. The balustrade consists of painted concrete balusters with the classical "urn" motif, polished concrete steps and deck. The recessed section of the façade also contains a timber framed 3-section window with leaded glazing. The verandah canopy is lined with fibrous plaster sheeting. From the projecting bay window to the side elevation is constructed using limestone block walling.</p> <p>The lawned garden is enclosed by a timber picket fence. The dwelling is situated on a subdivided lot with a new residence to the rear.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a predominantly intact example of the Inter War style. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • This place has social value as the house demonstrates the form and scale of housing in the inter war period.
History	<p>Portion of Bassendean was originally developed under the name 'Eden Estate' in the 1890s when developer and future Premier of Western Australia, Frank Wilson, subdivided land for residential use. The name was believed to come from a farm that once existed in the area. Ivanhoe Street, together with Iolanthe and Ida Streets, are named in honour of characters from Gilbert and Sullivan Operettas.</p> <p>From the available information this residence was constructed in 1922 and the first occupant was Joseph Ward. Little information has so far been discovered in this research to reveal any details about Joseph Ward and if he was also the owner of this property. It seems likely that this cottage and the cottage which formerly occupied the adjacent lot immediately south (79 Ivanhoe Street) were built at the same time. There seems to have been a series of occupants since its construction.</p> <p>Aerial photographs indicate that the form and extent of this residence have not changed significantly since the mid-20th century. Extensions to the rear of the original cottage have been undertaken in several programs of work and the roof cladding has been replaced several times.</p>

Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey timber framed house with weatherboard cladding and hipped iron roof. The façade is of symmetrical design with a verandah running across the full extent of it. The main roof extends down to form the verandah canopy at the same pitch and is supported on square timber posts, enclosed by a simple timber balustrade. The hipped roof has been reclad in long sheet CGI. The centrally placed front entrance has a single side light and is flanked by two windows. Each window is a 3-section sash arrangement with a central large 1-over-1 sash, flanked by narrower 1-over-1 sashes, separated by timber mullions.</p> <p>The skillion section to rear of the dwelling has a further fibro clad addition. There is a separate carport to the side elevation. The garden is enclosed by a high timber picket fence and there is a mature tree in the corner of the front garden.</p>

Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as significant elements of the building stock are good and well maintained examples of the Post War International style. The place has historic value for its association with the development of this area of Bassendean in the period following World War Two. The place has social value for the many members of the community who have attended the school or had other associations with the school.
History	<p>Portion of Bassendean was developed under the name 'Eden Estate' in the 1890s when developer and future Premier of Western Australia, Frank Wilson, subdivided land for residential use. The name was believed to come from a farm that once existed in the area.</p> <p>A primary school has been located at this site since 1915. Known briefly as the Ivanhoe Street School before being renamed the North Guildford School and finally the Eden Hill School, it catered for the growing number of children whose families were settling north of the railway line in the area which would be formally known as Eden Hill in 1954.</p> <p>The original school was replaced in the early 1950s with the current new school buildings. The construction of this new facility was a response to the growth of population in this area in the period following World War Two. The buildings were designed by the Public Works Department of WA and the scale and design of the school buildings were consistent with many schools of the period.</p>

	Since 1953, the school has been altered and added to in response to changing teaching methods and population. Particular events have had an impact on the school included a major fire in 1989, which caused significant damage and major new works as part of the Commonwealth Building Education Revolution (BER) programme in 2010 and 2011.
Integrity / Authenticity	High/Moderate
Physical description	<p>Vernacular brick and iron single storey educational complex constructed in stages.</p> <p>The earliest brick section features an entry with a gabled projecting element incorporating three tall windows with the remainder of the elevation featuring a regular rhythm of sash and hopper window positioned directly under the eaves. There is a regular placement of tall brick chimneys with rendered caps. Further brick and rendered range with large sash windows appears to have been constructed at a similar period.</p> <p>The later buildings feature a brick dado and rendered upper section of walling; with a hipped roof including regular placement of tall brick chimneys. The original window placement creates a regular rhythm to the elevation, but with non-original sashes (1-over-1 with separate lower window).</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The former convent has aesthetic value as a good, intact and well maintained example of the Inter War style executed in brick. St Michael's School is a landmark in the Bassendean townsite and has been a dominant feature of the streetscape since that time. The site has historic value for its association with the establishment of the Catholic Church and Catholic education in the district in 1914. The place has social value for the many generations of students and their families who attended to school since 1913.
History	<p>The parcel of land on the northern side of Old Perth Road between James and Hamilton Streets was purchased by parish priest Father T. Morris in 1907 and in 1913 a building with the dual purpose of a school and church was built on the site. (see inHerit Place 13069)</p> <p>The school opened on 19 July 1914 with 19 students and by January 1915, over 100 students were enrolled at the school. The co-educational school was overseen by Sisters of Mercy nuns.</p> <p>In 1925, the Catholic Church embarked on the construction of a new brick two storey convent building on the site. At that time there was approximately 80 children at the school. The new convent was</p>

	<p>opened on 17 January 1926 by Archbishop Clune. The new building provided accommodation for 12 sisters in addition to a chapel and a community room. At this time classes continued to be held in the original school/church which had been adapted by enclosing the verandahs to accommodate more pupils.</p> <p>In 1948, the parish of Bassendean was established under Parish Priest Father Thomas McCaul who had a great devotion to St Michael. He therefore decided to change the name of the school to St Michael's.</p> <p>In 1953, a new school building was constructed on the site to accommodate 200 children and cost £12000. These buildings in cream brick are located to the north of the site.</p> <p>In 1973, the school administrators decided to provide education for boys from grades 4-7. In the past, boys had left to attend other schools. The school continues to provide co-educational schooling up to year 6.</p> <p>In 1982, the Sister Joan Kelleher Library, and a new administration block were integrated with new classrooms in the former convent building. The completed buildings were blessed and opened by His Grace Archbishop Goody. The last Mercy Sister to teach at the school left in 1982.</p> <p>In 1998, the old Presbytery, which served as the parish centre, was demolished. It was replaced by the Father Alex Morahan Kindergarten and parish Centre.</p> <p>In December 2000, the original church/school building, which functioned as the Parish Hall, was destroyed by fire and a new community centre was erected on the site.</p> <p>Since that time the school has continue to develop as needs and standards have changed. The most recent addition in 2011 built on to the northern elevation of the former convent and altered the roof line linking into a new two storey building facing James Street.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>St Michaels School has street frontage to both James Street and Old Perth Road. It is a series of one and two storey brick buildings with gabled roofs built over time as the School expanded. The older building facing Old Perth Road has an arcade on the ground floor with a succession of seven arches supported with columns, three of which have been enclosed. Each of the windows to the ground floor have fanlights above. On the first floor are seven evenly spaced aluminium framed sliding windows, one over each of the arches below. The recess below the first floor windows and the change in roof pitch above the arcade section suggests the first floor may have had a balcony area originally which has now been filled in to extend the classroom space.</p> <p>Connected to this Old Perth Road building and facing James Street is a newer addition, built to compliment the older building it is also brick and two storeys. The addition of rendered elements to the west façade creates regular "columns" with evenly spaced windows to match the columns of the older building. There is also a rendered arch over a porch which appears to be the main entrance as an attempt to tie in with the arches of the arcade.</p> <p>Connected to the north of the James Street addition is an "L" shaped single storey building surrounding the basketball/netball court. It is brick construction and has a gabled roof but is otherwise stylistically different to the other buildings. It is predominantly rendered in a creamy colour with a small portion of exposed brick. The windows</p>

	are evenly spaced however they are covered with louvres matching the render.

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This house has aesthetic value as a well-executed and predominantly intact example of the late Federation style in timber and the store is a good and intact example of a corner store from the Inter War period. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century and the Inter War period. • This place has social value as the house and shop demonstrate the typical arrangement of the local corner store and premises.
History	<p>This portion of Bassendean was subdivided by a group of investors in 1898 under the promotional name of 'West End'. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. James Street was most likely to have been named after Sir James Stirling the first governor of the colony although it may recognise one of the syndicate members, John James.</p> <p>This property consists of two separate buildings. From the available information the house was constructed in 1913 and the former shop in 1927. The first occupants of the home were Percy Albert Everingham (c1882-1967) and his wife Sarah Edith Everingham (c1885-1955), née Bull. The couple had married in 1912 and settled in Bassendean where they remained all their lives. Following</p>

	<p>Sarah's death in 1955, Percy remained at the home and their son Roland lived nearby at 17 James Street.</p> <p>In 1927, a store was constructed on the property and it was operated by the Everinghams. Percy Everingham had previously recorded his profession as a clerk and he returned to that occupation in later years. The business operating from the store appears to have been a traditional corner store offering a range of items for the nearby residents. The business was later managed by different individuals.</p> <p>Aerial photographs indicate that the extent of the house and store have not been substantially altered since the mid-20th century. It is noted in 1953 that an awning was present over the store on the James Street elevation and a portion of the Palmerston Street elevation. The section facing Palmerston street was removed by 1965. The roofs of both buildings have been reclad in zincalume.</p> <p>Photographs supplied by the current owners indicate that the house verandah originally included a decorative frieze.</p>
Integrity / Authenticity	Moderate
Physical description	<p>A corner shop of brick construction with rendered façade. A prominent parapet wall to façade with domed detail, remnants of 'Grocer' still visible. The side elevations are in face brickwork.</p> <p>The traditional awning has been removed leaving the visible brick in a vulnerable condition. The rendered traditional shop front with angled return shop window forming part of the covered entrance into the building. Double timber panelled and glass doors. The windows are boarded up with frosted glass fan lights above.</p>

August Nadebaum was born in South Australia and took his first position as a pupil teacher at the age of 13. He relocated to Western Australia 1899 to continue his teaching career. In 1914, he was appointed as headmaster of West Guildford Primary School a position he held</p>

	<p>until 1919. August Nadebaum was a passionate and enthusiastic teacher with a special interest in cadets and drum and fife bands. Despite some animosity aroused during World War One because of Nadebaum's German heritage the family remained in the district and continued to contribute even though no longer working at the school. August Nadebaum's final position which he held on reaching retirement was Principal of the Mount Lawley State School (now Primary School). The couple had married in 1904 and had three children and following Ethel's death in 1927, August Nadebaum remained at the house until his death in 1956.</p> <p>Aerial photographs indicate that the house had a small addition across the rear of the building in the second half of the 20th century which was removed in 2014 and a large two storey addition has been constructed in its place.</p>
Integrity / Authenticity	High/Moderate/Low
Physical description	<p>A timber framed and weatherboard cottage with a hipped roof. The cottage has been reroofed with 'Colorbond' corrugated zincalume and is currently [2015] undergoing rear additions. The cottage features a tall brick chimney.</p> <p>At the time of inspection the façade was obscured by shade cloth and undergoing renovations but appears to be a symmetrical elevation with centrally placed entrance flanked by timber framed casement openings. There is a gabled feature above the entrance with weatherboard detail and a vented apex.</p> <p>The verandah extends across the façade with a separate bullnose style canopy positioned approximately two boards down from the eaves. The canopy is supported on square timber columns with no balustrade.</p>

Use (original/present)	Original: Residential – Single Storey Residence Present: Residential – Single Storey Residence
Construction materials	Brick: Common Metal: Corrugated Coloured Zincalume 'Colorbond'
Architectural style	Inter War Californian Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a predominantly intact example of the Inter War style in timber. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • This place has social value as the house demonstrates the form and scale of housing in the inter war period.
History	<p>This portion of Bassendean was subdivided by a group of investors in 1898 under the promotional name of 'West End'. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. James Street was most likely to have been named after Sir James Stirling the first governor of the colony although it may recognise one of the syndicate members, John James.</p> <p>From the available information this residence was constructed in 1920 for newlyweds William Thomas Jenkin (c1899-1972) and Doreen Ellam Jenkin, née Jones (c1897-1985). William Jenkin was a carriage builder and was likely to have worked in the Midland Railway Workshops. In 1916, when he was working as an apprentice carriage builder he enlisted with the AIF and served in France. He was discharged in 1919 and returned to Western Australia where he married Doreen Jones in 1921. The couple had at least two children who remained at the property until the 1970s.</p>

	<p>It is possible that the construction of the residence had some contribution from the War Service Homes Commission.</p> <p>The original form and extent of the residence had changed little since its construction. A small addition across the rear elevation has been present since the mid-20th century at least. In 2010 a larger addition was constructed across the rear of the building.</p>
Integrity / Authenticity	High/Moderate/Low
Physical description	<p>A single storey brick and iron dwelling with a tuck pointed façade. The façade is of symmetrical presentation with a centrally placed entrance flanked by windows. The entrance consists of a timber panelled and lead light door with leadlight side lights and fanlights. The flanking windows are semi replaced openings with the original timber framed casements being replaced with aluminium sliding openings but with the original stained glass and leaded lights above. Rendered swags and located beneath the sills.</p> <p>The roof is a tall hipped form with vented gablets to the ridge and a timbered gable element projecting out from the main roof line forming an entry statement. Two tall brick chimneys with corbelling project from the side planes of the roof. The roof has been reclad with 'Colorbond' corrugated zincalume and continues down to form the verandah canopy, which extends across the full width of the façade and is supported on timber columns.</p> <p>The predominantly paved front garden is enclosed by recently [2015] constructed brick wall with 1.8m high brick piers.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good example of a Federation Bungalow style residence. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • The place has historic value for its association with Edward James Clay and his family who made a significant contribution to the Bassendean community as a member of the Road Board and the Progress Association. • This place has social value as the house demonstrates the form and scale of housing for professional men and their families in the early 1900s.
History	<p>This portion of Bassendean was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Kathleen Street was named after the wife of Daniel Kenny, Kathleen Horgan whom he married in 1886.</p> <p>This residence was built in 1914 for Edward James Clay (c1876-1925) and his wife Emma Mary Clay, née McCallum (c1867-1963). The couple had married in 1901 and had two children. Edward Clay was a railway employee before he enlisted, at the age of 41,</p>

	<p>to serve with the AIF. He served in France and returned to Western Australia to again take up his employment with the railways; on enlisting he gave his occupation as a belt and shaft attendant.</p> <p>After World War One, Edward Clay again took up his active commitment to the local community. Edward Clay was a member of the West Guildford Road Board from 1909-1914, 1915-1916, and 1919-1921 and was chairman 1920-1921. Mr Clay wanted to dismiss Secretary George Wyndham for incompetency. The Minister for Public Works requested Wyndham be reinstated and a public enquiry be held into the finances and activities of the West Guildford Road Board.</p> <p>Edward Clay also took a significant role on the local Progress Association, the RSL, Railway Employees Union, local brass band and the Anglican Church.</p> <p>Emma Clay was also active in the local community. She opposed the opening of the Bassendean Hotel and raised a petition against it with other concerned locals.</p> <p>Edward Clay died in 1925 and the family remained owners and occupiers of the house for many years. Edward Clay and his family are commemorated with Clay Street in Eden Hill.</p> <p>Additions were undertaken to the rear of the house in the 1950s. Since purchasing the property in 1985, the current owner has undertaken extensive additions and renovations. The renovations included replacement of timber elements on the front verandah and removal of the 1950s additions. The current owner also built by himself the large two storey garage on the southern side of the lot. All these works have sympathetically integrated new elements, such as doors and windows, into the original external walls.</p>
Integrity / Authenticity	High
Physical description	<p>A single storey red brick constructed dwelling with a steeply pitched, CGI clad hipped roof. The dwelling has been built off the ground using approximately three courses of limestone blocks and a series of ten steps, which have been rendered, lead up to the verandah of the dwelling.</p> <p>The south elevation consists of a centrally placed front entrance. Not much detail of the front door is visible, but it does consist of sidelights and a fanlight. Flanking the front entrance are two sets of centrally placed, evenly spaced timber framed sash windows. Beneath each window is a decorative rendered window sill. On the bottom third of the south elevation, in line with and the same depth as the window sills, is a rendered strip which extends along the entire south elevation. The roof pitch breaks slightly and extends over the south, east and west elevations to form the verandah. The verandah is supported by ornately turned timber pillars with an ornate timber frieze and the floor is constructed from timber floorboards.</p>

Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Kathleen Street was named after the wife of Daniel Kenny, Kathleen Horgan whom he married in 1886.</p> <p>The house is one of the largest in the street and occupies two housing lots. From the available information this residence was constructed in 1923 for William Weir Jnr (c1895-1952) and his wife Lillian Lucy Weir, née Mardon (c1900-1972). William Weir had a range of occupations including an insurance agent and storekeeper. The couple had married in 1924 and they moved into this home which they named 'Lilybank' presumably in honour of Lillian Weir. The Weir's stayed at the house until the late 1920s. Later occupants included; George Willcox, Frederick Harvey and Cyril Trumfell.</p>

	Aerial photographs indicate that the house has undergone several programs of work in the second half of the 20th century that have extended the footprint of the house. These later additions have been roofed in corrugated iron or zincalume in contrast to the tile roof on the original portion of the residence. It is possible that originally the house was roofed in corrugated iron but the images from the mid-20th century are unclear.
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey dwelling constructed of red brick with a steeply pitched terracotta tile roof. The front entrance is centrally located on the façade and consists of timber framed, stained glass side lights. Flanking either side of the front entrance is a group of three timber framed, three-paned casement windows with a cement sill beneath.</p> <p>The roof is of hipped construction using terracotta tiles and finials. On the east and west planes of roof are rendered brick constructed chimneys with decorative chimney tops and a pair of terracotta chimney pots. The roof is steeply pitched and continues on an uninterrupted plane beyond the façade to form the verandah. The verandah extends across the entire façade and partly down the east elevation and is supported by timber posts with decorative timber brackets.</p> <p>In 2018 the terracotta tiles on the roof were replaced with metal sheeting.</p>

Architectural style	Inter War Corrugated Iron
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a predominantly intact example of the Inter War style executed in timber and plasterboard. • The place has historic value for its association with the Inter-War development of this area. • This place has social value as the house demonstrates the form and scale of housing for working families in the inter war period.
History	<p>This portion of Bassendean was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Kathleen Street was named after the wife of Daniel Kenny, Kathleen Horgan whom he married in 1886.</p> <p>From the available information this residence was constructed in 1934 and the first occupant was F.G. Chapman. No information has been discovered about this occupant and they have only been listed in the Post Office Directories as living there for one year.</p> <p>The place was occupied by a series of short term occupants until occupied by Chepstow William Roberts (1910-1992) and his wife Heba May Roberts, née Barlow (c1912-1984). Lancashire born, Chepstow Roberts recorded his occupation as a wagon builder and later carpenter so it is likely he worked at the Midland Railway Workshops. The couple lived at the residence until the mid-1950s.</p>

	Aerial photographs indicate that a small extension was added to the rear c2010.
Integrity / Authenticity	High
Physical description	<p>A timber framed, weatherboard, fibro panelled and corrugated iron dwelling of traditional design. The cottage features a symmetrical façade with centrally placed entrance flanked by windows. The windows are timber framed casements each with two highlight windows, arranged in threes. The façade consists of weatherboard to the lower half of the elevation with fibro panelling above.</p> <p>A full width verandah is located across the front façade with centrally placed timber steps. Canopy is the continuation of the main roof, supported on square timber columns with timber brackets. There is no balustrade but the verandah is faced with timber due to the increased height.</p> <p>The hipped roof features a small centrally placed gablet and a tall brick chimney.</p>

Kathleen Street was named after the wife of Daniel Kenny, Kathleen Horgan whom he married in 1886.</p> <p>The house is one of the larger in the street and occupies two housing lots. From the available information this residence was constructed in c1927 for George Ward Enderby (c1876-1966) and his wife Mary Enderby, née McKendry (c1880-1956). George Enderby was born in Homebush Victoria and he travelled to Western Australia and married Mary McKendry in Kalgoorlie in 1904. George Enderby worked as a labourer and driver and in 1917, at the age of 39, enlisted to serve in the AIF during World War One. He returned in 1919 and by 1925 the couple were living in Bassendean and remained their home until the late 1950s. The Enderby's named their home 'Homebush' after George's home town in Victoria.</p>

	Aerial photographs indicate that the residence was extended to the rear in the late 1990s and in 2008.
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey brick and tile house hipped roof and timbered gable feature. The property is constructed of face brick laid in stretcher bond in a simple design. The entrance is located in the return wall and does not have a direct relationship with the street. The gabled element, with timber detailing, creates definition to the façade and marks the point of the asymmetric plan form of the front elevation where the entrance is located.</p> <p>The verandah extends around the return frontage and the full extent of the facade. The canopy is formed by the continuation of the main roof and the gable is supported on timber columns.</p> <p>The windows are timber framed casement openings with integral highlight windows.</p>

The couple had married in 1924 and lived at this house all their married lives.</p> <p>Aerial photographs indicate that the roof of the house was reclad in red corrugated iron c1982. The form and extent of the residence have changed little since the mid 20th century.</p>
Integrity / Authenticity	High/Moderate
Physical description	Single storey brick and corrugated metal dwelling with a hipped roof. The house presents with a symmetrical façade with a centrally

	<p>located timber framed front door. The windows, located either side of the front door, are timber framed casements arranged in a group of three, with each pane consisting of one large pane with one smaller pane above. Both groups of windows have a lintel above.</p> <p>The roof is hipped and clad in corrugated iron. There is a centrally located timber gable in the roof over the front entrance. The roof contains a brick chimney with a metal chimney cap and is located on the east plane of the hipped roof. With a slight break in pitch, the roof continues past the façade to create the verandah which extends along the entire façade which is supported by timber posts with decorative timber brackets.</p> <p>In 2020 plans for were approved for an extension to the rear of the dwelling that also accommodated a verandah and an attached garage. The roofing was replaced in 2020 from tile to metal sheeting.</p>

Kenny Street was named after Dr Daniel Kenny (1860-1915), born in Ireland and trained as a medical doctor at Trinity College; he achieved several prominent postings in medical, political and business life in Western Australia.</p> <p>From the available information this residence was built c1918 for Edith Davis (c1851-1925). Edith was the widow of Wallace Hepburn Davis (1848-1915) a station overseer and son of Sir Wallace Bickley. Their son Albyn Davis served as a driver in France during World War One and following Edith's death in 1925, Albyn and his wife Katherine Davis, nee Jacobs who had married in 1916, settled in the house.</p>

	Aerial photographs indicate the house has changed significantly since the mid-20 th century.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey brink and render dwelling which presents with an asymmetrical façade and has a brick dado to sill height and rendered above. The front entrance is situated in the slightly recessed east corner of the façade. The front door is timber framed with timber and glazed side lights and a glazed fan light. A sweeping set of steps leads onto the verandah in line with the front entrance. There is a group of three timber framed casement windows with a stone window sill beneath.</p> <p>The roof is complex hipped form with a timber detailed gable element and clad in corrugated metal. The verandah, which is hipped but at a differing pitch to the roof, extends across the length of the façade and is supported by timber posts. There is a cement rendered chimney with brick detailing extending from the west plane of roof.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well executed and predominantly intact example of the Federation bungalow style. • The place has historic value for its association with the development of this area of Bassendean early 20th century. • The place has historic value for its association with Richard (Dick) McDonald the longest serving Chairman of the Bassendean Road Board and later Shire of Bassendean who made a significant impact in shaping the development of Bassendean. • This place has social value as the house demonstrates the form and scale of housing for professional families in the 1910s.
History	<p>This portion of Bassendean was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H.Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Kenny Street was named after Dr Daniel Kenny (1860-1915), born in Ireland and trained as a medical doctor at Trinity College; he achieved several prominent postings in medical, political and business life in Western Australia. The street began to be settled in the 1910s with most intense development in the Inter War period.</p> <p>The house is one of the larger in the street and occupies two housing lots. The house was constructed c1912 for prominent local citizen, Richard (Dick) Alexander McDonald and his family. Dick McDonald originally worked at Midland Railway workshops as a</p>

	<p>wagon builder from 1911 and was soon involved in most aspects of the Bassendean community however he made his most significant impact as the longest running Chairman of the Road Board and later the Shire Council. The McDonald family, consisting of Dick (1885-1967), his wife Ethel May, née Walsh (c1886-1948) and their children Alex, May and Donald lived at this residence until the mid-1960s.</p> <p>The building has undergone some additions in recent years. An extension to the northern side was undertaken c2013 which included the replacement of tile roof cladding with zincalume. This change was consistent with the original cladding of corrugated iron which was removed c1980.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey brick and iron house positioned in a slightly elevated position behind a high brick wall. The roof is a hipped form extending down at the same pitch to form the verandah canopy that wraps around three elevations and is supported on paired timber posts. The verandah deck is raised with limestone retaining wall and timber deck. Symmetrical façade with centrally placed entrance flanked by full height windows.</p> <p>In 2019 a patio was developed at the rear of the dwelling. The roof pitch and material of the patio matches that of the existing dwelling.</p>

It was created into one lot in 1967. From the available evidence this residence was constructed in 1926 and the first occupant was bricklayer, Horace Leonard Adie (c1901-1975) and his wife Phyllis Marjorie Adie, née Burrows (c1902-1975). The couple married in 1926 and this was their first home possibly constructed with the assistance of Horace Adie. The Adie's lived at this residence until the early 1930s and then relocated to another home in Bassendean.</p>

	In c1990, additions were made to the rear and a carport constructed on the southern side.
Integrity / Authenticity	High/Moderate
Physical description	Single storey brick and tile house of traditional symmetric plan form to the façade incorporating projecting gabled wing. The house is constructed from face brickwork with tuckpointing to the front dado and render above. The side elevations are plain brick. The roof is hipped to the main part of the house with a single gable incorporating timber detailing to the projecting section of the façade. The roof continues down over at the same pitch forming the verandah canopy which is supported on square masonry columns with a tuck pointed brickwork balustrade spanning between the columns. A tiled awning projects over the window to the gabled section. The ground level drops away towards the rear of the property necessitating a limestone retaining wall of increasing height.

Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Kenny Street was named after Dr Daniel Kenny (1860-1915), born in Ireland and trained as a medical doctor at Trinity College; he achieved several prominent postings in medical, political and business life in Western Australia. The street began to be settled in the 1910s with most intense development in the Inter War period.</p> <p>From the available evidence this residence was constructed in 1919 and the first occupants were newlyweds ex Serviceman, Alfred Harry Lewis (c1888-1951) and Dorothy Kathleen Lewis, nee Haines (c1898-1983) who had married in 1918. Harry Lewis was a fitter's assistant and the couple and their four children lived at the residence for approximately 10 years before moving to 14 Kenny Street.</p>

	The property was extended prior to the mid-20th century and this addition was extended c1990 bringing the entire addition under a new roof form at the rear of the residence.
Integrity / Authenticity	High/Moderate/Low
Physical description	A single storey timber framed and weatherboard clad dwelling with a CGI clad hipped roof. A separate CGI bullnose verandah extends across the entire south elevation and is supported by turned timber pillars. The verandah floor is constructed from timber decking. The south elevation consists of a centrally placed front entrance, flanked by two timber framed, one-over one pane sash windows. The front entrance has a timber panelled front door with sidelights and a fanlight. The dwelling has a picket and brick fence which slightly obscures the house and a modern hipped carport has been built in front of the eastern corner of the south elevation.

The street began to be settled in the 1910s with most intense development in the Inter War period.</p> <p>From the available information this residence was constructed c1916 and was occupied by a series of tenants. The owner of the property has not been determined. A long term occupant from the late 1930s until the 1980s was labourer, William Frederick Bartley Slater (c1912-1997) and his wife Anne Eileen Slater (c1914-1985). Other members of the Slater family lived at 103 Kenny Street during this period.</p>

	This residence has undergone major additions and alterations from 2009 to 2012. An addition to the rear of the property has tripled the size of the residence although the original extent of the residence can be determined externally and in aerial photographs.
Integrity / Authenticity	High/Moderate/Low
Physical description	<p>Single storey timber framed and weatherboard house that has been substantially enlarged at the rear. The single storey house presents in a traditional asymmetric form to the front incorporating a projecting wing which is the dominant aspect of the facade. The section behind the projecting bay has no direct relationship with the street with all windows being located on the side elevation.</p> <p>The projecting section incorporates a centrally positioned 1-over-1 timber framed sash window with gable feature above and a further 1-over-1 sash to the side elevation. The verandah extends across the full width of the front elevation before wrapping around the full depth of the side elevation, terminating at the entrance to the new addition. The verandah canopy is a separate structure, positioned just below the gable to the front and below the eaves around the side. It is supported on square timber posts and has been reclad in long sheet corrugated cladding.</p>

Place number	124 (18278 – inHerit)
Other reference numbers	A3089
Address	102 Kenny Street
Location Description	Lot No: 433 Plan 3188 Vol/Fol: 1369/1000
Other names	
Place type	Individual Building or Group
Primary local government	Town of Bassendean
Titles	
GIS coordinates/latitude, longitude	-31°54'37" , 115°56'47"
Use (original/present)	Original: Residential – Single Storey Residence Present: Residential – Single Storey Residence
Construction materials	Timber: Weatherboard Metal: Corrugated Galvanised Iron
Architectural style	Inter War Californian Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as an example of the Inter War style. • The place has historic value for its association with the Inter War development of this area. • This place has social value as the house demonstrates the form and scale of housing for working families in the inter war period.
History	<p>This portion of Bassendean was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Kenny Street was named after Dr Daniel Kenny (1860-1915), born in Ireland and trained as a medical doctor at Trinity College; he achieved several prominent postings in medical, political and business life in Western Australia. The street began to be settled in the 1910s with most intense development in the Inter War period.</p> <p>From the available information this residence was constructed c1929 and the first occupant was timber worker, Edward Henry Nelson (c1902-1977) and his wife Dorothy Elizabeth Nelson, née Watson (1902-1995). The couple had previously lived at 74 Kenny Street and remained at this address for only two years which suggests they were renting the property. A later occupant was Mrs Doig.</p>

	In 2010, the residence underwent major renovations including removing the rear half of the building, redesigning the roof form and adding a major extension to the rear and northern elevation.
Integrity / Authenticity	High/Moderate/Low
Physical description	<p>Single storey timber frame, weatherboard and corrugated metal residence of asymmetric plan form to the façade.</p> <p>The façade incorporates a projecting wing with a timbered gabled detail and fibre cement sheet cladding, timber framed sash windows with skillion corrugated iron window canopy above.</p> <p>The recessed section of the façade has a separate skillion verandah canopy, positioned below the eaves of the main roof and supported on slender posts. This section of the elevation incorporates the main entrance with timber panelled and glass door with stained glass and leaded sidelights and sash windows to the south of the entrance.</p> <p>The house has been extended to the rear with all aspects of the roof clad in long sheet corrugated iron.</p>

Construction materials	Brick: Tuck Pointed Metal: Corrugated Galvanised Iron
Architectural style	Inter War Californian Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as an excellent demonstration of the Inter War style. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • This place has social value as the house demonstrates the form and scale of housing for working families in the inter war period.
History	<p>This portion of Bassendean was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Kenny Street was named after Dr Daniel Kenny (1860-1915), born in Ireland and trained as a medical doctor at Trinity College; he achieved several prominent postings in medical, political and business life in Western Australia. The street began to be settled in the 1910s with most intense development in the Inter War period.</p> <p>From the available information this residence was built c1921 for Edward Ripper Keen (c1869-1952) and his wife Louisa Keen (c1868-1946). Edward Keen was a car builder with the West Australian Government Railways and mostly probably worked at the Midland Railway Workshops. The couple had seven children and lived at this residence until their deaths, Louisa in 1946 and Edward in 1952.</p>

	The residence was extensively renovated in the late 1990s from a simple square form it was extended at the rear to create an 'L' shape envelope and verandahs were added. The roof appears to have originally been clad in red corrugated iron.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey tuck pointed brick and iron house of traditional asymmetric plan form incorporating a projecting bay to the façade and small additions to the side elevations, both of which are set back behind the predominant building line.</p> <p>The roof is hipped, extending down at the same pitch to form the verandah canopy across the recessed section of the façade which is supported on turned timber posts with decorative brackets and frieze. The windows to the projecting bay are protected by a skillion corrugated canopy supported on timber brackets. The windows are timber framed 1-over-1 sash windows with painted concrete sills. The main entrance incorporates a timber and glass panelled door with timber panelled and glass side lights and fanlights. A further door is located to the northern edge of the façade.</p> <p>The house is positioned behind a lawned garden with mature planting and enclosed with hedging.</p>

Fred and Amy Wright married in 1912 and lived at the residence until the mid-1960s. Fred Wright was a joiner by trade and it is possible he had some involvement in the construction of this residence.</p>

	Aerial photographs indicate that the form and extent of the residence have changed little since the mid1960s.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey timber framed and weatherboard house with hipped roof. The property sits in an elevated position with brick retaining wall to the garden boundary and a further retaining wall underneath the verandah. A steep concrete driveway extends along the southern boundary of the site.</p> <p>The property presents as a traditional weatherboard house with an asymmetrical façade incorporating three sets of timber framed casement windows with frosted glass and each with 4-pane highlight above. The entrance door is flanked by side lights and solid panels with fanlights to each of the three sections of the door ensemble.</p> <p>The roof is hipped with small gablets to the ridge, reclad in colorbond and continues down with a break of pitch to form the skillion verandah canopy. Brick chimneys project from the roof adjacent to the gablets on the north side of the roof. The verandah canopy is supported on square timber posts with a simple cross timber balustrade spanning between the posts and a timber frieze directly under the fascia and canopy. The deck is timber.</p> <p>A single storey addition has been constructed towards the rear of the house on the south elevation and is of similar construction.</p>

Jonathan and Laura Bedford were married in Boulder in 1912 before English born Jonathan enlisted with the AIF to serve in France during World War One. He returned to Australia in 1919 and the couple settled in Kenny Street. As a carpenter and joiner it is possible Jonathan was involved in</p>

	<p>the construction of this residence. The Bedfords lived at the residence until the 1970s.</p> <p>Aerial photographs indicate that the external form and extent of the building have not changed significantly since the mid 1960s apart from additions to the rear.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Elevated single storey property displaying elements of the Californian Bungalow architectural style. The place is of brick construction with roughcast render finish. The roof is hipped with gablets to the ridge and clad in long sheet corrugated metal. The roof continues down at the same pitch to form the verandah canopy which extends across the front and southern elevation. A gable projection is situated at the southeast corner with timber detailing to the gable which provides additional emphasis to the angled bay window. The verandah canopy is supported on timber posts and masonry columns with simple timber picket balustrade extending between each post.</p> <p>The windows are timber framed casements with leaded lights arranged in groups with boxed bay openings to the façade. Each boxed bay consists of three street facing windows with additional windows to each side and rendered brickwork above and below the windows. The boxed bay on the south-east corner is at an angle with a view down the road. A replacement window appears to have been inserted between the two boxed bays on the façade.</p> <p>The house sits in an elevated position looking over the front garden which is lawned and enclosed by a dwarf brick wall and timber picket fence.</p>

Kenny Street was named after Dr Daniel Kenny (1860-1915), born in Ireland and trained as a medical doctor at Trinity College; he achieved several prominent postings in medical, political and business life in Western Australia. The street began to be settled in the 1910s with most intense development in the Inter War period.</p> <p>From the available evidence in the Post Office Directories, this residence was constructed c1917 for labourer Charles George Townsend (1884-1958) and his wife Ellen (née Wallace). The couple had married in the goldfields and moved to Bassendean (West Guildford) where Ellen's parents lived in Kenny Street. The Townsend family consisting of George, Ellen and two children Mary (1914-1994) and Charles (1918-1943), lived at the house until the 1980s.</p>

	Information from the owners c2004 stated that the building was constructed c1910 however no origin for this statement was supplied. At that time the residence had been extended but the original front rooms were intact.
Integrity / Authenticity	High
Physical description	<p>Single storey timber framed and weatherboard cottage with hipped roof. The property presents in a symmetrical plan form to the façade with the centrally placed entrance flanked by windows. The entrance comprises a timber panelled and glazed door with side panels and lights and fanlights. The windows to the façade are arranged in paired sashes with each tall narrow window being a 6-over-1 sash with unified timber sill.</p> <p>The roof is hipped clad in short sheet corrugated iron sheeting and extends down for form the verandah canopy with a subtle break of pitch. Tall brick chimney projects from the south-east plane of the roof. The verandah canopy is supported on turned timber posts with non-original decorative timber brackets. The verandah deck is timber. The verandah wraps around to the south elevations which overlooks Reid Street. The south-eastern corner of the property is clad with larger profile weatherboarding and incorporates a timber framed multi-paned casement opening.</p>

Architectural style	Inter War Californian Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Historic
Statement of significance	<ul style="list-style-type: none"> The place is indicative of the standard plan and type of housing in the Inter-War period. The place has value for its association with the adjacent properties which were built at the same time as part of the establishment of the adjacent fertiliser works. The place has historic value for its association with the development of this area of Bassendean in the Inter-War period.
History	<p>The Ashfield Estate was first subdivided for sale as a residential development in 1929. The nearby Cumming Smith factory and other industries in the vicinity made it a logical choice for development. An article in the local press in 1929 stated that residences in the new suburb were to be of brick or stone with tile roofs and only one dwelling per lot.</p> <p>This residence was one of five built in c1929 (29, 31, 33, 35, and 37) at the eastern end of Maidos Street which demonstrate the style and scale of the homes as stated in the promotional material for the estate. They were the first houses in the street and local sources indicate that this group of five houses were built for the managers of the Cumming Smith factory although the majority of the first occupants appear to be unskilled workers or tradesmen. One of the houses (29) has subsequently been demolished.</p> <p>The first recorded occupant of the residence in the Post Office Directories was Henry Bertram Charteris (c1888-1951). He lived at the residence for only one year and according to the electoral rolls worked at a variety of trades including, a seaman and a rigger. The residence appears to have been occupied by a series of tenants throughout the 1930s.</p>

	The lot was subdivided and a new residence built at the rear of the lot c2010 when the carport at the front of the residence was built.
Integrity / Authenticity	High
Physical description	<p>Single storey brick and tile building which presents with an asymmetrical façade with a rendered band located at the upper third of the façade. The west corner of façade consists of a small projecting verandah section with a separate gable roof with a timber gabled detail and timber balustrading. Located toward the east corner of façade is a double timber framed casement window where each pane consists of one larger pane with two smaller panes above. Above the window is a separate skillion awning clad with terracotta tiles with timber brackets.</p> <p>The roof is a complex gable arrangement with a timber gabled detail and is clad in terracotta tiles with terracotta ridge tiles and finials.</p> <p>Due to the high front fence and the modern brick and tile gabled carport addition, no more detail of dwelling is visible.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and intact example of the Inter War style. • The place has historic value for its association with the inter war development of Ashfield. • This place has social value as the house demonstrates the form and scale of housing for working families in the inter war period.
History	<p>The Ashfield Estate was first subdivided for sale as a residential development in 1929. The nearby Cumming Smith factory and other industries in the vicinity made it a logical choice for development. An article in the local press in 1929 stated that residences in the new suburb were to be of brick or stone with tile roofs and only one dwelling per lot.</p> <p>This residence was one of five built in c1929 (29, 31, 33, 35, and 37) at the eastern end of Maidos Street which demonstrate the style and scale of the homes as stated in the promotional material for the estate. It is possible that the homes were built as early display homes but no documentary evidence has been found to support this conclusion. The first occupant of this residence was Ernest Giles who lived there for one year and was followed by a series of occupants which suggests the residence was tenanted.</p>
Integrity / Authenticity	High/Moderate
Physical description	Single storey brick and tile house with hipped and gabled roof. The house presents with an asymmetric façade incorporating a shallow projecting bay with gabled feature above. The house is of face brick construction with rendered bands enlivening the aesthetic of the brick. Windows are timber framed casements arranged in groups of

	<p>three with each pane containing a large pane with two smaller panes above. Each opening has a deep concrete lintel above.</p> <p>The roof is hipped and tiled with raised ridge tiles and terracotta finials. The front plane of the roof continues down with a subtle break of pitch to form the verandah canopy which is supported on slender steel poles. The verandah extends across the façade with the gable sitting above the skillion canopy. The gable is rendered with timber detail.</p>

Values	Historic
Statement of significance	<ul style="list-style-type: none"> The site has historic value for its association with the Holman family and May Holman particularly who made a significant contribution to the Bassendean and wider Western Australian community.
History	<p>The land on which this building is located was originally owned by the Holman family. A large home was located on the landholding of ten acres occupied by the Holman family consisting of John (Jack) Barkell Holman, MP, his wife Catherine and their nine children.</p> <p>The family were originally from Victoria and after some periods in regional Western Australia settled in Bassendean in 1920.</p> <p>Jack Holman held positions in the Union movement and the Labor ministry and Catherine was also active in the community holding positions in Labor women's organisations.</p> <p>Their daughter Mary Alice, known as May, followed her parent's model and became an active member in the Labor movement and from the age of 16 assisted her father in his electorate. On his death in 1925, May was elected to his seat and became the second woman in Australia to hold a seat and the first woman Labor member in the Commonwealth. She held the seat of Forrest until her death in 1939.</p> <p>The Holman family did not remain in the house after the 1940s and the house was demolished c1997 and the property subdivided. Holman house located on a portion of the former property recognises the contribution of May Holman and her family to the Bassendean and wider community.</p> <p>The nearby May Holman Reserve recognises her association with the location.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This group has aesthetic value as relatively intact examples of post war pre-fabricated houses. • The group has historic value for its association with the development of Ashfield in the post War period. • The group has social value as the houses demonstrate the form and scale of housing for working families in the post war period. • The group have historic value for their association with the government programs and policy implemented in the post World War II period.
History	<p>The Ashfield Estate was first subdivided for sale as a residential development in 1929. The nearby Cumming Smith factory and other industries in the vicinity made it a logical choice for development in the Inter War years. However the area was not densely settled and there were still considerable areas of undeveloped land in the period following World War Two when demand for housing was high.</p> <p>In early 1950, the State Housing Commission (SHC) undertook a major program of public housing in the state committing to provide</p>

	<p>30,000 houses within four years around the state. Ashfield was one of the suburbs selected for new housing in this program with an estimate of 250 homes to be built within four years. SHC officers informed the Bassendean Road Board that 'Prefabricated and "pre-cut" homes were the most favourable types for quick construction and were proving very popular.</p> <p>Clearing and levelling of the site bound by Guildford Road, Hardy Road, Pearson Street and Villiers Street began in 1951. The design of the estate included 210 timber frame homes and 40 brick homes, a school site, three church sites and a shopping centre and was expected to be completed within two years. At the end of 1952, the local press recorded that the previous year was a period of intense building activity with 114 weatherboard and prefabricated buildings constructed throughout the Road Board.</p> <p>Local residents refer to these houses as the 'Austrian Prefabs'. This name may originate from a specific construction program that was identified in the local press in 1951 as follows:</p> <p><i>Plans are being made for the erection of 900 imported prefabricated houses to be cut out in Vienna and erected in WA by about 325 Austrian workmen in 12 construction teams. A feature of the agreement to be signed by the Austrian workmen is that their fares will be paid out to WA, but they will have to provide their own return fares to get home. One one-hundredth part of their return fares will be deducted from their wages each week until the expiration of their two-year contract'.</i></p> <p>This listing reflects one of the largest and earliest subdivisions of imported Austrian prefabricated houses within Ashfield that formed part of this public housing program. Of the 30 homes that were part of this subdivision, only 21 remain. Since this original development of the Ashfield area, there have been many alterations, additions and demolitions of original residences. Many other timber framed and brick homes from this greater State Housing Commission program still remain within the locality.</p>
Integrity / Authenticity	Various
Physical description	These single storey residences are uniformly located away from the street and set within fences, lawns or gardens. The individual buildings are of a similar architectural style and are generally all clad with weatherboard wall cladding but, there is various materials used to clad the roof ranging from terracotta and cement tiles to corrugated metal. Large brick chimneys on the side elevation are a common feature of the style.

Construction materials	Brick: Common and Render Metal: Corrugated Metal
Architectural style	Federation Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a well-executed intact example of the Federation Bungalow style, with much of the original detail of the exterior in evidence. The place has historic value for its association with the former Cleikum Inn which was located at this site which provided a valuable service to the West Guildford community in the mid 19th century. The place has historic value for its association with Charles Rickwood Wicks who was a successful builder and prominent citizen in the community. The place has social value as a landmark in the community since the early 20th century.
History	<p>This portion of Bassendean was one of the first areas to be subdivided as town lots of approximately 2 acres each. The land was subsequently subdivided as smaller residential lots in the early 1900s. North Road was named in honour of Lord North of Guildford, an early Secretary of State for the Colonies. Descendants of Lord North were influential in the government and parliament of Western Australia.</p> <p>This residence was built on the site of the 'Cleikum Inn' which was the site from which travellers would set off across the river to Guildford. The land was purchased by prominent local citizen, builder Charles Rickwood Wicks. Wicks had built a residence in Carnegie Street and 'Holmehouse' in Anstey Street prior to building this residence for his family c1907.</p>

	<p>This residence was built to a grand scale and included tennis courts and a private jetty. Charles Rickwood Wicks, formerly of Melbourne, had settled in Western Australia with his wife and two children in the late 1890s. He came from a family of builders of high repute in Victoria and quickly established himself in that profession in Western Australia. This home was originally called 'Abbotsford' after the locality in Melbourne where the Wicks family originated.</p> <p>Charles Wicks continued to work as a builder and was responsible for the construction of 'many fine homes in the district'. Anecdotal information from his grandson states that these homes included 1 North Road, 26 and 28 North Road and possibly 89 Old Perth Road. Wicks was an active community member, taking his place on the West Guildford Roads Board from its first meeting in 1901 to 1913 and then again from 1917 to 1920. Charles Wicks lived at the Guildford Road property until his death in 1956 at the age of 96.</p> <p>The building has been added in several programs of work since its construction. A large addition to the west was undertaken c1970 and many additions and alterations have been undertaken as requirements have changed. The roof appears to have originally been tiled and changed to zincalume cladding c2009.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey brick and render dwelling with a hipped corrugated metal roof and three diverse facades on a corner lot. It was re-roofed early 2009 seeing a change from tiles to the current corrugated metal. It appears to be two buildings on one site, the smaller building closest to North Road faces due west whereas the main building to the rear of the site is slightly angled aligning with Guildford Road and the Swan River.</p> <p>The west facing North Road façade to the smaller building is painted brick with aluminium framed windows. It is very plain in appearance compared to the ornate features of the larger building. To the south of the building is an enclosed alfresco area adjoining the driveway and the smaller building.</p> <p>The main building at the rear overlooks the Swan River to the east, making the main facade of the building at the rear of the site. This building is rendered brick construction with textured elements at the gable and above the stained glass bay windows. It has a brick chimney penetrating the corrugated roofing and a verandah extending to the north east with a separate corrugated roof. The verandah is adorned with a simple timber frieze and decorative timber brackets and posts. The verandah to the north is less ornate than the verandah adjoining the main façade, however it also has a separate corrugated roof and simple timber columns and frieze. A gable over stained glass bay windows to the north seems to match the front façade with its textured render, vertical elements and shell like feature.</p>

History	<p>This portion of Bassendean was one of the first areas to be subdivided as town lots of approximately 2 acres each. The land was subsequently subdivided as smaller residential lots in the early 1900s. North Road was named in honour of Lord North of Guildford, an early Secretary of State for the Colonies. Descendants of Lord North were influential in the government and parliament of Western Australia.</p> <p>The residence was built in 1923 for, Charles Marshall Harris (1873-1960) and he called the place 'Cranford'. Charles Harris worked in the mining industry, with entries in the electoral rolls as a mining engineer or mining attorney. He married Isabella Mary Geraldine Lefroy (1871-1957) in 1900 and they lived in regional Western Australia before relocating to the metropolitan area.</p> <p>The couple left the property in c1952 and at that time the house was advertised in the local press as follows.</p> <p><i>Elegantly and picturesquely situated at Bassendean (Vicinity Road and Railway River Bridges). Attractive eight-room Brick Residence with usual appurtenances. Spacious verandahs, garage. Known as "Cranford" no. 16 North Road</i></p>

	<p><i>Bassendean. Improvements: Attractive and commodious Brick Residence, Spacious Front, side and Back Verandahs, "L" shaped Hall, Lounge-Study (with folding division doors). Dining Room, 4 Bedrooms, Bathroom, Kitchen (with alcove), Pantry, Laundry, Wired, E.L. Garage, Wood and Tool Sheds, Lawns, Garden, etc. NOTE: To those desiring a spacious comparatively modern family or investment home, this property surely invites attention and consideration.</i></p> <p>Aerial photographs indicate that the extent of the building has not been significantly altered from the original form.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a predominantly intact example of the Victorian Georgian style. • The place is a landmark in the streetscape for its continuity in the community since 1888. • The place has historic value for its association with settlement in the late 19th century. • This place has social value as a demonstration of the form and scale of housing for leading members of the community in the late 19th century.
History	<p>This portion of Bassendean was one of the first areas to be subdivided as town lots of approximately 2 acres each. The land was subsequently subdivided as smaller residential lots in the early 1900s. North Road was named in honour of Lord North of Guildford, an early Secretary of State for the Colonies. Descendants of Lord North were influential in the government and parliament of Western Australia. The river side of North Road was seen as a most desirable residence for the early settlers in West Guildford, later Bassendean.</p> <p>This residence was constructed c1890 and was known as the 'Bungalow'. The place is most closely associated with civil servant George Tuthill Wood (c1863-1943) and was one of the first homes built in the new locality of West Guildford. The residence originally had drinking water from the Guildford artesian scheme and the extensive grounds of the property included a croquet ground.</p> <p>George Wood was a senior member of the Crown Law Department and instrumental in the foundation of the West Guildford Road Board. He was the Honorary Secretary from 1901-1905 of the West</p>

	<p>Guildford Road Board. He served on the West Guildford Road Board from 1901-1907 when he resigned to take up an appointment as the Resident Magistrate in Broome.</p> <p>Born in Suffolk in 1863, Mr Wood first went to New Zealand where he was educated at Christchurch. At aged 23 he was called to the Bar and part of a firm Hamersley and Wood. He then went to Melbourne until 1896 when he moved to Western Australia and settled in West Guildford.</p> <p>Three years later he was called to the WA Bar and promoted to Crown Prosecutor. He continued this office for nine years and resigned to become resident magistrate in Broome in 1908. In 1920 he was transferred to Bunbury and after two years was appointed to Perth. He was the Police Commissioner and appointed to head a government inquiry into events in the Kimberly later known as the Forrest River massacre. Mr Wood retired from half a century of law in 1933 aged 70 years. George married Susannah Miller in 1897 and they had two sons Derisley and Keith. George Wood died in 1943 aged 80 years old.</p> <p>Aerial photographs indicate the house has been extended to the rear in the 1970s and the original red corrugated iron roof was replaced at that time. Since then further additions and alterations have been undertaken to the rear of the property.</p>
Integrity / Authenticity	High
Physical description	<p>A single storey brick and iron house that has been finished with rough cast render. An asymmetric plan form with large faceted corner bay. Timber framed double hung sashes to alternate openings. The front entrance consists of a traditional arrangement of timber panelled and glazed door with side lights to both sides and a 3-sectioned fanlight.</p> <p>A verandah wraps around the front elevation and bay, positioned below the eaves line with a faceted skillion canopy to the bay which continues around the side and front elevations supported on simple timber posts with a timber fascia/frieze extending between each post.</p> <p>The roof is an extensive complex hipped form of corrugated iron with a tall chimney to the side planes of the roof and shallow eaves.</p> <p>The flooring in the original house is made from amabilis fir, a timber similar to douglas fir that was imported to Western Australia to craft ebonised pine furniture. The timber remaining from this project was used to make the floor boards for this residence.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a well-executed and predominantly intact late example of the Federation style. • The place has historic value for its association with the development of this area of Bassendean in the early twentieth century. • This place has social value as a demonstration of the form and scale of housing for leading members of the community.
History	<p>This portion of Bassendean was one of the first areas to be subdivided as town lots of approximately 2 acres each. The land was subsequently subdivided as smaller residential lots in the early 1900s. North Road was named in honour of Lord North of Guildford, an early Secretary of State for the Colonies. Descendants of Lord North were influential in the government and parliament of Western Australia.</p> <p>From the available information this residence was constructed c1919 for Amy Barrett-Lennard (c1871-1937). Amy, nee Brockman married George Hardey Barrett-Lennard in 1886 and the couple had 13 children. The extensive Barrett-Lennard family were early settlers in the Swan Valley and were influential in the establishment of agriculture and particularly vineyards in the mid-19th century. George died in 1917 and Amy relocated from their farming property to Bassendean. She secured two lots on North Road and built this residence which she named 'Comares', the origin of which is unknown apart from the Spanish town of that name. Amy died in 1937 and her daughter Helen Ferguson lived in the house until the early 1940s.</p>

	<p>Information from c2004 stated that the house was added to in the 1920s which changed the existing rear verandah into a kitchen and vestibule. An addition was made to the rear of the house in 1973 and internal modifications were made in 2000.</p> <p>The residence is located within a large garden which is consistent with its original context and two trees (one a magnolia) within this garden are believed to date from the original construction.</p> <p>In 2020, a development application was approved that included the following restoration works:</p> <ul style="list-style-type: none"> - Re-build shaped existing bullnose veranda, retaining existing roof sheets and posts. Replace floor structure, Jarrah flooring and Veranda beams. - Replace existing green colorbond straight line gutters with Zinalume colonial profile to match the existing roof. - Replace rusted down pipes with new to match existing - 75mm round. - Replace existing green colorbond square barge flashings with Zinalume rolled barge flashings. - Replace rotten barge boards with new to match existing.
Integrity / Authenticity	High
Physical description	<p>Single storey brick and iron house of traditional asymmetric plan form. The house is positioned on a large lot with gardens laid to lawn to the front. The main roof is a raised hip with vented gablets (similar to a Dutch gable) with gables to the projecting sections on the east (façade) and north elevations. Tall rendered and brick chimneys with corbelling are located on the north and south planes of the roof. A separate bullnose verandah canopy is positioned below the eaves and wraps around the east and north elevations between the two gabled wings. All sections of the roof have been reclad in long sheet corrugated iron.</p> <p>The house is of face brick construction with a tuck-point finish. Two rendered bands extend across the two principal façades the lower one at sill level and the upper one in line with the transom of the main entrance. The gabled wings have timbered and roughcast render gable elements and timber framed 1over-1 sash windows below. The street facing gable contains two gables, the north facing gable wall cannot be seen from the road. The recessed section of the elevation contains two further 1-over-1 sash windows and the main entrance. The entrance is a traditional form of timber and glass panelled door, side panels and side lights and fanlights across the entire. The verandah canopy is supported on slender steel posts.</p>

Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a mostly intact example of the Federation Bungalow style within a garden setting. • The place has historic value for its association with the development of this area of Bassendean in the late 19th and early 20th century. • The place has historic value for its association with early settlers the Pringle and Langan families. • This place has social value as a demonstration of the form and scale of housing in the 1900s for a professional family.
History	<p>This portion of Bassendean was one of the first areas to be subdivided as town lots of approximately 2 acres each. The land was subsequently subdivided as smaller residential lots in the early 1900s. North Road was named in honour of Lord North of Guildford, an early Secretary of State for the Colonies. Descendants of Lord North were influential in the government and parliament of Western Australia.</p> <p>The parcel of land for this future residence was transferred to local building contractor, John Pringle (1840-1914) in 1898. John Pringle arrived in Western Australia in 1888 with his wife Mary, nee Jamieson (d1927). The couple had married in 1862 and had one son, Adam.</p> <p>John Pringle was a foundation member of the West Guildford Road Board. He took out several mortgages on the property during his time of ownership, but none appear large enough to fund building of a substantial residence. However, as Pringle was a builder himself, he may have been able to erect a house on his property at reduced cost by doing much of the work himself. The Post Office</p>

	<p>Directories list Pringle at North Road from 1900, suggesting the house was constructed c.1899.</p> <p>In 1906, the property was transferred to Thomas Langan (c1860-1920) and Patrick Langan (c1868-1944) (Bakers) of Midland. On relocating to West Guildford Thomas described himself as a 'gentleman' and Patrick who lived in nearby in Anstey Street was a gardener. Patrick and his wife Margaret Isabella Coulthard (c1880-1952) who had married in 1907 lived in the house until 1944 when the property was transferred to sisters Doris and Renee Milne Roberston who occupied the house until the 1980s.</p> <p>In 1991, the land parcel was divided into two lots. The house remained largely unchanged in form and extent until a major addition in 2012 which integrated a new wing on the southern elevation. At this time the red corrugated iron roof was replaced with zincalume. The front entry was altered to create one main door and a gable inserted into the bull nose verandah.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A substantial brick and iron house positioned in a large lot that backs on to Point Reserve and the Swan River. The house has been extended along the southern boundary and a separate garage has been constructed closer to the street frontage. The original section of the house is set back from the street behind gardens and driveway.</p> <p>The original section of the house presents with a symmetrical façade incorporating a centrally positioned gabled entrance flanked by tall 1-over-1 sash windows. The brick is paler red brick laid in stretcher bond. The gabled entry porch is not an original feature and was added when the house was reroofed in c.2012. The entry into the porch is of traditional arrangement with timber panelled door, side panels, side lights and fanlights above the entire.</p> <p>The roof is hipped with tall rendered brick and corbelled chimneys at north and south ends of the roof. A separate skillion verandah extends across the façade.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good example of the Inter War style within a garden setting. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • This place has social value as a demonstration of the form and scale of housing in the 1930s for a professional family.
History	<p>The land on which this residence is located was subdivided for residential development by Harry Francis Anstey. He purchased 100 acres of land in Bassendean, or West Guildford as it was then known, in 1897 and the land was divided into 237 lots for sale in 1898. North Road was named in honour of Lord North of Guildford, an early Secretary of State for the Colonies. Descendants of Lord North were influential in the government and parliament of Western Australia.</p> <p>The place first appears in the 1938-39 Rate Books so the date of construction is estimated to be 1938. In the late 1940s, the house was occupied by clerk Peter Pell and his wife Joan Margaret Pell who transferred the house to Mr and Mrs Peters.</p> <p>The residence has always straddled two blocks and in the early 2000s underwent the first in a series of additions to the north west side of the original house eventually doubling the size of the residence. The roof line was altered to accommodate the new addition. The tennis court on the north east side of the block has been present since the mid-20th century and is likely to be an original feature of the home.</p>

Integrity / Authenticity	High/Moderate
Physical description	Extensive single storey, timber framed and weatherboard clad, large Californian bungalow house with a complex, red colorbond hipped roof. Front and side elevations contain timber framed windows with individual colorbond canopies. There is a small gambrel hipped verandah over the main entry. The verandah canopy is supported on timber and masonry columns.

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a largely intact example of the Federation Bungalow style within a garden setting. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • The place has historic value for its association with early settlers the Pringle and Langan families. • This place has social value as a demonstration of the form and scale of housing in the 1910s for a professional family.
History	<p>The land on which this residence is located was subdivided for residential development by Harry Francis Anstey. He purchased 100 acres of land in Bassendean, or West Guildford as it was then known, in 1897 and the land was divided into 237 lots for sale in 1898. North Road was named in honour of Lord North of Guildford, an early Secretary of State for the Colonies. Descendants of Lord North were influential in the government and parliament of Western Australia.</p> <p>From the available information this residence was built c1909 for clerk with the MWSS & DD, Daniel Robertson McKinley. Daniel was the second son of Robert and Janet McKinley who had settled in North Road in the late 19th century. Robert McKinley was a successful jeweller and together with his business partner Frank Piaggio bought several lots on the river side of North Road. Daniel McKinley his wife Alice and their young son lived at the residence until 1920 when Daniel died. The house was later transferred to James Evans (c1864-1943) an employee of the Government Railways who lived there until the 1940s.</p>

	The original green corrugated iron roof was replaced c2009 which was followed by a series of additions and alterations to the original residence. These additions consistent with the original style have doubled the size of the original residence.
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey brick constructed dwelling with a corrugated metal roof. Due to the front fence and vegetation the dwelling isn't clearly visible. Only part of the façade and east elevation is visible which is constructed from red brick with a rendered band running across façade and east elevation at window height. The front entrance seems to be located on the east elevation. Projecting from the eastern corner of façade is a timber framed bay window with a red brick base. The bay window consists of six individual timber framed windows, each with a small eight paned timber framed and mullion window above. There is a gable feature above the bay window with a timber and roughcast render detail.</p> <p>The complex hipped roof of dwelling is clad in corrugated metal and on the east plane of roof is a brick constructed chimney with corbelling. Below the roof line is a separate skillion verandah extending along the façade and east elevation (west elevation not visible) which is supported by turned timber posts. The dwelling is raised from ground level by one course of limestone blocks. There appears to be a two storey red brick constructed and corrugated metal clad addition at the rear of dwelling.</p>

History	<p>The land on which this residence is located was subdivided for residential development by Harry Francis Anstey. He purchased 100 acres of land in Bassendean, or West Guildford as it was then known, in 1897 and the land was divided into 237 lots for sale in 1898. North Road was named in honour of Lord North of Guildford, an early Secretary of State for the Colonies. Descendants of Lord North were influential in the government and parliament of Western Australia.</p> <p>From the available information it is clear that the original house was built in the 1910s. Confirmation with the rates books is suggested to clarify the original owner and occupant however it appears that the first occupiers were associated with the mining industry. One occupant was William Charles Hill (c1878-1940) a miner who found success in Murrin Murrin and consequently called the house 'Murrin' in the early 1920s. It appears that the previous owner was</p>

	<p>Desmond Freeman Browne, the Inspector of State Batteries in the 1920s. A long term occupant from the 1930s until the 1950s was Lance Charles Horley (c1885-1964).</p> <p>Aerial photographs indicate that the roof line of the original residence has been punctuated with various additions. Construction of the second house began in the late 1980s to early 1990s. The new building appears to have incorporated salvage items from other buildings. The longevity of the construction has provided interest to many of the local residents.</p>
Integrity / Authenticity	Original Residence: High/Moderate
Physical description	<p>This site has two houses, one a brick and tile Federation Bungalow and the second a highly distinctive ashlar limestone house.</p> <p>The original residence, closest to the river, is pointed brick and tile gable and half gabled cottage with ridge ornaments. Stucco arches, architraves and sills to windows. Stucco banding to walls. Pointed brick and stucco chimneys with clay pots. Exposed rafter ends to eaves. Roof features glazed belvedere style skylight.</p> <p>(information from 2005 Municipal Inventory as the place was not accessible in 2016)</p> <p>The second building closest to North Road is a sprawling rusticated gothic building in random coursed ashlar limestone with steep pitched roof. Roof forms feature flying gable ends, roof lights and a belvedere.</p> <p>Faceted chimney with faceted clay pot. Flat arches over windows and pointed arch doorways.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • The place has aesthetic value as a good and largely intact example of Inter War Free Classical style • The place has value as a landmark and entry statement in the town centre. • The place has historic value for its association with the development of the town of Bassendean. • The place has social value for its provision of services to the community since 1918.
History	<p>The Bassendean town centre was established and laid out as an extension of Guildford townsite in the 1840s but it was not until the 1890s that the town developed rapidly with the influx of workers during the gold boom period. The West Guildford Road Board was formed in 1901 which became the Bassendean Road Board in 1922, in recognition of one of the first farms in the district 'Bassendean' established by the First Colonial Secretary, Peter Broun. The town developed on either side of what was called the Perth Road and later, Guildford Road, which logically connected Perth to Guildford. This portion of the road name was changed to 'Old Perth Road' in the 1970s when Guildford Road was realigned.</p> <p>This building consisting of two storeys and an adjoining single storey shop was designed by prominent Perth architects, Hobbs, Smith and Forbes for the owner, William Padbury. The completed project was opened in August 1918 with considerable attention in the local press for its demonstration of the growth of the town centre and the quality of its finishes by the builders J. Hawkins and Sons. The joinery was described as follows;</p> <p><i>The jarrah fittings will take the eye of every visitor, and it will be a source of perennial pride to those who have a sense</i></p>

	<p><i>of local patriotism to know that this admirable work is the product of a local firm in A. Douglas Jones & Co.</i></p> <p>William Padbury was the nephew of prominent land owner and merchant, Walter Padbury who owned a several stores in the metropolitan area. This building was to provide the standard products and services, drapery, grocery and hardware, for the people of Bassendean. In addition the adjoining single storey store was a butcher shop managed by Mr E.J. Hanley.</p> <p>Since the opening of the premises it has been continually operating as commercial services although for a variety of products and services.</p>
Integrity / Authenticity	High
Physical description	<p>A double storey corner building with distinctive elaborate parapet wall feature. The place is of brick and iron construction, with painted brick to the upper level and rendered walls to the lower section of the façade. The upper level, including the parapet detail, retains a high degree of authenticity whilst the ground level has been compromised by way of alterations to accommodate changing uses.</p> <p>The distinctive parapet is designed using classical motifs resulting in an undulating wall of semi-circular dips and rises. A dentil cornice is positioned above the frieze and the name of the building is on the frieze panel. The sash windows to the main elevation, arranged in a bank of four openings, all of which have a flat drip stone (hood moulding) above the opening connected to the window frame by a prominent keystone. Three of the four windows are 1-over-2 style openings with the lower pane divided with a vertical glazing bar whilst the remaining window has a horizontal glazing bar divided the lower sash into two panes.</p> <p>The opening to the secondary section of the façade incorporates an arched hood mould with keystone of similar design to the other windows with a 1-over-1 sash.</p> <p>A single storey section has been constructed to the east of the main building and incorporates a parapet wall of similar design to the main façade.</p> <p>An awning extends across the entire façade of the building supported on cantilevers and awning rods. Advertising fascia create a boxed aesthetic to the awning.</p>

This portion of the road name was changed to 'Old Perth Road' in the 1970s when Guildford Road was realigned.</p>

	<p>The date of construction of these shops has not been confirmed but is likely to be in the late 1920s as the style is consistent with this period and an item in the local press in May 1928 noted the following:</p> <p><i>Of recent years the shops originally erected have given way to the more modern brick buildings, and the main shopping street, Guildford Road is a street that any suburb would be proud of.</i></p> <p>The buildings in this group demonstrate periods of development in the former town centre from the 1910s to the 1950s.</p> <p>In 2021 a development application was approved to alter the façade of 26-28 Old Perth Road to remove the render from the lower half of the façade and instead have exposed red brick.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>This group of commercial premises are predominantly brick, single storey structures with parapets and awnings over the footpath. Prominent two storey buildings are Padbury Buildings, Bassendean Hotel and the shop and residence at 42 Old Perth Road.</p> <p>The shop fronts at ground level have been altered and in some cases removed. The parapets are largely as the original form. The awnings are likely to have replaced verandahs and verandah posts.</p> <p>The other retail units present with a variety of frontages which have become obscured by advertising and security measures. Features include brick dado, rendered walls, double width entrances and large shop windows with top lights. The parapet to the end shops is more decorative with capping stones and rendered pilasters.</p> <p>26-28 Old Perth Road has been modified to exposed red brick in lieu of rendered finish (2021).</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a good, intact example of the Inter War Free Classical style. The place has value as a landmark in the streetscape and demonstrates the original town centre of Bassendean. The place has historic value for its association with the development of Bassendean in the Inter War period and for the community campaign waged against the hotel which illustrates the strength of the temperance movement at the time. The place has social value for the many community members who have worked or attended the place for a variety of reasons since 1930.
History	<p>The Bassendean town centre was established and laid out as an extension of Guildford townsite in the 1840s but it was not until the 1890s that the town developed rapidly with the influx of workers during the gold boom period. The West Guildford Road Board was formed in 1901 which became the Bassendean Road Board in 1922, in recognition of one of the first farms in the district 'Bassendean' established by the First Colonial Secretary, Peter Broun. The town developed on either side of what was called the Perth Road and later, Guildford Road, which logically connected Perth to Guildford. This portion of the road name was changed to 'Old Perth Road' in the 1970s when Guildford Road was realigned.</p> <p>The Bassendean Hotel was built in 1929 for Patrick Connolly by builders Blackmore Brothers to a design by architects J.H.O. Hargrave and E.S. Porter. The construction of the hotel caused considerable controversy as many community members and churches in the district valued a teetotal lifestyle. An active opposition group formulated a well organised 'No License'</p>

	<p>campaign to keep Bassendean free of licensed hotels. The campaign failed to gain support with the legislators and the license was granted in 1930 after five attempts.</p> <p>The original design of the hotel featured on the ground floor a Saloon Bar, Public Bar, Parlour, Entrance, Lounge, Office, Dining Room, Kitchen, Staff Dining, Store, Staff Bathroom, Lavatory. On the upper floor were 18 bedrooms, Lounge, Bathrooms, Lavatories and female Staff Bedrooms and Stair Hall.</p> <p>Patrick Connolly was the first licensee for the hotel and the hotel was quickly established as a venue for local events. Throughout the 20th century the building underwent additions and alterations as requirements and legislation changed. In the 1950s the hotel was remodelled internally in the style of the period and the majority of the internal fittings and features were removed.</p> <p>In the 1970s, licensing laws no longer required hotels to provide accommodation and taverns became a popular destination. Older hotels such as the Bassendean often found that the first floor accommodation was an unused resource.</p> <p>In 1973, the hotel was acquired by publican Murray McHenry who undertook major renovations of the premises. It was during the 1970s that a drive-in bottle shop was provided as well as an expansion of the restaurant which was named 'Paddy Connolly's' in honour of the first owner.</p> <p>In the early 2000s the place was extensively renovated including the addition of a new bottle shop.</p> <p>In 2021, the Metro Inner-North Joint Development Assessment Panel approved additions and alterations to the hotel, which included an internal re-fit of the premises, removal of the drive-thru bottle-shop, additions of two new courts facing Old Perth Road and Parker Street and resurfacing of the car parking area.</p>
Integrity / Authenticity	High/Moderate/Low
Physical description	<p>Two storey brick and iron building on corner site with truncated chamfered wall with the main entrance. The principal street facing elevations have a distinctive parapet and a two storey timber and iron balcony/verandah.</p> <p>The regular placement of openings on the upper level are reflective of the former hotel usage and the lower level incorporates arched windows and double entrance doors. The elevations are of rendered brick.</p>

Historic theme(s)	Transport and communications: Mail services Demographic settlement and mobility: Government Policy
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a restrained example of the Inter War Stripped Classical style. The place has historic value for its association with a period of rapid development in the district The place has social value as it was a service which was accessed by all members of the community for many decades.
History	<p>The Bassendean town centre was established and laid out as an extension of Guildford townsite in the 1840s but it was not until the 1890s that the town developed rapidly with the influx of workers during the gold boom period. The West Guildford Road Board was formed in 1901 which became the Bassendean Road Board in 1922, in recognition of one of the first farms in the district 'Bassendean' established by the First Colonial Secretary, Peter Broun. The town developed on either side of what was called the Perth Road and later, Guildford Road, which logically connected Perth to Guildford. This portion of the road name was changed to 'Old Perth Road' in the 1970s when Guildford Road was realigned.</p> <p>The Bassendean Post Office was completed in 1923 for a cost of approximately £1485 and opened by the Premier Sir James Mitchell K.C.M.G. on 22 September 1923 with an audience of dignitaries attending. The local press noted in the coverage of the event that the provision of the new post office was essential for the growing industry in the area. The progress of which was 'a result of the energetic people, the position of the town and a sympathetic government'. The first Post Mistress was Mrs Chambers and the builder was George Fairbanks Jnr.</p>

	<p>A new Exchange Building was constructed at the rear in 1950 and the premises were extended in 1971.</p> <p>A new post office was subsequently opened in the Bassendean Shopping Centre and postal services ceased at this facility c1997. Since that time it has been used for a variety of retail functions.</p>
Integrity / Authenticity	Moderate/High
Physical description	<p>A single storey red brick and terracotta tiled building of asymmetric plan form to the façade with a covered centrally positioned entry point. A shallow pitched hipped roof extends over the main part of the building with a further hipped form to the front projecting section.</p> <p>The windows are 8-over-8 timber framed sashes to both sections of the façade with a larger non-original shop window adjacent to the entrance in the recessed section of the façade.</p> <p>The projecting section of the façade is divided into three bays, each with a sash window and separated by a brick pilaster. Each window is recessed in its own brick panel. A roughcast rendered strip extends across the façade below the eaves to the top of the windows. The main section of the façade also incorporates a narrow 4-paned casement at each corner.</p> <p>A secondary entrance is located in a covered porch at the western end of the façade with tiled concrete steps and ramped access. The west elevation is predominately roughcast render with brick dado below the three sash windows.</p>

Construction materials	Brick: Painted Tile: Terracotta
Architectural style	Inter War Spanish Mission
Historic theme(s)	Social and Civic Activities: Community Services and utilities Demographic settlement and mobility: settlements
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • The place has aesthetic value as an intact and simple expression of the Inter War Spanish Mission style. • The place has aesthetic value as a landmark in the Bassendean townscape streetscape. • The place has historic value for its association with the development of the townscape in the 1930s • The place has social value for its association with the provision of medical services from 1936 for several decades.
History	<p>The Bassendean town centre was established and laid out as an extension of Guildford townscape in the 1840s but it was not until the 1890s that the town developed rapidly with the influx of workers during the gold boom period. The West Guildford Road Board was formed in 1901 which became the Bassendean Road Board in 1922, in recognition of one of the first farms in the district 'Bassendean' established by the First Colonial Secretary, Peter Broun. The town developed on either side of what was called the Perth Road and later, Guildford Road, which logically connected Perth to Guildford. This portion of the road name was changed to 'Old Perth Road' in the 1970s when Guildford Road was realigned.</p> <p>The building was constructed for £1850 in 1935 as medical rooms and residence for Dr Eric Walker Kyle (1901-1982) and his wife Sylvia Elizabeth nee Magnus (1905-1973). The couple had married in 1930 and they lived at the premises until 1940 when it was subsequently occupied by Dr Malcolm Sylvester Bell, Dr Bell was active in the community beyond his medical practice as the Chairman of the Bassendean War Memorial Olympic Pool Committee in 1961.</p>

	The place is currently used as professional offices and the form and extent of the building do not appear to have changed considerably since its construction. It is suggested that the paint on the brick work is not original.
Integrity / Authenticity	Moderate-High/High
Physical description	<p>A double storey brick and tile house, located on a corner lot with a secondary frontage along James Street. The façade with the main entrance faces James Street rather than Old Perth Road.</p> <p>The dwelling has an asymmetric plan form to the façade with a single storey section to the south of the main façade and another single storey porch to the north elevation; this is set behind the main James Street building line. The façade contains timber framed sash openings in a variety of arrangements: the ground level sash windows are arranged in banks of 2's and 3's, with a single arched sash above the main entrance; the second storey contains single sash windows. Each sash window is divided by horizontal glazing bars.</p> <p>The single storey section to the south of the façade incorporates a large window with a large central pane surrounded by smaller panes. The dwelling has a tiled, hipped terracotta roof with a weatherboard gable over the arched sash window and a raised section of roof over the second storey window on the north elevation. A small open sided portico over the main entrance is supported on rendered columns; the flat roof of the portico is surrounded by a balustrade. The garden is enclosed by two brick boundary walls with metal palisade panels.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a good and intact example of the post war international style as practised in the suburbs of Perth. The place has historic value for its association with the development of Bassendean in the post World War Two period when the population of the area grew and created retail demands. The place has social value for the many members of the community who have used and visited these premises since the 1950s. The place has historic value for its association with successful local builder, Harry Stanford Hyde.
History	<p>The Bassendean town centre was established and laid out as an extension of Guildford townsite in the 1840s but it was not until the 1890s that the town developed rapidly with the influx of workers during the gold boom period. The West Guildford Road Board was formed in 1901 which became the Bassendean Road Board in 1922, in recognition of one of the first farms in the district 'Bassendean' established by the First Colonial Secretary, Peter Broun. The town developed on either side of what was called the Perth Road and later, Guildford Road, which logically connected Perth to Guildford. This portion of the road name was changed to 'Old Perth Road' in the 1970s when Guildford Road was realigned.</p> <p>This group of shops were built c1950 by local builder Henry Hyde and Sons. Henry Staniford Hyde (c18871968) was a local builder with an extended family of which many went into building trades.</p>

	<p>The firm continues today through subsequent generations. The HS Hyde business premises were located in James Street.</p> <p>During the period following World War Two there was considerable development in the region as in much of Western Australia. State Housing projects were bringing more people to the district and they needed new facilities including shops and services within walking distance of homes or the train.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey commercial building of brick construction with a tiled hipped roof and parapet wall to the street facing façade. There is a combination of exposed, rendered and painted brick across the six shopfronts. Four of the shops entirely face Old Perth Road, one is on the corner gaining dual frontage and the last entirely faces James Street. The Old Perth Road shops, while varying in decorative elements and colours, all maintain a consistent rendered parapet with exposed brick fringe detail and a consistent awning with the height adjusting to match the slope of the road. They all display large aluminium framed glass frontages with the sizes and shapes varying from shop to shop.</p> <p>The James Street frontage displays exposed and painted red brick to the corner shop with a visible tiled roof and awning over the small window. The shop facing entirely onto James Street is a cream brick construction on a red brick plinth with a green metal edge detail concealing the roof line. It has large aluminium framed door and windows facing the street.</p>

Its styling is representative of the 1950s</p>

	<p>although further research of the rates books may reveal the date of construction, original owner, occupants and builder.</p> <p>It is likely that the builder was local firm, H.S. Hyde who was responsible for the construction of the nearby Hyde Buildings at 45-51 Old Perth Road, and the shops at 75-81 Old Perth Road.</p> <p>In c1984, the single storey brick shops to the south were constructed abutting the building.</p> <p>Prior to the current tenant's occupancy the place was vacant for many years and the previous tenant was a restaurant, 'Curry Corner'. This name was commonly applied to the place and it was frequently referred to by that name.</p> <p>The recent café tenancy has refitted the interior of the building and the exterior is largely as originally constructed apart from a mural on the northern elevation.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Holly Raye's is a single storey brick commercial premise with a hipped tiled roof. The street frontage to the west has a parapet wall screening the gable behind. The west façade has also been rendered and the lower section of the wall has been tiled with a feature frieze capping the tiled section. It has an aluminium framed large glass frontage with an awning, the underside of which is pressed metal, creating an alfresco area that is protected from the street by blinds.</p> <p>The north side of the building is mainly exposed red brick with a large dog mural painted towards the western corner. The openings to the northern side are aluminium framed with security screening. The southern side of Holly Raye's café is adjoined by another commercial property of cream brick construction.</p>

Statement of significance	<ul style="list-style-type: none"> • The entrance gates have aesthetic value as a simple and intact example of the Inter War Stripped Classical style as applied to a public building and for their contribution to the streetscape. • The entrance gates have historic value for their association with the development of the Bassendean community in the Inter War period and the provision of sporting facilities for the community. • The entrance gates have social value for the Bassendean community as they are associated with the many events held at the ground and they contribute to the community sense of place.
History	<p>In 1901, Guildford Lot 196, Reserve 7401, was gazetted and initially set aside for "Government Requirements", in 1902, the reserve was officially changed to "Recreation". On 4 March 1904, the Bassendean Oval was vested in the Town of Bassendean. After the reserve had been partially cleared, a concrete cricket pitch was laid, followed by tennis courts and a shelter shed. In 1922, the West Guildford Road Board voted to change its name from West Guildford to Bassendean.</p> <p>In 1927, the first motions were made towards establishing a West Australian Football League (WAFL) football team at Bassendean whose home-ground would be Bassendean Oval.</p> <p>In September 1927, plans were prepared by Herbert Horsfall, Civil Engineer, for the Bassendean Recreation Reserve. The plans included the entrance gates (sometimes referred to as the Heritage Gates) at Brook Street showing the wording 'Bassendean Road Board, Bassendean Oval, Grandstand Reserve'.</p> <p>In September 1929, the works for upgrading the Recreation Reserve to become an oval for league football were implemented,</p>

	<p>and a contract was let for the clearing, grading and fencing of the grounds including the entrance gates.</p> <p>On 7 December 1929, most of the works at the Recreation Reserve were completed, and Bassendean Oval was officially opened by the Hon. Philip Collier, giving the Bassendean football team a home ground and headquarters. The opening of Bassendean Oval coincided with the centenary celebrations for the foundation of the Swan River Colony.</p> <p>The entry gates, constructed of rendered concrete, consisted of two change boxes, two double cyclone gate exists and two sets of turnstiles cost £390.</p> <p>In 1934, Bassendean Football Club was finally accepted into the WAFL (which had been renamed the West Australian National Football League (WANFL) in 1931) and played their first season in this year as Swan Districts Football Club.</p> <p>Bassendean Oval has been upgraded and altered since the 1930s in response to the changing needs and requirements of players and the audience. A new entrance gate was constructed near Brook Street in 1970 reducing the use of these gates.</p> <p>The gates were included in the State Register of Heritage Places as part of the entry for Bassendean Oval.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A rendered concrete structure whose main feature is four arched openings. The outer two archways are bigger than the central two archways. Connected to the rear of the western archway is a small single storey, flat roofed building. The façade of this building has two rectangular openings which people can access by going under the western archway to buy tickets etc. The central two archways act as the entrance to the oval. Behind these archways is a covered enclosure where tickets are checked. Above the central archways is a curved feature which displays the name of the oval (Bassendean Recreation Reserve) and holds three flag posts placed at regular intervals. The eastern archway acts as the exit from the oval and is uncovered. All four archways are closed off with metal gates.</p> <p>There is a centenary plaque attached to the pillar between the central archways and a commemorative plaque in the grassed area in front of the gates.</p>

Statement of significance	<p><i>The following Statement of Significance has been based on the documentation prepared in 2003 for the State Heritage Office.</i></p> <p>Bassendean Oval, a grassed playing field, with two timber and masonry construction grandstands, three entry gates with the earliest built in 1929 in the Inter-War Stripped Classical Style, a mature eucalypt, and a white timber picket fence around the oval playing surface, has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> the Bill Walker and R.A. McDonald grandstands are rare as extant examples of timber construction grandstands. The McDonald Stand has a well-known reputation for the foot-stomping of Swan Districts Football Club fans, achievable due to its timber floors; the Bill Walker and R.A. McDonald timber construction grandstands, are elegant and graceful examples of the Inter War Utilitarian style. The exterior of the masonry construction entry gates is an attractive example of the Inter War Stripped Classical style; the place demonstrates the importance sport has played in local communities in Australia, and contributes to the local communities sense of place as a traditional venue for local and inter-school sports events, and as the home-ground of Western Australian Football League (WAFL) team the Swan Districts Football Club; situated on a corner and on the main road, the place is a landmark within the town of Bassendean, particularly the McDonald and Walker timber grandstands and the 1929 entrance gates, and the view into the place through the

	<p>gates from Old Perth Road is a significant vista. Its trees and grass banks provide visual amenity to the town; and, the place is associated with prominent football identities, Richard A McDonald, the founder and inaugural President of the Swan Districts Football Club, and four-time Sandover Medallist Bill Walker, who won the medal in 1965, 1966 and 1967.</p>
History	<p>Bassendean Oval was officially opened in 1929 and consists of two timber grandstands (1932 & 1938), brick two-storey clubrooms (c1932 & 1972), main entrance gate at West Road (1929) and other entrance at Brook Street (1929 & 1970).</p> <p>In 1901, the West Guildford Road Board selected a reserve to be set aside for recreation. Originally, the land selected had been surveyed with the yet unsurfaced Perth-Guildford Road crossing through it. The Board approached the Government and agreed to deviating the road around the reserve. In 1901, Guildford Lot 196, Reserve 7401, was gazetted and initially set aside for "Government Requirements", in 1902, the reserve was officially changed to "Recreation". In 1922, the West Guildford Road Board voted to change its name from West Guildford to Bassendean.</p> <p>In 1927, the first motions were made towards establishing a West Australian Football League (WAFL) football team at Bassendean, whose home-ground would be Bassendean Oval. In September 1927, plans were prepared by Herbert Horsfall, Civil Engineer, for the Bassendean Recreation Reserve.</p> <p>In September 1929, the works for upgrading the Recreation Reserve to become an oval for league football were implemented, and a contract was let for the clearing, grading and fencing of the grounds including the entrance gates.</p> <p>On 7 December 1929, most of the works at the Recreation Reserve were completed, and Bassendean Oval was officially opened by the Hon. Philip Collier, giving the Bassendean football team a home ground and headquarters. The opening of Bassendean Oval coincided with the centenary celebrations for the foundation of the Swan River Colony.</p> <p>As with the rest of the State, Bassendean had felt the effects of the Great Depression years, with many of the local industries being cut back and numbers of workers retrenched. However, in spite of these hard times, during the 1930s Bassendean experienced an accelerated round of building projects in the town. The Bassendean Hotel opened (1930), Grandstands and clubhouses were erected on the Recreation Reserve, a new fire station was built (also in Wilson Street), a Trades Hall was built in Broadway, the Bassendean Masonic Lodge was erected in 1934, in 1936 the new Road Board building was completed and opened, and new shops opened up along the Perth Road. Having been built in the 1930s (and in the 1920s), Bassendean Oval is therefore part of this modest building boom and is important in demonstrating the effort made at a local level of trying to maintain some semblance of social cohesion and interaction during these hard times.</p> <p>On 3 February 1932, R. A. McDonald officially opened the three-storey timber and corrugated iron grandstand, (later to be called the Bill Walker Grandstand, (after the former player four-time Sandover Medallist and coach) with a seating capacity of 800. The grandstand cost £2,646. To celebrate the occasion, an A-grade cricket match was played between Mt Lawley and East Perth.</p> <p>In 1934, Bassendean (PSA) was finally accepted into the WAFL (which had been renamed the West Australian National Football</p>

	<p>League (WANFL) in 1931) and played their first season in this year as Swan Districts Football Club. During the Second World War, Bassendean Oval was utilised by the Department of the Army, using the McDonald Stand as their headquarters.</p> <p>Coming off the excitement of SDFC making its first finals in 1937, it was not long before a second grandstand was needed to cope with the increasing spectator numbers coming to the oval on football days to support their local team. The SDFC made a request to the Bassendean Road Board that a second be built, larger than the first. Architects, Powell, Cameron and Chisholm designed the stand which initially had a seating capacity of 1000.40 On 23 July 1938, the new timber construction grandstand was opened, named the McDonald stand after Richard A. McDonald, the former chairman of the Bassendean Road Board, founding member of the West Guildford Masonic Lodge and inaugural President of the SDFC (1934 & 1937).</p> <p>In 1963, sand from local landmark, Success Hill, was being quarried for use at other sites through Bassendean, including Bassendean Oval. Bell Brothers were contracted by the Town of Bassendean to quarry sand from Success Hill, some of which was used to build up the banks at the oval.</p> <p>In 1957, the SDFC became the first WANFL club to be issued a liquor licence. The members-only clubroom was completed in time for the SDFC Christmas party on 20 December 1957.</p> <p>On 3 February 1980, a fire caused substantial damage to the McDonald stand, mostly to the underneath section where the bar, property and store rooms were located. The fire, which started in the western end of the stand, was reported to have been deliberately lit.</p> <p>Bassendean Oval has been upgraded and altered continually since the 1930s in response to the changing needs and requirements of players and the audience. While there have been concerts and events at the oval its primary function as a football oval and headquarters of Swan District Football Club has continued.</p> <p>The oval was included on the State Register of Heritage Places in 2003.</p>

The Bassendean Grandstand (later Bill Walker Grandstand) was opened at the oval in 1932.</p> <p>In 1934, Bassendean (PSA) was finally accepted into the WAFL (which had been renamed the West Australian National Football League (WANFL) in 1931) and played their first season in this year as Swan Districts Football Club. On 12 February 1935, the first annual meeting of the SDFC was held in the Bassendean Town Hall. Coming off the excitement of SDFC making its first finals in 1937, it was not long before a second grandstand was needed to cope with the increasing spectator numbers coming to the oval on football days to support their local team. The SDFC made a request to the Bassendean Road Board that a second be built, larger than the first. Architects, Powell, Cameron and Chisholm designed the stand which initially had a seating capacity of 1000. On 23 July 1938, the new timber construction grandstand was opened, named the McDonald stand after Richard A. McDonald, the former chairman of the Bassendean Road Board, founding member of the West Guildford Masonic Lodge and inaugural President of the SDFC (1934 & 1937). McDonald was also instrumental in getting the club into the WANFL competition.</p> <p>On 3 February 1980, a fire caused substantial damage to the McDonald stand, mostly to the underneath section where the bar, property and store rooms were located. The fire, which started in the western end of the stand, was reported to have been deliberately lit. By the end of March, the stand was re-opened, with some repairs, costing around \$20,000, having been carried out with the replanking and repainting of the outside and repairs to the seating.</p> <p>Since that time the grandstand has continued to be the venue for the football audience and has gained a reputation for the foot-stomping of Swan Districts Football Club fans, achievable due to its timber floors.</p> <p>The grandstand was included in the State Register of Heritage Places as part of the entry for Bassendean Oval.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>The RA McDonald Stand is similar to the Bill Walker Grandstand but can seat up to 1000 people. The stand is 3 storeys constructed from timber and steel. The roof is hipped and asymmetrical with corrugated zincalume single length sheets and colonial profile gutters. The walls are clad with large format smooth rusticated weatherboards. The eaves to the northern elevation are lined on the rake with a board material likely to contain asbestos. Windows are timber framed with two highlight fixed panels over and 3 panels under, which are 2 centre pivot panels and 1 fixed panel. Later additions include a bullnosed corrugated colorbond skillion roof to the western half of the northern elevation and a lean to, of corrugated colorbond, skillion roof to the east elevation. The southern elevation (Oval side) is grandstand seating with a central entrance between a flight of stairs within a recessed section of the grandstand. The weatherboarding to the bottom of the southern elevation has been replaced with corrugated colorbond sheeting. The roof structure is steel framed with timber purlins, the steel framing may not be the original fabric.</p>

Statement of significance	<ul style="list-style-type: none"> • Bill Walker Grandstand has historic value for its association with the establishment of the Bassendean Oval sports facility in the Inter-War period. • The place has aesthetic value as an elegant and graceful example of the Inter-War Utilitarian style and is a rare example of a timber grandstand in the metropolitan area. • The place has historic value for its association with local footballer and four time winner of the Sandover Medal, Bill Walker.
History	<p>In 1901, Guildford Lot 196, Reserve 7401, was gazetted and initially set aside for "Government Requirements", in 1902, the reserve was officially changed to "Recreation". On 4 March 1904, the Bassendean Oval was vested in the Town of Bassendean. After the reserve had been partially cleared, a concrete cricket pitch was laid, followed by tennis courts and a shelter shed. In 1922, the West Guildford Road Board voted to change its name from West Guildford to Bassendean.</p> <p>In 1927, the first motions were made towards establishing a West Australian Football League (WAFL) football team at Bassendean, whose home-ground would be Bassendean Oval. In September 1929, the works for upgrading the Recreation Reserve to become an oval for league football were implemented, and a contract was let for the clearing, grading and fencing of the grounds.</p> <p>On 7 December 1929, most of the works at the Recreation Reserve were completed, and Bassendean Oval was officially opened by the Hon. Philip Collier, giving the Bassendean football team a home ground and headquarters. The opening of Bassendean Oval</p>

	<p>coincided with the centenary celebrations for the foundation of the Swan River Colony.</p> <p>As with the rest of the State, Bassendean had felt the effects of the Great Depression years, with many of the local industries being cut back and numbers of workers retrenched. However, in spite of these hard times, during the 1930s Bassendean experienced an accelerated round of building projects in the town. The grandstand was one of these projects. On 3 February 1932, R. A. McDonald officially opened the three storey timber and corrugated iron grandstand, (later to be called the Bill Walker Grandstand, (after the former player four-time Sandover Medallist and coach) with a seating capacity of 800. The grandstand cost £2,646. To celebrate the occasion, an A-grade cricket match was played between Mt Lawley and East Perth.</p> <p>The Bill Walker stand was officially dedicated and named as such in 1976, prior to that it was referred to as the Bassendean Grandstand.</p> <p>In 2000, the Bill Walker Stand was in need of repairs owing to significant termite damage and was not able to be used for the 2000 football season while major conservation works were undertaken.</p> <p>The grandstand was included in the State Register of Heritage Places as part of the entry for Bassendean Oval.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>The grandstand is a 2-3 storey structure constructed from timber with structural columns and a steel framed roof structure, with a seating capacity of approximately 800 people. The roof is a hipped gambrel form with a central gable to the south, clad in corrugated zincalume in single length sheets with colonial profile guttering.</p> <p>The walls are timber framed and clad with large format smooth rusticated weatherboards. The north elevation is fully enclosed with timber framed panelling, awning windows and solid timber doors. High level vents are located underneath the eaves across the elevation. A steel and timber flight of stairs central to the elevation leads up into the grandstand. The east and west elevations are partially enclosed as the line of the top of the wall follows the grandstand seating. A steel and timber stair is located on each elevation. A timber door is located to the west elevation under the stair.</p> <p>The southern elevation is completely open with timber grandstand seating facing the oval. Protected seating is provided for the teams and umpires at the base of the grandstand with a low fence to the oval side and a flat pitch skillion roof sheet with corrugated zincalume. The entrance to the change rooms under the grandstand is located within the centre of the elevation. The roof structure is mainly timber with a large steel beam and curved angle brackets to the full extent of the southern elevation.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a modest example of the Inter War style. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • This place has social value as a demonstration of the form and scale of housing in the 1930s for a working family.
History	<p>This portion of Bassendean was subdivided by a group of investors in 1898. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. The origin of the name Palmerston Street is likely to be with Henry John Temple, Viscount Palmerston, English Statesman, Secretary of State for Foreign Affairs (1830-1841 and 1846-1851) and Prime Minister 1855-1858 and 1859-1865.</p> <p>From the available information this residence (previously numbered 4 Palmerston) was constructed c1935 and the first occupant was Charles Lenard (Len) Becker (c1902-1975) and his wife Jean, nee Dadds. The couple married in 1927 and raised their family of three children at this residence from 1936 until 1949 when they left to live in Parkerville as noted in the local press.</p> <p>Aerial photographs indicate that the form and extent of the residence has not changed since the mid-20th century.</p>
Integrity / Authenticity	High/Moderate

Physical description	<p>A single storey brick and tile residence of the Inter War period with an asymmetric plan form. The façade is predominantly rendered with decorative areas of face brick; dado is painted brick from ground to sill level and rendered brick above.</p> <p>The asymmetric plan form includes a stepped façade. The projecting bay incorporates a gabled roof with lined overhanging eaves and timbered detail to the apex. Terracotta air vents below are incorporated into the face brick detail to create a simple decorative feature of the façade. The windows are three section timber framed casements with leaded lights and a flat canopy above supported on timber brackets. A similar window arrangement is located adjacent to the bay.</p> <p>The main recessed section incorporates a small verandah and the main entry. The roof continues down to form the verandah canopy, supported on masonry columns with low rendered balustrade.</p>

Statement of significance	<p><i>The following statement has been drawn from the State Register entry for Place 129.</i></p> <p>Bassendean Fire Station (fmr), a single storey brick and tile fire station displaying characteristics of Inter-War Stripped Classical styling (1934 and 1969/71), with associated outbuildings and ladder training tower in the rear yard, has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> the place is representative of two major periods in the history of the Western Australian Fire Service: the intense post-Depression building program of 1934-38, when the station was first built; and the restructuring of Metropolitan fire services in the 1950s, when the building was altered to accommodate permanent staff; the place is representative of the development of fire station facilities in Western Australia during the twentieth century, through its initial establishment in a local government building in 1911, to the relocation of the brigade to a purpose-built station in 1934 and expansion of that station in 1969-71 to accommodate permanent staff for the first time; the place has high social value to the community of Bassendean for its firefighting services, its award winning brigade, and as the venue for many social events, dances, fundraising events; and, the place was designed by architect K.C. Duncan, who, in 1932, developed a standardised plan for fire station building in Western Australia, and was responsible for the majority of fire stations built in the State from 1930 to 1960.

History

Established in January 1911, the West Guildford Volunteer Fire Brigade used the premises of Mr Guppy's Shop on Surrey Street (now Old Perth Road) opposite the present day Bassendean Oval. The Brigade trained on Perth Road and Rosetta Streets. When the West Guildford Town Hall was built in 1912, the West Guildford Volunteer Fire Brigade (renamed Bassendean Volunteer Fire Brigade in 1922) used the hall until the construction of the purpose built fire station in 1934.

As the State recovered from the Depression of the 1930s, the WAFBB entered another period of intense building activity, resulting in 18 new stations being constructed between 1934 and 1938. In 1932, the architect K.C. (Keith) Duncan developed a standardised plan for fire station buildings in Western Australia. This was adopted by the WAFBB and implemented during the 1934-1938 phase of construction, meaning that the majority of new stations from this period were based on a standard plan, including Bassendean Fire Station (fmr).

By the late 1920s, the expanding district led to the need for a new, modern, and purpose-built fire station in Bassendean. Discussions were held between the Bassendean Roads Board and the WAFBB for many years, culminating in the construction of Bassendean Fire Station (fmr) in 1934.

The new station was sited closer to the main centre of Bassendean on Parker Street, built on land donated by a local family specifically for the purpose of building Bassendean's new fire station there. The donated plot was, at that time, the highest point in Bassendean. The new building was built by W. T. Clark at a cost of £1,782. Also located on the site were a 50ft high steel tower, a 50ft long hose washing trough, and the 1910 Bayswater fire station, which was relocated for the second time, and used at the Parker Street site as a recreation room. The 1910 Bayswater fire station was demolished in 1998.

Bassendean Fire Station (fmr) was formally opened on 10 February 1934, in a ceremony attended by the Honorary Minister in Charge of Fire Brigades Mr Kitson, the Chairman of the WAFBB, the Mayor of Fremantle representing the WAFBB's metropolitan local authorities, the MLC for the Metropolitan Suburban Provinces, the Chairman of the Bassendean Road Board, as well as about 300 local residents and visitors.

The Bassendean Fire Brigade operated from Bassendean Fire Station (fmr) for the next seventy nine years, until its closure in December 2013. Career firefighters started at Bassendean in the 1970s.

During its lifetime the brigade earned a reputation as one of the leading brigades in the State. Bassendean dominated the annual Volunteer Fire Brigades' State Championships, being awarded the title of State Champion Team a massive 23 times. They also competed nationally, winning in Victorian Grand Aggregate Competitions four times. On a number of occasions, the brigade concurrently held both State and National Australasian Championships, including an unbeaten three year stint between 1948 and 1950.

As well as bringing pride to the Bassendean area through its competition wins, the Bassendean Brigade was also involved in the local community through its fundraising (often raising money for competitions or new equipment) and social events such as dancing or dinners.

	<p>During WWII, an air raid shelter was constructed under Bassendean Fire Station (fmr) beneath the present day front office. A special phone was connected to this room during the war so that calls could be received. Following this use, the room was used as a cellar.</p> <p>Bassendean Fire Station (fmr) continued to operate as a part permanent part volunteer station until December 2013 when the building was decommissioned by the Department of Fire and Emergency Services (DFES). Bassendean's permanent staff was moved to Kiara. The closure of Bassendean Fire Station (fmr) was met by considerable opposition not only by the brigade itself, but the local community, and the local and state government.</p>
Integrity / Authenticity	High/Low/Moderate
Physical description	<p>Single storey red brick, tile and render structure displaying characteristics of inter-war striped classical styling.</p> <p>The fire station comprises buildings from at least two development phases: the original 1934 station building (northern section) and the 1969/1971 extension (southern section). The building, which displays some characteristics of the inter-war stripped classical style in the original section of the building in the appliance bay façade detailing, it is domestic in scale and detailing with brick walls, concrete render bands and a complex hipped roof. The single appliance bay to the original section separates the two wings whilst the appliance bay constructed in the later section is located at the end of the buildings. All entrances lead directly onto the footpath/roadway.</p> <p>The original appliance bay façade is a projecting rendered bay with stepped parapet and central gable pediment and pilasters to either side. The façade has a large door opening currently enclosed with a large roller shutter door. The main section of the 1934 building has a face brick façade to window head height with a band of rendered masonry above. A timber framed half-glazed door is set marginally off-centre, flanked by timber framed eight pane windows and a single pane fanlight above. A slender concrete sunshade with moulded edges supported on concrete brackets shades the door and window. A single concrete step leads to this entry. Openings are generally timber framed with timber framed doors and windows, except for one metal framed opening to the rear of the northern elevation. Side and front windows are generally double hung with concrete sills. The external doors are timber framed with rendered and painted concrete lintels and timber thresholds.</p> <p>The later 1969/1971 addition has a face brick façade and is dominated by the double appliance bay wing. The hipped tiled roof projects over the appliance bay forming an entrance area, with a rendered band with 'FIRE STATION' extending across it. The original red lettering has been removed, leaving residue to form the words. The appliance bays have metal roller doors. There are two metal framed windows in the façade of the office section and a timber framed and lined entrance door set in the return formed by the junction of the appliance bay and the office. Window openings are generally metal framed with sliding windows. The door openings are timber-framed with doors generally flush panel or timber lined.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a modest example of the Inter War style. • The place has historic value for its association with the development of this area of Bassendean in the Inter War period. • This place has social value as a demonstration of the form and scale of housing in the 1920s for a working family.
History	<p>This portion of Bassendean was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well known members of colonial society: Stephen Henry Parker, G.H.Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Parker Street was named in honour of Sir Stephen Henry Parker Member of the Legislative Council 1878-1890, 1892-1897 and member of the Legislative Assembly 1890-1892.</p> <p>From the available information this residence was constructed c1925 and the first occupant was clerk, William George Blundell (c1894-1945) and his wife Emily Louise Bundell, nee Pickering (c1896-1934). The couple had married in 1925 and this was their family home until the death of Emily in 1934. Emily was the daughter of John Pickering, Chairman of the Bassendean Road Board throughout the 1920s.</p> <p>Aerial photographs indicate that the form and extent of the residence has changed minimally since the mid-20th century.</p>
Integrity / Authenticity	High/Moderate

Physical description	<p>Single storey brick and iron house of distinctive design. The construction of the house consists of a painted brick dado terminating at sill height and roughcast render to the upper section of the elevations. The façade incorporates a timber framed boxed bay element that extends for the full height of the façade and incorporates two timber framed sashes separated by a timber mullion. The sashes are of 6-over-1 design. The entrance is behind an arched entrance leading into a recessed porch accessed via tiled steps.</p> <p>The roof is hipped clad in short sheet corrugated iron sheeting painted green with open eaves and feature timber brackets arranged in pairs in three positions across the façade. A tall roughcast render chimney extends up the southern elevation and roof plane.</p>

Parker Street was named in honour of Sir Stephen Henry Parker Member of the Legislative Council 1878-1890, 1892-1897 and member of the Legislative Assembly 1890-1892.</p> <p>From the available information this residence was constructed c1915 and the first occupant was iron turner, Ralph Edwards (c1886-1968). Ralph Edwards later recorded his occupation as an engineer which suggests he worked at the Midland Railway Workshops as many Bassendean residents did. Ralph Edwards married Lily Ethel Parks (c1887-1971) in 1971 and the couple lived at the residence until the early 1930s.</p> <p>Aerial photographs and physical evidence indicate that there are strong similarities between this property and 23 Parker Street which appear to have been built at the same time. Further research may</p>

	determine who was built these two homes. Both residences have been extended to the rear although the original form and extent of both buildings are apparent.
Integrity / Authenticity	High/Moderate
Physical description	Single storey timber framed and weatherboard house with hipped and gabled iron roof. The house presents as a 'T' shaped with the projecting gable wing forming the dominant aspect of the house when viewed from the street with the verandah wrapping around its three elevations terminating at the rear section of the property. The front gabled section has a timber detail to the apex of the gable, with weatherboarding below. A single timber frame 1-over-1 sash window is positioned in the centre of the elevation. A bullnose verandah wraps around this section of the house supported on square timber posts with timber brackets. A small section of the southern part of the verandah has been enclosed with weatherboard cladding and timber framed windows. The property is enclosed by a high masonry wall and mature plantings which obscure the place from clear street view.

The group of investors included some of the most well known members of colonial society: Stephen Henry Parker, G.H.Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Parker Street was named in honour of Sir Stephen Henry Parker Member of the Legislative Council 1878-1890, 1892-1897 and member of the Legislative Assembly 1890-1892.</p> <p>From the available information this residence was constructed c1915 and the first occupant was stonemason, Patrick Clohesy and his wife Nora Agnes Clohesy (c1876-1939). The couple lived at the house until the mid-1930s before moving to North Perth. Their only daughter Mary, became a nun with the Sisters of Mercy.</p> <p>Aerial photographs indicate that the house has not been significantly altered since the mid-20th century.</p>
Integrity / Authenticity	High/Moderate
Physical description	An elevated single storey timber framed and weatherboard house with hipped iron roof. The house is of simple design with the hipped

	<p>roof extending down to form the verandah canopy at a slight break of pitch, supported on turned timber posts with a timber balustrade of a mix of styles. The façade incorporates a centrally placed entrance with a timber panelled and glass door, sidelights and panels and fanlights. All glazing to the door ensemble is leaded and stained glass. A timber framed on-over-one window is positioned to the south of the entrance and a set of timber framed French doors to the north of the main entrance. Twin brick and corbelled chimneys flank the raised ridgeline.</p> <p>In 2018 a timber framed and cladded extension and alfresco were developed at the rear of the property along with replacing the roof material with new metal colorbond sheeting.</p>

Titles	
GIS coordinates/latitude, longitude	-31°54'33" , 115°56'52"
Use (original/present)	Original: Residential – Single Storey Residence Present: Residential – Single Storey Residence
Construction materials	Timber: Weatherboard Tile Asbestos
Architectural style	Inter-war Californian Bungalow and Federation Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a late, modest example of the late Federation Bungalow style. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • This place has social value as a demonstration of the form and scale of housing in the 1910s for a working family.
History	<p>This portion of Bassendean was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well known members of colonial society: Stephen Henry Parker, G.H.Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Parker Street was named in honour of Sir Stephen Henry Parker Member of the Legislative Council 1878-1890, 1892-1897 and member of the Legislative Assembly 1890-1892.</p> <p>The subdivision plan for this portion of Parker Street was approved in 1903. However development mostly occurred in the Inter War period. From the available information this residence was constructed c1919 and the first occupant was labourer, James Nicholas Marquis (c1863-1925) and his wife Anne Elizabeth Marquis nee Springett (c1865-1947). The couple had five children and following James's death in 1925 Anne Marquis stayed on in the house until the mid-1930s.</p>

	<p>Aerial photographs indicate that the house has been extended to the rear and it is possible the roof cladding was originally corrugated galvanised iron. The form and extent of the house has not been significantly altered since the mid-20th century.</p> <p>The Town of Bassendean hold records that indicate that additions to the building were approved in 1931.</p>
Integrity / Authenticity	High/Moderate
Physical description	Weatherboard, asbestos and tile house on corner block with steep pitched hip roof. Front entrance under half-timbered gable up short flight of timber steps. Front room window under timber bracketed awning. Side elevation has feature gable over wall plate. Verandah to two street fronts on timber posts with fretwork brackets and sheeted post and rail balustrade.

Parker Street was named in honour of Sir Stephen Henry Parker Member of the Legislative Council 1878-1890, 1892-1897 and member of the Legislative Assembly 1890-1892.</p> <p>A subdivision plan for this portion of Parker Street was approved by the Department of Lands and Surveys in 1902 however it was not until the Inter War period that the area was densely settled. From the available information this residence was constructed c1922 and the first occupant was Mrs Emily Baynes. Emily Baynes' husband William Charles Baynes (c1873-1922) enlisted to serve with the AIF in 1915 at the age of 42. Although he returned to his wife and two sons he died in 1922. This cottage may therefore have been provided to Emily Baynes under the War Service Homes scheme however further research is needed to substantiate this conclusion. It is noted that this house is located across two of the lots and is larger than many of the other homes in the street.</p>

	A later long term occupant was painter, Francis Joseph Henry Leng (c1886-1974) who lived at the house until at least the 1940s. Aerial photographs indicate that the house has been extended to the rear and a garage has been added on the northern side of the house.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey timber framed and iron house of symmetrical plan form to the façade. The hipped roof extends down at the same pitch to form the verandah canopy and also incorporates a small gable midway up the front plane of the roof positioned above the front door.</p> <p>The front door is positioned in the centre of the façade flanked by three section timber framed sash windows. The entry consists of timber panelled and glass door with narrow side lights to the upper section of the door with a tapered timber architrave around the entire. The three section sash windows consists of two narrow 1-over-1 sashes flanking a larger 1-over-1 sash.</p> <p>The verandah extends across the full extent of the façade before wrapping around to the south elevation, supported on square timber posts and brackets and has a timber deck. A carport has been constructed on the north elevation.</p>

She lived at the house until the 1960s. He husband, John Perry, a platelayer working in Pemberton enlisted to serve during World War II.</p> <p>Aerial photographs indicate that the residence has been extended to the rear in the 1990s and the roof form was changed to accommodate this addition. At the same time the red corrugated iron roof cladding was changed to the current zincalume.in the 1980s.</p>
Integrity / Authenticity	High/Moderate/Low

Physical description	Single storey timber framed and weatherboard house with gable roof. The house is of simple presentation to the façade with a centrally placed entrance door flanked by timber framed casement windows. The roof has been reclad in colorbond and extends down at the same pitch to form the verandah canopy which extends across the full width of the elevation supported on square timber posts. The verandah deck is timber with a simple timber cross balustrade. Windows to the side elevations are a combination of smaller 1-over-1 timber framed sashes and timber framed casements. Towards the rear of the house on the southern elevation are timber framed multi-pane French windows opening out onto a verandah that wraps around the rear of the house. The land levels drop away from the front of the house which has resulted in the rear section of the property being significantly elevated.

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good, late example of the Federation Bungalow style. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • This place has social value as a demonstration of the form and scale of housing in the early 20th century.
History	<p>This portion of Bassendean was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision. The name Parnell is more obscure but may refer to the Irish political leader of the late 19th century Charles Parnell.</p> <p>From the available information this residence was constructed in 1919 and the first occupants, and probable owners, were newlyweds William and Louise Elizabeth Browne (c1882-1942). The couple had married in 1919 and the house, which they named 'Rosebrae' was first recorded on the site in that year. This residence was likely to be one of the first in this section of Bassendean.</p> <p>William Browne (c1877-1967) recorded his occupation as a bootmaker and he may have practiced his trade on the premises. It</p>

	<p>was noted in the local press that a daughter was born at the house in 1923. The Browne family lived at the residence until the 1940s.</p> <p>Aerial photographs indicate that the house has undergone significant additions throughout the late 20th and early 21st century.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey brick with a timber addition on a corner lot.</p> <p>The house is of brick and iron construction with timber framed casement windows and French doors. The hipped roof sweeps down with a gentle break of pitch to form the verandah canopy which is supported on timber posts with timber brackets.</p> <p>The timber framed construction with weatherboard cladding and a shallow hipped roof with a broken pitch. The former shop windows are evident behind a tall fence but cannot be seen in their entirety. The windows have CGI canopies supported on timber brackets.</p>

History	<p>Portion of Bassendean was developed under the name 'Eden Estate' in the 1890s when developer and future Premier of Western Australia, Frank Wilson, subdivided land for residential use. The name was believed to come from a farm that once existed in the area. Penzance Street, together with Ida, Iolanthe and Ivanhoe Streets, are named in honour of characters from Gilbert and Sullivan Operettas.</p> <p>From the available information this residence was constructed c1940 and the first occupant was William Sleight. However the residence may have been there earlier as newspaper articles refer to the Sleight family living in Penzance Street in the 1930s. William Sleight was a descendant of John Law Davies who occupied the Pensioner Guard Cottage in Surrey Street.</p> <p>In the early 1940s when this residence was constructed the majority of the land in the vicinity was undeveloped and from an aerial photograph of 1953, the roads appear to have been unsealed. The original form of the residence is evident. Later additions have occurred to the rear of the residence and a carport is a later construction.</p>
Integrity / Authenticity	High/Moderate

Physical description	<p>A single storey timber framed and iron residence with weatherboard cladding. Symmetrical façade with timber framed casement windows either side of the entrance. Architectural style	Federation Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good, late example of the Federation Bungalow style. • The place has historic value for its association with the development of this area of Bassendean in the early 20th century. • This place has social value as a demonstration of the form and scale of housing in the early 20th century.
History	<p>This portion of Bassendean, formerly part of location R1, was subdivided by a group of investors c1898. The group of investors included some of the most well known members of colonial society: Stephen H. Parker, George H. Leake, Harry Anstey, Dr Daniel Kenny, John James, James Grave, Henry E. Parry, Dr. James Hope and William Paterson. The demand for housing in the late 19th century was a result of the increasing population drawn to Western Australia following gold discoveries in the east of the colony.</p> <p>Railway Parade was named as a logical response to its location alongside the railway line. From the available information this residence was constructed c1913 and the first occupant was Anna Greta Saville (c1858-1942). Anna Saville is likely to have built this home following the death of her husband Archibald Tunley Saville in Kalgoorlie, in 1912. Archibald Saville worked as a railway guard and was tragically killed by a train whilst on duty. It is possible Anna Saville received some compensation or funds were raised for herself and her four children. Anna Saville lived at this house until her death in 1942 and one of her daughters stayed on in the house.</p>

	Aerial photographs indicate that the house has not changed significantly in form or extent since the mid20th century.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey timber framed and weatherboard house positioned at a 45° angle to the street. The principal elevation is symmetrical in its presentation with a centrally positioned entrance flanked by windows. The entrance consists of single timber door with side panel and side light and fanlight above the entire. The flanking sashes are 1-over-1 timber framed windows.</p> <p>The roof is hipped in form with a raised ridgeline with gablets and tall brick corbelled chimneys to the east and west sides of the roof. The front plane of the roof extends down to form the verandah canopy incorporating a subtle break of pitch, supported on turned timber posts with filigree lace frieze and brackets. A timbered gable interrupts the verandah canopy and marks the point of entrance into the house.</p> <p>The verandah wraps around to the east elevation with a chamfered edge at the south-east corner looking out towards the road. The deck is timbered with brick and masonry steps at the chamfered south-east corner.</p>

From the available information this residence was constructed c1929 and the first occupant was Emily Jones (c1854-1933). Emily Jones was recorded in the Electoral Rolls as a widow. It has not been established conclusively but it is likely that Emily was the widow of Henry Jones whom she had married in 1879 as Emily Waddingham. The couple had 10 children. Emily Jones lived at the residence which she named 'Lander' for approximately four years. A later, long term occupant during the 1930s and 1940s was Arthur Mottram.</p>

	Aerial photographs indicate that the residence has been extended to the rear but the original form and extent are still evident.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey brick and iron house with distinctive wide gable to the façade. The façade contains two windows, each being multi-paned timber framed casements. The gable is finished with fibre cement sheeting and timber battening painted in traditional contrasting colours.</p> <p>The verandah wraps around much of the side elevations as well as the façade. To the east and west the canopy is the continuation of the main roof at the same pitch. To the front, the canopy is a separate skillion positioned directly below the gable, supported on square timber posts with timber balustrading.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as an intact example of inter war style combined shop and residence. • The place has historic value for its association with the development of this area of Bassendean in the inter war period. • The place has historic value as a demonstration of a small local business that would have operated in most suburbs. • This place has social value as a demonstration of the form and scale of combined shops and houses in the inter war period for a working family. • The place is rare as an example of a still operating shop and residence.
History	<p>This portion of Bassendean, formerly part of location R1, was subdivided by a group of investors c1898. The group of investors included some of the most well known members of colonial society: Stephen H. Parker, George, Harry Anstey, Dr Daniel Kenny, John James, James Grave, Henry E. Parry, Dr. James Hope and William Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. The demand for housing in the late 19th century was a result of the increasing population drawn to Western Australia following gold discoveries in the east of the colony.</p> <p>Railway Parade was named as a logical response to its location alongside the railway line. From the available information this combined shop and residence were constructed in the 1920s although the exact date of construction and the first owner or occupant has not been determined.</p>

	<p>A search of the Town of Bassendean rates books may reveal this information. It is clear that a shop and residence were located on the site from 1926 and it appears that the building was constructed for this purpose. Its location adjacent to the railway line made it a logical choice for a small business. During the 1930s and 1940s the shop was operated by J. H. Grosvenor for the sale of dairy produce. Aerial photographs indicate that the form and extent of the building have changed little since the mid-20th century.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Increased height single storey shed of timber framed, weatherboard and corrugated iron construction. The shop is of simple presentation with a weatherboard gable to the street facing elevation, centrally positioned double door entry flanked by boarded up windows, used as advertising hoardings. A fabric awning extends across the width of the elevation. The side elevations are clad in colorbond. The gable roof has been reclad in zincalume.</p> <p>The shop is a projecting element of the house behind which is reflective of an earlier way of life where the shopkeeper lived on site. The house has been reclad with colorbond replacing the original weatherboard cladding. The roof is hipped with a break of pitch to form the verandah canopy.</p> <p>The original door/sidelight/fanlight ensemble has been retained though the entrance door itself has been changed. French windows have been inserted into the façade to the west of the entrance.</p>

Historic theme(s)	Transport and communications: Rail and light rail transport Social and civic activities: Cultural activities
Values	Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has historic value as the repository of a wide range of items which tell the story of the history and development of rail transport in Western Australia. The place has social value as the destination for visitors interested in the history of rail transport in Western Australia since 1974. The place has social value for its contribution to the Bassendean community's sense of place as it represents the strong ties between rail transport and the district.
History	<p>In the 1960s the Western Australian Government Railways (WAGR) had a small but significant collection of historical items that it displayed each year at the Royal Show. This collection was given on permanent loan to Rail Heritage WA for display in a future museum. In 1969, Rail Heritage WA began fundraising to develop a museum to display the collection of locomotives, rolling stock and items of railway memorabilia that had been collected over the years.</p> <p>There were no structures available but the WAGR assisted by laying rail trackage and loaning items for display. The Museum was opened in November 1974 on this land donated by CSBP & Farmers in recognition of their ties with railways in WA. At this time the Exhibition Building had a comprehensive display of photographs and ephemera. The museum also had a small office and archives / library.</p> <p>The collection continued to grow beyond the early vision and additional land was obtained at the rear of the property, some by donation and another area was vested by the crown. However the biggest problem was the exposure of the collection to the elements.</p> <p>In 1991, using funds from the commercial lease of a locomotive purchased by the Society, the first section of roof cover for locomotives and rolling stock was constructed. In the following ten</p>

	<p>years three more stages were added but less than half the collection was undercover. Further roof cover for 'as is' vehicles was built in 2003 and 2004.</p> <p>In 1992, Westrail (WAGR) made a formal donation to RHWA of all items on permanent loan. This included some items at Boyanup Museum as well. With the donation was a sum of \$30,000 which was to be used to provide roof cover for the special service carriages.</p> <p>There are several heritage structures relocated to the museum. These structures would otherwise have been destroyed and could not be left in situ. These include a section of timber platform canopy which is from the Kalgoorlie Railway Station, the Zanthus Railway Station building originally built in 1915 and the locomotive R174, as used in the Varischetti mine rescue.</p> <p>In 2005 a new entry building was opened - formerly an apprentice classroom at Midland Workshops, the front has been altered to look like a railway station.</p>
Integrity / Authenticity	High
Physical description	<p>Timber framed and weatherboard building, signal box, metal shed, brick exhibition building, brick store, non-original platform canopy and a collection of trains.</p> <p>The weatherboard building altered to resemble a station building, is a simple building with low pitch gabled roof extending down to form the verandah canopy at a broken pitch. The façade is symmetrical in its presentation with a set of centrally placed double doors flanked by high level windows, five to either side.</p> <p>The timber framed and weatherboard signal box is a small square shaped building with steeply pitched gable roof clad in replacement corrugated iron. The principal façade orientated towards the replica station building and consist of a bank of timber framed windows with a shallow skillion canopy above. The entry into the signal box is via a timber panelled door on the south east elevation.</p> <p>The 'platform' canopies are open sided canopies protecting the trains and are of steel framed construction with colorbond roof.</p> <p>An original platform canopy is sited behind the brick N C Zeplin Exhibition Building.</p>

Construction materials	Brick: Common Tile: Terracotta
Architectural style	Inter War Californian Bungalow
Historic theme(s)	Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a mostly intact example of inter war style displaying remnant original elements. • The place has historic value for its association with the development of this area of Bassendean in the inter war period. • The place has social value for its demonstration of the influence of adjacent industrial functions having an impact on the residential development in the vicinity.
History	<p>This portion of Bassendean was developed later than the area south of the railway line. Development in the early 20th century was hastened through the establishment of the Cuming Smith and Co fertiliser factory in 1910 just north of the railway line. The new workforce led to a demand for new residential subdivisions. Survey plans for this area were approved in 1905 however this portion of Railway Avenue did not prove popular as a residential location because of the establishment of other industries adjacent to the fertiliser factory.</p> <p>This residence and the residence adjacent at 144 Railway Avenue appear to have been the only substantial homes in the section of Railway Avenue between Scadden Street and the current Tonkin Highway. From the available evidence this residence was built in 1923 for Henry Claude Hounsom Maley (1880-1964) and his wife Elizabeth Beatrice (c1885-1976). Henry Maley was a farmer in Moojebing before describing his occupation as a land agent whilst living at this place during the 1920s. Henry Maley was the son of Wesley Maley who owned and subdivided a significant portion of Bassendean south of the railway line under the name 'Riverside Subdivision'. Subsequent occupants were living at the residence for only short periods.</p>

	Aerial photographs indicate that the form and extent of the building have not changed considerably since the mid-20th century. The subsequent change of use to commercial premises has had an impact on the setting of the original residence.
Integrity / Authenticity	Low/Moderate
Physical description	<p>A single storey brick and render constructed dwelling with a terracotta tile clad roof. The bottom two thirds of the dwelling is constructed from red brick and the upper third of dwelling (from window height) is constructed from roughcast render. The façade has a gable end with a weatherboard, timber and roughcast render detail. From the western corner of façade is a projecting gable section with a small timber gable detail. Centrally located within the projecting section is a bay window with a roughcast render base, timber sill and a terracotta clad hipped roof. The bay window contains 3 timber framed windows with four small panes above a larger pane of glass. Above these are three timber framed four paned windows. At the corner of the recessed section of façade and east elevation is a bay window with a roughcast render base. The bay window consists of five timber framed windows with four small panes above a large pane of glass. Above each window is a separate four pane timber framed window. The front entrance is located on the east elevation; it consists of a timber framed front door with sidelights on the west side and a fanlight.</p> <p>The complex gable roof is clad in terracotta tiles with terracotta finials and ridge tiles. The roof continues at the same pitch and projects over the east elevation to create the verandah which extends around to the recessed section of façade. The verandah on the façade is separate from the roof line and sits beneath the gable detailing. The verandah is supported on timber posts with timber brackets. Along the central ridge of roof is a brick constructed, roughcast rendered chimney with a pair of terracotta chimney pots.</p>

Architectural style	Post War Perth Regional
Historic theme(s)	Social and civic activities: education and science Demographic settlement and mobility: government policy Demographic settlement and mobility: immigration, emigration and refugees
Values	Historic Social Aesthetic
Statement of significance	<ul style="list-style-type: none"> • The place has historic value for its association with the development of Ashfield in the post war period. • The school has historic value for its association with the government policy of providing public housing in estate developments particularly for migrants. • The school has social value for the many students, teachers and community members who have attended the school for a variety of reasons since 1964. • The place has aesthetic value as a representation of post war international style.
History	<p>In the period following World War Two, Bassendean underwent a period of rapid growth and expansion like much of Western Australia. However, it was the decision by the State government to establish a public housing estate in Ashfield in the early 1950s that saw a tremendous increase in population. An initial plan for 230 houses was initially resisted by the Shire of Bassendean however the state government progressed with its plan and migrants from many countries settled there.</p> <p>In 1955, the Ashfield Primary School was built followed in 1964 by the opening of the Cyril Jackson High School named after the former Director General of Education, Bassendean resident and founding Chairman of the West Guildford Road Board. The school was designed by architects Silver Fairbrother and Associates under the management of the Public Works Department.</p>

	<p>The first intake of students occurred in 1961 although the official opening did not occur until 1964.</p> <p>The school has been extended and adapted as needs and teaching methods have changed. It is currently [2017] a school that provides a range of programs for school age and adult students and a high proportion of migrants.</p>
Integrity / Authenticity	High
Physical description	<p>A single storey complex that has expanded over time. The main buildings are constructed from a darker brown brick with aluminium framed windows of carrying dimensions and a corrugated metal roof. The shade structures appear to be the continuation of the main roof, supported on metal posts.</p> <p>A prominent entry feature consisting of a projecting portico with dark brown brick columns supporting a gently domes roof which is clad with colorbond and lined with plaster sheeting to the underside. Double aluminium framed glazed doors provide the main entry into the school.</p> <p>The school is typically surrounded by a combination of open green areas, mature planting and parking areas all enclosed by a high metal fence.</p>

Statement of significance	<p><i>The following statement is drawn from the entry prepared for its inclusion in the State Register of Heritage Places in 2001.</i></p> <p>Success Hill Lodge, comprising a double-storey brick and iron building constructed in 1896 (c.1970s, 1980s) in the Federation Queen Anne style, has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> • the place is a fine, largely intact example of the Federation Queen Anne style and is the focus of a precinct of predominantly single storey residential and commercial premises; • the place contributes to the local community's sense of place by its • landmark quality in a residential area, and for its early history as a hotel with a colourful reputation; • the place was constructed in 1896 as the Lockeridge Hotel in a suburb that was developing as a result of the rapid population growth caused by the gold boom. The site was chosen in an effort to take advantage of the holiday traffic on the Swan River and the Fremantle-Guildford railway line; • the place has been associated with various branches of health care for much of its existence, having been a hospital in 1903, 1912-1914 and 1965-1973, aged men's home 1918-1947, and a psychiatric hostel since the early 1980s;

	<ul style="list-style-type: none"> the place was associated with the Salvation Army as part of their social welfare program, specifically the care of aged men and, to a lesser extent women, from 1918 to 1947; the place is valued by the local and wider community for its ongoing associations with health care, and its earlier associations with aged care and education; and, the original hotel building was designed by Clarence Wilkinson and E H Dean-Smith, who were in an architectural partnership from 1895 to 1900 and designed a number of residential and commercial premises in Perth and Fremantle during this time.
History	<p>Success Hill Lodge was built for Herbert Ernest Parry as the Lockeridge Hotel, to a design by architects Clarence Wilkinson and E. H. Dean-Smith in 1896.</p> <p>The first landlord of the hotel was Charles Pressentin. The hotel was intended to gain the patronage of picnic boating parties but it was not a successful venture and several licensees took on the property in its first years. It ceased to operate as a hotel in 1902 and since that time has been, a hospital on three separate occasions, a girl's boarding school, Salvation Army men's home, a residence, and a psychiatric hostel.</p> <p>Success Hill Lodge was extended on the western elevation on at least two occasions, c.1970s and 1980s, to provide accommodation for residents and staff when the place operated as a psychiatric hospital. During the later works the original face brick work of the main building was rendered.</p> <p>The site originally included two timber cottages on the northern side of the original hotel however the original landholding was subdivided and these two cottages were demolished c2004. The place is currently [2015] used as a family home.</p>
Integrity / Authenticity	Moderate
Physical description	<p>Success Hill Lodge is located on River Street with the main street fronts facing Anzac Terrace to the south and River Street to the east, with rear access and side view on Eighth Avenue to the west. The place comprises the original two storey building with attached single storey kitchen and verandah (1896), two periods of single storey extensions (c.1970s, 1980s).</p> <p>The rendered, two storey building is located on prominent corner site. The render is a later addition to the original face brick construction. The building was designed to take account of its corner position with a wing to each street elevation and angled central corner section incorporating the verandah and balcony.</p> <p>The complex roof system consisting of hipped and gabled elements is clad in short sheet CGI with a small timbered gablet above the chamfered corner elevation. The balcony canopy is part of the main roof, supported on timber columns to both levels. Timber framed sash windows. A well planted garden is enclosed by timber picket fence.</p> <p>The single storey painted brick additions constructed in the 1970s and 1980s adjoins the western elevation of the original building. The addition have contrasting roof forms, the 1970s addition is low pitched at about 5 degrees and clad with metal deck sheeting. The 1980s addition behind is a hipped roof pitched at approximately 45 degrees also clad in long sheets of Colorbond metal deck sheeting.</p> <p>In 2021, the owner replaced the sheet metal roofing and downpipes as a result of a Heritage Conservation Noticed issued by Council.</p>

Construction materials	Timber Frame: Asbestos Cladding Metal: Zincalume
Architectural style	Post War International
Historic theme(s)	Demographic Settlement and mobility: Settlements
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a rare example of the Post War international style in Bassendean which exhibits typical features of the period, such as a flat roof. The place has historic value for its association with the phase of development and settlement in Bassendean following World War II. The place has social value for its demonstration of housing scale and form in the 1960s.
History	<p>This portion of Bassendean was one of the first areas to be subdivided as town lots of approximately 2 acres each. The land was subsequently subdivided as smaller residential lots and a survey for this portion was approved in 1896.</p> <p>The name Rosetta Street was chosen in recognition of the 70 ton Schooner on which local land investor, Thomas James Briggs sailed on in 1878.</p> <p>No information has been found in the current research in relation to the original owner or occupier of this residence. The building was constructed c1960 as it is not evident in aerial photographs of the area in 1953 but is apparent in 1965. The style of the residence, with its distinctive flat roof, is consistent with this period and it appears to have remained substantially intact since construction. The original asbestos roof cladding was replaced in October 2009.</p>
Integrity / Authenticity	High/Moderate
Physical description	A single storey fibro sheeting clad dwelling with a pitched roof. The timber framed front entrance is centrally located on the façade. To the east of front entrance is a timber framed three pane window where the central pane is fixed and the two outer panes are sliding windows. To the west of the front entrance is a timber framed set of

	doors. Due to dense planting close to the dwelling no more detail of façade is visible. At approximately door height, extending from the façade is a flat roof verandah supported by circular metal poles set at angles. Above the verandah is an additional section of wall, not part of the original structure, which adds height to the façade to create mono-pitched roof which slopes towards the back of the house.

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a well maintained landscape of mature trees, shrubs and grasses in an undulating setting adjacent to the Swan River. The place has historic and social value for the members of the Indigenous groups who have a strong association with the place. The place has historic value for the many purposes which the place has used for since 1831; from water source, market garden, mine site, recreational reserve and meeting place. Success Hill has social value for the many members of the community who have used the place in the past and present for a variety of purposes. The place contributes to the Bassendean community's sense of place for its continuity as a public place since 1831.
History	<p>This reserve was the location of springs which provided fresh water for Guildford settlers in 1831. The name is believed to originate with Lieutenant W Preston who was granted the land adjoining Success Hill in 1829.</p> <p>The land was designated as a reserve since 1831 and has been used for a variety of functions but has been closely associated with indigenous groups who regularly camped. In the mid-20th century</p>

	<p>it was the source of sand for construction works in the district. Control of the reserve was taken over by the Town of Bassendean in 1916 and gazetted as an 'A' Class reserve in 1922.</p> <p>Indigenous groups have a long and strong association with the place for its association with the mythical 'Waugal' and as an important meeting place. Corroborees were held at Success Hill until the 1950s and many groups lived at the reserve in the early 20th century.</p> <p>In 1929, a plaque was erected in the reserve which erroneously stated that Success Hill was where Lieutenant Stirling had refilled his water supplies while exploring the Swan River in 1827. Despite its inaccuracy the myth led to re-enactments of Stirling's landing in 1929 and 1979.</p> <p>In the 1960s the Bassendean Road Board sourced funds to develop the reserve for visitors. The reserve had been stripped of vegetation predominantly through removal of sand, and new planting began in this period.</p> <p>In 2001, a cultural pathway was developed on the reserve to tell the many stories of the reserve. Since that time the reserve continues to be managed by the Town of Bassendean and new services are added or removed as required. Most recently the Town of Bassendean, in conjunction with the Swan River Trust, completed the Success Hill foreshore restoration project to stabilise the foreshore, control weeds and revegetate with native species.</p> <p>A floating jetty and pathways were constructed in 2012.</p>
Integrity / Authenticity	Moderate/Low
Physical description	<p>A large reserve that had been an important Aboriginal meeting place. It was also an important water source from Success Spring and a supplier of local sand.</p> <p>The Swan River runs through the park and the planted environment is a mixture of native bushland and cultivated parkland with accessible pathways, play and sports equipment, picnic facilities and lookouts along the river with bridges and jetties enabling the visitors to experience the river.</p> <p>The hill is a grassed mound populated with mature trees.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good example of the Post War international style with particular merit in the detail of the stonework. • The place has historic value for its association with the development of this area of Bassendean in the period following World War Two. • The place has historic value for its association with the Ghisalberti family who contributed to the Bassendean community. • This place has social value as a demonstration of housing in the mid-20th century.
History	<p>This portion of Bassendean was subdivided for residential development in the late 19th century with approval for the subdivision granted in 1897. However it was not until the inter war period that this area north of the railway line was more densely settled. Seventh Avenue was originally an extension of West Road but when that was realigned to meet Lord Street, this northern portion was renamed Seventh Avenue which was consistent with the roads parallel.</p> <p>This residence was built in 1954 for the Ghisalberti family. Seraphina and Luigi Ghisalberti were born in Italy and migrated to Australia; Luigi in 1926 and Seraphina in 1928. The couple and their four children lived in Ivanhoe Street and Luigi was employed by Mr Andrews, a winemaker. Luigi Ghisalberti was naturalized in 1933 and died in 1940 aged 38 years old. The family home at 27</p>

	<p>Seventh Avenue built after Luigi's death was, named 'Vilminore' after the village where Luigi was born.</p> <p>The contribution of Seraphina Ghisalberti to Bassendean was acknowledged with a plaque on North Road, as part of the Cultural Heritage Pathway for the Australian Bicentennial in 1988, for being the first female migrant in the district.</p> <p>Aerial photographs indicate that the original form and extent of the residence have not changed significantly since its construction despite the addition to the rear of the residence. The lot was subdivided c2005 and a new residence constructed on the rear portion of the original lot.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey stone, render and brick tiled dwelling with asymmetric plan form. The stone cladding is to the lower half of the elevation only terminating at sill height and laid in a random manner with flush pointing. Render extends from the sill to the eaves.</p> <p>The façade consist of a projecting section with separate hipped roof, three-section windows consisting of a central fixed pane with flanking casements with stone quoining and window head and angled stone tiles forming the sill. The hipped roof extends down to form wide overhanging lined eaves to all elevations. The recessed section of the façade has a verandah across the full width with a separate flat canopy positioned below eaves height, supported on Doric style masonry columns.</p> <p>An integral garage of the same construction method has been built to the side elevation with high parapet wall terminating at eaves height.</p>

Statement of significance	<ul style="list-style-type: none"> The well has historic value for its association with the successful manufacturing firm H.L. Brisbane and Wunderlich Ltd, its managing director H.L. (Lance) Brisbane and his father, local resident Hugh Brisbane. The well has aesthetic and social value as an element in this public open space since the 1930s.
History	<p>This wishing well was constructed as an advertising feature by the local manufacturing firm, H.L Brisbane and Co. This local firm achieved great success through the energy and determination of Hugh Lancelot (Lance) Brisbane (1893-1966). Lance Brisbane's parents lived in Devon Road, Bassendean and his father, Hugh Brisbane, was a member of the West Guildford Road Board from 1921-1922 and the Bassendean Road Board from 1929-1935, 1935-1937. Hugh was an active member of the Bassendean and Districts Horticultural Society and a great worker in the Methodist Church. Hugh Brisbane died in 1937 and it may have been at about this time that the wishing well was erected at this site.</p> <p>H.L. Brisbane Ltd did erect a number of these display structures around the metropolitan area in the 1930s. The first of these was in the early 1930s, on a residential lot leased for the purpose in Stirling Highway, Claremont, not far from Lance Brisbane's family residence. The reserve for this well was created in 1939 but the wishing well may have been in existence prior to this date.</p> <p>H. L. Brisbane and Company Ltd. built the first landscaped outdoor display area in Perth, to exhibit the company's products. It featured a large waterwheel. Over the next twenty years, numerous display parks were developed in the Perth metropolitan area. They were generally on small plots of land which were too small for other purposes, leased from a local authority and maintained at the</p>

	company's expense, located alongside major traffic arteries, and near to developing residential areas.
Integrity / Authenticity	High/Moderate
Physical description	<p>Small wishing well located in a public open space along Surrey Street.</p> <p>Small pale brick round well, projecting approximately 5 brick courses above ground level with a timber and corrugated iron canopy with carved timber brackets.</p> <p>There is no winding handle but the spindle for the winding of the rope connected to the pail remains extant. The well has been filled in with sand.</p>

Statement of significance	<p><i>From the 1 Surrey Street Conservation Plan, 2007.</i></p> <p>Surrey Street, Bassendean, comprising a brick rendered and shingle Pensioner Guard Cottage (1856-1857, 1991-1993) and brick rendered and tile residence (c.1893, c.1952), has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> • the Pensioner Guard Cottage is a rare surviving example in metropolitan Perth, and one of the few remaining throughout the state; • the Pensioner Guard Cottage is arguably the finest extant example of a Pensioner Guard Cottage in Western Australia; • it has significant associations with the Pensioner Guards who were an identifiable social group within the Western Australian Colonial community, during Colonial times when it was necessary to have forces of law and order visible in society, and the • Pensioner Guard Cottage informs of the unique way of life for a Pensioner Guard and his family from the 1850s; • the Pensioner Guard Cottage is significant for the identifiable form, scale and materials that inform of the earliest history of the Bassendean, during the Convict period, and is integral within the it's townscape and character; • the Pensioner Guard Cottage evidences the use of local materials with convict labour; • it demonstrates the evolution of residential development on the site, from a two room cottage in 1856-1857 that housed a family of 10 by 1870, to the construction of the adjacent residence in c.1893, and the subsequent additions to that

	<p>residence in c.1952, with the eventual demise as a residential function in the 1980s; and</p> <ul style="list-style-type: none"> it is a focal point for the Bassendean district's historical sense of place and community pride associated with the role in the state's history.
History	<p><i>For a full history of the site and the cottage refer to the Conservation Plan prepared in 2007 by Laura Gray and Irene Sauman.</i></p> <p>The decision to take convicts in the Swan River Colony was in response to a significant number of the influential colonists demanding labour to assist in development of the struggling economy. Convicts arrived in the Swan River colony from 1850 to 1868 accompanying them were the Pensioner Guards, soldiers who had fought in British armies, but were on a pension. They had either served a twenty year term, or they had been made redundant as British armies were reduced in number.</p> <p>The Pensioner Guards were part of the British government's commitment to the West Australian colonists that free settlers would be sent out to dilute the convict presence. The guards were offered free passage to Western Australia for themselves and their families. They were employed as guards on the convict ships and once in the colony their duties were not particularly onerous. Employment was offered to them in the Convict Establishment as warders, but their main purpose was to act as a disciplined body of men who could be called upon by the civil authorities to quell any disturbance. The first contingent arrived in the second ship, the <i>Hashemy</i>, November 1850.</p> <p>In Western Australia Pensioner Guards were settled on the fringes of towns, especially towns in which there was a convict depot. Their blocks of land varied in size between two and ten acres, and each block had a two roomed cottage (value £15) erected by convicts, or ticket-of-leave labourers. The land and house became the property of the guard and his family provided he stayed and worked the land for seven years. Successful groupings of small land owners from the military caste were formed at North Fremantle, and at York, Toodyay, Bunbury, Kojonup, Greenough Flats and Albany.</p> <p>The construction of the four cottages in West Guildford was supervised by Lieutenant Edmund DuCane, Royal Engineer, whose reports of his completed work are thorough. DuCane was responsible for the eastern settlements of Guildford, Toodyay and York. At the time of the construction of the cottages Guildford was a ticket-of-leave depot, rather than the convict outpost it was to later become. Therefore most of the labour used to construct the cottages was ticket-of-leave men, supervised by Sappers.</p> <p>In August 1855, DuCane's half yearly report noted that Guildford had an average of 67 ticket-of-leave men at his disposal and they had been engaged in burning bricks for 12 Pensioner cottages, and sawing timber. It was originally planned to build 12 Pensioners' cottages at West Guildford, but only four were actually built. The cottages took several years to complete and were not occupied until the 1860s.</p> <p>The four Pensioner Cottages were located on Lots 114 to 117. The first occupants were Pensioner John Law Davis (Lot 114), Pensioner Henry Chartres (Lot 115), James Brown (Lot 116) and Pensioner William Oliver (Lot 117). The three Pensioner Guard occupants acquired title to their lots in 1864 and 1865 after the required seven years occupancy, but James Brown purchased Lot 116 for £7-10-0.</p>

	<p>On 27 November 1857, Pensioner Guard John Law Davis was appointed caretaker of the four Enrolled Pensioner Force cottages at Guildford which were unoccupied. Davis, his wife, Amelia Sarah and infant daughter, Amelia Law occupied the cottage on Lot 114. John Law Davis acquired title to Lot 114 in October 1864 at no cost after his seven years of occupancy. On his death in 1870, the cottage transferred to his son William and in 1893 the property was transferred to Edmund Ralph Brockman who it is understood to have built an additional larger cottage on the site for his daughter Frances Brown and her husband Aubrey Brown. The original pensioner guard cottage provided the kitchen and dining room for the new cottage. The couple lived there until the death of Aubrey in 1909 when Frances sold the property.</p> <p>By the 1930s, there were only two cottages remaining and by 1947, only one. In the 1950s, the property was used as a boarding house and alterations were undertaken to the 1890s cottage and the pensioner guard cottage.</p> <p>During the 1960s and 1970s, the property changed hands and the land was subdivided creating a smaller lot for the two cottages which were acquired by the Town of Bassendean in 1988 with the intention of creating a museum within the 1890s cottage and restoring the Pensioner Guard cottage as a rare example of its type.</p> <p>Conservation works were undertaken in the 1990s and in 1993; the restored Pensioner Guard cottage was opened by the Mayor of Bassendean, John Cox. Since then the place has been open to the public and further plans to develop the place as a tourist destination have been put forward by the Town of Bassendean Historical Society and interested community groups.</p> <p>In 1994, the Pensioner Guard Cottage was included permanently on the State Register of Heritage Places.</p> <p>Between 2015 and 2020, the Bassendean Council progressed a proposal for restoration of the historic buildings and repurposing the 1 Surrey Street residence; including an extension for use as a Family and Children's Services Facility and new community space. The public tender process to appoint a contractor to undertake the works resulted in all tender responses significantly exceeding the cost estimates and budget for the project.</p> <p>In July 2020 Council therefore made the difficult decision of declining to award the tender due to the substantial financial burden it would have imposed on the local rate-paying community. In May 2021, Council resolved to seek to dispose of the property to Museum of Perth, and sought public comment on the proposal.</p>
Integrity / Authenticity	Moderate
Physical description	<p>The place comprises Pensioner Guard Cottage (1856-1857, 1991-1993) and residence (c.1893, c.1952) and is situated central between North Road and Calnon Street, in Surrey Street, on the south side of the road. Pensioner Guard Cottage is located on the west side of the site, adjacent to the residence, both facing the road.</p> <p>Pensioner Guard Cottage is a modest vernacular building that responded to the living requirements of the pensioner guards, and the availability of materials. It evidences some influences of the Victorian Georgian style of architecture in the gentleness of scale, simple rectangular form and symmetrical facades, and traditional bearing walls.</p> <p>The two roomed building forms a rectangle. The rooms are connected, with the front and rear doors aligned north-south in the</p>

	<p>west room of the cottage. French doors, a later intervention, provide access to the rear (south) from the second room (east).</p> <p>The gable roof is clad with 1991-1993 (Rose Oak from NSW) timber shingles. The gables are detailed with overlapped reverse scalloped barge boards. The eaves are unlined. The timber roof structure on the interior evidences some of the original lime-washed timbers that were in existence in 1991-1993. The single chimney is almost central, and on the ridge line. It is a square face brick chimney that has been rendered and painted. It has a simple corbelled detail.</p> <p>The external walls are rendered. Documentary evidence reveals that the original brick walls are laid in Flemish bond and were mostly still face brick work prior to be rendered in 1991-1993.</p>

Architectural style	Federation Bungalow
Historic theme(s)	Demographic settlement and mobility: land allocation and subdivision Occupations: Domestic activities
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good and intact example of a Federation style bungalow. • This place has historic value for its association with the development of Bassendean in the early 20th century. • The place has social value as a demonstration of the scale of a typical family home of the 1910s.
History	<p>This portion of Bassendean was one of the first areas to be subdivided as town lots of approximately 2 acres each. The land was subsequently subdivided as smaller residential lots in the early 1900s. Surrey Street, named after the English county, was one of the first surveyed roads in the West Guildford settlement and was chosen as the location of the Pensioner Guard cottages in the 1850s.</p> <p>From the available information this residence was constructed c1916 and the first occupant was fitter, Robert Munro Fraser (1884-1954) and his wife Agnes May Fraser. Robert Fraser noted his occupation in different periods as railway employee therefore he is likely to have worked at the Midland Workshops.</p> <p>Later long term occupants of the residence were solicitor, Christopher Thomas Parker Ewing (c1892-1953) and his wife Vera, nee Barrett-Lennard (c1893-1976).</p> <p>Information from the owners in 2004 stated that the house was built in 1919 and a former weatherboard addition at the rear was replaced with a brick structure, c1939 which was subsequently replaced with a timber addition in the early 2000s. The remainder</p>

	<p>of the house was consistent with original form and materials at that time.</p> <p>The difference in the date in construction could be resolved through further research of rates books and other sources. The style of the residence is consistent with the late 1910s construction.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey brick and tile house on a limestone plinth with raised verandah.</p> <p>The house presents with a distinctive façade with a tuck pointed finish. The asymmetrically planned façade incorporates a verandah across the full extent of the elevation, with a side entrance and a prominent 'eye' shaped window to the centre of the main elevation which incorporates stained leaded glazing.</p> <p>The asymmetric façade is stepped with a central projecting section with a corner faceted bay window which incorporates timber framed casements with stained glass leaded highlights.</p> <p>A roof is a complex hipped form with separate hips over each section of the house the roof to the front section incorporates a vented gablet at the apex of the hip with a decorative finial. The roof sweeps down with a gentle break of pitch to form the verandah canopy. The canopy is supported on square timber posts on top of brick piers with timber balustrade panels between each pier.</p>

Statement of significance	<ul style="list-style-type: none"> The pillar box has historic value as a rare remaining element from the 19th century in the Bassendean community which demonstrates the establishment of the small settlement at this time. The pillar box has aesthetic value as an example of 19th century design and manufacture which is in good condition. The pillar box has social value as on at least two occasions the proposed removal of the pillar box has seen a strong community response to retain the box at this location.
History	<p>Within six months of the establishment of the Swan River Colony, a rudimentary postal system had been established, with the Harbour Master at Fremantle being appointed postmaster of the colony. Predominately occupied with the management of mail incoming and outgoing by sea, letters could only be paid for at his office.</p> <p>As the population grew, post offices were established across the State, initially housed in the local postmaster's residential or business premises, and later in purpose-built post office buildings. Mail was carried by contract, on horseback or spring cart, or by native mail-carriers. Mail routes were long, covering great distances to reach the scattered population, and expensive to maintain. The high charge of postage resulted in colonists preferring to send mail via private agency rather than use the colonial postal service.</p> <p>In 1854, adhesive postage stamps were introduced to Western Australia, regulating the price and making prepayment of postage compulsory. Prepaid postage facilitated the introduction and operation of post boxes - letter receivers located away from a post office or shop. First introduced in Great Britain in 1851/52 (in the Channel Islands) and Australia in 1855/56 (at Circular Quay in</p>

	<p>Sydney) Western Australia's first post boxes are thought to have been erected in Fremantle in 1868. The red hexagonal 'Penfold' design which was standard issue in Britain from 1866 to 1879.</p> <p>The Penfold design was created by English architect John Penfold and were manufactured between 1866 and 1879. Pillar boxes were exported across the globe however this pillar post box was manufactured locally to a similar, but less decorative, design found in Great Britain at that time</p> <p>It is not known who manufactured these early boxes as there is no foundry mark on this box, or the two other surviving examples of the type. However it is thought that they were made in Western Australia rather than being imported from Britain or the Eastern States.</p> <p>It is presumed that post boxes were erected on an ad hoc basis, as no documentation has been found to support them being erected as part of an organised scheme. It appears that the post boxes were placed where demand dictated, in locations where the nearby population was not large enough to warrant a post office but which nevertheless generated enough post to warrant a box.</p> <p>Pillar boxes are cast with the initials of the reigning monarch and date of manufacture.</p> <p>Although abandoned in Great Britain in 1879 following complaints that letters were becoming trapped in the hexagonal design, the 'Penfold' design appears to have been standard issue in Western Australia until the Commonwealth took control of the postal system following Federation in 1901</p> <p>Prior to 1901, postal services in Western Australia in the second half of the 19th century were overseen by the Colonial Post and Telegraph Office within the Colonial Secretary's Office. Anton Helmich was the Post Master General of the Colony between 1847 and 1887 and he oversaw the introduction of adhesive postage stamps for the colony in addition to developing the provision of services throughout the colony.</p> <p>The decision to erect a pillar box at this site in Surrey Street c1876 was consistent with the location of the Pensioner Guard cottages in Surrey Street (built in the 1850s) and the relatively few settlers who lived in the locality known as 'West Guildford' until the 1920s.</p> <p>It has not been established when this pillar box was erected at the site. A pillar box is known to have been located near the former Lockeridge Hotel in 1910 indicating that pillar boxes were positioned around the townsite.</p> <p>In 1950, a newspaper article in <i>The West Australian</i> stated that the pillar box was to be removed and be replaced with a contemporary 'mail receiver'. This did not occur and it is recorded in <i>The Bassendean Town News</i> of March 1979 that a proposal in 1975 to remove the pillar box by Australia Post was fought and won by the Bassendean Town Council. Since that time the pillar box has been retained and continues to be used for its original purpose.</p>
Integrity / Authenticity	High
Physical description	<p>This pillar box is a relatively simple and unadorned example of a 19th century traditional post box. This style is known as the 'Penfold' design.</p> <p>The hexagonal post box is approximately 120cm (4ft) in height with a horizontal posting slot beneath a domed and cantilevered, projecting cap. The horizontal opening below the cap has the word 'LETTERS' cast into the weather flap.</p>

	<p>Above the posting slot, the royal cipher - VR, for Victoria Regina (Latin for Queen Victoria) - and the date of manufacture (1876) is cast. Below the posting slot, a single moulded band is located and a key opening door allows access to the interior of the box. The door is hinged with two metal hinges.</p> <p>The entire box is painted red although some fading is evident and remnant paper from former signage is present. Branding for Australia Post is located on the front face of the box. The box appears to be in good condition (2021).</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a simple example of Federation style and detail.. • This place has historic value for its association with development in the early 20th century. • The place has social value as a demonstration of the scale of a typical family home of the period.
History	<p>This portion of Bassendean was subdivided by a group of investors in 1898. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Third Avenue was originally an extension of James Street on the southern side of the railway line but was renamed c1930.</p> <p>From the available information this house was built c1915 for Williamena Irvine (c1858-1945). Little information has been found in this research regarding Williamena Irvine however the electoral rolls do not that she lived at this house with her son Peter who worked at the Midland Workshops. The house was called 'Inverclyde' suggesting that the family were originally from Scotland. Mother and son moved from the house c1934 when Peter built a timber weatherboard house at 11 Third Avenue. A subsequent long term occupant was George Atkins.</p> <p>Aerial photographs indicate that the house has undergone additions to the rear and a new carport to the southern side is a later addition.</p>
Integrity / Authenticity	High/Moderate

Physical description	<p>A single storey, brick and iron house with an addition along the rear half of the south elevation. Façade consists of face brickwork with a tuck-point finish and two rendered bands extending across the elevation. Façade front windows are I-over-I sash windows with narrow I-over-I side panes with a decorative rendered scroll below the sill. The dwelling has a timber panelled front door with traditional side lights and fanlight arrangement. The verandah consists of a separate bullnose canopy supported on turned timber posts with a concrete deck.</p> <p>The dwelling has a hipped roof with a raised vented ridge line with tall chimneys either side; each being painted brick with rendered corbelling and terracotta honey pot flues. The side elevations of the dwelling are rendered. Property has a well planted garden enclosed by a timber picket fence.</p>

Architectural style	Federation Bungalow
Historic theme(s)	Occupations: domestic activities Demographic settlement and Mobility: land allocation and subdivision Demographic settlement and Mobility: settlements
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as an intact and unmodified example of a Federation Bungalow style residence. The place has historic value for its association with the early settlement and development of the Eden Hill area in the 1920s. The place has aesthetic value as a landmark in the community as it has been unchanged since the 1920s The place has social value for its demonstration of a family home of a working family in the 1920s.
History	<p>This portion of Bassendean was subdivided by a group of investors in 1898. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Third Avenue was originally an extension of James Street on the southern side of the railway line but was renamed c1930.</p> <p>From the available information this residence was built c1919 for glass cutter Albert Richard Winch (c1874-1946) his wife Annie and their seven children. The house was one of the first to be built in this portion of Eden Hill and was relatively isolated until after World War II. The house was set in a large garden which does not appear to have been used for commercial purposes.</p> <p>In 1929, the Bassendean Road Board approved plans for additions to the property although the nature of the additions is not known.</p>

	Aerial photographs indicate the property has not significantly changed in form or extent since the mid-20 th century.
Integrity / Authenticity	High
Physical description	<p>A single storey timber constructed and weatherboard clad dwelling which originally presented with a symmetrical façade. The west elevation and west corner of façade have been closed in using cement-fibro sheeting to create a sleep-out under the verandah, therefore making the current façade present as asymmetrical. The timber framed front entrance with timber panelled front door is located off-centre toward the east with what could be the original decorative timber fly screen. To the east of the front entrance is a timber framed six-over-six sash window with a small timber sill beneath. To the west of front entrance is another six-over-six timber framed sash window with a small timber sill. Centrally located on the sleep-out addition on the west corner of façade is a double framed louvre window.</p> <p>The roof is a pyramid hipped roof which is clad in corrugated iron. At the façade edge, the pitch of the roof breaks and extends over the faced creating the verandah which is supported by timber posts with a simple timber frieze, timber balustrade and timber decking. The verandah extends along the entire façade and east elevation and would have originally extended along the west elevation were it not for the later addition of the verandah sleep-out.</p> <p>The entire dwelling is in an extremely dilapidated condition. The mature trees surrounding the house are an indication of the age of the building.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as an excellent intact example of a residence built in the late 19th century in the Victorian Georgian style within a garden setting including an impressive Morton Bay Fig Tree. The place has historic value for its association with the development of the district in the 19th century. The place has social value as a demonstration of the type of accommodation built in the late 19th century for affluent members of the community. The place has historic value for its association with early settlers, the Dodd, Thompson and Lukin families.
History	<p>This residence was originally built c1873 for Mary Ann, nee Dodd and John Thompson. Mary Ann's parents Jane and James Dodd established the Cleikum Inn in the 1830s on a site on the southern side of the road between Perth and Guildford just west of the Swan River. The 40 acre landholding was transferred to their daughter Mary and, on her return to the area in the 1870s with her husband, they built this home and the family later subdivided the land around it under the name of the 'Nurstead Estate'. A name which recognised her mother's ancestral home in England.</p> <p>Mary and John Thompson had married in 1854 in York and they had three children all of whom relocated to West Guildford with their parents in the 1870s. John Thompson is believed to have built the original cottage which has undergone many additions and alterations. The Morton Bay Fig tree which dominates the streetscape and is planted within the grounds of the property is</p>

	<p>believed to have been planted by John and Mary Ann Thompson when they settled at this residence in the 1870s.</p> <p>From c1910, the house was occupied by George Lukin (c1853-1931), who named the house, Wilgoyne.</p> <p>Information from the 2017 owner states that the place has undergone internal modifications and additions that have removed original elements. Externally the residence has been extended and the original brickwork painted and new windows inserted.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A magnificent Moreton Bay Fig is positioned in the corner of the garden and branches out over to the far side of the road. The garden also contains a myriad of mature planting to create a luxurious setting of dense planting to the house. The Moreton Bay Fig is marked by a National Trust plaque commemorating the planting in the late 19th century on land originally cultivated by the Dodd family, who were early settlers of Western Australia.</p> <p>The property is situated behind a high brick wall which obscured much of the place from clear view from the street. The place is of single storey painted brick and tile construction with a shallow pitched hipped roof with a tall brick corbelled chimney to the front plane of the roof. The roof sweeps down to form the verandah canopy with a subtle break of pitch and is supported on square timber posts with a paved deck.</p>

History	<p>This portion of Bassendean was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision.</p> <p>From the available information this residence was constructed c1914 for clerk, William Bushby (1889-1967).</p> <p>William Clarke married Dorothy Muriel Inglis (c1890-1954) in 1914 and this residence was their first home. They named it 'Inglebush' to recognise the union of their two names. Shortly after their marriage the couple settled in Daylesford, Victoria where William Bushby's family were located and he joined the AIF to serve during World War One.</p> <p>Occupants of this residence changed frequently throughout the first half of the 20th century suggesting it was owned as an investment and rented to a series of tenants.</p>

	Aerial photographs indicate that the form and extent of the residence have not changed significantly since the mid-20th century. An addition to the rear of the residence were evident at that time and these have been added to since.
Integrity / Authenticity	High/Moderate
Physical description	A single storey brick and tile residence with a tuck pointed finish and two rendered bands extending across the façade. The roof is hipped with a gable and includes a vented gablet. A separate tiled skillion roof supported on turned timber posts covers the verandah.

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good and intact example of the Inter war Californian bungalow style constructed in timber. • This place has historic value for its association with the development of Bassendean in the Inter War period. • The place has social value as a demonstration of the scale of a typical family home of the 1930s.
History	<p>This portion of Bassendean was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision.</p> <p>This residence was built c1934 for Samuel David Cooke (c1904-1982) and his family, which included his wife Dorothea Frances (née Leach) (c1907-1999) and their children. Samuel and Dorothea were originally from Victoria and had married in 1928 before settling in Western Australia where Samuel worked as a labourer. The family lived at the residence until the 1980s.</p> <p>In c2007, the lot which originally extended through to Bridson Street was subdivided and a new residence was built on the subdivided lot. This was consistent with many of the lots in this area. Since construction, the place has retained its basic building envelope with</p>

	a change to the roofline c2010 to accommodate the carport on the western side of the residence.
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey timber framed and corrugated iron dwelling with weatherboard and fibro panel cladding. An expansive hipped roof extends over the entire dwelling incorporating a decorative gable detail above the front entrance. The property has a symmetrical façade with a centrally placed entrance flanked by two windows either side.</p> <p>The windows are of varied sizes and styles but incorporate leaded lights to the main panes. The windows either side of the front door are timber framed side hung casements with highlight panes above. The remaining windows to the façade consist of three casement openings with leaded lights and no highlight windows. An altered opening is located at the eastern end of the façade consisting of two side panes, a fanlight all of plain glass and larger pane below with leaded lights.</p> <p>The house is positioned behind a lawned garden enclosed by a tall timber picket fence and an integral garage is located at the western end of the property.</p>

Construction materials	N/A
Architectural style	N/A
Historic theme(s)	Occupations: rural industry and market gardening Demographic settlement and mobility: Environmental change
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> the place has aesthetic value as a large landholding of predominantly native vegetation in a riverside setting. the place has historic value as an example of the physical environment in the early 20th century which may contain traces of past agricultural uses. the place has social value as demonstrated by the very active community groups and individuals who have voluntarily planted trees, weeded, and lobbied all levels of government for the ongoing care of the place.
History	<p>Ashfield Flats was originally part of a larger landholding known as the Bassendean Estate which was purchased in 1905 by Wesley Maley and his partner, John Pearson Learmonth for £17,700. The majority of the land was subdivided into quarter acre lots for residential occupation except for the larger lots which were used for market gardens. Until the 1920s several of these lots were leased to Chinese market gardeners. Other farmers nearby grazed stock on the land. These larger lots are the basis of the 'Ashfield Flats'.</p> <p>Portions of Ashfield Flats were leased to the Bassendean Road Board and used for a variety of functions. During World War II a small commercial sand quarry was established on the northern boundary of the 'flats'.</p> <p>The land holding is now the property of the State Government and vested in the WA Planning Commission and designated as a bush forever site. The management of Ashfield Flats is assisted by several volunteer groups including the Bassendean Preservation Group which has planted hundreds of plants of the local flora.</p>

	The ongoing management and conservation of Ashfield Flats has been an issue of concern amongst many local groups in recent years. The fragile environment is believed to be the last river flat in the metropolitan area. It is subject to erosion on the river bank and bushfires are a common occurrence during the summer months.
Integrity / Authenticity	High
Physical description	<p>Ashfield Flats is a wildlife reserve and conservation area approximately 64 hectare in size adjoining Sandy Beach Reserve. It is roughly bound by West Road, Reid Street, Hardy Road and the Swan River. On the north west boundary is a steep rise to housing and a small fenced parkland which provides a view over the wetland.</p> <p>The area is predominantly open wetland with some mature trees and shrubs. The land is divided by a drainage channel which crosses the land in a direction approximately north east to south west. And service track provide access to the site. During winter the land is inundated with water creating a rare wetland in the metropolitan area. The reserve is accessible to the public for passive recreation</p>

Historic theme(s)	Occupations: domestic activities Occupations: commercial services Demographic settlement and Mobility: land allocation and subdivision
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good late example of the Federation style. • This place has historic value for its association with the development of Bassendean in the 1910s. • The place has social value as a demonstration of the scale of a typical working family home of the early 20th century.
History	<p>Bassendean was originally known as 'West Guildford' and West Road was the original boundary of the Guildford town lots.</p> <p>The western side of West Road north of Palmerston Street to the railway line was subdivided in 1898 and promoted under the name 'West End'. The developers of this estate were a prominent group of local businessmen who held considerable land in the district and took the opportunity to subdivide the land in the late 19th century when there was a high demand for accommodation for working families following the gold discoveries in the east of the colony. The group of investors included some of the most well known members of colonial society: Stephen Henry Parker, George Leake, Harry Anstey, Dr Daniel Kenny, John James, James Grave, Harry E. Parry, Dr. J. Hope and William Paterson.</p> <p>From the available information this residence was constructed c1913 and the first occupant was grocer Charles Herbert Williams (c1881-1968). Charles Williams married Annie White in 1902 and the couple lived in Bassendean all their married lives. Charles Williams also occupied the property adjacent at 46 West Road. From aerial photography of 1953 this property appears to have been a small shop set well forward of the residences. The William's grocery would have supplied the staples to the small community in</p>

	the vicinity in the early decades of the 20th century. The shop was no longer evident in 1965.
Integrity / Authenticity	High/Moderate
Physical description	<p>Singe storey timber framed and weatherboard clad dwelling with a CGI clad gablet roof, where the gablet runs along the central east-west ridge. Projecting from the east and west side roof planes are two brick constructed chimneys with brick corbelling.</p> <p>Projecting slightly from the east and west corners of the south elevation are two gable sections with timber and roughcast render detailing at the apex of the gable. Each of the projecting sections contains two centrally located, equally spaced timber framed, 1-over-1 sash windows. The front entrance is believed to be situated in the small recessed section between the two projecting sections, but due to the mature vegetation in the front garden no more detail of south elevation is visible.</p> <p>Separate from the main roof line is a CGI clad bullnose verandah which extends across the entire south elevation and around to the entire east elevation; it is supported by rectangular timber posts with decorative metal brackets.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value for the remaining elements of its late Federation style. • This place has historic value for its association with the development of Bassendean in the 1910s • The place has social value as a demonstration of the scale of a typical working family home of the early 20th century.
History	<p>Bassendean was originally known as 'West Guildford' and West Road was the original boundary of the Guildford town lots.</p> <p>The western side of West Road south of Palmerston Street to Bridson Street was subdivided in 1899 and promoted under the name 'Heidelberg'. The developers of this estate were a prominent group of local businessmen who held considerable land in the district and took the opportunity to subdivide the land in the late 19th century when there was a high demand for accommodation for working families following the gold discoveries in the east of the colony. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament.</p> <p>From the available information this residence was constructed c 1918 and the first occupant was railway employee, George Merryman (c1882-1949) and his wife Elizabeth Merryman. The couple lived at the until the 1930s. They are known to have had one son, George who sadly died aged 18 in 1926. It is not known if they had other children.</p>

	Aerial photographs indicate that the house underwent significant alterations and additions in the late 1990s.
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey tuck-pointed brick constructed dwelling. The south elevation features three evenly spaced rendered bands extending across the entire façade. The remaining three elevations are painted brick. The dwelling has a CGI clad gablet roof, where the gablet runs along the central north-south ridge.</p> <p>At the east corner of the south elevation is a gable projecting section which has roughcast render and timber detailing at the apex of the gable. The projecting section contains two centrally placed, evenly spaced, timber framed, 1-over-1 sash windows with a rendered sill beneath. Extending over these windows is a skillion awning which is clad in CGI and supported with timber brackets. Projecting from the east roof plane of the projecting section is a rendered brick chimney with stone corbelling and two terracotta chimney pots. The front entrance is located within the recessed section of the south elevation; it abuts the projecting section and consists of a timber framed and timber panelled and lead lighted front door with lead lighted side lights and a fanlight. To the west of front entrance are two centrally located, evenly spaced windows. Due to the mature vegetation of the front garden no more detail of these windows or south elevation are visible.</p> <p>Without breaking pitch the roof line extends over the recessed section of the south elevation to create the verandah; it is supported by rectangular posts with a timber frieze.</p>

Three of these men; Parker, Leake and Paterson; were at various times members of parliament.</p> <p>From the available information this cottage was built c1915 and the first occupant was carpenter Albert (Taff) Mills (c1871-1942) and his wife Jean Mills (c1870-1943). The couple lived at the house until their deaths in the early 1940s and appear to have been involved in many aspects of community life in Bassendean. The town of Bassendean archives record that additions to the house were approved in 1952. Aerial photographs indicate that the house has been considerably extended and altered since the 1970s such that the original form is almost unrecognisable.</p>

Integrity / Authenticity	High/Low
Physical description	<p>A single storey dwelling with second storey additions, constructed from red brick with a hipped roof clad in corrugated metal. Projecting from the west corner of façade is a gable section with a timber and render gable detail. Centrally located on the projecting section is a group of three windows. Extending over the windows is an awning clad in corrugated metal supported with timber brackets. Beneath the window is a decorative rendered sill. Running along the entire façade is a rendered band which is situated at sill height. The front entrance is located within the recessed section of the façade, abutting the projecting section and to the east of front entrance is a group of windows. Due to the front garden planting, verandah balustrade and front fence no more detail of façade is visible.</p> <p>The roof is a complex hipped arrangement with gable elements. Projecting from the south roof plane is a gable dormer window with timber detailing. Attached to the roof line on the south roof plane and extending over the recessed section of façade is a separate hipped verandah, clad in corrugated metal with the same pitch as the main roof. The hipped verandah is supported by rectangular Doric columns atop of the brick constructed balustrade. Projecting from the west roof plane of the projecting gable section is a roughcast render chimney with brick corbelling detail and a pair of terracotta chimney pots.</p> <p>The dwelling has undergone extensive alterations; a second storey and two brick garages either side of façade have been added. Attempts have been made to build the additions in a similar style to the original building.</p>

Architectural style	Federation; Inter War
Historic theme(s)	Social and civic activities: Education and science
Values	Historic Social
Statement of significance	<ul style="list-style-type: none"> The earliest buildings in the school grounds have aesthetic value for their demonstration of the Federation style in an educational institution and are representative of the government designs of the period. The place has historic value for its association with periods of growth in the Bassendean district. From the initial construction in 1906, the school facilities have had to respond to the demands of a changing population. The place has social value to the many members of the community past and present who have been associated with the school since 1906. The school contributes to the community sense of place for its continuity of purpose since 1906 and as a demonstration of the community commitment to the district through the periods of activism by the wider community on behalf of the school community.
History	<p>The Bassendean Primary School was built in 1906 in response to ongoing requests to the Education Department from the community and the newly established West Guildford Progress Association. In 1904, two lots were donated for a school by the two biggest landholders in the district, Dr Kenny and Stephen Parker. The site was considered too small by the Department of Education and a further six blocks were purchased by the Road Board in 1904 to enable planning for the school.</p> <p>Design of the school was undertaken by the Public Works Department and tenders were called in June 1906. Construction of the original school was undertaken by contractors Ward Brothers in 1906 for £680.</p>

	<p>The school was opened on 20th October 1906 with a ceremony attended by local and state MLA's Mr M.F. Troy and Mr P. Collier. The first head teacher was Mr Arthur Loveridge. The growth of the district saw additions to the school in 1913, 1917 and 1922.</p> <p>The school was renamed the Bassendean Primary School in 1922 to conform to the naming of the district.</p> <p>In 1971, additional land was acquired to the south of the existing site for a school oval after parents lobbied the state government to acquire the land. The school buildings and facilities has been adapted and added to as requirements and standards have changed. Aerial photographs indicate that major programs of work were undertaken in the 1990s and 2010s.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey building constructed of red brick with a corrugate metal roof. The front entrance is located towards the west corner of façade. The timber and glass front door is a modern addition. Above the front door is a timber framed window (detail obstructed by awning) and fanlight. Projecting over the front entrance is a corrugated metal clad awning. To the west of front entrance are two windows, each of which are timber framed two-over-two pane sash windows with timber framed fanlights and a rendered sill. To the immediate east side of front entrance is a group of three windows, evenly spaced, which are all timber framed two-over-two paned sash windows with a timber framed fanlight and rendered sill. The remaining eight windows, spaced at varying intervals along the façade, are all timber framed six-over-six sash windows with a timber framed six pane window above and a rendered sill beneath. Running between windows four and seven on the east side of front entrance is a rendered band at sill height.</p> <p>The gable roof of the building runs east – west and is clad in corrugated metal. Four chimneys are set at regular intervals along the roof line and are constructed from red brick with decorative brick corbelling and a metal chimney pot.</p> <p>There is a modern lean-to addition on the west elevation which extends the façade of the original structure. On the façade of addition are two pairs of windows, evenly spaced, which are timber framed six-over-six sash windows with a rendered sill.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good late example of the Federation style executed in timber. • This place has historic value for its association with the development of Bassendean in the 1910s. • The place has social value as a demonstration of the scale of a typical working family home of the early 20th century.
History	<p>Bassendean was originally known as 'West Guildford' and West Road was the original boundary of the Guildford town lots.</p> <p>The land on which this residence is located was subdivided for residential development by civil engineer, assayer and prospector and Member of Parliament, Harry Francis Anstey (1847-1927). He purchased 100 acres of land in Bassendean, or West Guildford as it was then known, in 1897 and the land was divided into 237 lots for sale in 1898.</p> <p>From the available information this residence was built c1915 and the first occupant was carpenter, John Augustus Gadd (1877-1969) and his wife Bertha May, née Truslove (1881-1959). As a carpenter it is possible that John Gadd was involved in the construction of the cottage although no information has been sourced to confirm this conclusion. The couple had married in 1902 and had five children. The family lived at the house until the late 1940s.</p> <p>The cottage was originally located in the centre of a landholding of five lots and Hyland Street was not constructed until c1960. Aerial photographs of the 1950s and 1960s, indicate that an orchard was located on the property. The landholding appears to have been subdivided in the late 1960s.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good an intact example of an inter-war residence. • This place has historic value for its association with the development of Bassendean. • The place has social value as a demonstration of the scale of a typical family home of the early 20th century. • The place has social value for its association with the provision of medical services to the community in the 1930s.
History	<p>Bassendean was originally known as 'West Guildford' and West Road was the original boundary of the Guildford town lots. This portion of Bassendean, south of Watson Street, was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision. West Road was to be known as 'Main Parade' in the original plan for this subdivision but it was more logical to retain the name 'West Road' as the existing road continued into the new subdivision.</p> <p>From the available information this residence and others located between Deakin and Watson Streets were built c1919. Further research of the rates books may resolve the exact date of construction. It can be determined however that there was a period</p>

	<p>of development from 1919 in which several homes were built in the stretch of road. During the 1930s the property does appear to have been used as a hospital under the supervision of Nurse L. D. Campbell. This was likely to be a maternity hospital as small hospitals within walking distance of homes was a common practice in the first half of the 20th century.</p> <p>Aerial photographs indicate that the original form and extent of the residence is still apparent despite a series of additions to the rear of the building since the mid-20th century. In the mid-2000s the roof cladding was changed from a red corrugated iron to the current zincalume.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey timber framed and weatherboard house with asymmetric façade incorporating a small covered entrance area to the north corner of the façade. The main section of the house has a hipped cgi roof with the front projecting section incorporating a gable roof.</p> <p>A group of three timber framed casement windows are positioned in the projecting bay. The small verandah area has a shallow pitched hipped canopy supported on masonry columns on top of a masonry balustrade. The house is positioned behind a large lawned garden with non-original low brick boundary wall and palisade iron fencing. A carport has been constructed to the north side of the house in the front setback.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a good late example of a Federation residence. • This place has historic value for its association with the development of Bassendean in the early 20th century. • The place has social value as a demonstration of the scale of a typical family home of the early 20th century.
History	<p>Bassendean was originally known as 'West Guildford' and West Road was the original boundary of the Guildford town lots. This portion of Bassendean, south of Watson Street, was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision. West Road was to be known as 'Main Parade' in the original plan for this subdivision but it was more logical to retain the name 'West Road' as the existing road continued into the new subdivision.</p> <p>From the available information this residence and others located between Deakin and Watson Streets were built c1919. Further research of the rates books may resolve the exact date of construction. It can be determined however that there was a period of development from 1919 in which several homes were built in the stretch of road. One long term resident was Robert William Knights, a railway officer who was elected to the Bassendean Road Board</p>

	<p>between 1943 and 1945. He and his wife Eleanor Eliza lived at the house from 1920 to the mid-1930s.</p> <p>Aerial photographs indicate that the original form and extent of the residence is still apparent despite a series of major additions to the rear of the building since the mid-20th century. The owners c2004 stated that the original corrugated iron roof was replaced with tiles.</p>
Integrity / Authenticity	High/Moderate/Low
Physical description	<p>Single storey brick and tile Californian bungalow styled house of asymmetric plan form with extensive verandah to the north and west elevations.</p> <p>The main roof is hipped in form sweeping down at the same pitch to form the verandah canopy which is supported on Doric styled masonry columns. The verandah is open with a concrete deck. The projecting section of the façade incorporates a timbered gable detail and extension of the verandah canopy across the façade to form a window awning. The windows to the façade are timber framed casements with leaded lights.</p> <p>A further gabled wing is located on the north side of the property with similar timbered detail and rendered brick wall.</p> <p>The house is located behind a lawned garden with driveway and detached garage constructed to the south side of the property.</p>

Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision. West Road was to be known as 'Main Parade' in the original plan for this subdivision but it was more logical to retain the name 'West Road' as the existing road continued into the new subdivision.</p>

	<p>The owner of the property in 1936 was R. Irvine of Devon Road who may have built a cottage on the site but this has not been clearly established. The place is most closely associated with Walter George Bennett (c1914-1994) a pastry cook, who occupied the place from 1938.</p> <p>Walter Bennett and his wife Gwendoline (c1916-1996) lived at the house until the 1970s. Given the current naming of the residence 'the bakehouse' and Walter Bennett's occupation it is probable that the place was used as a bakery although no details were found in the current research.</p> <p>Aerial photographs indicate that the building was originally roofed in green corrugated iron and there were several large buildings in the rear of the property which supports the conclusion that the place was used as a bakery. From the 1990s onwards the building has been significantly extended to the rear and on the southern elevation.</p>
Integrity / Authenticity	Moderate/Low
Physical description	Weatherboard and iron Federation Bungalow cottage with hipped roof. Roof and bullnosed verandah extended to form carport. Verandah features cast valance and brackets to timber posts. Front room under feature timber gable. New double garage on the south. Oiled weatherboard bakery shed with skillion roof form.

Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision. West Road was to be known as 'Main Parade' in the original plan for this subdivision but it was more logical to retain the name 'West Road' as the existing road continued into the new subdivision.</p> <p>The lots adjacent to the river were large and attractive for farming, orchards and market gardens in addition to the large estates favoured by the prosperous members of the community. This large</p>

	<p>lot was acquired by Luigi Carlo Nicoletto (c1906-1989) in the 1930s. Luigi Nicoletto had arrived in Fremantle from Italy in 1927. He travelled to Italy in early 1934 and then came back to Australia later that year with his wife and child. The family settled in the district and established a farm and winery.</p> <p>Laurie Nicoletto (1936-2014), son of Luigi and Anna worked in a variety of places and professions before returning to work at the family vineyard which had expanded to become a well-known winery in the metropolitan area. The name chosen for the winery 'Riverside' winery reflected the early subdivision name of the district. It later became known as Bassendean Estate when the family began bottling wine for sale. The Nicolettos continued to sell wine from the site until 1994.</p> <p>Aerial photographs indicate that the place has not substantially changed since the mid 20th century. The methods of manufacture and sale from the site are still evident at the place.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey fibro sheeting clad dwelling with a corrugate metal roof. The dwelling has a complex hipped and gable roof; the east side having a gable roof and the west having a hipped roof, all of which is clad in corrugated metal.</p> <p>The façade comprises of three sections each at varying depths. The east section of façade is set back the most and contains the front entrance. To the east of front entrance is a group of windows; no detail of which is visible due to vegetation in front garden. The roof of this section breaks pitch slightly to extend over the façade which creates an awning. The central section of facade consists of a projecting gable element which is separate from the main roof line. This projecting central section contains a centrally located three paned timber framed window; the central pane being fixed and the two outer panes being casement windows. A section of hipped roof has extended along this section of façade to create a small awning which is clad in corrugated metal and is supported by timber brackets. The east section of façade extends to the roof edge. Centrally located in this section is another three paned timber framed window. Due to dense vegetation in front garden no more detail of window is visible.</p>

West Road was to be known as 'Main Parade' in the original plan for this subdivision but it was more logical to retain the name 'West Road' as the existing road continued into the new subdivision.</p> <p>From the available information this residence was one of the first homes in this portion of West Road, constructed c1913 and the first occupant was John Mather (c1858-1922) a fitter who worked at the Midland Railway Workshops. Mather and his wife Elizabeth, née Stevens (1858-1936) were from Derbyshire England and settled in Western Australia in 1911 with their family of three children.</p>

	<p>Elizabeth was noted in the electoral rolls as a dressmaker who presumably undertook her profession at these premises. Following John Mather's death, the family moved from the property and there were many subsequent occupants of the residence.</p> <p>Aerial photographs indicate that the original form and extent of the residence is still evident despite additions to the rear and side elevations. The owners of the property in 2004 and 2016 confirmed this conclusion.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey timber frame and weatherboard house with hipped roof. The façade is symmetrical in plan form with a centrally placed entrance flanked by windows. The entrance is a traditional arrangement of timber and glass panelled door with glass and timber panel side sections and fanlights above. A gabled canopy feature projects out over the entrance. The windows are 1-over-1 timber framed sashes arranged in pairs. The roof is hipped with gablets to the ridge and extends down with a slight break of pitch to form the verandah canopy that wraps around the three principal elevations. The canopy is supported on square timber posts, the deck is timber and there is no balustrade. The gabled section above the front entrance forms part of the verandah.</p> <p>In 2019, additions, enclosing of the existing verandah and a new carport were developed at the rear, and an open carport was erected to the northern side of the dwelling.</p>

Values	Historic
Statement of significance	<ul style="list-style-type: none"> The place has the potential to reveal information relevant to the early settlement and occupancy of the Bassendean district in the 19th century. The place has historic value for its association with early landowner and prominent citizen, Peter Broun.
History	<p>This property was originally part of a large landholding granted to James Henty in 1829. He named this landholding 'Stoke Farm' and engaged carpenter, William Dyer, to build a large house on the site. The Henty family left the Swan River Colony in 1831 and the property was transferred to the Colonial Secretary for the colony, Peter Nicholas Broun (1797-1846).</p> <p>Broun and his family settled at the property in 1832 and named it 'Bassendean' after his home in Berwickshire, England. Broun successfully developed the farm alongside his duties in Perth. However by 1834 he and the family were back in Perth and the farm was leased to a tenant. A series of poor financial decision and ill health led to Broun's death in 1846 at the age of 49. The place was transferred to a series of owners throughout the 19th and 20th century with the farmhouse remaining within a relatively large landholding.</p> <p>The homestead was demolished in 1940 and since that time local residents have provided information that building foundations are still in evidence on the site although no recent information is available to confirm this conclusion.</p> <p>The farmhouse was known locally as 'Old Bassendean Homestead' and the name Bassendean was chosen as the new name of the</p>

	district in 1922 demonstrating its importance to the community at that time.

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as an example of post war style with elements that are consistent with domestic scale and form rather than a public building. The place has historic value for its association with the ongoing commitment to the provision of public amenities at the BIC reserve by the Bassendean Road Board, subsequently the Town of Bassendean. The place has social value for many members of the Bassendean and wider community who have used the facility on the reserve since 1958.
History	<p>This building is located within the BIC (Bassendean Improvement Committee) Reserve, established c1935 through the lobbying, fundraising and labour of members of the Bassendean community. The reserve was aimed to provide a sporting and recreational venue for the Bassendean community. Since that time the activities on the Reserve have changed as popularity and funding for specific sports has ebbed and flowed. Recently [2015] much of the reserve has been allocated for the relocated War Memorial. Buildings on the reserve have been erected, relocated and demolished as needs have changed.</p> <p>This building which is currently [2015] used by the Bassendean Tennis Club was built in 1958 for use by the Bassendean Croquet Club. At that time the building was located in the northern portion of the BIC reserve. It was relocated c1975 when Guildford Road was widened.</p>

	<p>From c1975 to 2006, the building was used by the Croquet Club however with the demolition of the Bassendean Tennis Club clubrooms in June 2009; this building was allocated to the Tennis Club.</p> <p>In late 2006, a smaller demountable building was constructed to the south of this building which is used as an adjunct to the Tennis Club facilities. The Bassendean Croquet Club ceased operating from the BIC Reserve c2007.</p>
Integrity / Authenticity	High
Physical description	<p>A single storey weatherboard clad building with terracotta roof tiles. Situated slightly off centre on the façade is the front entrance. On the west side of front entrance is a timber framed window. On the east side of front entrance is a timber framed double pane window, a set of double doors and then another set of timber framed double paned windows. All openings on the façade are covered by security grilles. Underneath each of the timber sills of the windows on the east side of front entrance are timber slat benches.</p> <p>The roof of the building is hipped with the central ridge running east to west and is clad in terracotta tiles. Connected to the south roof plane is a separate hipped roof which forms the verandah across the façade and is supported by timber posts.</p>

The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Whitfield Street was named in honour of Francis Whitfield, an early colonist and Guildford landowner and Government Resident in the 1830s.</p> <p>From the available information this residence was constructed c1919 and the first occupant was carpenter and builder Henry Stanford Hyde (c1887-1968) and his wife Bertha, née Glance (c1887-1962). It is likely that the house was built by Hyde or at least he contributed to the construction of the building. There were many members of the Hyde family living in Bassendean in the early 20th century.</p> <p>Aerial photographs indicate that the form and extent of the building have not changed significantly since the mid-20th century. The block was subdivided and a new residence built at the rear c1990.</p>

	Prior to that date the roof cladding appears to have been red corrugated iron.
Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey timber framed and weatherboard clad dwelling with a CGI gablet roof; the gablet runs along the east-west central ridge. Extending from the north roof plane is a brick constructed chimney with brick corbelling.</p> <p>Projecting from the east corner of south elevation is a gable section which has a timber weatherboard detail at the apex of gable end. Centrally located on the projecting section is a timber framed, two section casement window with two smaller casement windows above these. Extending over these windows is a skillion, CGI clad awning with timber supports. Located within the recessed section of the south elevation is the front entrance; it abuts the projecting section and consists of a timber panelled and glazed front door with a fanlight. To the west of the front entrance is a centrally located timber frame, two section casement window with two smaller timber casement windows above and a timber sill beneath.</p> <p>The roof pitch breaks slightly and extends over the recessed section of south elevation to create the verandah; it is supported by rectangular timber posts with timber brackets. There is a separate hipped verandah which extends along the recessed section of the east elevation.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as an example of a simple inter-war timber residence. • This place has historic value for its association with the development of Bassendean in the Inter-War period. • The place has social value as a demonstration of the scale of a typical family home of the early 20th century.
History	<p>This portion of Bassendean was subdivided by a group of investors in 1898 under the name 'West End' estate. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Whitfield Street was named in honour of Francis Whitfield, an early colonist and Guildford landowner and Government Resident in the 1830s.</p> <p>From the available information this residence was constructed c1925 for spring maker, William Clare and his wife Alice (c1872-1961).</p> <p>Aerial photographs indicate that the residence has undergone major additions to the rear which have altered the roof line at the rear but the front elevation remains consistent with the original form.</p>
Integrity / Authenticity	High/Moderate
Physical description	Single storey timber framed and weatherboard house with hipped and gable roof. The weatherboard cladding is to the lower section of the elevations, terminating just above the window sills with the

	<p>remainder of the cladding being fibre cement sheeting. The house is of asymmetric plan form to the façade with a projecting element at the southern end of the house with a timber battened gable treatment and three timber framed casement windows below. The recessed section of the elevation contains a single door for the main entrance and another bank of three timber casement windows.</p> <p>The main roof is hipped and extends down to form the verandah canopy at a break of the pitch. The canopy extends across the entire width of the façade including the gabled section and is supported on square timber posts and has a timber deck. The verandah at the north end has been enclosed with weatherboard and incorporates a timber panelled door.</p> <p>A car port has been constructed in sympathetic style in the front setback.</p>

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a substantially intact timber residence and workplace from the early 20th century. The place has historic value for its association with the development of the area in the inter war period. The place has social value as a rare demonstration of a family business and family home within a residential area.
History	<p>This parcel of land was purchased by cabinetmaker John William Henry Flavel Smallman (c1899-1994) as a vacant block in the 1920's and he built the weatherboard residence shortly afterwards which he and his wife, Violet, nee Hyatt lived in until the 1970s.</p> <p>A detached factory at the rear of the block, the "Smallman Furniture Manufacturer" building was constructed in stages over the next 20 years. The firm manufactured domestic and church furniture until the 1970's.</p> <p>John Smallman served on the Bassendean Roads Board from 1940 to 1953 and was chairman between 1947 and 1952.</p> <p>The house underwent alterations and additions in 1941 and since then the building has been extensively repaired and restored. Works included the replacement and insulating of the roof, repair/replacement of interior wall and ceiling fabric, rewiring of electrics, replacement of stumps and renovation of the kitchen and bathroom.</p>

Integrity / Authenticity	High/Moderate
Physical description	<p>Single storey timber framed, weatherboard clad dwelling with a CGI clad hipped roof.</p> <p>At the east corner of the south elevation is a gabled projecting section which has timber detailing across the apex of the gable and contains two centrally located timber framed 1-over-1 sash windows. The front entrance is located within the recessed section of the south elevation, abutting the projecting section. The front entrance consists of a front door with sidelights and panels to the west of front door and a glazed fan light. No detail of front door is visible through the metal security door. To the west of the front entrance is a group of two timber framed 1-over-1 sash windows with a timber window sill.</p> <p>Without breaking pitch the roof line extends over the majority of the recessed section and the projecting section of the south elevation to form the verandah which is supported by rectangular timber posts. The west corner of the south elevation is the only part of the elevation not covered by the verandah.</p> <p>At the west corner of south elevation is a section of elevation not covered by the verandah; this section contains a two-section timber framed casement window. Extending over the window is a CGI clad skillion awning with timber supports.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value for the remaining elements of a simple inter-war timber residence. • This place has historic value for its association with the development of Bassendean in the Inter War period.
History	<p>This portion of Bassendean was subdivided for residential development c1905 when developer, Wesley Maley purchased a large parcel of land bordering the river. The names of roads in this subdivision known as 'Riverside', reflected Wesley Maley's enthusiasm for the prize rams he purchased for his Katanning pastoral property, Moojebing. Maley purchased a flock of rams from South Australian politician, J.H. Angus. Several of the rams were named in honour of Australian prime ministers and consequently the names Watson, Deakin, Barton, Fisher and Reid were applied to the roads in this subdivision. Whitfield Street was extension of the road from the subdivision to the north named in honour of Francis Whitfield, an early colonist and Guildford landowner and Government Resident in the 1830s.</p> <p>From the available information this residence was constructed c1924 and the first occupant was Clement Patchett (c1875-1925) and his wife Kate Patchett (c1876-1954). Sadly Clement Patchett, who worked as a mill hand, died the following year and Kate only remained at the residence for one more year. The place was subsequently occupied by a series of tenants suggesting the residence was built as an investment property.</p>

	Aerial photographs indicate that the house has undergone many additions and alterations making the original form of the house almost unrecognisable.
Integrity / Authenticity	Moderate/Low
Physical description	<p>Single storey timber framed, weatherboard clad dwelling with a CGI clad hipped roof with a gablet incorporated into the south plane of roof.</p> <p>The eastern corner of the south elevation consists of a projecting section with a hipped roof and another gablet incorporated into the south roof plane. The projecting section contains a three-section window; the central section is fixed and the remaining sections either side are casement windows. Separate from the roof line, extending over the entire width of projecting section is a CGI clad skillion verandah which is supported by turned timber pillars.</p> <p>Centrally located within the recessed section of the south elevation is the front door with a lead light fan light. On either side of the front door are two-section timber framed, lead lighted casement windows with timber window sills.</p> <p>Separate from the main roof line, a skillion awning extends across the entire recessed section creating the verandah which is supported by turned timber pillars with timber balustrading.</p>

Statement of significance	<p><i>The following Statement of Significance has been based on the documentation prepared in 2003 for the State Heritage Office.</i></p> <p>Bassendean Improvement Committee Reserve comprising tennis courts and clubrooms (c1958), bowling clubrooms and greens (c.1960), the relocated Bassendean War Memorial (1920; 1971; 2015), and extensive landscaped public recreation space, has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> • the place demonstrates the commitment of the Bassendean Improvement Committee and the greater Bassendean community which achieved the goal of creating a substantial sporting venue in 1935, created by sustenance workers during the period of economic depression; • the place is important as a substantial recreational area containing a range of sporting and recreational facilities within a parkland setting; • since the relocation of the Bassendean War Memorial to the reserve in 2015, the place is associated with the servicemen and women from Bassendean who served with the AIF since 1920 and the annual memorials at the structure; • the place is valued by the community of Bassendean as a venue for a wide range of sporting and community activities continuously since its construction in 1934; and, • the place contributes to the community's sense of place because of its prominent location adjacent to the town centre and continued use as a community recreation facility.
History	The land on which Bassendean Improvement Committee Reserve is located was formerly known as Hay's Swamp. The land, owned by journalist Jose Hay was largely a swamp which featured a large

	<p>wooden home built by Hay considered to be an 'eyesore' by local Bassendean businessmen. Upon Hay's death in 1923 it was suggested to the Bassendean Road Board that they purchase the land in order to improve the view and the facilities for the residents of Bassendean.</p> <p>The Road Board convened a committee in December 1923 of the Traders Association and other interested citizens to raise funds for the purchase of 'Hay's Swamp'. The main driver of the project was Dick McDonald, an Irishman who had settled in the district with his family in 1911. He continued his contribution to the community following service during WWI as a long serving Chairman and member of the Bassendean Road Board.</p> <p>The creation of the BIC Reserve was stifled through the poor economic climate throughout the 1920s. The ambition of raising £750 to purchase the 11 acres of Hay's Swamp took until 1928 and involved many community events.</p> <p>Clearing the land was undertaken by 'sustenance' workers, a government scheme to use unemployed workers during the depression period to facilitate the completion of public works. The 'susso' workers were often local ex-servicemen.</p> <p>A design of the Reserve was secured through a competition in 1927. An entry by architect, Mr A.S.H. McClay of Midland Junction influenced by the 'City Beautiful' movement featured a maze, rose garden, landscaped gardens and a viewing platform for spectators to watch the sports.</p> <p>Buildings on the reserve were designed by architects Powell, Cameron and Chisholm in 1935 and included a tennis pavilion, bowling clubrooms and change rooms. A successful tender of £1528 was received from builder J.F. Meredith for these buildings.</p> <p>The BIC reserve was opened on 9 November 1935 and included a tennis pavilion, bowling clubrooms, change rooms, shelter shed, tennis courts, bowling greens, oval and play grounds.</p> <p>The BIC reserve has been adapted and changed since its creation as the needs of the community have altered. The buildings have been relocated on the site and the oval gradually diminished in size so that it was no longer viable for football. The widening of Guildford Road in the 1970s was a significant influence on the shape of the BIC Reserve.</p> <p>The most significant change in recent years was the relocation of the war memorial in late 2014 to 2015. It was completed in time for the Anzac Day ceremony in 2015. A recent innovation has been the dedication of land north of the council offices for an outdoor cinema during the summer months.</p>
Integrity / Authenticity	High/Moderate
Physical description	<p>The reserve is largely a grassed open space linking various elements within the landscaped space. The Bassendean War Memorial is featured within the former oval and is accessed by concrete pathways and bordered with garden beds. Within the reserve are tennis courts, the bowling club and playground equipment.</p> <p>The Town of Bassendean administration offices and library border the reserve on the south.</p>

Values	Historic Aesthetic Social
Statement of significance	<ul style="list-style-type: none"> The war memorial and historic value for its association with the contribution and sacrifice from individuals from the Bassendean district who served during armed conflict since World War One. The war memorial has aesthetic value as a simple monolith within a parkland setting that provides the opportunity for contemplation and reflection. The war memorial has social value for the community of Bassendean as the location of popular services and ceremonies that acknowledge and commemorate Australian servicemen and women. The war memorial contributes to the Bassendean sense of place for its continuity of function since 1920, despite its relocation.
History	<p>The West Guildford Soldiers Memorial was originally erected to commemorate those who served in World War One and was unveiled by His Excellency, the Governor of Western Australia, Sir Francis Newdegate on the 12th December 1920 . His Excellency stated in his address that part of the appreciation of the memorial was that it had been erected by two returned soldiers who had taken part with those whose names were inscribed on the memorial. The memorial was located on the corner of Wilson Street and Old Perth Road at the site of the current [2015] library. The name of the Bassendean Memorial Library acknowledges this original function of the site.</p> <p>The War Memorial was relocated in 1971 to a site in front of the Town of Bassendean council offices to enable the construction of the new library. Due to the congestion of the site and the growing attendances at memorial services the memorial was moved again</p>

	<p>in 2014 to a site within the BIC reserve and included a new memorial wall and reflection pond.</p> <p>The monument was re-dedicated on 11 April 2015, and the unveiling of the new plaque was made by Graham Edwards A.M., the Honourable Alannah McTiernan M.P. and the Mayor of Bassendean John Gangell.</p> <p>Five clergymen carried out the re-dedication, one of them being the Army Area Chaplain in Western Australia, the Reverend Andrew McNeill.</p>
Integrity / Authenticity	High
Physical description	A granite obelisk mounted on a wide, square base and plinth. There are four marble faces on which the veterans names are inscribed. The memorial is located within a circular paved area that has a semi circular concrete wall surround. This wall is inscribed with the names of conflicts in which Australian men and women have served.

Architectural style	Inter War Gothic
Historic theme(s)	Demographic settlement and Mobility: land allocation and subdivision Social and Civic activities: Religion
Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a good example of a church constructed in phases reflected elements of the Federation Gothic and Inter War Gothic styles. The place has historic value for its association with periods of development of the district in the early 20th century, the Inter War and Post-World War Two periods. The place has social value for its provision of religious and social services to the Bassendean community at this site since 1915, and in the district since 1909.
History	<p>This portion of Bassendean, on the west side of Wilson Street, was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. The origin of the name of Wilson Street is likely to have been either Frank Wilson, Premier of Western Australia (1910-1911) developer of the Eden Estate, or in honour of Colonel Wilson an early resident of Guildford.</p> <p>The Anglican Church established a church in West Guildford in 1909 in Lord Street but this weatherboard building was destroyed in a windstorm in 1915. This site on high ground nearer to the centre of the townsite was chosen for the new church. In October 1915, foundations for the brick sanctuary and chancel were laid.</p>

	<p>The original weatherboard structure was re-erected as a meeting room and hall.</p> <p>On 15th January 1916, the new brick chancel was consecrated by the Archbishop of Perth C.O. L. Riley. The furnishings for the new portion were donated by friends and members of the congregation and the frontal was 'donated by the Cathedral and worked by Mrs Phillips of Claremont'. In 2015, the portion was the sanctuary of the church.</p> <p>In 1937, the church was completed with the construction of a brick nave. The completed church was consecrated by Archbishop of Perth, Primate Dr H. F. Le Fanu on 12 December 1937.</p> <p>In the period following World War Two, Bassendean experienced a population growth and a successful Stewardship program secured funds to enable the construction of a new hall on the site. It was opened on 19 July 1959.</p> <p>The church has continued to evolve as the needs and practices of the community have changed. In 1985, four stained glass windows were donated to the church. In 1991, the hall was rewired and new lighting was installed. In 2001, the interior of the church was rearranged to create a church in the round and in 2008 the church and hall received an electrical upgrade.</p>
Integrity / Authenticity	High
Physical description	This ecclesiastical building is constructed in exposed red brickwork with stucco detailing. There is a portico entrance to one side in brickwork with a gable roof. Catholic cross is located on top of parapet gable and a small circular window over larger pointed arch window. Concrete tracery to windows with stained leadlight glazing.

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a good, intact example of the Inter War Californian Bungalow Style executed in brick. The place has historic value for its association with the development of the district in the Inter War period. The place has historic value for its association with the establishment and development of the Anglican Church in the district. The place has social value for the members of the community who would have known the place as the Anglican Rectory since 1923 and it would have been the venue for community events since then.
History	<p>This portion of Bassendean, on the west side of Wilson Street, was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H.Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr. J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. The origin of the name of Wilson Street is likely to have been either Frank Wilson, Premier of Western Australia (1910-1911) and developer of the Eden Estate, or in honour of Colonel Wilson an early resident of Guildford.</p> <p>The Anglican Church purchased two blocks from E. Burgess and A.W.P. Scales in 1922 for the future rectory for St Mark's Anglican Church located on the lot immediately to the north. The rectory was</p>

	<p>built through the initiative of Reverend W. K. Elphick who organised the design and construction of the rectory however details of the architect or builder have not been determined.</p> <p>A small verandah was constructed on the north side of the rectory facing the church in the early 1940s which was subsequently enclosed as a bedroom. The existing verandah surrounding the front and south sides of the house was added in 2002, when the windows were enlarged and fitted with French doors.</p> <p>Since its construction the place was occupied by a series of parish minister and their families. Occupants included Reverends A.W. Everitt, W. B. Kirby, T. E. Currie and F. E. Eccleston, J. E. Stannage, A G Thomas, R W Edwards, D G Newman, S E C Good and I L Jones. The rectory was the childhood home (1950-1959) of eminent Western Australian historian C T (Tom) Stannage.</p> <p>In 1986, prior to disposal of the property the church amalgamated the two lots and it was sold to a private owner. The church purchased a house in Ireland Way, Eden Hill for use as a rectory.</p>
Integrity / Authenticity	Moderate/High
Physical description	<p>A single storey brick and zincalume residence with a verandah enclosing three sides of the front of the residence. The simple pitched roof has a separate roof over the verandah.</p> <p>The timber doors and windows on the main elevations appear to date from the original construction. The residence is set within a large property of mature trees and well-established gardens. A carport with a pitched roof of a more recent construction is located on a lower level.</p> <p>In 2020, a weatherboard addition for a living area was developed, accompanied by decking at the rear of the dwelling.</p>

Statement of significance	<ul style="list-style-type: none"> • This place has aesthetic value as a predominantly intact example of the Inter War style. • The place has historic value for its association with the development of Bassendean in the Inter War period. • This place has social value as the house demonstrates the form and scale of housing for working families in the inter war period.
History	<p>This portion of Bassendean, on the west side of Wilson Street, was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The group of investors included some of the most well-known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. The origin of the name of Wilson Street is likely to have been either Frank Wilson, Premier of Western Australia (1910-1911) and developer of the Eden Estate, or in honour of Colonel Wilson an early resident of Guildford.</p> <p>From the available information this residence was constructed c1926 and appears to be one of three timber cottages built at 16, 18 and 20 Wilson Street. The first occupants of this cottage were Henry Lenard (Len) Skeels (c1880-1941) and his wife Bertha Skeels, née Bindon (c1886-1961). Len Skeels worked as a crane driver at the Midland Railway Workshops and following his death in 1941, Bertha stayed on in the house for many years.</p>

	Aerial photographs indicate that the form and extent of the cottage has not changed significantly since the mid-20th century.

Values	Cultural
Statement of significance	<p>Bassendean Masonic Lodge (fmr), a single storey brick, tile and corrugated iron building in Inter-War Free Classical style in a sparse suburban setting, has cultural heritage significance for the following reasons:</p> <ul style="list-style-type: none"> the place is representative of the social input Freemasons have made in local communities across Australia, having housed Freemasons of both the Bassendean Lodge and the Bassendean Chapter who were part of and contributed to their local community; the place is a fine representative example of a Masonic Lodge rendered in the Inter-War Free Classical style; the place represents a time when the Masonic movement in Western Australia had strong membership; by virtue of its scale, imposing proportions and siting, it is an imposing local landmark; and, the place is highly valued by the local community, which was made evident by their reaction to the development proposals of the Town of Bassendean.
History	The Bassendean Masonic Lodge (fmr) was erected in 1934 by the members of the Bassendean Lodge No. 102 (formerly West Guildford Lodge 102) and Bassendean Chapter 20 for use by both as their Masonic home.

	<p>The details of the Bassendean Masonic Lodge (fmr) building were finalised at the Building Committee meetings of 24 October and 29 December 1933. W. Bro. Eric Jones, who was the West Guildford Lodge Secretary and 1st Principal for Bassendean Chapter, was requested to prepare plans, and the erection of the hall was to be supervised by Bro. G. McDonald.</p> <p>The building committee prepared the tenders for the various trades, selected the contractors and ordered materials. The bricks (49,000) were supplied by Whitemans Brickyard, and W Bro D Dells carted them to the site for 8 shillings per 1,000 bricks and Bro W H H Adie laid them at a cost of £1-17s-6p per 1,000.</p> <p>Since its construction very few alterations or additions have occurred to the building. In 1946, it was proposed to build a porch on the south-west side of the hall, but, apart from the plans showing the proposed porch, there is no other documentary or physical evidence to confirm that this was constructed. In 1961, some internal renovations were carried out to the hall, and in 1972 a suspended ceiling was installed in the Lodge room. The building was transferred to the Town of Bassendean in 1988 and until 2012 it was used intermittently for meetings and functions.</p> <p>In 2012, the place was converted into a private residence with portion allocated for use as professional rooms. The works were undertaken in 2012/2013 with majority of the works to the interior of the place.</p> <p>The Bassendean Masonic Lodge (fmr) was used continuously as a Masonic hall until 1988, when both the Bassendean Lodge No. 102 and the Bassendean Chapter No. 20 held their last meetings.</p>
Integrity / Authenticity	Moderate/High
Physical description	<p>A majestic looking building of brick and tile construction incorporating a prominent gable with pediment with many decorative elements. The façade is face brick, divided into three sections by rendered pilasters, each section containing a 3-sectioned timber framed opening. Each opening arrangement consists of a casement opening with obscured glazing, two high lights above and a further small top hung opening above. Angled rendered sills and rendered lintels are positioned directly under the frieze.</p> <p>The gable is the main decorative feature of the façade, rendered and painted bright white, incorporating dentils to the corbelling and around the pediment. Simple geometric moulding within the gable and a vented element to the apex.</p> <p>No entrance to the façade, with entry provided along the side elevation. The side elevations are divided into bays by stepped buttresses with rendered raked cappings. Each bay containing a high level timber framed window with angled brick sill and rendered lintels. Access is via double timber doors with double height fan light above.</p>
Condition	Good

Values	Aesthetic Historic Social
Statement of significance	<ul style="list-style-type: none"> The place has aesthetic value as a substantially intact timber residence from the early 20th century. The place has historic value for its association with the development of the area known as West Guildford, later Bassendean in the 1910s. The place has social value as a demonstration of the scale of housing constructed for working families.
History	<p>This portion of Bassendean, on the eastern side of Wilson Street, was subdivided by a group of investors in 1898 under the promotional name of 'West End'. The group of investors included some of the most well known members of colonial society: S.H. Parker, G.H. Leake, H. Anstey, Dr D. Kenny, J. James, J. Grave, H.E. Parry, Dr J. Hope and W. Paterson. Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Wilson Street was the western boundary of this subdivision and a slightly later subdivision was created c1902 on the western side of Wilson Street. The name of the street recognises either the Premier of Western Australia, Frank Wilson but more likely an early resident of Guildford, Colonel Wilson.</p> <p>This residence was built c1912 when it is first noted in the Post Office Directories. (Confirmation with rated books will confirm the date of construction.) Alfred John Watson (c1874-1950) and his wife Emily were the first occupants of the house which they called 'Watsonia'. Alf Watson worked as a labourer. The Watson's left the residence c1925 and the subsequent occupants until the 1960s was Arthur Edwin Popham (c1884-1966), a grocer and his wife Nellie Craig Popham, nee Aitken (c1889-1979).</p>

	The Town of Bassendean archives note that additions were undertaken in 1939. Aerial photographs indicate that there have been minimal changes to the form and extent of the cottage since the mid-20th century.
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey timber framed and iron dwelling with twin timbered gables to the façade. The asymmetric façade incorporates a projecting bay with a 3-sectioned timber framed opening containing casement windows, shaded by a corrugated galvanised iron and timber window awning. The recessed section of the façade contains a timber and glass door on the return wall of the bay and a further 3-sectioned opening to the façade.</p> <p>A verandah wraps around the recessed section of the elevation and around the side elevation. The canopy is a separate skillion form supported on paired timber columns with carved brackets.</p> <p>The property is located within a lawned garden enclosed by a timber fence.</p>

Three of these men; Parker, Leake and Paterson; were at various times members of parliament. Wilson Street was the western boundary of this subdivision and a slightly later subdivision was created c1902 on the western side of Wilson Street. The name of the street recognises either the Premier of Western Australia, Frank Wilson but more likely an early resident of Guildford, Colonel Wilson.</p> <p>From the available information this residence was built c1921 and the first occupant was Thomas Walter Hall (c1893-1934) and his wife Eileen Emma, nee Parlour. The couple had married in 1919 and Thomas's father, James Henry Hall a builder, may have built the house for them.</p>

	Information from the owners' c2004 stated that the house is substantially in its original form with a later addition of two bedrooms at the rear.
Integrity / Authenticity	High/Moderate
Physical description	<p>A single storey timber framed house with a hipped roof. The roof has been reclad in red Colorbond with a vented gablet ridge, flying gable and verandah canopy, supported on square timber posts.</p> <p>The house has an asymmetric plan form with weatherboard to dado height and rough cast render above. The main entrance features a timber and glass panelled door with leaded light panel and leaded side lights and fan light. The windows are timber framed casements.</p> <p>A feature of the façade is a box bay with four casements, one to each side of the bay with stained glass fan lights.</p> <p>The house is located within a mature garden setting behind a timber picket fence.</p>

Statement of significance	<ul style="list-style-type: none"> • The place has historic value due to its association with the development of the district in the early 20th century and its facilitation of the growing community. • The place has aesthetic value due to its picturesque environment of large open parkland with views of the Swan and Helena Rivers. • The place has social value due to its extensive historical community use.
History	<p>In 1904, The Department of Lands granted a parcel of land located at the point where the Swan and Helena Rivers meet to the Bassendean Road Board for an office site and recreation reserve. A request by the Road Board was made in 1926 for access to drinking water and in 1927, a bathing shed was constructed and subsequently destroyed by floods in 1939 before being re-built.</p> <p>Two jetties were constructed at the site in 1946 to be utilised by the community. The site was home to several swimming races and competitions as well as numerous community social events.</p> <p>The Reserve was used for community swimming for several years, before being determined to be unfit for swimming in 1953 due to pollution and the presence of bacteria. Although the use of the Reserve for swimming became less popular, the area was still regularly utilised by the community. In 2020, the jetties were deemed unsafe due to termite damage and subsequently removed. There was a strong desire from the community for the jetties to be replaced. The Reserve continues to facilitate the community and is an asset to the amenity and history of the Town.</p>

Policy Number: Local Planning Policy No. **xx**
Policy Title: Heritage and Character

1. Citation

This is a Local Planning Policy prepared under Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015*. This Policy may be cited as Local Planning Policy No. **xx** – Heritage and Character.

2. Policy Statement

Heritage supports the Town's amenity by providing familiarity and the presence of landmarks, by underpinning the 'sense of place', and by enhancing the quality of the built environment generally. The Town supports the conservation and enhancement of heritage places and recognises the importance of ensuring new development and alterations / additions to heritage places are sympathetic in design and are incorporated in ways that do not significantly detract from the characteristics and features of the place.

This policy seeks to ensure the local planning system can facilitate those outcomes.

3. Policy Objectives

- (a) To conserve and protect places and areas of heritage and/or character significance.
- (b) To ensure that subdivision and development does not adversely affect the significance of a heritage place and/or character areas and that new development is sympathetic to the existing character of the heritage place.
- (c) To designate Heritage Areas, for the purpose of Regulation 9 of the *Planning and Development (Local Planning Schemes) Regulations 2015*.

4. Application

This policy applies to all applications for subdivision approval or development approval for places included within the Heritage List or Local Heritage Survey, or for land located within a designated Heritage Area. It does not apply to conservation of Aboriginal heritage except in cases where Aboriginal heritage places or areas are entered in the Heritage List, Local Heritage Survey or are located within a heritage area. Aboriginal heritage is protected by the *Aboriginal Heritage Act 1972*.

5. Definitions

Archival Record: *means a record prepared by heritage architect or heritage consultant detailing the background, significance of the place, location, base plan, sketches, certificate of title, photographs and any other relevant matters relating to the heritage place.*

Conservation Management Plan:	<i>means a plan prepared by heritage architect or heritage consultant that guides the conservation and management of a heritage place.</i>
Cultural Heritage Significance:	<i>means aesthetic, historic, scientific, social or spiritual value for individuals or groups within Western Australia.</i>
Federation:	<i>means an architectural style that emerged from c1890s- 1915s.</i>
Heritage Place:	<i>means buildings, structures, other built forms, gardens and their surrounds on the Heritage List or Local Heritage Survey.</i>
Inter-war:	<i>means architectural styles that emerged from 1915-1940.</i>
Post-War:	<i>means architectural styles that emerged during the 1940s-1960s.</i>
Streetscape:	<i>means the collective elements that contribute to a street, including architectural styles, front yards, car parking structures and access, infrastructure, footpaths, signage, street trees and landscaping and fencing and front boundary treatments.</i>

6. Heritage Areas

The following areas are formally designated as Heritage Areas of the purposes of clause 9 of the Deemed Provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015*.

6.1 Kenny Street Heritage Area

The Kenny Street Heritage Area is a residential area as identified in Appendix 1.

The area is characterised by its early 20th century residential architecture, including Federation, Inter-War and Post-War architectural styles. This portion of Bassendean was subdivided by a group of investors in the early 1900s under the promotional name of 'Tanner's Estate' or the 'Tanner's Extension Estate'. The area is significant as it is representative of development over the inter-war period, with residences formally occupied by prominent members of colonial society.

The material palette of the area includes weatherboard, red brick, compressed fibre cement and corrugated steel roof sheeting and terracotta roof tiles. Front boundary treatments are fairly uniform with medium high picket or visually permeable front fences. To the north of the area, there is a consistent street tree planting pattern with a variety of native tree species, with a reduction in street tree planting heading south in the area. The topography of the area is undulating.

6.2 Old Perth Road Heritage Area

The Old Perth Road Heritage Area is a commercial area as identified in Appendix 1.

Old Perth Road forms a boulevard from the Bassendean Train Station, with the Federation style shop fronts acting as the entrance to the town. Buildings to the north of Old Perth Road are single storey facing the street. The Bassendean Hotel influences a two-storey building scale along the southern side of the streetscape. The area comprises of predominantly brick structures with boundary walls and awnings over the footpath. Prominent two-storey buildings include the Padbury Buildings, Bassendean Hotel and the shop and residence at 42 Old Perth Road.

Elements that contribute to the significance of the area include the landmark buildings which have historic value and social value to the district. The buildings in this area demonstrate periods of development in the former town centre from the 1910s to the 1950s, have excellent aesthetic value and are largely intact examples of Inter War Free Classical style.

6.3 Devon Road Heritage Area

The Devon Road Heritage Area is a residential area as identified in Appendix 1.

In 1897, land speculator, parliamentarian and government assayer, Henry Anstey purchased a large parcel designated as Location Q which he subdivided and offered for sale under the name 'Bindaring Estate'. Devon Road was part of this estate and the name owes its origin to the county in England. The Devon Road Heritage Area is characterised by its early 20th century residential architecture, including Federation and Inter-War architectural styles, and is significant based on the number of in-tact dwellings that are representative of this period.

The material palette in the area includes weatherboard, red brick, compressed fibre cement and corrugated steel roof sheeting and terracotta roof tiles.

Established front gardens with perimeter plantings and open or picket fences feature throughout the area. Some streets display a regular pattern of street tree planting however most streets have irregular planting of deciduous and native tree species. The individual gardens and street planting are generally of a high quality and well maintained which contributes to the amenity of the streetscape. The topography is generally flat.

7. General Development Standards

7.1 General Requirements

- (a) Development shall comply and/or conform to the requirements outlined in any Conservation Management Plan, Heritage Assessment or any other documented review of heritage value.
- (b) New dwellings should not try to replicate existing heritage places on the same street (i.e. faux heritage).
- (c) Unless otherwise prescribed, new dwellings shall be designed to integrate with the siting, scale, architectural style and form, materials and external finishes of the streetscape.

7.2 Alterations and Additions

- (a) Alterations and additions to a heritage place shall be compatible with the siting, scale, architectural style and form, materials and external finishes of the heritage place and shall not detract from the streetscape.
- (b) Alterations and additions are to be positioned and sized to ensure that the prominence of significant parts of the heritage place are retained, and should generally be located to the rear or less prominent elevation of the building.
- (c) New openings in façades visible from the street shall be avoided. Where new openings are proposed, they shall be proportionally related to those of the heritage place and not located on the original façade of the heritage place.
- (d) The original roof line and façade of the heritage place shall not be altered. Where replacement is required, the roof line and similar materials and colours to the original roof shall be provided.
- (e) View lines to the heritage place from the street shall not be obstructed by alterations and additions.

7.3 Carports and Garages

- (a) Where possible, vehicle access, carports and garages are to be located to the rear of the heritage place.
- (b) Garages shall not be located in the front setback area of a heritage place.
- (c) The design of a carport in the front setback area should be discreet and compatible with the character of the heritage place, with any screening or door within the front setback area to be visually permeable.

7.4 Materials and Colours

- (a) Where possible, paint colours shall reinstate early paint schemes. Investigations into previous paint schemes, determined on the basis of documentary and/or physical evidence (i.e. paint scrapes), is recommended to discern original paint schemes.
- (b) Previously un-rendered walls shall not be rendered and previously un-painted walls shall not be painted.

7.5 Fences and Gates

- (a) Original front fences and gates shall be retained and conserved where possible.
- (b) Where original fences and gates cannot be retained, the proposed fence and gate shall comply with the following:
 - (i) Compliment the style and materiality of the heritage place;
 - (ii) Be visually permeable to ensure views to the heritage place are maintained;
 - (iii) Where possible, replicate a fence style consistent with the architectural style of the heritage period.

7.6 External Fixtures

- (a) External fixtures, such as satellite dishes, radio and TV antennae, air conditioning units and the like, shall not be visible from the streetscape and shall be designed to be sympathetic to the dwelling.
- (b) Where conduit or cabling is required to run along the surface of an external wall it shall be painted to match the wall colour.

7.7 Landscaping

In some instances, landscaping within the street setback area contributes to the heritage value of the place. Consideration should be given to appropriate landscaping design and plant species consistent with the heritage period.

7.8 Demolition

- (a) Pursuant to Clause 61(1) of Schedule 2, Part 7 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, development approval is not required for the demolition of any dwelling that does not form part of the Heritage List.
- (b) Where development approval is required for any demolition, the application will be assessed with consideration of the following:
 - (i) The significance of the heritage place;
 - (ii) The feasibility of restoring or adapting the heritage place, or incorporating it into new development; and
 - (iii) The extent to which the community would benefit from the proposed redevelopment.
- (c) Partial demolition of a heritage place may be supported where:
 - (i) The parts to be demolished do not contribute to the heritage significance of the place as identified in any Conservation Management Plan, Heritage Assessment, any other review of heritage value, Place Record Form (Local Heritage Survey) and/or Part 8 of this Policy.
 - (ii) The structural integrity of the remaining heritage place is retained; and
 - (iii) The demolition will not adversely impact the streetscape.

7.9 Variation to Site and Development Standards

The Town may vary one or more of the site or development requirements set out in the R-Codes where it involves the conservation of a heritage place.

7.10 Subdivision

Subdivision will only be supported where battle-axe lots are created to the rear of the existing dwelling, with the width of the parent lot to be retained, with the exception of the access leg. The creation of child lots between the heritage place and the street is not supported.

7.11 Information Requirements

- (a) Depending on the scale and nature of the proposal, the Town may require one or more of the following to assist the assessment and determination of an application:
 - (i) A Heritage Assessment in accordance with in accordance with Clause 11, Schedule 2, Part 3 of the *Planning and Development (Local Planning Schemes) Regulations 2015*;
 - (ii) A documented review of heritage value in accordance with in accordance with Clause 63(1)(c), Schedule 2, Part 8 of the *Planning and Development (Local Planning Schemes) Regulations 2015*;
 - (iii) A Conservation Management Plan (new or existing); and
 - (iv) In the case of a proposed (full or partial) demolition, a Structural Report.
- (b) The Town may require, as a condition of development approval, an archival record of the place, prepared by a suitability qualified heritage consultant, prior to development or demolition occurring.

8. Precinct-Specific Development Standards

8.1 Kenny Street Heritage Area

- (a) Development shall be single or double storey only and designed to address the street by way of major openings. With the exception of Guildford Road, second storey additions should be set back behind the main ridgeline so as to not be visible from the street in front of the heritage place.
- (b) Development shall be designed and constructed to maintain the natural topography of the site. Significant cut and fill and retaining shall be avoided.
- (c) Development shall be sited to be parallel to the street and setback consistent with the predominant building setbacks within the streetscape. Sufficient rear setbacks shall be provided to ensure the retention of open space and backyards.
- (d) Where new dwellings are proposed, the dwelling shall be designed to integrate with either Federation, Inter-War or Post-War dwelling styles by way of design elements and materials.
- (e) Car parking structures shall be in line or located behind the heritage place as to not dominate the dwelling or streetscape. Where car parking structures are located in front of the dwelling, they shall be open on all sides other than abutting the dwelling or visually permeable to the satisfaction of the Town.
- (f) Soft landscaping is encouraged, and expanses of hard landscaping such as paving shall be avoided. Removal of mature vegetation shall be avoided.
- (g) Where front boundary treatments are proposed, they shall either be low masonry walls, perimeter plantings or visually permeable fencing constructed of materials sympathetic to the dwelling and the streetscape.
- (h) Historic outbuildings such as sheds shall be retained and conserved where significant and they contribute to the character of the Area.

8.2 Old Perth Road Heritage Area

- (a) New development shall respect the scale and view lines to landmark buildings, and be positioned to enhance streetscape vistas and view corridors.
- (b) Facades shall be stepped to express change of level across the building frontage, and relate and respond to neighbouring facades through the use of horizontal lines and design elements.
- (c) Whilst building design and materials should reference existing materials and design principles in the Area, development shall be contemporary and not replicate existing heritage places.
- (d) Development shall be provided with an over-pavement awning for the full width of the building to provide effective weather protection for pedestrians. The awning shall be located at first floor height only, line through with any existing awnings on adjacent developments and be simple in design.
- (e) Where additional storey(s) are permitted, these are to be designed to ensure that:
 - (i) The existing form and scale are respected and not overwhelmed; and
 - (ii) The addition does not interrupt or impinge on the prominence of the facade of the existing building, with additional levels set back to retain the integrity of the façade.

8.3 Devon Road Heritage Area

- (a) Development shall be designed to address the street by way of major openings.
- (b) Development shall be setback and sited consistent with the predominant building siting and setbacks within the streetscape.
- (c) Where new dwellings are proposed, the dwelling shall be designed to integrate with either Federation or Inter-War dwelling styles by way of design elements and materials.
- (d) Car parking structures shall be in line or located behind the heritage place as to not dominate the dwelling or streetscape. Where car parking structures are located in front of the dwelling, they shall be open on all sides other than abutting the dwelling or visually permeable to the satisfaction of the Town.
- (e) Soft landscaping is encouraged, and expanses of hard landscaping such as paving shall be avoided. Removal of mature vegetation shall be avoided.
- (f) Where front boundary treatments are proposed, they shall either be low masonry walls, perimeter plantings or visually permeable fencing constructed of materials sympathetic to the dwelling and the streetscape.
- (g) Historic outbuildings such as sheds shall be retained and conserved where significant and if they are considered to contribute to the character of the Area.

Appendix 3 – Heritage Period Style Guide

Federation	
Characteristics	Freestanding single-storey houses.
Materials	Tuck-pointed brick.
Built Form	Simple built forms
	Timber sashed windows equally proportion on the front façade with a central doorway.
	Round bullseye to multi-paned and coloured casement sash windows, often with leadlights.
	Verandahs ornamented with turned timber or cast iron columns, balustrades and a frieze.
Roofs	Simple hipped roofs, often with a projecting gable. Witches' hats, gablets and various gables feature in grander bungalows.
	Roofs covered with terracotta tiles or painted corrugated metal, usually steeply-sloped with wide eaves
	Stucco detailing
	Gable ends ornamented with roughcast and battens painted in dark colours.
	Brick chimneys, often positioned on each side of the dwelling.
Fencing	Gardens divided into a front and rear garden via fencing.
	Pickets of decorative wire netting while side fences were of simple palings.
Landscaping	Hardy and drought-tolerant plants.
Inter-War	
Characteristics	Freestanding single-storey houses with informal lawns and gardens.
Materials	Brown brick, roughcast or pebble dash render or weatherboard walls.
	Rendered walls painted in off-white, beige or cream.
Built Form	Verandah roofs contained within walls and the overhanging roof.
	Heavily built verandah posts
	Verandah posts often pylon-shaped and tapered upwards from a wide base.
	Garages at side of the dwelling, making driveways an integral part of the front garden.
Roofs	Low-pitched roofs emphasising horizontal lines covered with terracotta tiles.
	Exposed rafters and purlins projected from the roof.
Fencing	Low brick or 'pillow-faced' limestone block fences.
	Cyclone wire and timber post fencing
Landscaping	Garden beds bordering the house and along boundary fences.
	Spiky buffalo grass kept closely clipped, edged by gravel or stone flagged paths.

Post-War	
Characteristics	Freestanding single-storey houses.
Materials	Plain brick walls and chimneys with minimal exterior decorative elements.
	Predominantly brick or compressed fibre cement sheeting
	Plain timber or aluminium windows.
Built Form	Prominent window-walls.
	Limited decoration.
Roofs	Hipped/gabled roofs with a low lying gable of around 30 degrees.
	Flat roofs introduced in more contemporary designs
	Marseilles pattern tiles in conservative designs
Fencing	Low brick walls or letterbox delineating property from street.
Landscaping	Large areas of buffalo lawn, beds of bright flowers and useful shrubs.
	Deciduous specimen trees.
	Informal lines in garden beds, crazy paving and veneered walls with flat stone.
	Concrete edging for garden beds

8.3 Proposed Outbuilding – 137 (Lot 835) Walter Road East, Bassendean	
Property Address	137 (Lot 835) Walter Road East, Bassendean
Landowner/Applicant	Oscar Shepherd
File Reference	2022-028
Author	Director Community Planning
Department	Community Planning
Previous Reports	N/A
Authority/Discretion	Quasi-Judicial When the Council determines an application/matter that directly affects a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice. Examples of Quasi-Judicial authority include town planning applications, building licences, applications for other permits/licences.
Attachments	1. Schedule of Submissions [8.3.1 - 2 pages] 2. Development Plans [8.3.2 - 2 pages]

Purpose

The purpose of this report is for Council to consider an application for development approval for an Outbuilding at 137 (Lot 835) Walter Road East, Bassendean. The landowner has requested Council determine the application.

Background

The subject site is a 764m² freehold lot zoned Residential R20 under Local Planning Scheme No. 10 (LPS 10). The site contains an existing single house. A location plan follows.

In November 2021, a development application was lodged for an outbuilding at the rear of the property. The application, by virtue of its wall height, ridge height and setback, was not supported by the Town. The application was subsequently withdrawn by the owner.

Proposal

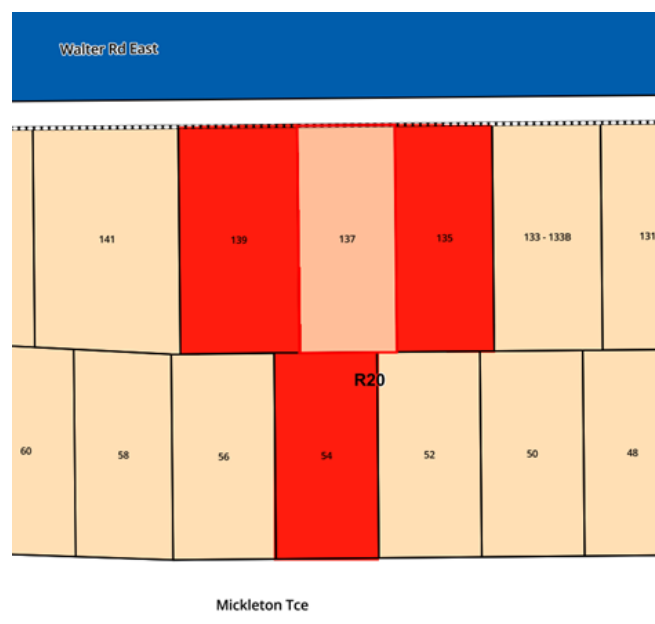

The proposal involves the following:

- The construction of a 96m² (12m x 8m) black Outbuilding located in the rear portion of the site.
- The proposed Outbuilding has a skillion roof with a wall height of 2.5m and an overall height of 3.5m.
- The outbuilding will be setback 4.7m from the eastern boundary, 1.5m from the western boundary and 1.5m from the southern boundary.
- The outbuilding will be finished in painted weatherboard and 'Night Sky' (black) Colorbond sheeting.
- The existing carport at the front of the site is proposed to be removed to provide for boat access to the rear.
- The Outbuilding is proposed to be used to store a boat and cars.

A copy of the development plans are attached.

Communication and Engagement

The development application was referred to the owners and occupiers of affected properties (a total of three recipients) for a period of 14 days (being from 24 March 2022 to 7 April 2022). A consultation plan follows.

At the close of the submission period, two objections were received; both based on the proposed size of the outbuilding and perceived impacts on amenity. A copy of the Schedule of Submissions is attached. The applicant was invited to modify the proposal to address the concerns but has sought for the application to be determined, as originally proposed.

Strategic Implications

Priority Area 1: Strengthening and Connecting our Community

1.1 Fostering a culture of collaboration and trust between the organisation and community

Priority Area 7: Building Community Identity by Celebrating Culture and Heritage

7.2 Create a community closely connected to its history and heritage

Comment

Local Planning Scheme No. 10 (LPS 10)

The subject site is zoned Residential R20 under LPS 10. The proposed Outbuilding is incidental to the single dwelling, which is a “P” use within the Residential zone, meaning the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme.

State Planning Policy 7.3 – Residential Design Codes Volume 1 and Local Planning Policy 12 - Residential Development and Fences (LPP 12)

The R-Codes include ‘deemed-to-comply’ Criteria (prefixed by “C”) and Design Principles (prefixed by “P”). Applications not complying with the deemed-to-comply criteria can be assessed against relevant design principles. LPP 12 replaces the relevant ‘deemed-to-comply’ criteria contained within the R-Codes.

The following table outlines the aspects of the proposal that do not meet the (replaced) 'deemed-to-comply' criteria and provides an assessment against the sole design principle, being *"outbuildings that do not detract from the streetscape or the visual amenity of residents or neighbouring properties"*.

LPP 12 Provision	Assessment
C5.4.3 – Outbuildings – B. Large and multiple outbuildings	
(i) collectively does not exceed 60m ² in area or 10 per cent in aggregate of the site area, whichever is the lesser (in this instance 60m ²);	<p>The total area of the proposed outbuilding is 96m².</p> <p>In considering the design principle, the following is relevant:</p> <ul style="list-style-type: none"> the outbuilding will not be visible from the street; the site will still comply with the open space and outdoor living area requirements, suggesting that the proposal does not represent overdevelopment of the site. the extent of the overshadowing complies with the relevant deemed to comply standard of the R-Codes; and the outbuilding has greater than required setbacks which further reduces the impacts of the development on the adjoining properties.
(iii) does not exceed a wall height of 2.4m;	<p>The wall height of the proposed outbuilding is 2.5m.</p> <p>In considering the design principle, the following is relevant:</p> <ul style="list-style-type: none"> the outbuilding will not be visible from the street; the extent of the overshadowing complies with the relevant deemed to comply standard of the R-Codes; and the wall height affecting 54 Mickleton Terrace is 10cm greater than the deemed to comply standard of the R-Codes. the overall ridge height of 3.5m is compliant with the deemed to comply standard of the R-Codes (4.2m); The outbuilding is set back from the lot boundaries in compliance with the requirements of Table 2a of the R-Codes. the average wall height impact on 139 and 135 Walter Road East will be 3m.

It is considered that the height of the proposed outbuilding will not have a detrimental impact on the amenity of the adjoining properties, particularly given the greater-than-required setbacks to the three property boundaries. Based on the above, the proposal is considered acceptable and it is recommended that it be approved.

Statutory Requirements

In accordance with Clause 68(2) of the *Planning and Development (Local Planning Schemes) Regulations 2015*, Council is required to determine the application by:

- “(a) granting development approval without conditions; or
- (b) granting development approval with conditions; or
- (c) refusing to grant development approval.”

Financial Considerations

Nil.

Risk Management Implications

Should Council refuse the proposal, the applicant may seek to appeal to the State Administrative Tribunal to have the decision reviewed.

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.3

That Council approves the application for development approval for the proposed Outbuilding at 137 (Lot 835) Walter Road East, Bassendean, subject to the following conditions:

1. The outbuilding shall only be used for domestic purposes associated with the property and not be used for commercial purposes or human habitation.
2. All building works to be carried out under this development approval, including footings, are required to be contained within the boundaries of the subject lot.
3. All stormwater being contained on site. Details of the method of stormwater disposal being submitted for approval in conjunction with the application for a Building Permit.

Voting requirements: Simple Majority

Schedule of Submissions

137 Walter Road East, Bassendean – Proposed Outbuilding

Objection

1	Affected Property: 54 Mickleton Terrace Bassendean WA 6054	Postal Address: 54 Mickleton Terrace Bassendean WA 6054
Summary of Submission		Comment
Objection to the proposal.		Noted.
1.1	The proposed outbuilding would be an eye sore for our property and would therefore reduce our enjoyment of our property and backyard activities and entertaining.	
1.2	The outbuilding would dominate our backyard view as it covers most of the length of our back fenceline.	Noted.
1.3	With the previous outbuilding, which has since been removed, there were many late nights where we could hear grinding-type machinery and smell fumes from paint or similar coming from the shed, so it is concerning that with a shed that is larger than the previous one, that this level of disturbance would increase both in volume and duration, resulting in increased noise and air pollution.	Noted. The Town is assessing the proposed Outbuilding for residential domestic use only, and should Council approve the application, a condition ensuring the use of the Outbuilding for residential purposes only would be recommended. The noise generated from the use of the Outbuilding would also be required to comply with the <i>Environmental Protection (Noise) Regulations 1997</i> .
1.4	The proposed outbuilding is outside the current parameters of the Residential Design Codes for good reason, as the proposed outbuilding is of industrial size and belongs on industrial zoned land, not on residential land in the Perth metropolitan area.	Noted.

2	Affected Property: 135 Walter Road East Bassendean WA 6054	Postal Address: 135 Walter Road East Bassendean WA 6054
Summary of Submission		Comment
Objection to the proposal.		Noted.
2.1	The proposed structure does not meet the R-codes with regards to heights and total area with significant deviation.	
2.2	The existing shed structure (which was smaller than proposed structure) was already blocking sunlight and casting bright floodlight into our property.	Noted. The subject site is located to the west of 135 Walter Road East and is therefore unlikely to be affected by overshadowing. In any instance, the percentage of overshadowing as a result of the proposed Outbuilding has been assessed to comply with the deemed-to-comply requirements of State Planning Policy 7.3 – Residential Design Codes.

		<p>In respect to floodlighting, illumination should be contained on site consistent with the requirements of Australian Standard AS4282-1997 Control of the obtrusive effects of outdoor lighting.</p> <p>Should Council approve the proposed development and lighting is erected, the Town can require compliance in this respect.</p>
2.3	The proposed structures size indicates that it would be used for storage of heavy machinery and equipment raising concerns about noise.	<p>Noted. The Outbuilding is proposed in a residential area is being assessed as such. Refer to response at 1.3.</p>
2.4	Aesthetically speaking a large industrial sized shed in a residential area would not align with the beautiful treed and green suburb appeal.	<p>Noted. The development does not propose the removal of any trees on the site.</p> <p>Trees on private property are exempt from requiring development approval to be removed unless a tree preservation order is in place, or the tree is protected via a condition of development approval.</p>
2.5	We will however, support any development that is within the R-codes as specified by the town of Bassendean.	Noted.
2.6	Finally, we would like to say that we have chosen Bassendean Town as our home as the shire is known for environmentally friendly initiatives and green spaces recognition and protection. We would like to have our green and peaceful surroundings preserved rather than big metal structure to look at.	Noted.

8.4 Community Consultation - Draft Point Reserve Landscape Concept Plan	
Property Address	Point Reserve, West Road, Bassendean
Landowner/Applicant	Town of Bassendean Department of Planning, Lands and Heritage / Western Australian Planning Commission
File Reference	PARE/MAINT/8
Author	Nicole Davey
Department	Environment and Sustainability
Previous Reports	23 March 2021
Authority/Discretion	Executive The substantial direction setting and oversight role of the Council.
Attachments	1. Point Reserve Bassendean - Landscape Concept Plan [8.4.1 - 1 page]

Purpose

The purpose of this report is for Council to consider approval of the Draft Point Reserve Landscape Concept Plan, for the purpose of undertaking community consultation.

Background

The Town of Bassendean Corporate Business Plan 2021- 2025 includes an action to develop a plan for the future of Point Reserve, to be completed in 2021/22.

The objectives of the plan are to:

- Undertake river park planning or place-planning to assess the community aspirations for the precinct. This would be from a perspective of how to integrate the future use of the reserve by the community with the restoration of the environmental assets of the site; and
- Apply the Department of Biodiversity, Conservation and Attractions' Best Management Practice for foreshore management to design soft restoration techniques for the foreshore including revegetation, bioengineering and managed retreat for the site

Development of a Landscape Concept Plan for Point Reserve commenced in September 2021, with a contribution of \$32,000 funding received through a 2021 Riverbank Grant.

The extent of the Plan area is shown in Figure 1 and includes Point Reserve (managed by Town of Bassendean) and the adjacent Public Open Space managed by the Department of Planning, Lands and Heritage. The total area is approximately 4 hectares, extending 400 linear metres along the shoreline.

The foreshore areas to the north and south of the project extent are reserved for Parks and Recreation under the Metropolitan Region Scheme, however the majority remains under private ownership. The Town is advocating to the State Government to progress with acquisition of the foreshore reserve, with particular value identified in establishment of a continuous foreshore linkage between Point Reserve and Guildford Road Bridge to the north.

Figure 1. Land management of extent of Draft Foreshore Landscape Concept Plan.

The following milestones have been completed to inform the development of the Draft Landscape Concept Plan:

- **River value desktop and field report:** A desktop assessment and field visit was undertaken to identify the reserve's values (environmental, social, historical) and opportunities and limitations for the site. The field visit was attended by stakeholders including Department of Planning, Lands and Heritage and Department of Biodiversity, Conservation and Attractions.

- **School workshop:** 44 Year 6 River Rangers from Bassendean Primary School attended a workshop on site. They were provided stories about the natural environment and historical and Aboriginal heritage values of Point Reserve, and were then asked to draw their “one big idea”. An initial draft Concept was developed based on the students’ ideas.
- **Councillor visioning workshop:** Councillors attended a site meeting to provide general feedback on the initial draft Concept. Agreement was reached on the importance of maintaining the natural values of Point Reserve.
- **External stakeholder feedback:** Feedback was sought from the Department of Planning, Lands and Heritage and Department of Biodiversity, Conservation and Attractions on the initial Draft Concept.

Based on the Councillor and external stakeholder feedback received, minor updates were made to the initial Draft Landscape Concept Plan and it is now at a stage where broader community input is required.

Proposal

The development of ideas for the future for Point Reserve has been guided by the local site conditions and the need to create a place that is resilient to the effects of the river – something that gives it room to move and yet is able to be enjoyed by the local community. Conversations with the local community have also pointed to the desire for a place to connect with nature and provide simple recreational opportunities.

The plan therefore seeks to fulfil the community’s desire for restoration, reflection, relationships and resilience.

Restoration of the local ecosystem through:

- Use of endemic flora and restoration of tidal wetlands
- Replanting of endemic trees including *Eucalyptus rudis* (Flooded Gum), *Melaleuca raphiophylla* (Freshwater Paperbark) and *Casuarina obesa* (Western Swamp Sheoak)
- Creation of habitat for endemic fauna which also helps to manage mosquitoes

Reflecting on the past to inform the future by:

- Recognising the level of incursion of the river that occurs quite frequently
- Finding opportunities to infuse design with reference to history including through signage and materials
- Reconnecting the community with the environment to support future stewardship

Enhancing relationships for people and this place through:

- Supporting relationships within the community through creating spaces where people will meet
- Providing an opportunity to be amongst and interact with the environment
- Offering opportunities for education about the ecosystem
- Ensuring retention of lines of sight to connect with other landscapes and enhance community safety

Creating a resilient future by:

- Amelioration of flooding through riparian planting
- Addressing urban heat through provision of shade trees and structures
- Reducing maintenance needs and ensuring infrastructure is appropriate to site conditions.
- Ensuring the health of the ecosystem into the future

Communication and Engagement

Targeted consultation will be undertaken with Traditional Owners, other Aboriginal people who can demonstrate relevant cultural knowledge and immediate neighbouring property owners. This will involve individual contact and an invitation to attend meetings on site to discuss what is proposed and provide feedback.

The broader community will be invited to share their views by completing a consultation survey. This will be promoted as an online survey, with printed copies available as required.

The community survey will be open for a minimum of four weeks and will be promoted through the following methods:

- A mailout to property owners and occupants within a 400m radius (5 minute walk) of the entrance to the reserve
- Promoted to local environmental groups and Community Action Networks
- Stall at the Bassendean Markets and promotion at any Town-organised events/ workshops
- Posters and printed survey response forms available in the Library and Customer Service
- Minimum A2 size signage with QR codes installed on site to inform park and river users, and on noticeboards at the Administration Building and Library
- Promotion on the Town's website, social media and e-Thrive.

Strategic Implications

Priority Area 1: Strengthening and Connecting our Community

1.5 Supporting healthy lifestyles throughout our Town

Priority Area 2: Leading Environmental Sustainability

- 2.4 Conserve, protect and enhance our natural environment and biodiversity
- 2.5 Value and conserve and protect our water resources and waterways
- 2.6 Support the creation of a more green and shaded Town

Comment

The Draft Landscape Concept Plan aims to balance the requirement to protect and enhance the natural values of Point Reserve and its location on the Swan River foreshore, while providing recreational spaces for the community to enjoy.

In developing the Draft Plan, key consideration has been given to the limitations, strengths and opportunities of the site, as well as its natural, social, historical and cultural heritage values. The location of the lower area of Point Reserve within the Swan River floodway/ flood fringe is a key consideration when considering future upgrades.

The Draft Landscape Concept Plan includes the following elements relating to access, recreation spaces, built structures and environmental enhancement:

- Providing a pathway/boardwalk from the lower car park to the foreshore as well as a circuit – material appropriate to withstand inundation, with boardwalks over lowest points to be accessible during moderately wet times
- Smaller loop path for children to use bikes/ scooters
- Construction of a boardwalk horizontally along the foreshore for fishing and swimming
- Riparian planting between the foreshore and the path, wetland planting in low-lying areas and some reduction of grassed areas (and mowing needs) by adding vegetation around mature trees
- Increased shade through additional tree planting
- Relocation of the lower car park to the current location of amenities and installation of new BBQ, shelters and seating, and nature play area to improve connectivity between amenities and foreshore. Installation of tree pits (drainage) in car park and reduction in car bay numbers
- Stabilising sections of foreshore with vegetation. This is likely to include rock in areas with visible erosion (around a few of the trees). May also need some sand nourishment
- Creation of places for local animals and connections for people including a bird hide at the southern end, small timber deck as a meditation/ reflection space, area for group yoga/ exercises, bat and bird boxes and insect hotels
- Retention of existing beach access points
- Planting along northern and western fence lines adjacent private property
- Maintenance of private property pedestrian access to reserve along western boundary
- Installation of electricity points (for temporary community activities)
- Lighting to only be around car park and amenities and at low levels

- Celebration of Noongar stories through art and interpretation
- Educational signage

The purpose of the community consultation is to identify the views of the community and their level of support for each element of the Draft Landscape Foreshore Plan. It will also seek to understand how the community currently uses the reserve, and whether they support a proposal to rehome the geese that frequently visit the location.

Following closure of the public consultation period, the results will be collated and an assessment undertaken to determine required amendments to the Landscape Concept Plan. This will be summarised in a brief report.

The final Landscape Concept Plan will be presented to Council for endorsement, alongside the consultation report and an updated Project Plan Summary. The Project Plan Summary will include a preliminary itemised cost estimate for implementation and identify the next steps involved with detailed design, approvals and staged implementation.

Statutory Requirements

Any ground disturbing works impacting on Aboriginal Heritage Sites (including the Swan River and Helena River confluence) requires approval under the *Aboriginal Heritage Act 1972 (WA)*. This requires prior consultation to be undertaken with:

- determined native title holders
- registered native title claimants
- persons named as informants on Aboriginal site recording forms held in the Register at DPLH and
- any other Aboriginal people who can demonstrate relevant cultural knowledge in a particular area.

Under the *Swan and Canning Rivers Management Act 2006 (WA)*, the Department of Biodiversity, Conservation and Attractions has an overall planning, protection and management responsibility for the Swan Canning Development Control Area (DCA). Point Reserve is located within the DCA, and any future works require approval of DBCA and must be consistent with their policies. The Department has recently released a Draft Policy; *Planning for Localities along the Swan Canning Development Control Area* and Locality Plan for the Lower Swan, which includes the Point Reserve area. The Draft Landscape Concept Plan is consistent with these documents, and DBCA as a key stakeholder has been consulted throughout the Foreshore Concept Plan development.

Under the *Jetties Act 1926 (WA)*, the Department of Transport is responsible for issuing jetty licences, which will be a requirement for the new feature boardwalk/ jetty structure proposed in the Draft Landscape Concept Plan. Consultation with

Department of Transport will be undertaken at detailed design stage, subject to inclusion of a feature boardwalk/ jetty in the Final Landscape Concept Plan.

Financial Considerations

The cost of community engagement will involve printing, sign design and supply and fees associated with Traditional Owner consultation. Sufficient funds are allocated in the 2021/22 Environmental Operating budget for these items.

Risk Management Implications

Low. The following key climate risks based on the climate projections for Perth have been considered in development of the Draft Landscape Concept Plan.

Climate change variable	Risk statement	Controls
Higher sea levels and more frequent sea level extremes	Salt water intrusion resulting in loss / change to shoreline/ riparian vegetation	Select salt tolerant species for new planting in low lying areas
	Permanent/ more frequent inundation of low-lying foreshore areas impacting infrastructure and reducing access to POS	New infrastructure in susceptible areas designed to withstand inundation

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.4

That Council approves the Draft Point Reserve Landscape Concept Plan for the purpose of undertaking community consultation.

Voting requirements: Simple Majority

Legend

- New native tree and shrub plantings (weed removal)
- Wetland & riparian plantings (to low points)
- Flood plain revegetation (over former turf)
- Riparian foreshore revegetation (over former turf)
- Proposed Concrete Share Path (2.2m wide)
- Existing entry road with reconfigured car park
- Existing trees to be retained (subject to Arborist Report)
- Proposed native floodplain tree plantings

Attachments	<ol style="list-style-type: none"> 1. Draft Local Planning Policy - Sustainable Development (as advertised) [8.5.1 - 5 pages] 2. Draft Local Planning Policy - Sustainable Development (amended following public consultation - with tracked changes) [8.5.2 - 5 pages] 3. Existing Local Planning Policy No. 2 - Energy Efficient Design [8.5.3 - 20 pages] 4. Existing Local Planning Policy No. 3 - Water Sensitive Design [8.5.4 - 12 pages] 5. Sustainable Development Information Sheet [8.5.5 - 16 pages] 6. Schedule of Submissions [8.5.6 - 6 pages]

Purpose

The purpose of this report is for Council to consider finally adopting draft Local Planning Policy – Sustainable Development. The draft Policy is intended to replace existing Local Planning Policy 2 – Energy Efficient Design (LPP 2) and Local Planning Policy No. 3 – Water Sensitive Design Policy (LPP 3).

Background

On 22 March 2022, Council resolved to advertise the draft Local Planning Policy – Sustainable Development.

Communication and Engagement

Following Council's resolution on the matter, the draft Local Planning Policy – Sustainable Development was advertised for public comment in the following manner:

- Advertised on the Town's website for a period of 24 days, being from 23 March 2022 to 15 April 2022;

- Promoted via the Town's social media platforms; and
- Direct referral to the Housing Institute of Australia, the Urban Development Institute of Australia and the Planning Institute of Australia.

As part of the engagement process, the Town specifically asked for comments and feedback on the application of the policy to all residential zoned land within the district (as opposed to it being limited to lots with a split residential density coding).

At the close of the public consultation period, 11 submissions were received; eight in support (including the provision to apply the draft to all residential development) and three objecting to the application of the policy to all residential zoned land. No response was received from industry bodies.

A copy of the Schedule of Submissions is attached.

Strategic Implications

Priority Area 2: Leading Environmental Sustainability

2.2 Be innovative in responses to sustainability challenges

2.3 Foster an empowered community that drives sustainability

Comment

Major Amendment - Application of the Local Planning Policy

The current LPP 2 applies only where development is proposed at the medium or higher density code on split coded land, and therefore does not apply to development on single coded land. As part of its previous consideration of the matter, Council resolved to amend the draft policy so to apply to all residential zoned land.

During the consultation period, the submissions received were generally supportive (eight out of 11 submissions) to the policy being applied to all residential zoned land.

In considering the matter, the following is relevant:

- Whilst the support is acknowledged, the Town is conscious that the small number of submissions may not be representative of broader views. Further, submissions were received from existing residents, whilst the application of the policy will predominantly apply to new residential development and therefore future residents.
- While the rationale for expanding the application of the policy to all residential development is acknowledged, it is considered more appropriate to require the broad application of sustainability principles via State Planning Policy 7.3 – Residential Design Codes given its Statewide application to the assessment

and determination of single houses. The Town can advocate for amendments to the R-Codes in this respect as future reviews occur.

- There is a generally accepted quid pro quo between obtaining the benefit of developing to the higher density code and the need to ensure development achieves a higher standard of sustainable design. This relationship does not exist where development is in accordance with the singular coding of land;
- The estimated cost of compliance with policy measures is \$13,000. Whilst not considered significant, this is an additional cost to developing within the Town that does not otherwise exist and could be a disincentive to developing vacant lots. This was reinforced through the comments and objections received;
- Disincentivising development of vacant land may run contrary to Council's previous decision to impose differential rates on vacant land;
- Future changes to the State planning framework (including the release of the medium density codes in the latter part of 2022) are likely to introduce requirements related to sustainable design for all single houses; and
- Rather than expand the application of the policy to all residential development, it is possible to instead provide information on the Town's website to encourage and educate applicants to include sustainable design elements in future developments that are not otherwise required to comply with the policy provisions. A copy of the draft Information Sheet in this respect is attached.

Based on the above, it is recommended that the draft (advertised) policy be amended to apply only to split coded land, where the development is seeking to enact upon the medium or higher density code.

Minor Amendments

As a result of comments received during the submission process, it is recommended that a number of minor amendments are made to the draft policy. These changes provide greater clarity on the application of the policy, achieving compliance with the policy, and the format of the policy, as below.

- *Section 4 – Application* has been updated to provide further clarification that the policy does not apply to minor alterations/additions that do not otherwise impact the energy efficiency of an existing dwelling.
- *Attachment A: Sustainable Development Policy Credit Point Checklist* has been updated as follows:
 - The including of subheadings to group design elements, being Planning and Orientation, Sustainability Features, and Landscaping and Water Use; and
 - The explanatory note for Design Element 3 has been updated to provide clarification on what an acceptable sized window is for a south facing bedroom window.

Given the proposed amendments responded to in matters raised during the submission period, it is considered that no further consultation is required.

Conclusion

Adoption of draft Local Planning Policy – Sustainable Development, as recommended by the Town, will result in a simplified, yet comprehensive local planning policy that clearly sets out the Town’s standards and expectations for development on land designated within a split residential density code under LPS 10 and where development seeks approval at the middle or higher coding. It is therefore recommended that Council adopt the new policy and revokes the existing Local Planning Policies 2 and 3.

Statutory Requirements

The *Planning and Development (Local Planning Schemes) Regulations 2015* outline the procedure that the local government must follow after the consultation period which is to:

“(a) Review the proposed policy in light of any submissions made; and

(b) resolve to:

- (i) proceed with the policy without modification; or*
- (ii) proceed with the policy with modification; or*
- (iii) not proceed with the policy.”*

If Council proceeds with the policy, the local government is required to publish the policy on its website.

Financial Considerations

Nil.

Risk Management Implications

Should Council not adopt the draft policy, the Town will revert back to the existing policies, the provisions of which are either obsolete or do not provide for an improved standard of sustainable development.

There is potential reputational risk associated with adopting a policy that seeks to apply requirements, and the resultant cost burden, to single dwelling proposals on land with a single residential code (that would otherwise not be subject to the requirements and costs).

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.5

That Council:

1. Pursuant to Clause 4(3) of Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, adopts draft Local Planning Policy - Sustainable Development (as amended following advertising) as contained in the attachment; and
2. Pursuant to Clause 6 of Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, revokes Local Planning Policy No. 2 – Energy Efficient Design and Local Planning Policy 3 – Water Sensitive Design Policy.

Voting requirements:

Part 1: Simple Majority

Part 2: Absolute Majority

Policy Number: **Local Planning Policy No x**
Policy Title: **Sustainable Development**

1. Citation

This is a Local Planning Policy prepared under Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015*. This Policy may be cited as Local Planning Policy No. x – Sustainable Development.

2. Policy Statement

The Town recognises the increasing importance of sustainable development and its benefits including reduced greenhouse gas emissions, reduced utility bills and an increased natural comfort level for occupants. Simple yet effective measures can be implemented to minimise energy and water use, enabling the Town to create a more sustainable future.

3. Policy Objectives

- (a) To enact Clause 4.3.1.2 of Local Planning Scheme No. 10 (LPS 10), which relates to development of land designated with a split residential density code on the scheme map.
- (b) To clearly outline the criteria and design standards for the sustainable design of residential development; providing a framework for assessing whether residential developments have adopted sustainable design principles.
- (c) To encourage and facilitate sustainable built form development throughout the district.

4. Application

This policy applies to applications for single houses, grouped dwellings and multiple dwellings (up to and including R35 only) but not to applications for multiple dwellings in areas coded R40 and above, which will be assessed against State Planning Policy 7.3 – Residential Design Codes – Volume 2 – Apartments.

Section 6.1 of the Policy only applies to applications for development approval for land that is designated with a split residential density code under LPS 10 and seeks approval at the middle or higher residential coding.

5. Definitions

NatHERS: *the Nationwide House Energy Rating Scheme which measures a home's energy efficiency to generate a star rating. It is one option to demonstrate compliance with the minimum energy efficiency standards for new buildings outlined in the Building Code of Australia. For further information, see www.nathers.gov.au*

Rain Garden: *a garden comprising native shrubs, perennials and flowers planted in a small depression to filter and treat stormwater runoff.*

6. Policy Requirements

6.1 Split Density Coded Sites

6.1.1 New Dwellings

Each new dwelling shall achieve a minimum 70 efficiency points as assessed against the checklist contained as Attachment A, or alternatively, comply with all of the following requirements:

- (a) Each individual dwelling shall demonstrate a NatHERS star rating (or other comparable star rating measurement tool which is accredited by the National Construction Code / Building Code of Australia) which is one star in excess of the current energy efficiency requirement of the Building Code of Australia specified for a class 1A building.
- (b) The NatHERS (or other accredited equivalent) star rating for the dwelling shall be certified by a NatHERS (or other accredited equivalent) energy assessor using the NatHERS (or other accredited equivalent) software and shall be provided as part of the application for development approval.
- (c) A rain garden with an area no less than 2% of the roof cover. For example, a dwelling with 100m² of roof cover will require a rain garden of at least 2m².

6.1.2 Retained Dwellings

Where an existing dwelling is proposed to be retained as part of a development, the retained dwelling must be upgraded to incorporate all of the following sustainable elements:

- (a) A minimum 3kw photovoltaic solar panel system; and
- (b) A minimum 3,000L capacity rainwater tank that is plumbed to either a toilet or laundry within the dwelling; or alternatively an approved grey-water reuse system that collects grey water from the laundry and bathrooms and re-directs it for garden irrigation / ground water recharge; and
- (c) Installation of electric vehicle charging points (3-phase power) or the capacity for electric vehicle charging points to be installed at a later time; and
- (d) A rain garden with an area no less than 2% of the roof cover. For example, a dwelling with 100m² of roof cover will require a rain garden of at least 2m².

6.2 All Development

- (a) Each dwelling shall be provided with a minimum 3kw photovoltaic solar panel system.
- (b) Each dwelling shall be provided with a minimum 3,000L capacity rainwater tank that is plumbed to either a toilet or laundry within the dwelling; or alternatively an approved grey-water reuse system that collects grey water from the laundry and bathrooms and re-directs it for garden irrigation / ground water recharge.
- (c) Installation of electric vehicle charging points (3-phase power) or the capacity for electric vehicle charging points to be installed at a later time.
- (d) Roof structures are to have the following maximum solar absorptance ratings:
 - (i) Flat roof structures that are not visible from the street or adjacent properties – 0.4.
 - (ii) Pitched roof structures or roof structures that are visible from the street or adjacent properties – 0.5, unless otherwise required by Local Planning Policy – Heritage and Character, a Conservation Management Plan and/or a Heritage Assessment.

Attachment A: Sustainable Development Policy Credit Point Checklist

Proposed Development: _____

Address: _____

	Design Element	Credit Point Available	Credit Points Claimed	Comments
1.	Orientation - longest axis east west.	10		
	<i>Orientation of dwelling excluding garage and any associated storage area.</i>			
2.	North facing courtyard (or balcony for upper floor apartments), and main living areas.	12.5		
	Windows to living areas occupying a min 50% of the north facing wall.	12.5		
	<i>A roof overhang is to be provided beyond the main living area windows which is of a sufficient depth to provide shading to these openings during summer but which does not project to an extent so as to unreasonably block direct solar access during the winter months (e.g. for full height sliding doors, solid roofing is not to extend more than 2.4m beyond the sliding doors).</i>			
3.	Windows to bedrooms minimised in area and south facing. One bedroom window is permitted to face north.	15		
	<i>The available points are apportioned between the number of bedrooms that are contained within each respective dwelling. For example, a 3 bedroom dwelling which incorporates two bedrooms each with south facing windows (minimised in area) and a third bedroom with a window facing east or west would achieve a score of 10 points.</i>			
4.	Eastern and western walls are either blank or only have openings to non-habitable utility rooms.	10 (east) 10 (west)		
	<i>It is acknowledged that windows may need to be located on eastern or western facing walls for the purpose of cross ventilation. Where a secondary window to a habitable room is located on an eastern or western wall and is kept beneath 1 square metre in area, points will not be deducted for such windows.</i>			
	<i>Where the only window to a habitable room is located on an eastern or western facing wall, 5 points will be deducted for each opening, irrespective of size.</i>			
	<i>Where a patio or verandah roof projects a minimum of 3m beyond an east or west facing opening to a habitable room, points will not be deducted in relation to that opening.</i>			

5.	60% of all habitable rooms shall be cross ventilated through the provision of windows on walls that have opposing orientations. (i.e. a bedroom with a south facing window and a secondary window of under 1 square metre on a western or eastern facing wall)	10		
<i>Part credit points are not allocated for this criterion.</i> <i>An open plan living / dining / kitchen area is treated as one room.</i>				
6.	The provision of either a solar pergola or solar hot water heating system or photovoltaic solar panel system.	15		
<i>Where a solar pergola is to be provided, it is to be positioned to the northern side of the main windows of the main living area of the dwelling and the louvres are to be fixed and positioned at 34 degrees to north.</i>				
7.	Landscaping design and plant selection to demonstrate compliance with low water use gardening principals.	5		
<i>A landscape plan is to be prepared by a relevant industry professional and is to be submitted in conjunction with the application for development approval.</i>

Policy Number: **Local Planning Policy No x**
Policy Title: **Sustainable Development**

1. Citation

This is a Local Planning Policy prepared under Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015*. This Policy may be cited as Local Planning Policy No. x – Sustainable Development.

2. Policy Statement

The Town recognises the increasing importance of sustainable development and its benefits including reduced greenhouse gas emissions, reduced utility bills and an increased natural comfort level for occupants.

Simple yet effective measures can be implemented to minimise energy and water use, enabling the Town to create a more sustainable future.

3. Policy Objectives

- (a) To enact Clause 4.3.1.2 of Local Planning Scheme No. 10 (LPS 10), which relates to development of land designated with a split residential density code on the scheme map.
- (b) To clearly outline the criteria and design standards for the sustainable design of residential development; providing a framework for assessing whether residential developments have adopted sustainable design principles.
- (c) To encourage and facilitate sustainable built form development throughout the district.

4. Application

This policy applies to applications for development approval for land that is designated with a split residential density code under Local Planning Scheme No. 10 (LPS 10), and seeks approval at the middle or higher residential coding.

~~This policy~~ It applies to applications for single houses, grouped dwellings and multiple dwellings (up to an including R35 only) but not to applications for multiple dwellings in areas coded R40 and above, which will be assessed against State Planning Policy 7.3 – Residential Design Codes – Volume 2 – Apartments.

~~Section 6.1 of the Policy only applies to those applications for development approval for land that is designated with a split residential density code under LPS 10 and seeks approval at the middle or higher residential coding.~~

~~Section 6.2 of the Policy applies to all applications for development approval that involve the construction of new dwellings.~~

Minor alterations/additions that do not impact the energy efficiency of an existing dwelling are exempt from the provisions of this policy.

5. Definitions

NatHERS: *the Nationwide House Energy Rating Scheme which measures a home's energy efficiency to generate a star rating. It is one option to demonstrate compliance with the minimum energy efficiency standards for new buildings outlined in the Building Code of Australia. For further information, see www.nathers.gov.au*

Rain Garden: *a garden comprising native shrubs, perennials and flowers planted in a small depression to filter and treat stormwater runoff.*

6. Policy Requirements

6.1 ~~Split Density Coded Sites New Dwellings~~

6.1.1 ~~New Dwellings~~ Each new dwelling shall achieve a minimum 70 efficiency points as assessed against the checklist contained as Attachment A, or alternatively, comply with all of the following requirements:

- (a) Each individual dwelling shall demonstrate a NatHERS star rating (or other comparable star rating measurement tool which is accredited by the National Construction Code / Building Code of Australia) which is one star in excess of the current energy efficiency requirement of the Building Code of Australia specified for a class 1A building.
- (b) The NatHERS (or other accredited equivalent) star rating for the dwelling shall be certified by a NatHERS (or other accredited equivalent) energy assessor using the NatHERS (or other accredited equivalent) software and shall be provided as part of the application for development approval.
- (c) ~~Each dwelling shall be provided with a minimum 3kw photovoltaic solar panel system.~~
- (d) ~~Each dwelling shall be provided with a minimum 3,000L capacity rainwater tank that is plumbed to either a toilet or laundry within the dwelling; or alternatively an approved grey-water reuse system that collects grey water from the laundry and bathrooms and re-directs it for garden irrigation / ground water recharge.~~
- (e) ~~Installation of electric vehicle charging points (3-phase power) or the capacity for electric vehicle charging points to be installed at a later time.~~
- (f) ~~A rain garden with an area no less than 2% of the roof cover. For example, a dwelling with 100m² of roof cover will require a rain garden of at least 2m².~~

6.1.2 ~~Roof structures are to have the following maximum solar absorptance ratings:~~

- i. ~~Flat roof structures that are not visible from the street or adjacent properties – 0.4.~~
- ii. ~~Pitched roof structures or roof structures that are visible from the street or adjacent properties – 0.6, unless otherwise required by Local Planning Policy – Heritage and Character, a Conservation Management Plan and/or a Heritage Assessment.~~

6.1.2 6.2 Retained Dwellings

Where an existing dwelling is proposed to be retained as part of a development, the retained dwelling must be upgraded to incorporate all of the following sustainable elements:

- (a) A minimum 3kw photovoltaic solar panel system; and
- (b) A minimum 3,000L capacity rainwater tank that is plumbed to either a toilet or laundry within the dwelling; or alternatively an approved grey-water reuse system that collects grey water from the laundry and bathrooms and re-directs it for garden irrigation / ground water recharge; and
- (c) Installation of electric vehicle charging points (3-phase power) or the capacity for electric vehicle charging points to be installed at a later time; and
- (d) A rain garden with an area no less than 2% of the roof cover. For example, a dwelling with 100m² of roof cover will require a rain garden of at least 2m².

6.2 New Dwellings (single and split density coding sites)

~~Each new dwelling shall comply with all of the following requirements:~~

- ~~(a) Each dwelling shall be provided with a minimum 3kw photovoltaic solar panel system; and~~
- ~~(b) Each dwelling shall be provided with a minimum 3,000L capacity rainwater tank that is plumbed to either a toilet or laundry within the dwelling; or alternatively an approved grey-water reuse system that collects grey water from the laundry and bathrooms and re-directs it for garden irrigation / ground water recharge; and~~
- ~~(c) Installation of electric vehicle charging points (3-phase power) or the capacity for electric vehicle charging points to be installed at a later time; and~~
- ~~(d) Roof structures are to have the following maximum solar absorptance ratings:
 - ~~(i) Flat roof structures that are not visible from the street or adjacent properties — 0.4.~~
 - ~~(ii) Pitched roof structures or roof structures that are visible from the street or adjacent properties — 0.5, unless otherwise required by Local Planning Policy — Heritage and Character, a Conservation Management Plan and/or a Heritage Assessment.~~~~

LOCAL PLANNING SCHEME NO. 10

LOCAL PLANNING POLICY NO. 2 - ENERGY EFFICIENT DESIGN

1.0 OPERATION OF THIS PLANNING POLICY

- (a) This planning policy has been prepared in accordance with Part 2 of the Town Planning Amendment Regulations 1999.
- (b) This policy does not bind the Council in respect of any application for planning approval but the Council will have due regard to the provision of the policy and the objectives which the policy is designed to achieve before making its determination.
- (c) If a provision in this policy is inconsistent with the:
 - (i) Building Code of Australia, then the higher provision shall prevail.
 - (ii) Residential Design Codes this Policy shall prevail in respect of Development at the higher density.
- (d) This policy applies only to split density coded land as designated on the gazetted Scheme map.
- (e) This policy may also be used by landowners wishing to construct energy efficient dwellings.

2.0 PURPOSE OF THIS POLICY

The purpose of this policy is to:

1. Clearly outline the criteria Council regards as having energy efficient benefits in the design of residential dwellings.
2. To provide a basis to encourage those building Residential Dwellings in Bassendean to design energy efficient building(s).
3. State the design standards Council will have regard to when considering higher densities on land zoned with split density code under its Town Planning Scheme.

3.0 APPLICATION OF THE POLICY

This policy shall be applicable where to all land where split density codes prevail and the application for the highest density code is being considered by Council.

4.0 BACKGROUND

4.1 Energy Efficient Design Principals

There are several advantages to living in an energy efficient home – saving money on energy costs being the most obvious. Other benefits include reducing the impact on the environment through the decreased use of fossil fuels, the increased comfort of effective natural lighting and ventilation and the improved resale value of dwellings due to lower power bills they create.

The principal means to ensure energy efficiency is to design dwellings to suit the local climate. By taking advantage of free natural warmth from the winter sun and cooling from breezes, it will reduce the costly use of fossil fuel energy for heating and cooling. Careful building design can easily achieve internal temperatures 5°C warmer in winter and 10°C degrees cooler in summer than in typical, poorly designed homes in the southwest.

Any style of home can be designed for energy efficiency, to ensure savings on future energy costs, and to assist the environment. The main features of energy efficient housing relate to:

- Building orientation
- Internal room layout
- Window placement, sizing and shading
- Use of insulation
- Ventilation
- Draught proofing
- Use of heat absorbing building materials
- Landscaping
- Use of energy efficient appliances.

Most features such as improved layout, appropriate window placement and sensible garden design, will make little difference to initial building cost. Although insulating a house will add initially to construction costs, the savings in energy and carbon emissions will make for a positive return over the life of the building. It would be false economy to do otherwise.

4.2 Project Homes –vs- Individual Designs

While it is easier to incorporate energy efficiency features if dwellings are designed specifically to a particular lot of land, Council recognises that this could significantly add to the cost of construction. However, in some cases this is unavoidable and economic cost does not justify a relaxation of this policy where higher density codes are being sought by applicants.

Nevertheless there are excellent opportunities to meet basic energy efficient principals even with a standard project house. There are many standard house designs available which would allow good energy efficiency, provided they are built facing the right direction. A minor modifications such as moving or reducing the size of windows or relocating the carport, along with good insulation, may be all that's needed to reduce unnecessary and expensive energy use and act to noticeably create increased internal comfort levels.

5.0 POLICY PROVISIONS

5.1 Orientation

One of the major principles of energy efficient building design is to allow the sun's heat into a building in winter while excluding it during the long hot days of summer. This can be achieved because the angle of the sun changes from season to season.

In summer the sun rises earlier, south of due east and climbs high in the sky before setting south of due west. Major summer heat gain occurs through the roof and through the east and west windows and walls of the home. In winter the sun rises later, north of due east and stays low in the northern sky before setting north of due west. North facing windows and walls receive maximum winter sun and warmth.

The Sun's Movement during summer (Dec)

Legend:

	Horizontal Rise /Set Angle (A)	Noon Altitude (B)
Perth	28.5° south	80.7°

The Sun's Movement during winter (Jun)

Legend:

	Horizontal Rise/ Set Angle (A)	Noon Altitude (B)
Perth	27.8° south	34.2°

For residential development, it is recommended that land which permits the living areas of the dwelling to face north, be free of obstructions such as buildings or evergreen trees on this side of the home. Orientation is the key factor in achieving energy efficient design. While items such as pergolas, shutters and insulation can often be retro-fitted at a relatively low cost, the orientation of a building is often set in 'concrete' and if poorly orientated it is virtually impossible to correct.

Objects cast a shadow southwards approximately twice their height in mid-winter, and it is therefore essential that sufficient allowance is made between tall objects and the north side of a dwelling to ensure that winter solar access is maintained.

The ideal lot layout is one with the rear courtyard/garden facing north.

However, there are a number of ways of varying the design of a house and its interior layout to optimise solar orientation.

To achieve the design goal of optimal energy efficiency, an effective rule of thumb for a house in the southwest is to have north and south facing walls 1.5 to 2.0 times the length of east and west facing walls. This allows reasonable access to the winter sun from the north of the home, while reducing the exposure of walls and windows to early morning and late afternoon sun on the east and west sides of the home.

True north is the ideal orientation for windows. However, if the eaves are designed correctly, windows oriented between approximately 20° east or west of north still allow good solar penetration in winter while excluding most of the direct summer sun.

5.2 Internal Room Layout

Indoor living and entertaining areas should be oriented on the north side of the home where possible, with other rooms to the south. This will create warm and bright living areas in winter since north facing windows and walls receive maximum winter sun. The south side of a house receives a small amount of direct sun in summer, and therefore by locating bedrooms to the south, will be more comfortable for sleeping in summer.

Council Policy

Rooms should be grouped with similar uses together to create zones and doors be used to separate these zones. This type of design is more energy efficient than open plan living because you can close off rooms which are cooled or heated from those that are not.

It is recommended that the kitchen, laundry and bathrooms be grouped together in order to minimise the need for long hot water pipes. This will reduce the amount of heat lost from the pipes.

5.3 Windows and Shading

Appropriate window placement, sizing and shading are key elements to energy efficient design. Windows can act as solar collectors trapping heat from the sun, which is useful in winter but not in summer. They ventilate during summer, funnelling cool late afternoon and night time breezes to remove heat accumulated during the day and are an important source of light.

A balance needs to be struck between controlling the sun's access and allowing adequate cross ventilation from breezes, as well as allowing natural light to enter.

5.4 North Facing Windows

It is recommended that around a third to a half of the north face of the dwelling be glass, as it is very effective at trapping winter warmth and can be easily shaded from summer sun with correctly designed eaves.

To calculate the overhang needed, multiply the distance from the eaves-line down to the bottom of the window by 0.7. This will ensure the glass is adequately shaded from September until March. For cooler regions, multiplying by 0.4 will provide suitable shade from October until February.

Deciduous trees and shrubs or creepers growing on an open pergola on the north face of a home can also provide window shading in summer, while allowing the sun through to warm your home once they've lost their leaves in winter. Alternatively, a solar pergola is designed to achieve the same result.

It is important that shading devices, whether in the form of eaves, pergolas or appropriate landscaping, do not block the sun's access to the interior of your home during winter.

5.5 East and West Facing Windows

East and west facing windows can provide unwanted solar heat gain during the summer months and therefore, if excessive, can contribute significantly to an inefficient house design.

To minimise heat gain during the summer months, a house should be designed with the majority of rooms facing either east or west being non habitable i.e. either laundries or garages etc and that the areas of windows are kept to the absolute minimum.

External shading devices provide some protection from the summer sun, with complete protection achieved only with full vertical screening, such as outside blinds or shutters. This is due to the fact that the angle of sun will be close to horizontal early in the morning (east) and in the late afternoon (west), and only vertical screening can block the sun at these angles. Deciduous trees or vines growing on a trellis can also provide shading during summer.

5.6 South Facing Windows

South facing windows receive no direct sun in winter but will receive a few hours of morning and afternoon sun in summer months. For this reason, they lose heat in winter and gain some undesirable heat in summer. South facing windows should be large enough to allow good ventilation and light to enter the home without losing too much heat in winter.

Vertical elements such as external screening or landscaping in conjunction with internal blinds will be most effective at shading south facing windows, since the majority of this sun is at low angle. Basic 'eaves overhang' in combination with internal window treatments will also assist solar control to south facing windows. In mid summer the sun can fall on an unshaded southern façade for approximately 4 hours in the morning and 4 hours again in the afternoon. For the more northerly latitudes (eg, Geraldton) provision of shading to south facing windows is even more important. This is because at this latitude there can be an additional 45 minutes of mid summer sun falling on the south face of a building, morning and afternoon.

5.7 Internal Window Treatments

While external window treatments are the best way to reduce summer heat gain, internal window treatments are most important for reducing winter heat loss. A window can lose heat five to ten times faster than an equivalent area of wall. This heat loss can be minimised by keeping warm air inside the room away from cold windows.

Closed curtains can be effective insulators and should be made from a heavy fabric with insulating backing for maximum effectiveness. They need to be long enough to reach the floor and should include a closed pelmet. The pelmet is an integral part of the curtain as it reduces air circulation and consequent heat loss through the window glass during winter and heat leakage into the home during summer when the curtains are drawn.

5.8 Skylights

Skylights can reduce your daytime lighting needs. However, a typical Perth home consumes approximately six times as much energy for heating and cooling than for lighting, and heat can be lost from your home through skylights on winter nights and gained during hot days. To reduce this problem, position your skylight so it is shaded in summer or consider buying one with special glazing that minimises heat transfer and can be closed at night. Non-vented ducted skylights lose less heat in winter, as the air trapped in the duct acts as a thermal buffer.

5.9 Tinted Glass and Reflective Films

Tinted glass and reflective films absorb and reflect heat, keeping your home cooler. However, be aware that using them reduces the amount of light and heat entering rooms in winter as well as in summer. During summer the glass itself becomes hot as it absorbs energy, which will cause some heat to be radiated into the room. These products may be useful where large areas of east and west glazing are unavoidable due to design reasons. However, tints and films will generally not reduce heat gain as much as external shading.

5.10 Double glazing

Two panes of glass separated by at least 10 mm can reduce winter heat loss but is generally only cost effective in situations with high heating requirements. Double glazing can also reduce conductive summer heat gain. However, when exposed to sun double glazed windows will still allow significant heat transfer, which means that full shading is still required.

5.11 Other window products

Windows are also available with other features, such as special coatings on the glass, which can offer improvements in thermal performance.

Insulation acts as a barrier to heat flow. It can make your home more comfortable by reducing the amount of warmth escaping in winter and reducing the amount of heat entering in summer. By insulating you can significantly reduce your heating and cooling bills and help to reduce greenhouse gas emissions.

In an uninsulated house most heat is lost or gained through the ceiling and roof – this is the most important part of the home to insulate. Insulating external walls can bring further benefits. Sealing air gaps will also help.

Opening and closing windows and window coverings at appropriate times to control air flows and heat transfer will also increase your comfort levels. This is particularly important in summer to prevent your house overheating. If you allow too much direct summer sun into your home through windows then insulation may act to keep the home warmer for a longer period of time.

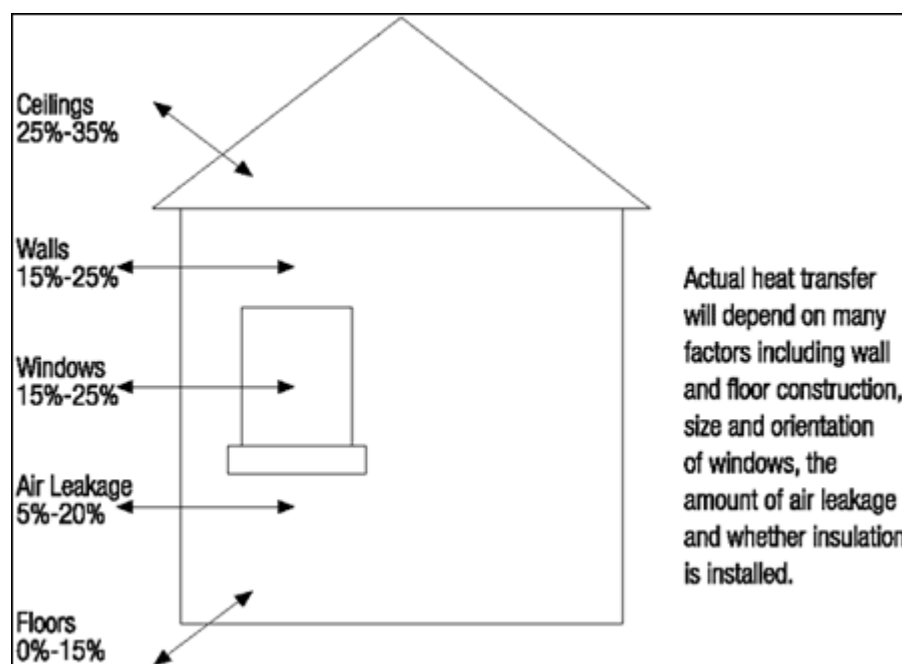

5.12 Insulation Works

The two main types of insulation are bulk insulation and reflective insulation.

Bulk insulation works by trapping small cells or layers of air within the insulating material. Many pockets of still air are very effective at retarding heat transfer.

Reflective insulation works by reflecting significant proportions of light and heat. Some reflective foils can be used both as a vapour barrier and to reduce heat transfer.

Typical Areas of Heat Transfer

5.13 Construction Materials

Building materials make a significant difference to the performance and comfort of dwellings. Dense materials such as brick, stone, concrete and rammed earth heat up and cool down slowly – they have what is called a high ‘thermal mass’. Lightweight materials such as weatherboard and fibre cement allow the home to heat up and cool down quickly. These materials have a low thermal mass.

Thermal mass is simply the ability of a material to store heat. A 200 square metre home in the south west with good solar access to the north needs about 20 cubic metres of concrete and 20 to 30 cubic metres of internal brick or equivalent depending on your location (30 cubic metres for Perth) to adequately store winter daytime warmth and gradually release it at night.

Thermal mass is most beneficial in homes which have good solar access to north facing windows. If solar access is limited, large amounts of thermal mass can increase a dwellings heating requirements during winter.

During summer, thermal mass will act to keep your home cooler during the day, provided the dwelling is ventilated overnight. The aim is to allow the night air to cool down the mass inside your home, resulting in more comfortable conditions the next day.

5.14 Masonry Walls

Double brick walls heat up slowly and stay warm for long periods. This is an advantage during short periods of hot weather, but can make your home uncomfortable over extended hot spells. Insulating double brick walls will add to initial costs, but will help to prevent heat transfer to the interior of the home during summer and help to retain heat during winter.

Brick veneer walls consist of a single external layer of brickwork, with a lined stud frame inside. These walls have less thermal mass than double brick walls and therefore respond more quickly to temperature changes. Homes with brick veneer walls are better at cooling down during extended periods of hot weather – making conditions more comfortable at night during summer. Brick veneer walls are also easier to insulate.

Reverse brick veneer walls have the brickwork inside and lightweight frame and cladding outside. This has the advantage of providing the thermal mass on the inside of your home which will retain any heating used in winter. Conversely the external lightweight cladding (weatherboards etc) will not absorb and store summer heat in the same way as masonry wall are know to do.

With both double brick and brick veneer walls (or any type of wall for that matter), it is important to ventilate your home in summer once the temperature outside becomes cooler than the temperature inside.

Council Policy

This will help cool your home down and make conditions more comfortable. Retained night time coolness achieved through ventilation can also keep your home cooler during the day.

5.15 Lightweight Walls

Weatherboard, fibre cement and other lightweight walls get hot quickly in the sun, but also cool down quickly once shaded and after sunset. During winter, they lose heat far more quickly than brick walls. The thermal performance of lightweight walls will improve significantly with insulation, which is cheaper and easier to install at the building stage.

5.16 Floors

Concrete floors store heat from the sun shining through northern windows in winter and return some of that heat during the evening. Laying dark tiles where the low angle winter sun hits the floor will maximise the absorption of heat to be re-radiated. It is important that this thermal mass is not exposed to direct solar energy during summer, as this can lead to uncomfortably warm internal conditions.

Timber floors do not have the high thermal mass of concrete floors. This means that a home with a timber floor will lose far more heat than one with a concrete floor. For homes on stumps which are open at the sides, it is recommended that insulation be installed to the underside of all exposed floorboards. Another solution is to fully enclose the area between the ground and the floor with a solid material like brick, but this will not be as effective as using insulation. An enclosed space under the floor will also require some permanent ventilation to control subfloor dampness.

5.17 Colour of External Building Materials

As a general rule, light colours tend to reflect the sun's heat while darker colours absorb it. You can take advantage of this fact when selecting the colour of your roof and wall materials. In summer, lighter coloured materials will help to keep your home cooler by reflecting heat from the sun. However if your home is properly insulated, which is a much more effective method of controlling heat transfer, the effect of external building colour on your comfort will be greatly reduced.

5.18 Ventilation

Doors and windows should be positioned to achieve cross ventilation in summer. A larger opening on the leeward side of the home will maximise the airflow through rooms. If this has been allowed for in the design of your home, doors and windows opened late on a summer's day will make use of cooling late afternoon and night time breezes to rid your home of heat accumulated during the day.

5.19 Draught Proofing

Air leaks and draughts can add significantly to your heating and cooling bills by allowing cold air into your home during winter and warm air during summer. You can prevent these unwanted leaks by installing draught excluders on the bottom edge of doors and sealing strips around doors and windows.

These are easy to fit and can be purchased from your local hardware store. When draught proofing you should also check for spaces between walls and skirtings and block off any unused fireplaces. Note that homes with heaters that burn a fuel inside are required by law to have fixed ventilation for safety reasons. (NB this is for information only and is generally a requirement under the Building Code of Australia)

5.20 Landscaping Design and Planting Selection

Gardens can provide significant climate modification effects, and have the ability to further enhance or detract from the other factors influencing energy efficient design mentioned above.

For example, deciduous trees or vines which provide shade in summer but allow the winter sun to shine through. When their leaves have dropped they provide an effective and simple option.

Deciduous creepers can keep west facing walls cool on hot summer afternoons. Shrubs or trees to the south can be placed to direct south-westerly sea breezes into and through your home.

Plantings to the west and north-west can shield houses from winter storms, but close plantings may lead to damage in certain circumstances.

Unshaded paving to the north, east and west of your home should be avoided as it can cause heat to be reflected into windows during summer. Lawns and other ground covers will help reduce this problem.

South facing courtyards with moist cool ferneries will also assist summer cooling.

Overall plant selection should adhere to water wise gardening principals to minimise water usage

The diagram below indicates wind patterns for the Perth region. You should investigate the 'wind regime' particular to your location, to make the most of desirable cooling summer breezes, or to reduce the impact of hot summer or gusty winter winds.

6.0 Assessment Procedure

Under Local Planning Scheme No. 10, the Town is able to permit higher density development in the Split Density Coded residential areas where it can be demonstrated that the design of the dwellings meets specified energy efficiency requirements.

An applicant has two (2) options with respect to satisfactorily addressing this matter as identified below:

Option 1

To ascertain the energy efficiency of the dwelling, Council has assigned a relative value to each of the design criteria listed in the body of this policy.

In order to qualify for the higher density code a score of 70 out of a possible 100 efficiency points is required to establish an acceptable degree of intrinsic energy efficient housing design.

In grouped or multiple dwelling developments each individual dwelling must achieve the minimum score in order to be eligible. There is considered to be sufficient scope within the points allocation for a number of design solutions.

The following are the assigned values given to each design element of energy efficiency:

ENERGY EFFICIENT DESIGN POLICY CREDIT POINTS CHECKLIST

PROPOSED DEVELOPMENT:

ADDRESS:

	Design Element	Credit Pts Available	Credit Pts Claimed	Comments
1.	Orientation - longest axis east west.	10		
Explanatory Notes: Orientation of dwelling excluding garage and any associated storage area.				
2.	North facing courtyard (or balcony for upper floor apartments), and main living areas. (12.5 points) Windows to living areas occupying a min 50% of the north facing wall. (12.5 points)	25		

Explanatory Notes:

A roof overhang is to be provided beyond the main living area windows which is of a sufficient depth to provide shading to these openings during summer but which does not project to an extent so as to unreasonably block direct solar access during the winter months (e.g. for full height sliding doors, solid roofing is not to extend more than 2.4m beyond the sliding doors).

3.	Windows to bedrooms minimised in area and south facing. One bedroom window is permitted to face north.	15		
----	--	----	--	--

Explanatory Notes:

The available points are apportioned between the number of bedrooms that are contained within each respective dwelling. For example, a 3 bedroom dwelling which incorporates two bedrooms each with south facing windows (minimised in area) and a third bedroom with a window facing east or west would achieve a score of 10 points.

4.	Eastern and western walls are either blank or only have openings to non-habitable utility rooms.	10 (east) 10 (west)		
----	--	------------------------	--	--

Explanatory Notes:

The Town acknowledges that windows may need to be located on eastern or western facing walls for the purpose of cross ventilation. Where a secondary window to a habitable room is located on an eastern or western wall and is kept beneath 1 square metre in area, points will not be deducted for such windows.

Where the only window to a habitable room is located on an eastern or western facing wall, 5 points will be deducted for each opening, irrespective of size.

Where a patio or verandah roof projects a minimum of 3m beyond an east or west facing opening to a habitable room, points will not be deducted in relation to that opening.

5.	60% of all habitable rooms shall be cross ventilated through the provision of windows on walls that have opposing orientations. (i.e. a bedroom with a south facing window and a secondary window of under 1 square metre on a western or eastern facing wall)	10		
<p>Explanatory Notes: Part credit points are not allocated for this criterion.</p> <p>An open plan living / dining / kitchen area is treated as one room.</p>				
6.	The provision of either a solar pergola or solar hot water heating system or photovoltaic solar panel system.	15		
<p>Explanatory Notes: Where a solar pergola is to be provided, it is to be positioned to the northern side of the main windows of the main living area of the dwelling and the louvres are to be fixed and positioned at 34 degrees to north.</p>				
7.	Landscaping design and plant selection to demonstrate compliance with low water use gardening principals.	5		
<p>Explanatory Notes: A landscape plan is to be prepared by a relevant industry professional and is to be submitted in conjunction with the application for development approval.</p>				
	TOTAL	100		Require min 70 out of 100 to qualify for higher density code

The applicant is to submit a letter explaining the features provided and the number of credit points claimed.

Any dwellings which are proposed to be retained as a part of any development proposal are to be modified to meet the points required by this Policy.

Council Policy

Where an existing residence either does not comply or cannot be made to comply with the points required by this Policy, the Town shall not grant development approval.

Option 2

As an alternative to achieving the 70 point score from the matrix identified in Option 1, the following requirements shall be met:

- (a) Each dwelling which is a part of the application for development approval (irrespective of whether the dwelling is a single house / grouped dwelling multiple dwelling / apartment) shall demonstrate a Nationwide House Energy Rating Scheme (NatHERS) star rating (or other comparable star rating measurement tool which is accredited by the National Construction Code / Building Codes of Australia) which is one star in excess of the current energy efficiency requirement of the Building Codes of Australia that are specified for a class 1A building; (e.g. if NatHERS is used as the assessment tool as at March 2019 *any* proposed dwelling would need to achieve a 7 star rating); and
- (b) The NatHERS (or other accredited equivalent) star rating for the dwelling shall be certified by a NatHERS (or other accredited equivalent) energy assessor using the NatHERS (or other accredited equivalent) software and shall be provided at the development application stage; and
- (c) Each dwelling shall be provided with a minimum 1.5kw photovoltaic solar panel system; and
- (d) Each dwelling shall be provided with a minimum 3000L capacity rainwater tank that is plumbed to either a toilet or laundry within the dwelling; or alternatively an approved grey-water reuse system that collects grey water from the laundry and bathrooms and re-directs it for garden irrigation / ground water recharge.

LOCAL PLANNING SCHEME NO. 10

Council Policy

LOCAL PLANNING POLICY NO. 3 - WATER SENSITIVE DESIGN

POLICY OUTLINE

1. Operation of this Policy
2. Statement of Intent
3. Definitions
4. Policy Objectives
5. Application of the Policy

1. OPERATION OF THIS PLANNING POLICY

- (a) This planning policy has been prepared in accordance with Part 2 of the Town Planning Amendment Regulations 1999.
- (b) This policy does not bind the Council in respect of any application for planning approval but the Council will have due regard to the provision of the policy and the objectives which the policy is designed to achieve before making its determination.
- (c) If a provision in this policy is inconsistent with the:
 - (i) Environmental Protection (Swan Canning Rivers) Policy 1998, the Environmental Protection Policy Prevails; and
 - (ii) The Town of Bassendean Town Planning Scheme, the Scheme prevails.
- (d) This policy applies to rezonings, structure plans, subdivisions and development proposals and applies throughout the Town of Bassendean.

2. STATEMENT OF INTENT

There is concern about the quality of water discharging from drains into water bodies such as the Swan and Canning Rivers. Stormwater runoff carries sediments and pollutants such as nutrients and heavy metals from impervious surfaces. The Swan-Canning Cleanup Program (1999) highlights the need to address water quality in drainage from rural and urban land uses. A mechanism to address water quality of stormwater runoff from developed areas is through Water Sensitive Urban Design.

The principles are the detention and retention of stormwater to increase filtration of pollutants by soil, vegetation or other physical means rather than direct conveyance to a water body.

The Bayswater Main Drain Catchment Management Strategy (1994) recommends the adoption, where practical, of water sensitive urban design for new development and redevelopment within the catchment by local Government authorities. The Eastern Metropolitan Regional Environmental Strategy (RES) (2000) recommends that member councils adopt Water Sensitive Design Planning principles, develop drainage plans and adopt Stormwater Quality Management Guidelines.

The Environmental Protection (Swan-Canning Rivers) Policy 1998¹ requires that all government agencies including local government, when making decisions, ensure that drainage systems are designed, constructed and operated:

- (i) in accordance with best management practice; and
- (ii) “in order to prevent and mitigate land degradation (Clause 17 (a) (ii)).

The Local Government Guidelines for Subdivisional Development, produced by the Institute of Municipal Engineering WA Division in 1998 promotes the adoption of Water Sensitive Urban Design principles.

The Community Codes (*Liveable Neighbourhoods*) published by the Ministry for Planning in 2000 emphasises Water Sensitive Urban Design (nutrient stripping, swales, incorporation of drainage in public open Space) and provides incentives of up to 3% credit in the 10% Public Open Space (POS) requirement for the adoption of Water Sensitive Urban Design.

3. DEFINITIONS

“Best Management Practice” means best management practices developed under clause 11 of the Environmental Protection (Swan and Canning Rivers) Policy 1998, and assessed in the context of this policy.

Council Policy

Until such time as best management practices are published by the Environmental Protection Authority the use of interim best management practices as published by the Water and Rivers Commission's "*A manual for managing urban stormwater quality in Western Australia*" dated August 1998 will be used in conjunction with the Principles for design and assessment of best management practices (ie, Section 5 of this policy) and the Towns engineering specifications and conditions relating to developments and subdivision.

"AAMGL" Average Annual Maximum Groundwater Level

"Multiple Use Corridor" linear reserve which integrates drainage function as well as conservation and recreation values.

"Treatment Train" means application of several types of physical stormwater best management practices in line in a series to achieve improved drainage water quality output to water bodies.

"Xeric Landscape" landscape consisting of native or adapted plants which require nil or minimal watering

4. POLICY OBJECTIVES

- (a) This Water sensitive Design Policy is to assist in protecting the beneficial uses of the Swan and Canning River and watercourses, consistent with the requirements of the Environmental Protection (Swan and Canning Rivers) Policy 1998. The beneficial uses include:
 - * as habitat for the maintenance of the diversity and abundance of locally indigenous fauna and flora species;
 - * to maintain ecological processes;
 - * as an important recreational element; and
 - * as natural landscape.
- (b) Ensure water sensitive design best management practices are implemented for all new development proposals so as to minimise nutrient and other pollutants exported to the Swan-Canning rivers;
- (c) Protect and where possible restore and enhance the environmental and social (ie, recreation and scenic) values of waterways and protected wetlands; and

- (d) Retain or enhance open drains by converting them to “living streams” in multiple use corridors that provide habitat for wildlife and passive recreation opportunities wherever possible.

5. APPLICATION OF THE POLICY

The principles of Water Sensitive Urban design are to be incorporated into urban development through the application of best management practices. The extent to which the various best management practices are selected for implementation will depend on the scale of development. For example, there will be greater opportunities to incorporate structural best management practices at the structure planning or subdivision scale than at the single lot level. For approval at a split or higher R-Code, developments will be required to meet these design guidelines.

Principles for design and assessment of best management practice.

The application of water sensitive planning and management principles involves:

- i) incorporation of water resource issues early in the land use planning process;
- ii) addressing water resource management at the catchment and sub-catchment level;
- iii) storage and stormwater reuse and stormwater treatment occur as high as possible in the catchment- use of a treatment train approach with the components of stormwater management located so that they follow the natural contours;
- iv) property is protected from flooding or damage by surface water or groundwater;
- v) post urban development conditions in watercourses approximate pre urban conditions (ie, water level and flow regimes are maintained);
- vi) stormwater system design incorporates as much as possible features of waterways that improve water quality;
- vii) the use of vegetation (particularly indigenous vegetation) in stormwater management to promote filtering and slowing of runoff to maximise settling of particulate-bound pollutants; and
- viii) multiple use corridors are used when appropriate.

The following are examples of structural best management practices which encompass the above principles:

- Onsite detention;
- Stormwater infiltration systems;
- Buffer strips;
- Pollutant traps (eg, Continuous Deflection Separators);
- Grass or reed swale drains;
- Broken or flush kerbing;
- Ponds and wetlands; and
- Native or Xeric landscaping.

Selection of best management practices should follow that suggested in the Water and Rivers Commission's *Manual for Managing Urban Stormwater Quality in Western Australia*. (Stormwater best management practice selection chart to be included in appendices)

5.1 Non- structural best management practices

A comprehensive approach to storm water management also involves the promotion of non-structural best management practices. These include source controls such as:

- education of residents on appropriate plant species, fertiliser and water use;
- street sweeping regimes; and
- improved waste and stormwater management for industrial premises.

5.2 Incorporation of water resource issues early in the land use planning process

The earlier that stormwater management is addressed in the land use planning process the more opportunity there generally is for integration of structural mechanisms to ensure water quality. Ideally it should form part of the initial site analysis prior to structure planning and sub-division. For small residential subdivisions (<5ha) and redevelopments in which ponds or wetlands may not be feasible inline controls such as pollutant traps may be more appropriate.

5.3 Addressing water resource management at the catchment and sub-catchment level

Sub-catchments should be used to determine drainage system design. Developments low in the catchment should be designed with due regard to existing and proposed land use as reflected in the Town Planning Scheme and the volumes and quality of stormwater or subsoil drainage water likely to be generated upstream.

5.4 Storage, stormwater use and stormwater treatment occur as high as possible in the catchment, a treatment train approach is used and components of stormwater management are located so that they follow natural contours

Stormwater treatment such as detention should occur at source or on-site if practicable. Structural best management practices are most effective when they can be combined in a series, as a treatment train preferably connected by grass or reed swales or multiple use corridors (through public open space). Storage areas should be an integral part of the landscape, wherever possible. The use of the treatment train can increase pollutant removal effectiveness, allow for filtration of suspended solids, or overcome site factors that limit the effectiveness of a single measure.

The detention capacity of the treatment train should be capable of retaining the first flush and constructed according to the design criteria provided by the Water and Rivers Commission hydrological effectiveness graphs (*Manual for Managing Urban Stormwater Quality in Western Australia* pp 20, 21)

Wherever possible use should be made of stormwater runoff. Car parks in commercial developments should direct runoff water into landscaped swales by use of flush or broken kerbing to reduce the irrigation requirement and filter stormwater pollutants. Porous paving materials should be encouraged, especially for parking areas that are infrequently used or are low traffic volume areas.

Mechanisms to trap sediment should be in place to remove sediment 100 microns or more.

5.5 Protecting property from flooding

5.5.1 Water Courses and main drains

All development along watercourses, main drains and overland flow paths for the 100 year storm recurrence interval shall have floor levels at 500mm above the 100 year flood level.

Watercourses and main drainage reserves should be of sufficient width to allow for 1:6 batters, appropriate access for maintenance or 1:8 (for revegetation) and the floodway associated with the 100 year event. This would normally result in a minimum reserve width of 30m. However, to allow for natural meandering of a watercourse and the floodplain a 50m reserve width is preferred.

5.5.2 Groundwater levels

To protect housing from flooding and damage from groundwater, development in areas where the Average Annual Maximum Groundwater Level (AAMGL) is at or within 1.2m of the surface, the importation of clean fill will be required together with the provision of sub surface drainage placed at the AAMGL. In areas where the AAMGL is more than 1.2m from the surface, subsurface drainage may still be required to restrict the rise in groundwater and ensure that adequate separation of building floor slabs from groundwater is achieved.

The AAMGL should be determined to the satisfaction of the Water and Rivers Commission.

5.6 Maintaining water level and flow regimes

5.6.1 Water levels –Protected wetlands

Where it is deemed that a proposal is likely to have a potential impact on the hydrological regime of a protected wetland a hydrological study will be required to determine how the water level regime of the wetland can be maintained.

As a general guideline, a hydrological study is likely to be required where drains that alter groundwater levels (eg, subsoil drains) are used within 100m of a protected wetland, or if drainage into a wetland is proposed.

5.6.2 Water flows –Watercourses

In order to prevent instream erosion, peak flows in water courses should not exceed pre-development conditions for the particular storm average recurrence interval (eg, the peak flow reaching the water course from the catchment in a 10 year event should remain the same after development).

Longer duration low-level flows in watercourses to maximise detention times in detention ponds consistent with the advice in the Water and Rivers Commission *Manual For Managing Urban Stormwater Quality in Western Australia* are acceptable to enable increased water volumes to be discharged off-site.

Adequate on site detention is required to ensure this criterion can be met.

5.6.3 Development of Private Open Space

Drainage from paved areas should be directed to garden beds or lawn or use of porous paving surfaces encouraged.

Low water and nutrient requiring plants should be required in landscaping such as native or adapted xeric plants to reduce the need for artificial fertilisers and watering.

5.7 Incorporating landscape enhancing features to improve water quality

Features that improve water quality that should be incorporated into stormwater drainage systems include:

- Native vegetation-in particularly reeds and rushes should be to promote filtering of nutrients and sediments;
- Boulders or riffles improve aeration and oxygenation;
- Ponds, pools or stormwater gullies designed as sediment traps; and
- Drain or watercourse profiles that provide a range of fauna habitats.

5.8 Retaining and rehabilitating protected wetland and watercourse fringing vegetation

Fringing vegetation should not be removed from within the following buffer zones:

Watercourses with permanent water or protected wetlands	50m
Seasonally flowing watercourses	30m
Watercourses which flow in response to specific rain events	10m

Removal of non-native vegetation in a manner that replaces it with native vegetation and minimises potential soil erosion is encouraged, except where the non-native vegetation has identified landscape or heritage value.

Foreshore management proposals are assessed in terms of the achievement/replication of natural processes, and integration of passive recreation whilst maintaining conservation values.

As a minimum watercourses should be revegetated with native vegetation for 10m either side of watercourses which flow in response to specific rain events and 15m either side of other watercourses.

As a minimum, protected wetlands should be revegetated consistent with vegetation zones that would naturally occur in a wetland to at least 15m from the high water mark or 1m higher than the high water mark whichever is the smaller.

Batters and reserve widths are addressed under “Protection of property from flooding” above.

5.9 Using Multiple use corridors and open drains

Existing open drains should be assessed for their potential to provide for the multiple uses of recreation, stormwater management and the restoration and maintenance of environmental values through conversion to meandering streamlined channels.

There should be no net loss of existing open drain habitat, based on the extent (ie area) of open water and wetland vegetation provided by the drain. Transfer of habitat to a multiple use corridor/streamlined meandering channel is acceptable, but timing to minimise the period when habitat is not available should be considered.

Multiple use corridors width may vary according to site characteristics. However a minimum of 50m is recommended with additional width if needed for recognising floodway characteristics and protection of foreshore vegetation.

Management plans should be prepared for multiple use corridors. Multiple use corridors should be divided into zones or priority use areas for management purposes.

APPENDIX 1 - WATER SENSITIVE DESIGN POLICY CHECKLIST

Section	Policy Application	Structure Plan	Subdivision	Development Application
5.1	Early incorporation of water resource issues in planning			
5.2	Drainage design based on sub- catchments			
5.3	Treatment Train approach from top of catchment			
	Stormwater management components follow natural contours			
	Detention capacity able to retain first flush			
	Detention capacity to meet appropriate hydraulic and detention time criteria			
	Car park runoff to landscaped detention swales			
	Sediment less than 100 microns trapped			
5.4	Floor levels >500mm above 1:100			
	Waterway batter slopes maximum 1:8			
	Waterway reserve adequate width			
	AAMGL calculation meets W&RC requirements			
	Drainage at or above AAMGL and soil surface >1.2m above AMGL			
5.5	Hydrological study undertaken for protected wetlands			
	Post development flows approximate pre development flows through adequate detention			

Website: www.bassendean.gov.au Email: mail@bassendean.wa.gov.au Tel: (08) 9377 8000

Town of Bassendean Council Policy

Local Planning Scheme No. 10

Amendments made to the policy (OCM2-7/6/11):

Page 10 of 12

Section	Policy Application	Structure Plan	Subdivision	Development Application
	Runoff from paving directed to garden or lawn areas			
	Encourage use of pervious paving materials			
5.6	Natural features incorporated into stormwater design (eg native vegetation, riffles & pools)			
	Easily maintained sediment traps included			
5.7	Existing fringing vegetation protected			
	Fringing vegetation rehabilitated (10 or 15m)			
	Passive recreation catered for along foreshores			
	No net loss of open drain habitat			
	Potential for Multiple Use Corridors evaluated			
5.8	Multi Use Corridors zoned			
	Management plans for Multiple Use Corridors prepared			

Sustainable Development Information Sheet

1. General

There are several advantages to living in a sustainable home including saving money on utility costs, reducing the impact on the environment through the decreased use of fossil fuels, the increased comfort of effective natural lighting and ventilation and the improved resale value of dwellings due to lower utility bills they create.

The Town encourages the implementation of both energy efficiency design (EED) and water sensitive urban design principles. This Information Sheet provides all of the necessary supporting information which outline simple and effective initiatives that can be applied to increase the sustainability of your development.

2. Energy Efficient Design Principles

2.1 Energy Efficient Design

The objective behind EED is to ensure energy efficiency by designing dwellings to suit the local climate. By taking advantage of free natural warmth from the winter sun and cooling from breezes, it will reduce the costly use of fossil fuel energy for heating and cooling. Careful building design can easily achieve internal temperatures 5°C warmer in winter and 10°C degrees cooler in summer than in typical, poorly designed homes in the southwest.

Any style of home can be designed for energy efficiency, to ensure savings on future energy costs, and to assist the environment. The main features of energy efficient housing relate to:

- Building orientation
- Window placement, sizing and shading
- Use of insulation
- Ventilation
- Draught proofing
- Use of heat absorbing building materials
- Landscaping
- Use of energy efficient appliances

Most features such as improved layout, appropriate window placement and sensible garden design, will make little difference to initial building cost. Although insulating a house will add initially to construction costs, the savings in energy and carbon emissions will make for a positive return over the life of the building. It would be false economy to do otherwise.

2.2 Project Homes vs. Individual Design

While it is easier to incorporate energy efficiency features if dwellings are designed specifically to a particular lot of land, Council recognises that this could significantly add to the cost of construction. However, in some cases this is unavoidable and economic cost does not justify a relaxation of this policy where higher density codes are being sought by applicants.

Nevertheless, there are excellent opportunities to meet basic energy efficient principles even with a standard project house. There are many standard house designs available which would allow good energy efficiency, provided they are built facing the right direction. A minor modifications such as moving or reducing the size of windows or relocating the carport, along with good insulation, may be all that's needed to reduce unnecessary and expensive energy use and act to noticeably create increased internal comfort levels.

3.3 Energy Efficient Design Elements

3.3.1 Orientation

While it is easier to incorporate energy efficiency features if dwellings are designed specifically to a particular lot of land, Council recognises that this could significantly add to the cost of construction. However, in some cases this is unavoidable and economic cost does not justify a relaxation of this policy where higher density codes are being sought by applicants.

Nevertheless there are excellent opportunities to meet basic energy efficient principals even with a standard project house. There are many standard house designs available which would allow good energy efficiency, provided they are built facing the right direction. Minor modifications such as moving or reducing the size of windows or relocating the carport, along with good insulation, may be all that's needed to reduce unnecessary and expensive energy use and act to noticeably create increased internal comfort levels.

The Sun's Movement during summer (Dec)

Legend:

	Horizontal Rise /Set Angle (A)	Noon Altitude (B)
Perth	28.5° south	80.7°

The Sun's Movement during winter (Jun)

Legend:

	Horizontal Rise/ Set Angle (A)	Noon Altitude (B)
Perth	27.8° south	34.2°

For residential development, it is recommended that land which permits the living areas of the dwelling to face north, be free of obstructions such as buildings or evergreen trees on this side of the home. Orientation is the key factor in achieving EED. While items such as pergolas, shutters and insulation can often be retro-fitted at a relatively low cost, the orientation of a building is often set in 'concrete' and if poorly orientated it is virtually impossible to correct.

Objects cast a shadow southwards approximately twice their height in mid-winter, and it is therefore essential that sufficient allowance is made between tall objects and the north side of a dwelling to ensure that winter solar access is maintained.

The ideal lot layout is one with the rear courtyard/garden facing north. However, there are a number of ways of varying the design of a house and its interior layout to optimise solar orientation.

To achieve the design goal of optimal energy efficiency, an effective rule of thumb for a house in the southwest is to have north and south facing walls 1.5 to 2.0 times the length of east and west facing walls. This allows reasonable access to the winter sun from the north of the home, while reducing the exposure of walls and windows to early morning and late afternoon sun on the east and west sides of the home.

True north is the ideal orientation for windows. However, if the eaves are designed correctly, windows oriented between approximately 20° east or west of north still allow good solar penetration in winter while excluding most of the direct summer sun.

3.3.2 Internal Room Layout

Indoor living and entertaining areas should be oriented on the north side of the home where possible, with other rooms to the south. This will create warm and bright living areas in winter since north facing windows and walls receive maximum winter sun. The south side of a house receives a small amount of direct sun in summer, and therefore by locating bedrooms to the south, will be more comfortable for sleeping in summer.

Rooms should be grouped with similar uses together to create zones and doors be used to separate these zones. This type of design is more energy efficient than open plan living because you can close off rooms which are cooled or heated from those that are not.

It is recommended that the kitchen, laundry and bathrooms be grouped together in order to minimise the need for long hot water pipes. This will reduce the amount of heat lost from the pipes.

3.3.3 Windows and Shading

Appropriate window placement, sizing and shading are key elements to EED. Windows can act as solar collectors trapping heat from the sun, which is useful in winter but not in summer. They ventilate during summer, funnelling cool late afternoon and night time breezes to remove heat accumulated during the day and are an important source of light.

A balance needs to be struck between controlling the sun's access and allowing adequate cross ventilation from breezes, as well as allowing natural light to enter.

3.3.4 North Facing Windows

It is recommended that around a third to a half of the north face of the dwelling be glass, as it is very effective at trapping winter warmth and can be easily shaded from summer sun with correctly designed eaves.

To calculate the overhang needed, multiply the distance from the eaves-line down to the bottom of the window by 0.7. This will ensure the glass is adequately shaded from September until March. For cooler regions, multiplying by 0.4 will provide suitable shade from October until February.

Deciduous trees and shrubs or creepers growing on an open pergola on the north face of a home can also provide window shading in summer, while allowing the sun through to warm your home once they've lost their leaves in winter. Alternatively, a solar pergola is designed to achieve the same result.

It is important that shading devices, whether in the form of eaves, pergolas or appropriate landscaping, do not block the sun's access to the interior of your home during winter.

3.3.5 East and West Facing Windows

East and west facing windows can provide unwanted solar heat gain during the summer months and therefore, if excessive, can contribute significantly to an inefficient house design.

To minimise heat gain during the summer months, a house should be designed with the majority of rooms facing either east or west being non habitable i.e. either laundries or garages etc and that the areas of windows are kept to the absolute minimum.

External shading devices provide some protection from the summer sun, with complete protection achieved only with full vertical screening, such as outside blinds or shutters. This is due to the fact that the angle of sun will be close to horizontal early in the morning (east) and in the late afternoon (west), and only vertical screening can block the sun at these angles. Deciduous trees or vines growing on a trellis can also provide shading during summer.

3.3.6 South Facing Windows

South facing windows receive no direct sun in winter but will receive a few hours of morning and afternoon sun in summer months. For this reason, they lose heat in winter and gain some undesirable heat in summer. South facing windows should be large enough to allow good ventilation and light to enter the home without losing too much heat in winter.

Vertical elements such as external screening or landscaping in conjunction with internal blinds will be most effective at shading south facing windows, since the majority of this sun is at low angle. Basic 'eaves overhang' in combination with internal window treatments will also assist solar control to south facing windows. In mid summer the sun can fall on an unshaded southern façade for approximately 4 hours in the morning and 4 hours again in the afternoon. For the more northerly latitudes (eg, Geraldton) provision of shading to south facing windows is even more important. This is because at this latitude there can be an additional 45 minutes of mid summer sun falling on the south face of a building, morning and afternoon.

3.3.7 Internal Window Treatments

While external window treatments are the best way to reduce summer heat gain, internal window treatments are most important for reducing winter heat loss. A window can lose heat five to ten times faster than an equivalent area of wall. This heat loss can be minimised by keeping warm air inside the room away from cold windows.

Closed curtains can be effective insulators and should be made from a heavy fabric with insulating backing for maximum effectiveness. They need to be long enough to reach the floor and should include a closed pelmet. The pelmet is an integral part of the curtain as it reduces air circulation and consequent heat loss through the window glass during winter and heat leakage into the home during summer when the curtains are drawn.

3.3.8 Skylights

Skylights can reduce your daytime lighting needs. However, a typical Perth home consumes approximately six times as much energy for heating and cooling than for lighting, and heat can be lost from your home through skylights on winter nights and gained during hot days. To reduce this problem, position your skylight so it is shaded in summer or consider buying one with special glazing that minimises heat transfer and can be closed at night. Non-vented ducted skylights lose less heat in winter, as the air trapped in the duct acts as a thermal buffer.

3.3.9 Tinted Glass and Reflective Films

Tinted glass and reflective films absorb and reflect heat, keeping your home cooler. However, be aware that using them reduces the amount of light and heat entering rooms in winter as well as in summer. During summer the glass itself becomes hot as it absorbs energy, which will cause some heat to be radiated into the room. These products may be useful where large areas of east and west glazing are unavoidable due to design reasons. However, tints and films will generally not reduce heat gain as much as external shading.

3.3.10 Double Glazing

Two panes of glass separated by at least 10 mm can reduce winter heat loss but is generally only cost effective in situations with high heating requirements. Double

glazing can also reduce conductive summer heat gain. However, when exposed to sun double glazed windows will still allow significant heat transfer, which means that full shading is still required.

3.3.11 Other Window Products

Windows are also available with other features, such as special coatings on the glass, which can offer improvements in thermal performance.

Insulation acts as a barrier to heat flow. It can make your home more comfortable by reducing the amount of warmth escaping in winter and reducing the amount of heat entering in summer. By insulating you can significantly reduce your heating and cooling bills and help to reduce greenhouse gas emissions.

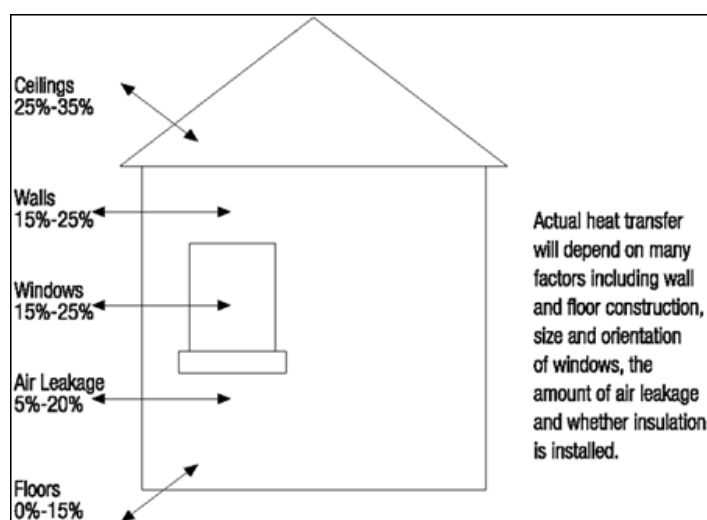

In an uninsulated house most heat is lost or gained through the ceiling and roof – this is the most important part of the home to insulate. Insulating external walls can bring further benefits. Sealing air gaps will also help.

Opening and closing windows and window coverings at appropriate times to control air flows and heat transfer will also increase your comfort levels. This is particularly important in summer to prevent your house overheating. If you allow too much direct summer sun into your home through windows then insulation may act to keep the home warmer for a longer period of time.

3.3.12 Insulation Works

The two main types of insulation are bulk insulation and reflective insulation. Bulk insulation works by trapping small cells or layers of air within the insulating material. Many pockets of still air are very effective at retarding heat transfer. Reflective insulation works by reflecting significant proportions of light and heat. Some reflective foils can be used both as a vapour barrier and to reduce heat transfer.

Typical Areas of Heat Transfer

3.3.13 Construction Materials

Building materials make a significant difference to the performance and comfort of dwellings. Dense materials such as brick, stone, concrete and rammed earth heat up and cool down slowly – they have what is called a high 'thermal mass'. Lightweight

materials such as weatherboard and fibre cement allow the home to heat up and cool down quickly. These materials have a low thermal mass.

Thermal mass is simply the ability of a material to store heat. A 200 square metre home in the south west with good solar access to the north needs about 20 cubic metres of concrete and 20 to 30 cubic metres of internal brick or equivalent depending on your location (30 cubic metres for Perth) to adequately store winter daytime warmth and gradually release it at night.

Thermal mass is most beneficial in homes which have good solar access to north facing windows. If solar access is limited, large amounts of thermal mass can increase a dwellings heating requirements during winter.

During summer, thermal mass will act to keep your home cooler during the day, provided the dwelling is ventilated overnight. The aim is to allow the night air to cool down the mass inside your home, resulting in more comfortable conditions the next day.

3.3.14 Masonry Walls

Double brick walls heat up slowly and stay warm for long periods. This is an advantage during short periods of hot weather, but can make your home uncomfortable over extended hot spells. Insulating double brick walls will add to initial costs, but will help to prevent heat transfer to the interior of the home during summer and help to retain heat during winter.

Brick veneer walls consist of a single external layer of brickwork, with a lined stud frame inside. These walls have less thermal mass than double brick walls and therefore respond more quickly to temperature changes. Homes with brick veneer walls are better at cooling down during extended periods of hot weather – making conditions more comfortable at night during summer. Brick veneer walls are also easier to insulate.

Reverse brick veneer walls have the brickwork inside and lightweight frame and cladding outside. This has the advantage of providing the thermal mass on the inside of your home which will retain any heating used in winter. Conversely the external lightweight cladding (weatherboards etc) will not absorb and store summer heat in the same way as masonry wall are know to do.

With both double brick and brick veneer walls (or any type of wall for that matter), it is important to ventilate your home in summer once the temperature outside becomes cooler than the temperature inside.

This will help cool your home down and make conditions more comfortable. Retained night time coolness achieved through ventilation can also keep your home cooler during the day.

3.3.15 Lightweight Walls

Weatherboard, fibre cement and other lightweight walls get hot quickly in the sun, but also cool down quickly once shaded and after sunset. During winter, they lose heat far more quickly than brick walls. The thermal performance of lightweight walls will improve significantly with insulation, which is cheaper and easier to install at the building stage.

3.3.16 Floors

Concrete floors store heat from the sun shining through northern windows in winter and return some of that heat during the evening. Laying dark tiles where the low angle winter sun hits the floor will maximise the absorption of heat to be re-radiated. It is important that this thermal mass is not exposed to direct solar energy during summer, as this can lead to uncomfortably warm internal conditions.

Timber floors do not have the high thermal mass of concrete floors. This means that a home with a timber floor will lose far more heat than one with a concrete floor. For homes on stumps which are open at the sides, it is recommended that insulation be installed to the underside of all exposed floorboards. Another solution is to fully enclose the area between the ground and the floor with a solid material like brick, but this will not be as effective as using insulation. An enclosed space under the floor will also require some permanent ventilation to control subfloor dampness.

3.3.17 Colour of External Building Materials

As a general rule, light colours tend to reflect the sun's heat while darker colours absorb it. You can take advantage of this fact when selecting the colour of your roof and wall materials. In summer, lighter coloured materials will help to keep your home cooler by reflecting heat from the sun. However if your home is properly insulated, which is a much more effective method of controlling heat transfer, the effect of external building colour on your comfort will be greatly reduced.

3.3.18 Ventilation

Doors and windows should be positioned to achieve cross ventilation in summer. A larger opening on the leeward side of the home will maximise the airflow through rooms. If this has been allowed for in the design of your home, doors and windows opened late on a summer's day will make use of cooling late afternoon and night time breezes to rid your home of heat accumulated during the day.

3.3.19 Draught Proofing

Air leaks and draughts can add significantly to your heating and cooling bills by allowing cold air into your home during winter and warm air during summer. You can prevent these unwanted leaks by installing draught excluders on the bottom edge of doors and sealing strips around doors and windows.

These are easy to fit and can be purchased from your local hardware store. When draught proofing you should also check for spaces between walls and skirtings and block off any unused fireplaces. Note that homes with heaters that burn a fuel inside are required by law to have fixed ventilation for safety reasons. (NB this is for information only and is generally a requirement under the Building Code of Australia).

3.3.20 Landscape Design and Planting Selection

Gardens can provide significant climate modification effects, and have the ability to further enhance or detract from the other factors influencing EED mentioned above.

For example, deciduous trees or vines which provide shade in summer but allow the winter sun to shine through. When their leaves have dropped they provide an effective and simple option.

Deciduous creepers can keep west facing walls cool on hot summer afternoons. Shrubs or trees to the south can be placed to direct south-westerly sea breezes into and through your home.

Plantings to the west and north-west can shield houses from winter storms, but close plantings may lead to damage in certain circumstances.

Unshaded paving to the north, east and west of your home should be avoided as it can cause heat to be reflected into windows during summer. Lawns and other ground covers will help reduce this problem.

South facing courtyards with moist cool ferneries will also assist summer cooling.

Overall plant selection should adhere to water wise gardening principals to minimise water usage

The diagram below indicates wind patterns for the Perth region. You should investigate the 'wind regime' particular to your location, to make the most of desirable cooling summer breezes, or to reduce the impact of hot summer or gusty winter winds.

4. Water Sensitive Design Principles

4.1.1 Increased star Water Efficiency Labelling Scheme (WELS) appliances

The Water Efficiency Labelling Scheme (WELS) is a system of easily identifiable and user friendly ratings for household appliances, supported by commonwealth and state legislation to reduce demand for high quality drinking water by informing consumers about water efficiency at the point of sale.

The Town recommends appliances installed into any new dwelling are to have a minimum WELS rating 1 star less than the highest WELS rated appliance. For example, the highest rated dishwasher on the current market may be 5 stars under the WELS. Therefore, any appliance installed into the dwelling must be 4 stars or higher under the WELS.

Information regarding the appliances recognised by this system are found on <https://www.waterrating.gov.au/>.

4.1.2 Waste Water Recycling and Harvesting

In order to promote the recycling of waste water on the site and in order to satisfy this element of this policy, the Town encourages all dwellings to install a minimum 3000L capacity rainwater tank that is plumbed to either a toilet or laundry within the dwelling; or alternatively an approved grey-water reuse system that collects grey water from the laundry and bathrooms and re-directs it for garden irrigation/ground water recharge. Additionally, water permeable paving solutions should be used as much as practicable on development sites as opposed to hardstand areas, to allow for natural infiltration of stormwater into the soil.

Greywater disposal must be in accordance with the [Code of Practice for the Reuse of Greywater in WA](#). The Code of Practice for Greywater Reuse in WA specifies minimum areas of garden or lawn required for greywater disposal. These are summarised in Table 1 below.

No. Bedrooms	Minimum area required for greywater disposal
1 Bedroom (1 person)	20m ²
2 Bedroom (2 person)	40m ²
3 Bedroom (4 people)	80m ²
4 Bedroom (5 people)	100m ²

Table 1 – Minimum area required for greywater disposal

(NB the above land areas are calculated on the design irrigation rate of a sandy loam. These may differ depending on the soil type on the property of interest (refer to the Code of Practice for the Reuse of Greywater in WA for different soil types.)

Where the applicant does not have the minimum land areas as specified in Table 1, the use of greywater is not an option. Where this is the case, applicants should opt for the rainwater tank instead.

4.1.3 Landscaping

The Town acknowledges the importance deep-rooted vegetation has on aiding maintenance of ground water levels as well as stormwater run-off from areas, which are not conducive to stormwater infiltration (i.e. new development). Professionally prepared landscaping plans reflect how the landscaping responds and contributes to the sustainable design of the development.

A landscaping plan is to include all details of soft and hard surfaces, plant species and density as well as information on deep soil planting areas and rain gardens to assist in providing natural infiltration into the soil. Also refer to the Town's [Landscaping Information Sheet](#).

The Town encourages landscaping plan for the following elements:

- Is permeable paving being used to encourage water infiltration;
- Are there rain garden present;
- Does the proposal include elements of 'xeriscaping';
- Does the proposal grade the reduced sized hardstand areas on the site towards the landscaped garden beds;

- Are the plant selections native and endemic species that once installed, will not require additional watering to maintain their health and vitality;
- Are grassed areas reduced and/or removed on site in favour of low water use mulched garden beds; and
- Does the site contemplate an area for deep soil planting of shade providing plant/tree species.

4.2 Rain Gardens

A rain garden is comprised of native shrubs, perennials and flowers planted in a small depression to filter and treat stormwater runoff. Rain gardens can play a key role in facilitating water sensitive design as they assist runoff to infiltrate into the underlying soil, recharging the groundwater, and reducing peak flows from the site.

The recommended size of your rain garden is 2% of the existing roof cover area on your property. Refer to Table 2 below for guidance.

Roof Cover Area	Rain Garden Size
50m ²	1m ²
100m ²	2m ²
150m ²	3m ²
200m ²	4m ²

Table 2 – Examples of Rain Garden Sizes at a 2% Proportion of Roof Cover Area

Then recommended locational criteria for your rain garden is one that:

- Is on a flat site or a slight natural slope. Although rain gardens can be excavated in steeper areas with enough depth for drainage, this can be an added cost;
- Located so that they can capture and treat stormwater from impervious services. Generally, it is best practice to locate a rain garden at the lowest point of your site, as that is where stormwater collects;
- Can provide for a total rain garden depth of 600-800mm (dependent on how large your rain garden is); and
- Setback at least 450mm from the dwelling and property boundaries.

A standard rain garden has two layers of soil. The top layer acts as the filter layer and should be comprised of a sandy loam with good drainage and a very low clay content. The bottom layer acts as the drainage layer and should be coarse sand. It is recommended that larger rain gardens have a third gravel drainage layer.

For further information on how to establish a successful rain garden refer to [Building a raingarden: step-by-step guide Archives - Healthy Land and Water \(hlw.org.au\)](http://www.hlw.org.au/building-a-raingarden-step-by-step-guide-archives).

4.3 Incorporation of Water Resource Issues Early in the Land Use Planning Process

The earlier that stormwater management is addressed in the land use planning process the more opportunity there generally is for integration of structural mechanisms to ensure water quality. Ideally it should form part of the initial site analysis prior to structure planning and sub-division. For small residential subdivisions (<5ha) and redevelopments in which ponds or wetlands may not be feasible inline controls such as pollutant traps may be more appropriate.

4.4 Addressing Water Resource Management at the Catchment and Sub-catchment Level

Sub-catchments should be used to determine drainage system design. Developments low in the catchment should be designed with due regard to existing and proposed land use as reflected in the Local Planning Scheme and the volumes and quality of stormwater or subsoil drainage water likely to be generated upstream.

4.5 Storage, Stormwater Use and Stormwater Treatment Occur as High as Possible in the Catchment, a Treatment Train Approach is used and Components of Stormwater Management are Located so that they Follow Natural Contours

Stormwater treatment such as detention should occur at source or on-site if practicable. Structural best management practices are most effective when they can be combined in a series, as a treatment train preferably connected by grass or reed swales or multiple use corridors (through public open space). Storage areas should be an integral part of the landscape, wherever possible. The use of the treatment trains can increase pollutant removal effectiveness, allow for filtration of suspended solids, or overcome site factors that limit the effectiveness of a single measure.

The Department of Water and Environmental Regulation (in preparation with the Swan River Trust) have outlined the recommended key design principles to establish a effective treatment trains in their [Stormwater Management Manual for Western Australia](#) (pp. 149 - 151).

Wherever possible use should be made of stormwater runoff. Car parks in commercial developments should direct runoff water into landscaped swales by use of flush or broken kerbing to reduce the irrigation requirement and filter stormwater pollutants. Porous paving materials should be encouraged, especially for parking areas that are infrequently used or are low traffic volume areas. Mechanisms to trap sediment should be in place to remove sediment 100 microns or more.

4.6 Protecting property from flooding

4.6.1 Water Courses and main drains

All development along watercourses, main drains and overland flow paths for the 100 year storm recurrence interval shall have floor levels at 500mm above the 100 year flood level in accordance with the [Draft State Planning Policy 2.9 - Planning for Water](#).

Watercourses and main drainage reserves should be of sufficient width to allow for 1:6 batters, appropriate access for maintenance or 1:8 (for revegetation) and the floodway associated with the 100 year event. This would normally result in a minimum reserve width of 30m. However, to allow for natural meandering of a watercourse and the floodplain a 50m reserve width is preferred.

4.6.2 Groundwater Levels

To protect housing from flooding and damage from groundwater, development in areas where the Average Annual Maximum Groundwater Level (AAMGL) is at or within 1.2m of the surface, the importation of clean fill will be required together with the provision of sub surface drainage placed at the AAMGL. In areas where the AAMGL is more than 1.2m from the surface, subsurface drainage may still be required to restrict the rise in groundwater and ensure that adequate separation of building floor slabs from groundwater is achieved.

The AAMGL should be determined to the satisfaction of the Department of Water and Environmental Regulation.

4.7 Maintaining Water Level and Flow Regimes

4.7.1 Water levels –Protected wetlands

Where it is deemed that a proposal is likely to have a potential impact on the hydrological regime of a protected wetland a hydrological study will be required to determine how the water level regime of the wetland can be maintained.

As a general guideline, a hydrological study is likely to be required where drains that alter groundwater levels (eg, subsoil drains) are used within 100m of a protected wetland, or if drainage into a wetland is proposed.

4.7.2 Water flows –Watercourses

In order to prevent instream erosion, peak flows in water courses should not exceed pre-development conditions for the particular storm average recurrence interval (eg, the peak flow reaching the water course from the catchment in a 10 year event should remain the same after development).

Longer duration low-level flows in watercourses to maximise detention times in detention ponds consistent with the advice in the Department of Water and Environmental Regulation are acceptable to enable increased water volumes to be discharged off-site.

Adequate on-site detention is required to ensure this criterion can be met.

4.8 Retaining and Rehabilitating Protected Wetland and Watercourse Fringing Vegetation

Fringing vegetation should not be removed from within the following buffer zones:

Watercourse Type	Buffer Zone
Watercourses with permanent water or protected wetlands	50m
Seasonally flowing watercourses	30m
Watercourses which flow in response to specific rain events	10m

Table 3 – Fringing Vegetation Watercourse Buffer Distances

Removal of non-native vegetation in a manner that replaces it with native vegetation and minimises potential soil erosion is encouraged, except where the non-native vegetation has identified landscape or heritage value.

Foreshore management proposals are assessed in terms of the achievement/replication of natural processes, and integration of passive recreation whilst maintaining conservation values.

As a minimum watercourses should be revegetated with native vegetation for 10m either side of watercourses which flow in response to specific rain events and 15m either side of other watercourses.

As a minimum, protected wetlands should be revegetated consistent with vegetation zones that would naturally occur in a wetland to at least 15m from the high water mark or 1m higher than the high water mark whichever is the smaller.

Batters and reserve widths are addressed under “Protection of property from flooding” above.

4.9 Using Multiple Use Corridors and Open Drains

Existing open drains should be assessed for their potential to provide for the multiple uses of recreation, stormwater management and the restoration and maintenance of environmental values through conversion to meandering streamlined channels.

There should be no net loss of existing open drain habitat, based on the extent (ie area) of open water and wetland vegetation provided by the drain. Transfer of habitat to a multiple use corridor/streamlined meandering channel is acceptable, but timing to minimise the period when habitat is not available should be considered.

Multiple use corridors width may vary according to site characteristics. However, a minimum of 50m is recommended with additional width if needed for recognising floodway characteristics and protection of foreshore vegetation.

Management plans should be prepared for multiple use corridors. Multiple use corridors should be divided into zones or priority use areas for management purposes.

Schedule of Submissions

Draft Local Planning Policy - Sustainable Development

Support

1	Name: Goran Babic Affected Property: 120 (Lot 139) Morley Drive East Eden Hill	Postal Address: 120 Morley Drive East EDEN HILL WA 6054
Summary of Submission		Comment
Support to the proposal.		
1.1	Do you support the requirements of the draft Policy applying to all new dwellings? Yes.	Noted.
1.2	To Whom it May Concern In relation about re-zoning of my property at 120 Morley Drive East Eden Hill WA 6054. I have owned this property for 13 years and it is currently zoned at R17.5. My property is in-between Northmoore Road and Wicks Street. I have noticed West of Wicks Street, there are a huge number of property's that have been developed into 2-4 freehold house's. I feel that an extension of the re-zoning code west of Northmoore Street is heavily overdue. If you ware able to get back to me with any feedback, that will be greatly appreciated.	The Town is currently reviewing the existing local planning framework, including zonings. Further information and updates are on the Town's website available here).

2	Name: Not provided Affected Property: Not provided.	Postal Address: Not provided.
Summary of Submission		Comment
Support to the proposal.		
2.1	Do you support the requirements of the draft Policy applying to all new dwellings? Yes.	Noted.
2.2	Sustainability is something we are all responsible for working towards. Australia is already behind the world average in terms of consumption and resource use at unsustainable levels. These amendments are minor steps compared to what is needed, but most won't take steps unless its regulated or everyone is doing it already.... So these regulations would help people start along this necessary path.	Noted.

3	Name: Not provided Affected Property: Not provided. Postal Address: Not provided.	
	Summary of Submission	Comment
Support to the proposal.		
3.1	Do you support the requirements of the draft Policy applying to all new dwellings? Yes.	Noted.
3.2	We incorporated as many energy efficient principles as we could afford when we built in 2018-2019 including: orientation; mix of double brick, reverse brick veneer, insulated stud walls construction; 6kw solar array; fully electric house incl heat pump for hot water; cross-ventilation; planting of deciduous trees in NE and NW facing positions (N is on the truncation of our block). It would have been good if these policies were already in place when our building plans were being assessed. Hopefully these policies will incentivise building companies to consider these principles. However, I will also say that often these efforts are not recognised with the blanket street tree policy	Noted.
3.3	I am all for having more trees in our community but we need to also consider their type and placement relative to buildings so as not to counteract any design features that are intended to incorporate solar passive principles.	Agreed. The Landscaping Information Sheet available here (which pertains to Design Element No. 7 of the Attachment A: Sustainable Development Policy Credit Point Checklist), has been amended to specify that trees located in the northern aspect of the site are to be a deciduous species to provide shade in the warmer months whilst facilitating direct sunlight access in the cooler months. An advice note will be used on relevant development approvals to reflect this.

Summary of Submission		Comment
Support to the proposal.		
4.1	Do you support the requirements of the draft Policy applying to all new dwellings? Yes.	Noted.

<p>4.2 Thank you. I applaud the council for taking steps to incorporate sustainability principles in all new developments in the town.</p> <p>My feedback would be to separate the “points system” into three distinct categories:</p> <p>1. Planning and Orientation To address: location of rooms, window openings, external shading systems, principles of biophilia incorporated (i.e. habitable rooms have view to garden spaces), cross-ventilation, universal access design.</p> <p>2. Materials and Sustainability features To address: building materials, roof solar absorption value, roof and wall insulation, internal shading/pelmets, window type (i.e. standard, laminated, or double-glazed), PV systems, EV charging, heat pump hot water systems, ceiling fans, low toxin/allergy (i.e. low VOC paint, low VOC flooring, all-electric house).</p> <p>3. Landscaping and water use To address: established tree retention, planting of canopy tree, waterwise landscaping, rainwater capture, greywater system, permeable paving.</p>	<p>Noted.</p> <p>Agreed. Attachment A of the draft Local Planning Policy – Sustainable Development has been amended to group the design elements into appropriate headings.</p>
<p>4.3 Specific feedback on the draft checklist: Point 3 recommends bedroom windows to face south and be minimised in size. This concerns me as small, south-facing windows could make the rooms dark and require electric lighting during the day. Further, small windows reduce the indoor/outdoor connection for building occupants, which we know can affect sense of wellbeing and mental health. I look forward to a positive outcome for the future of our town, with the implementation of these sustainability feature for all new developments.</p>	<p>Noted. The Town has provided further clarification to achieve compliance within the explanatory note of this element. A 1.2m² window (standard bedroom window) will be permitted to be south facing. The intent of the provision is to limit excessive sized southern windows (floor to ceiling etc.). Large south facing windows do not receive any direct sunlight in winter, making the room prone to heat loss. In summer, they only receive direct sunlight in the early mornings and late afternoons.</p> <p>As such the Town considers it appropriate that reducing the size of south facing windows ensures heat retention in the cooler months and reduces heat gain in the warmer months. Therefore, less electricity is spent on heating and cooling the building, furthering the intent of the sustainability policy.</p>
<p>4.4 I look forward to a positive outcome for the future of our town, with the implementation of these sustainability feature for all new developments.</p>	<p>Noted.</p>

Support to the proposal.		
6.1	Do you support the requirements of the draft Policy applying to all new dwellings? Yes. I support the requirements of the draft Policy applying to all new dwellings.	Noted.

7	Name: Ross Underwood Affected Property: Not provided.	Postal Address: Not provided.
Summary of Submission		Comment
Support to the proposal.		
7.1	Do you support the requirements of the draft Policy applying to all new dwellings? Yes. Support the measures which are proposed.	Noted.
7.2	The policy could be improved to confirm it doesn't apply to minor alterations. For example, someone adding a patio or garden shed cannot valid be asked to spend thousands of dollars on unrelated improvements on the existing house (such an impost would not meet the Newbury tests of validity for a planning condition).	Noted. Section 6.2 of the draft policy applies to new dwellings only. Therefore, minor alterations would be exempt under the policy. Notwithstanding this, if a dwelling is/was constructed utilising the points system contained within Attachment A of the policy, there would be an expectation that additions and alterations to the dwelling still achieve the 70 credit points and do not result in the dwelling failing to comply with the policy.
7.3	It is disappointing the policy will not apply to apartments. Under Vol 2 of the R-Codes, an acceptable outcome is only half an extra star under NATHERS, or	Noted. State Planning Policy 7.3 (Residential Design Codes) Volume 2 - Apartments was gazetted in

only a ceiling fan, or only an instantaneous hot water system. Bassendean's policy would provide far greater benefit if applied to apartments.	May 2019 and incorporates passive design principles in Section 3.2: 'Orientation', Section 4.1: 'Solar and daylight access' and Section 4.2: 'Natural Ventilation'. Given this version of the R-Codes already addresses sustainability design, it was not considered warranted to also apply the draft policy to multiple dwellings, which would otherwise be assessed under this version of the R-Codes. Further, the above-mentioned provisions contained within Volume 2 of the R-codes cannot be amended by a local planning policy without a demonstrated need in the locality and subsequent approval from the Western Australian Planning Commission.

Support to the proposal.		
8.1	Do you support the requirements of the draft Policy applying to all new dwellings? Yes. I am in support.	Noted.
8.2	However the current Local Planning Policy No. 3 – Water Sensitive Design Policy has a lot of details that do not seem to be in the new draft policy. Will some of this be addressed elsewhere?	Local Planning Policy No. 3 – Water Sensitive Design (LPP 3) is more general in nature and is applied more broadly to rezoning, structure plans, subdivisions and development proposals. Many of the provisions contained in LPP 3 are now captured under State-level policies, manuals and guidelines. The duplication of the provisions in LPP 3 is considered to add an unnecessary layer to the local planning framework.
8.3	For sustainable development and to ensure the inclusion of garden space, tree coverage etc.. Underground power needs to be completed in the town of Bassendean. Can firmer target dates be set for this?	Noted. Western Power is the responsible authority for delivering underground power in the Town. For further information on this matter, please contact Western Power.

Attachments	1. Draft Asset Management Policy [8.6.1 - 5 pages]

Purpose

The purpose of this report is for Council to consider an updated Asset Management Policy.

Background

The Town is currently updating its policies to ensure that all Council policies are relevant, useful, and contemporary. Council policies are designed to assist with the efficient running of the local government and to address and provide guidance on matters within the district. The Asset Management policy should be reviewed on a regular basis to ensure that it is consistent with legislation and that it remains relevant to the needs to the local government and is consistent with the Town's Strategic Community Plan.

The Town has recently gone through a process of assessing its asset management position and the framework it applies to the Town's asset portfolio.

The Town applies the WA state government's recommended Integrated Asset Management Framework (IAMF), figure below, to its own asset management practices and processes. This includes the application of an Asset Management Policy which provides the overarching guiding document and direction for the asset management strategy, plans and ultimately services to the community, via the renewal and maintenance of assets.

The format of the framework remains valid and conforms not only to legislative requirements, but also to relevant industry guides such as the International Infrastructure Management Manual (IIMM).

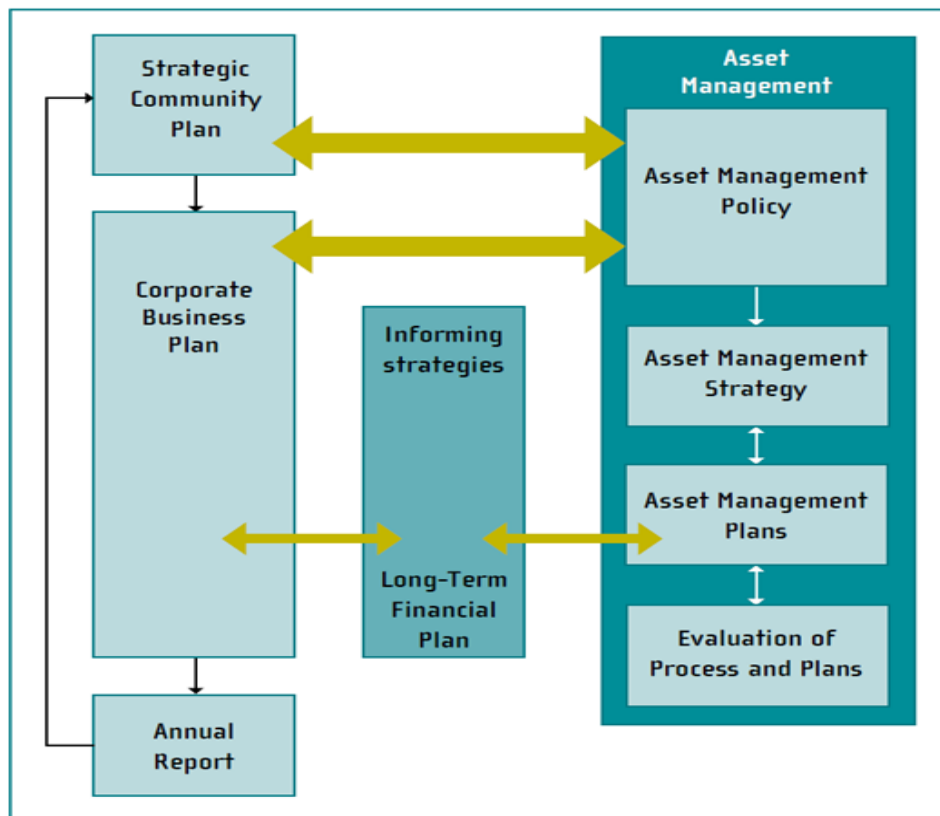

Figure 1: The WA Asset Management Framework (Source: WA DLGC)

Proposal

For Council to consider the updated Asset Management Policy.

Communication and Engagement

N/A

Strategic Implications

Priority Area 4: Driving Financial Suitability

4.1 Ensure there is sufficient, effective and sustainable use of assets

4.2 Ensure community facilities are accessible to and well utilised by a diverse range of community members

Comment

The Town has reviewed the Asset Management Policy in line with its strategic objectives and against contemporary asset management practices. Relevant updates have now been applied.

The objective of the Asset Management Policy is to ensure that services delivered by the Town are provided in a sustainable manner through the requisite management of its assets/infrastructure. The policy guides the asset management principles and framework that the Town will apply to ensure:

- Asset management practices and decisions align with the outcomes of the Strategic Community Plan and other Council objectives,
- Assets are maintained and are performing at a service level desired by the community,
- Assets are appropriately planned, acquired and managed considering whole of life costs.

Statutory Requirements

Although there are no stipulated statutory requirements of Local Governments in Asset Management it is important for all Local Governments to ensure that they have knowledge and understanding about the long-term cumulative consequences of being the custodian of public infrastructure that underpins our services to our community and makes the appropriate long-term planning and investment.

Financial Considerations

There are no costs associated with updating the policy. Allocation of funds is made via the annual budget process to address costs associated with asset management activities.

Risk Management Implications

Financial Risk
High

Although there are no specific financial risks associated with the updating of this Policy all Local Governments are required to ensure that sufficient investment is allowed within each budget year to ensure adequate resources are allocated for the maintenance of assets to provide services for our community for the present and into the future in a fit for purpose manner.

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.6

That Council approves the updated Asset Management Policy as attached to this report.

Voting requirements: Simple Majority

Asset Management

Policy Objective

The objective of the Asset Management Policy is to ensure that physical assets owned by Town are managed in a financially sustainable and appropriate manner. The policy guides the Asset Management principles and framework that the Town applies to ensure:

- Asset management practices and decisions align with the priorities of the Strategic Community Plan;
- Assets are performing at service levels desired by our Community; and
- Assets are sustainably planned, acquired and managed.

Policy Scope

This policy applies to the management of all physical assets owned by the Town. These are grouped into Asset Management Plans according to their service classification and includes all assets that have a useful life greater than one year and a replacement cost of \$5,000 or greater.

Policy Statement

Taking effective responsibility for asset management requires a strong and informed Council, management team and an engaged community.

Key Roles and Responsibilities

1. Council through its decision-making role in adopting the Strategic Community Plan, Corporate Business Plan, Long Term Financial Plan and Annual Budget, provide the strategic guidance and funding to guide the planning, acquisition, operation and maintenance, renewal and disposal of assets.
2. The Town's Corporate Management Committee (CMC) is responsible for providing oversight of the application of the Asset Management Policy and oversight of the Asset Management Strategy and Plans.
3. The Town's Administration has a corporate responsibility to provide accurate technical and professional advice to ensure Council is in a position to make informed decisions on behalf of the community. It is imperative that the Administration applies appropriate management practices that focus on value for money and support Council to find a balance between service levels, risk and cost in their decision making capacity.

Asset Management Framework

4. The Town is committed to making informed decisions in relation to its assets. To achieve this, the Town will maintain an Asset Management Framework that comprises the key elements:
 - Asset Management Policy
 - Asset Management Strategy
 - Asset Management Plans
5. The Asset Management Strategy will detail:
 - a. How assets will be managed to meet the service delivery needs of our community and visitors;
 - b. The objectives, performance measures and outcomes of our assets; and
 - c. The current status of the Town's asset management practices and processes, and compare this to our future vision to identify suitable improvement tasks.
6. The Town will implement a lifecycle approach to the management of infrastructure assets where:
 - a. Asset planning decisions are based on an evaluation of alternatives that consider the whole of life costs of an asset through acquisition, operation, maintenance, renewal and disposal; and
 - b. Lifecycle decisions consider the current and future environmental, economic and social outcomes.
7. The Town will maintain Asset Management Plans covering all asset classes. The Plans will detail:
 - a. How they align with the Town's strategic vision;
 - b. Why the Town provides assets;
 - c. What assets the Town has and what they are financially worth;
 - d. What condition the assets are in;
 - e. How confident the Town is of its asset data;
 - f. How the assets' service outcomes are performing;
 - g. How demand for the service outcomes is changing;
 - h. How the assets are managed;
 - i. What the assets will cost in the future;
 - j. Whether the assets and their service outcomes are sustainable; and
 - k. How the Town will improve its asset management service delivery.

Lifecycle Management

8. To ensure informed decisions are made in relation to any major acquisition, renewal, and/or upgrade to an asset, all capital projects are reviewed and prioritised with oversight from CMC, and guided by the following key principles:
 - a. Renew existing assets before acquiring new assets where possible, if considered more cost effective over the life of the asset;
 - b. Rationalising assets that are no longer strategically aligned, are poorly used or do not provide the necessary service level required to sustainably deliver the intended service for which the asset was originally acquired;
 - c. Future works are aligned to the objectives of Strategic Community Plan, considered in the Long Term Financial Plan and are delivering on the priorities within the Corporate Business Plan, Place Plans and Asset Management Plans;
 - d. Capital projects will be evaluated in accordance with a whole of life cost assessment and take into account capital cost, ongoing cost of operating and maintenance, replacement/refurbishment costs and/or disposal costs. These costs shall be projected in the Long Term Financial Plan to determine any potential financial restraints now and in the future.
 - e. Consideration of risk management and legislative requirements; and
 - f. Consideration of the Disability Access and Inclusion Plan (DAIP).

Financial Sustainability

9. The Town will measure and report asset management sustainability in accordance with the Integrated Planning and Reporting Framework and Regulation 50 of the Local Government (Financial Management) Regulations 1996. The three ratios are identified as key performance indicators and provide valuable input into Council decision making:
 - a. Asset sustainability ratio (ASR): This ratio indicates whether existing assets are being renewed or replaced at the same rate that its overall stock of assets is wearing out. The Town will aim to renew its assets at appropriate times, at the same rate it is depreciating and target an ASR between 0.9 and 1.1.
 - b. Asset consumption ratio (ACR): The Town will aim to responsibly maintain, renew/replace assets in accordance with the Asset Management Plan and target an ACR between 0.5 and 0.7.
 - c. Asset renewal ratio (ARR): This ratio indicates the ability of the Town to fund its projected asset renewals in the future. The Town will aim to develop a Long Term Financial Plan that is supported by Asset Management Plans to determine this ratio and target an ARR between 0.95 and 1.05.

Policy Definitions

Asset(s) refers to a physical item of infrastructure that has a replacement cost of \$5,000 or greater and an economic life of 12 months or greater.

Asset Consumption Ratio (ACR): This ratio shows the fair value of the local government's depreciable assets relative to their "as new" value. It highlights the aged condition of physical assets. It is calculated by the fair value divided by the current replacement cost. The standard is met if a ratio is between 0.5 and 0.75.

Asset Management refers to the systems and processes applied by an organisation to manage their assets from planning, acquisition, operation, maintenance, to replacement and/or disposal with the objective of providing the required service level in the most cost-effective manner.

Asset Management Plan (AMP) refers to a long term plan (usually 10-20 years) for the sustainable management of one or more assets, that combines multi-disciplinary management techniques (including technical and financial) to provide specified service levels.

Asset Renewal Ratio (ARR): This ratio indicates whether there is sufficient future funding available for the renewal and/or replacement of assets. It is calculated by the net present value of planned capital expenditure on renewals over 10 years in the LTFP, divided by the net present value of the required capital expenditure on renewals over the same period in the AMP. The standard is met if the ratio is between 0.95 and 1.05.

Asset Sustainability Ratio (ASR): This ratio indicates whether a local government is renewing or replacing existing non-financial assets at the same rate that its overall stock of assets is wearing out. It is calculated by measuring past capital expenditure on renewal relative to the rate of depreciation of the assets for the same period. The standard is met if a ratio is between 0.9 and 1.1.

Lifecycle means the cycle of activities that an asset goes through while it retains an identity as a particular asset.

Maintenance means regular ongoing work necessary to keep assets operating and to achieve its optimum life expectancy.

New means creation of a brand new asset to meet additional service level requirements.

Operations means the regular activities to enable assets to function e.g. road sweeping, grass mowing, cleaning and graffiti removal.

Renewal means to restore, rehabilitate or replace existing assets to their original capacity – like for like. This may include the fitment of new components necessary to meet new legislative requirements in order that the asset may achieve compliance and remain in use.

Resources means the combination of plant, labour and materials, whether they be external (contractors/consultants) or internal (staff/day labour).

Service Levels refers to the outputs or objectives an organisation intends to deliver to customers. It includes the functionality, capacity, design and presentation of an asset. Generally, the higher the service level, the greater the cost to deliver the service. The aim of asset management is to balance service levels with community expectations, delivery cost and risk management.

Upgrade means enhancing an existing asset to increase its functionality and/or capacity to provide a higher service level.

Whole of Life Costs refers to all the total costs of an asset throughout its life including planning, design, construction, acquisition, operation, maintenance, renewal and disposal.

Attachments	Existing Council Policy 5.17 – Sports Lighting

Purpose

The purpose of this report is for Council to consider revoking Council Policy 5.17 – Sports Lighting (CP 5.17).

Background

CP 5.17 was adopted in 2005 and was last reviewed in 2014. The stated objective of the Policy is to “*define Council’s position on Sports Ground Lighting and of the Town’s, Club’s and other Agencies roles and responsibilities for provision, operation, maintenance and replacement.*”

Communication and Engagement

Nil.

Strategic Implications

Priority Area 6: Providing Visionary Leadership and Making Great Decisions
6.3 Ensure operational activities reflect the strategic focus of Council

Comment

CP 5.17 was last reviewed in 2014 and requires subsequent review. In undertaking the review, it is considered that the policy provides little decision-making guidance. Whilst it does set out that “*the provision of sports lighting shall be permitted on the Town’s Ovals, Reserves and Outdoor Sporting Facilities*”, that position reflects a contemporary community expectation and is not one that requires formalisation via a policy setting.

Further, given the Town accommodates only three active sporting reserves (Bassendean Oval, Jubilee Reserve and Ashfield Reserve), a broad policy setting is unnecessary.

Statutory Requirements

Section 2.7(2)(b) of the Local Government Act 1995 provides Council with the power to determine policies.

Financial Considerations

Nil.

Risk Management Implications

Low

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.7

That Council revokes Council Policy 5.17 – Sports Lighting.

Voting requirements: Absolute Majority

5.17 Sports Lighting Policy

Objectives

The objectives of this policy is to define Councils position on Sports Ground Lighting and of the Town's, Club's and other Agencies roles and responsibilities for provision, operation, maintenance and replacement.

Strategies

The provision of sports lighting shall be permitted on the Town's Ovals, Reserves and Outdoor Sporting Facilities, subject to Council approval and compliance with relevant Australian standards (or similar) up to designated "training standard" and other Council policies

FUNDING

Council Contribution – Council may at its discretion decide to contribute partially or fully towards the cost of installing or upgrading sports lighting on the Town's Ovals, Reserves and Outdoor Sporting Facilities. The amount of Council contribution will depend on resources available, priority, shared usage and appropriateness.

Sporting Club/Community Group Contribution – Clubs and community groups who are likely to benefit from a proposed sports lighting project, will be expected to contribute towards the project costs (cash or in-kind). Clubs or community groups wishing to develop sports lighting to meet Australian Standards to a "competition" level, will be required to meet the full costs over and above the provision of sports lighting to the "training level".

Other Contribution – External funding should be sought from the State Government (e.g. Dept of Sport & Recreation's CSRFF Program) or other funding providers to contribute towards the project costs.

Application

Responsibility for the implementation of this policy rests with the Mayor, Councillors and Chief Executive Officer. The Policy is to be reviewed every three years.

Policy Type: Council Policy	Policy Owner: Director Community Development

8.8 Adoption of Quarterly Report Period ending 31 March 2022	
Property Address	N/A
Landowner/Applicant	N/A
File Reference	GOVN/CCLMEET/1
Author	Chief Executive Officer
Department	Office of the CEO
Previous Reports	N/A
Authority/Discretion	Executive The substantial direction setting and oversight role of the Council.
Attachments	<ol style="list-style-type: none"> 1. Quarterly Report period ended 31 March 2022 [8.8.1 - 25 pages] 2. Outstanding Council Resolutions recommended for deletion [8.8.2 - 8 pages]

Purpose

The purpose of this report is for Council to receive the Quarterly Report for the period ending 31 March 2022..

Background

Council's Quarterly Report format addresses progress against the CEO's Key Performance Indicators, as well as providing a progress report on budget deliverables in the 2020-2024 Corporate Business Plan, where those deliverables commence in the current financial year.

The Quarterly Report also contains the list of Outstanding Council Resolutions.

Proposal

That Council resolves to adopt the Quarterly Report for the period ending 31 March 2022.

Communication and Engagement

The draft Quarterly Report was provided to Councillors under cover of the CEO Bulletin dated 6 May 2022.

Strategic Implications

Priority Area 6: Providing Visionary Leadership and Making Great Decisions

6.2 Ensure major decision making is informed by community feedback

6.3 Ensure operational activities reflect the strategic focus of Council

6.4 Reinforce a culture of collaboration, trust and demarcation between Council, administration and the community

Comment

The Quarterly Report P/E 31 March 2022 is the third report for the financial year 2021/2022. The report reflects a composite of the activities that have occurred in the third quarter of the 2021/2022 financial year and provides a progress report on budget deliverables in the Corporate Business Plan. The report provides updates on the strategic priority projects and the deliverables of each priority area as contained in the SCP.

The Quarterly Report also contains a list of Outstanding Council Resolutions recommended for deletion. Administration has reconciled the list so that closed out resolutions may now be deleted. Updates on the progress of outstanding resolutions have been made and will be provided in the CEO Bulletin.

Statutory Requirements

Local Government Act 1995.

Financial Considerations

Nil.

Risk Management Implications

Financial Risk

Low

A comprehensive and strategically aligned Quarterly Report will ensure transparency of decision-making and timeliness of service deliverables.

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.8

That Council:

1. Receives the Quarterly Report for the quarter ending 31 March 2022; and
2. Deletes the Outstanding Council Resolutions attached to the Quarterly Report for the period ending 31 March 2022, that are marked for deletion.

Voting requirements: Simple Majority

OUTSTANDING COUNCIL RESOLUTIONS ENDING APRIL 2022

REC_NO.	OFFICER	DESCRIPTION	ACTION_TAKEN
ROC22/93622	BRICE CAMPBELL	OCM-15/3/22 - AUSTRALIAN LOCAL GOVERNMENT ASSOCIATION NATION GENERAL ASSEMBLY MOTION MOVED CR MCLENNAN SECONDED CR MACWILLIAM THAT COUNCIL ENDORSES THE MOTION TO BE SUBMITTED FOR AUSTRALIAN LOCAL GOVERNMENT ASSOCIATION'S 2022 NATIONAL GENERAL ASSEMBLY - THAT THE PACKAGING CO-REGULATORY PRODUCT STEWARDSHIP SCHEME (THE AUSTRALIAN PACKAGING COVENANT) IS CHANGED TO A MANDATORY PRODUCT STEWARDSHIP SCHEME CONSTITUTED UNDER THE RECYCLING AND WASTE REDUCTION ACT 2020 WHICH MEETS THE WALGA'S KEY PRINCIPLES FOR EFFECTIVE PRODUCT STEWARDSHIP.	MOTION SUBMITTED TO ALGA FOR THE NGA ON 23 MARCH 2022 - RECOMMEND FOR DELETION
ROC22/93620	DONNA SHAW	OCM-13/3/22 - PROPOSED CATS AMENDMENT LOCAL LAW 2022 MOVED CR HAMILTON SECONDED CR POLIWKA THAT COUNCIL IN ACCORDANCE WITH SECTION 3.12(4) OF THE LOCAL GOVERNMENT ACT 1995 MAKES THE TOWN OF BASSENDEAN CATS AMENDMENT LOCAL LAW 2022 AS ATTACHED AND AUTHORISES THE COMMON SEAL TO BE ATTACHED.	AMENDMENT LOCAL LAW GAZETTED. RECOMMEND DELETION

ROC22/93615	LUKE GIBSON	<p>OCM-9/3/22 - DRAFT RIGHTS OF WAY MOVED CR MCLENNAN SECONDED CR POLIWKA THAT COUNCIL: 1.ADOPTS THE DRAFT AMENDED RIGHTS OF WAY STRATEGY AS CONTAINED IN ATTACHMENT A WITH THE FOLLOWING CHANGES: A)AMEND THE RECOMMENDATION FOR ROW 5 (PAGE 17) TO REPLACE "FUTURE CLOSURE" WITH "CLOSURE"; B)AMEND THE ROW ASSESSMENT FOR ROW 5 (ATTACHMENT A) TO REPLACE: "THERE IS CURRENTLY ONE PROPERTY USING ROW 5 FOR REAR CARAVAN ACCESS. THE STRATEGY RECOMMENDS THAT THE FORMAL CLOSURE OF ROW 5 BE DELAYED UNTIL THIS PROPERTY REDEVELOPS." WITH "THERE IS CURRENTLY ONE PROPERTY USING ROW 5 FOR REAR CARAVAN ACCESS. THE STRATEGY RECOMMENDS THAT ROW 5 BE CLOSED ACKNOWLEDGING THAT THE CLOSURE MAY OCCUR IN TWO STAGES DEPENDING ON THE REDEVELOPMENT OF LOT 778"; C)THE RIGHTS OF WAY DESIGNATED AS ROW1 AND ROW4 ARE TO BE RETAINED UNTIL THE TOWN HAS INVESTIGATED THE APPROPRIATE DENSITY TO BE APPLIED TO THE TRANSIT CORRIDORS THAT RUN PARALLEL TO ROW1 AND ROW4; 2.WAIVES THE ADMINISTRATIVE FEE ASSOCIATED WITH ROW CLOSURE REQUESTS WHERE CLOSURE IS RECOMMENDED WITHIN THE ADOPTED ROW STRATEGY; AND 3.REVOKES COUNCIL POLICIES 1.6 – MAINTENANCE OF RIGHTS OF WAY AND 1.20 – RIGHT-OF-WAY CLOSURE. CARRIED BY AN ABSOLUTE MAJORITY 7/0 REASON: THE TOWN HAS RECEIVED A PETITION FROM THE RESIDENTS/OWNERS OF PROPERTIES ADJOINING ROW#5 REQUESTING THAT THE ROW BE RECOMMENDED FOR CLOSURE. THERE IS NO STRATEGIC REASON FOR THIS REQUEST NOT TO BE SUPPORTED. THE RETENTION OF THE NAMED LANEWAYS (I.E. ROW 1 AND 4) IS TO PROVIDE FLEXIBILITY IN THE PLANNING TREATMENT THAT MAY BE APPLIED IN RESPECT OF THE PROPERTIES ADJACENT TO THE LANEWAYS IN THE EVENT AN INVESTIGATION INTO THE APPROPRIATE DENSITY ON AND IN THE VICINITY OF TRANSIT CORRIDORS YIELDS SIGNIFICANTLY HIGHER DENSITY. SUCH PLANNING TREATMENT COULD INCLUDE MANDATING VEHICULAR ACCESS TO BE LIMITED TO A REDEVELOPED LANEWAY TO PRESERVE THE STREETScape. PLANNING CHANGES SHOULD NOT DEFEAT LEGITIMATE EXPECTATIONS OF RESIDENTS OR UNDULY CHANGE THE TOWN PLANNING LANDSCAPE. IT BEING KNOWN THERE ARE ASPIRATIONS IN RESPECT OF THE CORNER LOT THAT CAN BE ACCOMMODATED WITHOUT INTERFERENCE WITH ANY OTHER RESIDENT OR ORDERLY PLANNING THIS SHOULD OCCUR.</p>	STRATEGY ADOPTED. RECOMMEND DELETION.
-------------	-------------	--	---------------------------------------

ROC22/91928	PAUL WHITE	OCM-26/12/21 - EDEN HILL NETWORK RENEWAL UNDERGROUND PROGRAM PILOT (NRUPP) – IMPOSITION OF SERVICE CHARGE MOVED CR MCLENNAN SECONDED CR POLIWKA THAT COUNCIL: 1.STATES ITS INTENTION TO IMPOSE A SERVICE CHARGE ON PROPERTY OWNERS TO RECOUP THE COST TO THE TOWN FOR THE NRUPP PROJECT BEING THE COST OF CONSUMER MAINS CONNECTION FROM THE PILLAR TO THE PROPERTY AND INTEREST INCURRED ON BORROWINGS TO BE LEVIED AS PART OF THE ANNUAL RATING PROCESS OVER FIVE YEARS FROM 2022/23. 2.SUBJECT TO ADOPTION AS PART OF THE 2022/23 ANNUAL BUDGET: A.THE AMOUNT OF THE SERVICE CHARGE BE SET AT \$2910 FOR A CONSUMER MAINS CONNECTION; B.THE AMOUNT OF THE SERVICE CHARGE BE SET AT \$1455 FOR 'CUT AND CAP' CONNECTION; AND C.THE AMOUNT OF THE SERVICE CHARGE APPLICABLE TO A 'PARENT' CONNECTION FOR A MULTI-UNIT DEVELOPMENT BE SHARED EQUALLY AMONG THE PROPERTY OWNERS IN THE DEVELOPMENT.	NO ACTION REQUIRED - WILL BE INCORPORATED INTO THE PROPOSED ANNUAL BUDGET FOR 2022/23. RECOMMEND DELETION.
-------------	------------	--	--

ROC22/93621	PAUL WHITE	OCM -14/3/22 - AUDIT AND GOVERNANCE COMMITTEE MEETING HELD ON 9 MARCH 2022 MOVED CR POLIWKA SECONDED CR MCLENNAN THAT COUNCIL: 1.RECEIVES THE REPORT ON THE AUDIT AND GOVERNANCE COMMITTEE MEETING HELD ON 9 MARCH 2022; 2.RECEIVES THE DRAFT REPORT TO THE MINISTER FOR LOCAL GOVERNMENT ATTACHED TO THIS REPORT AND PROVIDES THE REPORT TO THE MINISTER FOR LOCAL GOVERNMENT; 3.NOTES THAT A COPY OF THE REPORT TO THE MINISTER FOR LOCAL GOVERNMENT WILL BE MADE AVAILABLE ON THE TOWN'S WEBSITE WITHIN 14 DAYS AS PRESCRIBED; 4.CONSIDERS INCREASING ASSET RENEWAL EXPENDITURE IN RELATION TO ASSETS WHICH HAVE BEEN EARMARKED FOR LONG TERM RETENTION BY THE TOWN THROUGH ITS ASSET MANAGEMENT STRATEGY; 5.ADOPTS THE LOCAL GOVERNMENT 2021 COMPLIANCE AUDIT RETURN FOR THE TOWN OF BASSENDEAN FOR THE PERIOD 1 JANUARY 2021 TO 31 DECEMBER 2021 ATTACHED TO THIS REPORT; 6.ADOPTS THE DRAFT AMENDED PURCHASING POLICY ATTACHED TO THIS REPORT; 7.REVOKES THE CURRENT RISK MANAGEMENT POLICY ATTACHED TO THIS REPORT; 8.ADOPTS THE DRAFT RISK MANAGEMENT POLICY ATTACHED TO THIS REPORT; 9.ADOPTS THE DRAFT RISK MANAGEMENT FRAMEWORK (CONFIDENTIAL) ATTACHED TO THIS REPORT; 10.NOTES THE RISK PROFILE AND REPORTING TOOL (CONFIDENTIAL) ATTACHED TO THIS REPORT; 11.ADOPTS THE DRAFT FRAUD AND CORRUPTION POLICY ATTACHED TO THIS REPORT; 12.ENDORSES THE DRAFT FRAUD AND CORRUPTION CONTROL PLAN (CONFIDENTIAL) ATTACHED TO THIS REPORT; AND 13.RECEIVES THE AUDIT RISK REGISTER (CONFIDENTIAL) ATTACHED TO THIS REPORT AND NOTES THE ACTION TAKEN OR PROPOSED TO ADDRESS THE IDENTIFIED RISKS. Attachments	Nil

Purpose

The purpose of this report is for Council to adopt the daily fee for Wind in the Willows Bassendean Early Childhood Education and Wind in the Willows Ashfield Early Childhood Education for 2022/23.

Background

Council adopted the current daily fee for Wind in the Willows of \$123 at the Ordinary Council Meeting on 25 May 2021.

While Council will consider the Town's fees and charges for all services and facilities as part of the 2022/23 draft Annual Budget, adoption of the 2022/23 fee for Wind in the Willows in advance of the Annual Budget will allow reasonable notice to be provided to families, prior to the new fees taking effect on 1 July 2022.

The Manager Children's Services, in preparing for the 2022/23 Annual Budget, has closely examined expected revenue and expenditure of both Wind in the Willows Early Education Centres and proposed the daily fee be increased by 3 per cent to \$127.

Proposal

The Council adopt a daily fee of \$127 for Wind in the Willows Bassendean Early Childhood Education and Wind in the Willows Ashfield Early Childhood Education for 2022/23.

Communication and Engagement

The Town will write to all families using the Wind in the Willows services to advise of the increase to the daily fee for 2022/23.

Strategic Implications

Priority Area 1: Strengthening and Connecting our Community

1.3 Treating people equitably with access to programs and services, regardless of advantage or ability

Comment

The National Quality Framework (NQF) was introduced in 2012 to improve education and care across long day care, family day care, preschool/kindergarten, and outside school hours care services. The NQF provides a national approach to regulation, assessment and quality improvement for early childhood education and care and is administered by the Australian Children's Education and Care Authority.

The NQF includes:

- National Law and National Regulations
- National Quality Standard
- Assessment and quality rating process
- National learning frameworks.

The National Quality Standard (NQS) sets a high national benchmark for early childhood education and care and outside school hours care services in Australia. Services are assessed and rated against the NQS and given a rating for each of the seven quality areas and an overall rating based on these results. Both Wind in the Willows services are rated as 'exceeding' the NQS.

Under the NQF, services are required to base their educational program on an approved learning framework. This should focus on addressing the developmental needs, interests and experiences of each child, while taking into account individual differences. Wind in the Willows' services are based on 'Belonging, Being and Becoming: The Early Years Learning Framework for Australia (EYLF)'.

The EYLF forms the foundation for ensuring that children in all early childhood education and care settings experience quality teaching and learning. It has a specific emphasis on play-based learning and recognises the importance of communication and language (including early literacy and numeracy) and social and emotional development. It was designed for use by early childhood educators working in partnership with families, children's first and most influential educators.

Clearly, with the introduction of the NQS and EYLF, there has been a significant shift from 'Child Care' to 'Education and Care.' The importance of, and emphasis on, early education cannot be overstated.

Last year, the service was re-branded from Wind in the Willows Childcare to Wind in the Willows Early Childhood Education, to reflect the role and requirements of a modern service and of the quality education and care programs provided by the Town's services.

Wind in the Willows staff are Educators, who are all Certificate III or Diploma qualified (or working towards), with a qualified Teacher to oversee development and implementation of the curriculum. Our Educators practice holistically and pedagogically to both educate and care for children.

Wind in the Willows is dedicated to quality education and care programs that strive to exceed the NQS, operating with high ratios of qualified Educators who have a strong commitment to performing above the standards. Some key principles of the programs at Wind in the Willows include a connectedness to nature, respect for diversity and reconciliation, environmental responsibility and active citizenship. Wind in the Willows also has a strong commitment to families, including developing a Parenting Champion over the last four years to support the community with skills and knowledge in the best interest of children.

Wind in the Willows has a higher cost structure as a direct result of its quality educational and care programs and the increase in the daily fee is necessary so the service can keep improving the quality of its programs.

Wind in the Willows continues to experience strong demand for both services and operates at high utilisation, with a wait list for certain days of the week at both centres.

Statutory Requirements

Section 6.16 of the *Local Government Act 1995* governs the imposition of fees and charges and states:

- (1) A local government may impose* and recover a fee or charge for any goods or service it provides or proposes to provide, other than a service for which a service charge is imposed.

** Absolute majority required.*

- (2) A fee or charge may be imposed for the following —
 - (a) providing the use of, or allowing admission to, any property or facility wholly or partly owned, controlled, managed or maintained by the local government;
 - (b) supplying a service or carrying out work at the request of a person;
 - (c) subject to section 5.94, providing information from local government records;

- (d) receiving an application for approval, granting an approval, making an inspection and issuing a licence, permit, authorisation or certificate;
 - (e) supplying goods;
 - (f) such other service as may be prescribed.
- (3) Fees and charges are to be imposed when adopting the annual budget but may be —
- (a) imposed* during a financial year; and
 - (b) amended* from time to time during a financial year.

** Absolute majority required.*

Financial Considerations

The proposed fee has been set at the level required to allow the Town to continue to provide quality activities and programs. The fee is also aligned with the proposed fee cap for the purpose of the child care rebate, preserving maximum eligibility for parents. Setting the fee in advance will ensure there is no delay in implementing the fee, providing reasonable notice to families.

Risk Management Implications

Should Council decide to adopt the Wind in the Willows fees for 2022/23 as part of the Annual Budget, there is a risk that either insufficient notice will be provided to families or delayed imposition of the higher fee resulting in lost revenue. Should Council decide to adopt a lower fee than recommended, there is a risk that the service may need to curtail some of the activities and programs planned for 2022/23.

Risk Management Implications

Financial Risk - Low

Declaration of Conflicts of Interest

All officers involved in the preparation of this report have considered and determined that they do not have a conflict of interest in the matter.

Officer Recommendation – Item 8.9

That Council adopt a daily fee of \$127 for Wind in the Willows Bassendean Early Childhood Education and Wind in the Willows Ashfield Early Childhood Education for 2022/23.

Voting requirements: Absolute Majority

9 Motions of which Previous Notice has been given

Notice of Motion – Cr Hamilton: Notice Boards

That:

1. Council requests that a Notice Board be installed in the first half of the 2022/23 financial year, in a high foot traffic area at each of the following sites:

Sandy Beach Reserve; Jubilee Reserve; Mary Crescent Reserve; and Ashfield Reserve; and
2. Notice Boards are selected that are compatible with or complement the proposed installation area; and
3. Council requests that the CEO causes to have made two reusable portable Notice Boards that can be utilised in different locations as required.

Reasons:

To provide an additional means of communicating various programs, consultations, events and such matters that may be of interest or relevance to members of our community. Engagement comes in many forms and it is vital that we utilise a variety of methods to reach different areas and sections of the local population.

OFFICER COMMENT

Supported. To be funded from the Operational Budget.

Notice of Motion – Cr Hamilton: Project Updates

That Council:

1. Requests the CEO to provide Project Updates in each financial year in a simple spreadsheet format that includes columns identifying completed projects, and identifying potential carry forward dollar amounts; and
2. That these updates for all budget approved Operational and Capital projects be provided annually to Councillors per the following schedule:
 - * Project update spreadsheets up to the end of December to be provided in the first week of February or prior to the mid-year budget review (whichever comes first);
 - * Project update spreadsheets up to the end of March to be provided in the first week of May prior to the first budget workshop for May; and
 - * Project update spreadsheets up to the end of May to be provided in early June prior to Annual Performance Review.

Reasons:

Provision of a simple spreadsheet format that updates Councillors three times a year on the progress of all budgeted Capital and Operational Projects supports better decision making during the Mid-year budget review, during consideration of the annual budget, and during the Annual Performance Review.

OFFICER COMMENT

The Notice of Motion is largely supported, but considered unnecessary. The requested report for capital projects was provided to Councillors via the CEO Bulletin on 6 May 2022. Operational projects are not carried forward but are re-budgeted where necessary. These have been presented to Councillors on numerous occasions as part of the current budget process. The reports can be provided prior to the mid-year budget review as requested. It is noted that comprehensive project reports were provided to Councillors in early 2022 for all priority projects, in addition to quarterly reporting against the Corporate Business Plan and regular updates on significant projects via CEO Bulletins.

The request for updated project spreadsheets to be provided to Councillors up to the end of May, is not supported. This is not considered to provide additional relevant information for Councillors and will require preparation of manual reports by the administration at the same time as the administration is preparing a range of other budget-related reports to inform the budget process. The administration is not resourced to prepare multiple sets of reports of this nature concurrently.

10 Confidential Business

10.1 Baywaste Tip Passes

Reason for this Item to be discussed behind closed doors:

This matter is to be considered with members of the public excluded from the Chamber under Clause 5.23 (c) of the Local Government Act as the officer report discusses a contract entered into, or which may be entered into, by the local government and which relates to a matter to be discussed at the meeting.

10.2 11 (Lot 67) Hamilton Street, Bassendean

Reason for this Item to be discussed behind closed doors:

This matter is to be considered with members of the public excluded from the Chamber under Clause 5.23 (c) of the Local Government Act as the officer report discusses a contract entered into, or which may be entered into, by the local government and which relates to a matter to be discussed at the meeting.

11 Closure

The next Briefing Session will be held on Tuesday 21 June 2022, commencing at 6pm.
